## Recollections of a Pioneer

## An Autobiographical Account of The Civil War Era

**e-artnow "Recollections of a Pioneer" is an autobiographical account by J. Watt Gibson, which primarily focuses on the author's participation in the American Civil War. The book was written at the solicitation of many Gibson's friends and acquaintances who urged that his recollections of that period ought to be preserved. It covers the author's first journey to California in the late 1840s, gold mining, crossing the plains with cattle and his experiences during and after the Civil War, and ends with his return to Missouri and getting married in 1868.**

### A Future in the Process of Arrival

## Using Computer Technologies for the Assessment of Student Learning

SAEE

### Integrating Assessment into Early Language Learning and Teaching

**Multilingual Matters** The volume unites research and practice on integrating language learning, teaching and assessment at preschool and early school age. It includes chapters written by experts in the field who have studied some of the very youngest (pre-primary) children through to those up to the age of 12, in a variety of private and state contexts across Europe. The collection makes a much-needed contribution to the subject of appropriate assessment for children with the focus of many chapters being classroom-based assessment, particularly formative assessment, or the case for developing assessment skills in relation to even the youngest children. As a whole, the book provides useful case study insights for policymakers, teacher educators, researchers and postgraduate students with interest in or responsibility for how children are assessed in their language learning. It also provides practical ideas for practitioners who wish to implement greater integration of assessment and learning in their own contexts.

### Social Inequality in Canada

### Patterns, Problems, and Policies

**Social Inequality in Canada** is a collection of twenty-eight articles that cover all of the major aspects of social inequality. The text covers two broad components: objective or structural conditions of social inequality (power, poverty and wealth, occupations, and educational attainment, in particular) and ideologies that help support these differences. Readers who would prefer a more egalitarian society than currently exists in Canada will find reasons for both optimism and pessimism in the research presented here. The studies in this collection demonstrate that some types of inequality are generally becoming more marked over time, while others have considerably diminished, and still more that show little change in recent decades.

### OLYMPIAD EHF CYBER ACTIVITY BOOK CLASS 11&12

EHF Learning Media Pvt Ltd Activity Book for International Cyber Olympiad (ICO) & other National/International Olympiads/Talent Search Exams based on CBSE, ICSE, GCSE, State Board syllabus &NCF (NCERT).

## Symbiosis: The Curriculum and the Classroom

John Catt Educational Has our system of accountability and quick fixes meant we've lost perspective of what can really improve the quality of education? With a multitude of issues at the heart of some of our more toxic schools, including micro-management, over-complicated policy and the intricate measurement of the wrong foci, it appears that teachers are experiencing a disconnect from the very reason they joined teaching in the first place. With little autonomy over what's important, fewer teachers enter the profession than the monumental amount of teachers that are leaving, and those that do, do so with reluctance and regret. With an astute examination of practice in schools, Claire Hill and Kat Howard take a thoughtful and strategic view of how to ensure a sense of connection and cohesion within schools, to ensure that all feel part of the collective curricular journey towards a gold standard. With a consideration of research-informed practice, this book will provide a series of strategies for curriculum designers at every level, keeping the high quality teachers that we very much need in schools, and providing a better palette to students in the process. At a time where teaching is somewhat politicised, monetised and overcomplicated, Symbiosis: Curriculum and the Classroom sets about the task of refining the way in which we run our schools to improve the quality of our everyday lives in schools.

## The Education Invasion

## How Common Core Fights Parents for Control of American Kids

**Encounter Books** Most Americans had no idea what Common Core was in 2013, according to polls. But it had been creeping into schools nationwide over the previous three years, and children were feeling its effects. They cried over math homework so mystifying their parents could not help them, even in elementary school. They read motley assortments of “informational text” instead of classic literature. They dreaded the high-stakes tests, in unfamiliar formats, that were increasingly controlling their classrooms. How did this latest and most sweeping “reform” of American education come in mostly under the radar? Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers, and it led to a big tangle of history and politics, intrigue and arrogance. She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K-12 classes, and how the Obama administration pressured states to adopt them. Thus a federalized education scheme took root, despite legal prohibitions against federal involvement in curriculum. Common Core and its testing regime were touted as “an absolute game-changer in public education,” yet the evidence so far suggests that kids are actually learning less under it. Why, then, was such a costly and disruptive agenda imposed on the nation’s schools? Who benefits? And how can citizens regain local self-governance in education, so their children’s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats? *The Education Invasion* offers answers and remedies.
