Teacher Involvement in High-Stakes Language Testing *Springer* This book advocates that teachers should play an active role in high-stakes language testing and that more weight should be given to teacher judgement. This is likely to increase the formative potential of high-stakes tests and provide teachers with a sense of ownership. The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices. The book also considers the arguments against teacher involvement, e.g. the contention that teacher involvement might entrench the practice of teaching to the test, or that teachers should not be actively involved in high-stakes language testing because their judgement is insufficiently reliable. Using contributions from a wide range of international educational contexts, the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high-stakes language testing. It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy. Moreover, teacher involvement empowers them to play a role in reforming high-stakes language testing so that it is more equitable and more likely to enhance classroom practices. High-stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers, which ultimately benefits all their students. **Fostering Skills in Cameroon Inclusive Workforce Development, Competitiveness, and Growth** *World Bank Publications* Cameroon has strong goals for its growth and development. By 2035, it aims to be an emerging economy. The country's medium-term goals are focused on alleviating poverty, consolidating democracy,

and achieving national unity—while respecting diversity. This report contributes substantively to the Government’s vision on Strategy for Growth and Employment, putting human development and employment at center stage. Cameroon faces three main challenges: • Developing more robust formal and informal employment opportunities by strengthening human development. • Increasing productivity in agriculture, mining, and key value chains (timber, tourism, and information and communication technology). • Advancing growth by investing in infrastructure and improving the business climate and regional integration. The Strategy sets a target for reducing underemployment from 76 percent of the workforce to 50 by 2020 by creating tens of thousands of formal jobs. But based on results from the first two years of its implementation, the strategy is far from achieving that target. This report is meant to support Cameroon’s efforts to build the skills of its workers. This report reaches conclusions and offers policy recommendations to answer six questions: • What has been the trajectory of Cameroon’s economic growth? Which sectors have contributed to growth? • What jobs are being created? • What types of skills are being used in the sectors where the highest percentages of the population are employed? • What are the demand and supply barriers to skills? • Which policies and institutions are in play? Are they sufficient? • What needs to or could be reformed? Cameroon has good prospects for moving to middle-income status. It can create a more dynamic, responsive workforce. But a new strategy is required. It can be done. This report proposes new directions and provides recommendations. Outcomes are expected. Work has never been easy. But many have been working—and Cameroon can work.

The English of Francophone Speakers in Cameroon *GRIN Verlag Scientific Study* from the year 2019 in the subject Didactics - English - Pedagogy, Literature Studies, University of Yaoundé 1 (Faculty of Arts), language: English, abstract: This work, which describes the English of these francophone users, comprises an introduction, seven chapters grouped into two parts, and a conclusion. The introduction overviews the historical background of the country and its geographic and linguistic situations. Part One deals with the didactics of English in Cameroon; it comprises three chapters which take up in turn the languages in the education system of the country, the teaching of English in primary and secondary schools as well as tertiary level institutions. Part Two, which tackles the description of the English speech of francophone users, first outlines the research design. Then it takes up the sound system of francophone English, focusing on the realisations of consonants and vowels, and stress placement. Next it examines the vocabulary of this variety of English and finds that it is characterised by an excessive use of direct loan, calque, and false friends. This is followed by a description of the morpho-syntactic features of the variety. The frequent features identified can be grouped under 12 major categories of items, i.e., verb tenses, articles, the plural form in noun phrases, pronouns, word order, subject-verb agreement, adverbs, prepositions, question formation, negation, verbs in embedded clauses, and serial verbs. Lastly, drawing from

the findings outlined in these linguistic analyses, the researcher makes an appraisal of Cameroon's French-English official bilingualism policy. The various measures taken over the years by Government to promote official bilingualism are evaluated first. Then the consequences of the failure of this policy are considered. Finally a way forward is proposed: there is a need to adopt a new syllabus purposely designed to enhance bilingual competence among francophones in the country. Francophone English as Kouega notes, is a dialect of English that is developing in a number of Expanding Circles countries where French has hitherto been the sole or primary medium of instruction. In Cameroon, francophone children learn English as a subject from primary school alongside other subjects like geography, which are taught in French. English is taught as a subject from the primary to the tertiary level of education. It is taught in all schools as part of the implementation of the country's French-English official bilingualism policy that was adopted in 1961 when French Cameroon and English Cameroon united to form a federal state.

Annuities and Sinking Funds Simple and Compound Interest Tables, Together with Notes Innovative Strategies in Higher Education for Accelerated Human Resource Development in South Asia Nepal *Asian Development Bank* This publication is part of a series of six country reports on technical and vocational education and training (TVET) and higher education in Bangladesh, Nepal, and Sri Lanka. Each report presents current arrangements and initiatives in the respective country's skills development strategies. These are complemented by critical analyses to determine key issues, challenges, and opportunities for innovative strategies toward global competitiveness, increased productivity, and inclusive growth. The emphasis is to make skills training more relevant, efficient, and responsive to emerging domestic and international labor markets. The reports were finalized in 2013 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of Regional Technical Assistance 6337 (Development Partnership Program for South Asia).

The GMO Deception What You Need to Know about the Food, Corporations, and Government Agencies Putting Our Families and Our Environment at Risk *Simon and Schuster* Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically

modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it. *Free-Space Laser Communications Principles and Advances Springer Science & Business Media* This is a comprehensive tutorial on the emerging technology of free-space laser communications (FSLC). The book offers an all-inclusive source of information on the basics of FSLC, and a review of state-of-the-art technologies. Coverage includes atmospheric effects for laser propagation and FSLC systems performance and design. *Free-Space Laser Communications* is a valuable resource for engineers, scientists and students interested in laser communication systems designed for the atmospheric optical channel. *Literacy and Orality Cambridge University Press* A detailed examination of the relationship between orality and literacy includes the traditions upon which they are based and the functions which they serve as well as the psychological and linguistic processes that influence them. *Canadian Guide to Uniform Legal Citation Language Use in Rural Development An African Perspective Walter de Gruyter* **CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE** brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language. *Assessing Student Learning in Africa World Bank Publications* This title reviews four aspects of educational assessment: public examinations, national assessment, international assessment, and classroom assessment, and offers suggestions for using different forms of assessment to enhance student learning. *Ming Tea Murder Berkley* "Includes recipes and tea time tips"--Page 4 of cover. *MathLinks 7 Computerized Assessment Bank CD-ROM* *Janey the Vet Saving Sri Lanka's Street Dogs Michael O'Mara Books* 'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some

she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

National Goals for Education Beyond the World Bank Agenda An Institutional Approach to Development *University of Chicago Press* Despite massive investment of money and research aimed at ameliorating third-world poverty, the development strategies of the international financial institutions over the past few decades have been a profound failure. Under the tutelage of the World Bank, developing countries have experienced lower growth and rising inequality compared to previous periods. In *Beyond the World Bank Agenda*, Howard Stein argues that the controversial institution is plagued by a myopic, neoclassical mindset that wrongly focuses on individual rationality and downplays the social and political contexts that can either facilitate or impede development. Drawing on the examples of Africa, Asia, Latin America, and transitional European economies, this revolutionary volume proposes an alternative vision of institutional development with chapter-length applications to finance, state formation, and health care to provide a holistic, contextualized solution to the problems of developing nations. *Beyond the World Bank Agenda* will be essential reading for anyone concerned with forging a new strategy for sustainable development.

Entrepreneurship and Economic Development *Springer* Leading international scholars provide a timely reconsideration of how and why entrepreneurship matters for economic development, particularly in emerging and developing economies. The book critically dissects the evolving relationship between entrepreneurs and the state.

Honeyball and Bowers' Textbook on Employment Law *Oxford University Press* Succinct in its treatment of the fundamentals, and interwoven with contextual explanation and analytical consideration of the key debates, *Honeyball and Bowers' Textbook on Employment Law* continues to provide readers with an accessible account of the subject. Including chapter introductions and new end-of-chapter summaries, students of employment law are guided through the intricacies, while further reading suggestions assist with independent research and essay preparation. The critical elements of individual and collective employment law are considered along with treatment of the relationship between UK and EU law, to give readers a wider view of the issues.

Introduction to Radar Using Python and MATLAB *Artech House* This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a

tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

AmGov Long Story Short *CQ Press* All the fundamentals. No fluff. Learn more with less! A truly revolutionary American Government textbook, Christine Barbour's **AmGov: Long Story Short**, responds to the needs of today's students and instructors through brevity and accessibility. The succinct ten chapters are separated by tabs that make it easy to skim, flip, revisit, reorient, and return to content quickly. Reading aids like bullets, annotations and arrows walk students through important facts and break up the material in short, engaging bites of information that highlight not only what is important but why it's important. Though brief, this core book is still robust enough to provide everything that students need to be successful in their American Government course. Whether for the on-the-go student who doesn't have time to read and digest a lengthy chapter, or the instructor who wants a book that will stay out of their way and leave room for plenty of supplementary reading and activities, **AmGov** provides a perfectly simplified foundation for a successful American Government course.

Weird But True!, Level 1 *National Geographic Books* Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather.

Aspects of Cameroon English Phonology *Peter Lang GmbH, Internationaler Verlag Der Wissenschaften* Cameroon English (CamE) phonology has already developed into a quasi-autonomous system. Thousands of segmental and stress deviations from native English reach, or approximate to a frequency of 100%. Analysed from a generative perspective, the deviations are shown to derive from the fact that certain Received Pronunciation (RP) rules do not apply in CamE while others apply differently, partially or more generally, and still many others are typically Cameroonian. One of the major proposals of the book is the concept of Trilateral Process which consists of RP phonological processes symbolized by a side AA', the restructuring of the RP underlying representation (UR) into a CamE UR by AB and CamE phonological rules by BB'. The concept is applicable to other non-native Englishes.

Architectural Woodwork Standards

Ingram Published by the Architectural Woodwork Institute, the Woodwork Institute and the Architectural Woodwork Manufacturers Association of Canada, The Architectural Woodwork Standards is the architectural woodwork industry's comprehensive standard for quality, construction methods, finishing and installation of fine architectural woodwork. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA ASAP World History: A Quick-Review Study Guide for the AP Exam *Princeton Review* "A quick-review study guide for the AP exam"--Cover. *Human Resource Management John Wiley & Sons* Human Resource Management addresses the challenges faced by human resource managers, integrating traditional theory with real-world strategy to equip students with the knowledge, perspective, and skills they need to thrive in the ever-changing global business environment. Presented in a clear and relatable style, this text emphasizes how effective human resource management and strategic planning work in concert to allow organizations to achieve maximum success. The focus on practical application illustrates the essential link between strategic planning and implementation, providing an inside look at how real-world companies increase effectiveness through world-class human resources management practices. A wealth of case studies, discussion topics, and exercises reinforce key concepts, strengthening students' ability to think strategically and integrate core HR management principles into the decision-making process. By mirroring the current landscape's increased reliance on smart people-management strategy, this text underscores the importance of HR management in attracting and retaining the top talent that drives an organization forward. *Living in Turbulence Merlin Books Limited* *The Subtle Ruse The Book of Arabic Wisdom and Guile Eastwest Books (Madras)* *Credit Analysis and Lending Management*

Wiley Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features: * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) * Problem loan management is discussed as a growing professional issue (see chapter 16). * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities. * 'Industry insight' boxes profile current professional issues and identify industry developments. * 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry.
