Disease Control Priorities, Third Edition (Volume 2)

Reproductive, Maternal, Newborn, and Child Health

World Bank Publications The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

Disease Control Priorities, Third Edition (Volume 1)

Essential Surgery

World Bank Publications Essential Surgery is part of a nine volume series for Disease Control Priorities which focuses on health interventions intended to reduce morbidity and mortality. The Essential Surgery volume focuses on four key aspects including global financial responsibility, emergency procedures, essential services organization and cost analysis.

Disease Control Priorities, Third Edition (Volume 9)

Improving Health and Reducing Poverty

World Bank Publications As the culminating volume in the DCP3 series, volume 9 will provide an overview of DCP3 findings and methods, a summary of messages and substantive lessons to be taken from DCP3, and a further discussion of cross-cutting and synthesizing topics across the first eight volumes. The introductory chapters (1-3) in this volume take as their starting point the elements of the Essential Packages presented in the overview chapters of each volume. First, the chapter on intersectoral policy priorities for health includes fiscal and intersectoral policies and assembles a subset of the population policies and applies strict criteria for a low-income setting in order to propose a "highest-priority" essential package. Second, the chapter on packages of care and delivery platforms for universal health coverage (UHC) includes health sector interventions, primarily clinical and public health services, and uses the same approach to propose a highest priority package of interventions and policies that meet similar criteria, provides cost estimates, and describes a pathway to UHC.

Management Accounting Guide PDF Full View

Wastes: Solutions, Treatments and Opportunities III

Selected Papers from the 5th International Conference Wastes 2019, September 4-6, 2019, Lisbon, Portugal

CRC Press *Wastes: Solutions, Treatments and Opportunities III* contains selected papers presented at the 5th edition of the International Conference Wastes: Solutions, Treatments and Opportunities, that took place on 3-6 September 2019, in Costa da Caparica, Portugal. The Wastes conference, which takes place biennially, is a prime forum for sharing innovation, technological development and sustainable solutions for the waste management and recycling sectors around the world, counting with the participation of experts from academia and industry. The papers included in this book cover a wide range of topics, including: Wastes as construction materials; Wastes as fuels; Waste treatment technologies; MSW management; Recycling of wastes and materials recovery; Environmental, economic and social aspects in waste management; Life cycle assessment; Circular economy and wastes refineries; Logistics, policies, regulatory constraints and markets in waste management.

Transfer Pricing Developments Around the World 2020

Kluwer Law International B.V. Intensive work on transfer pricing, one of the most relevant and challenging topics in the international tax environment, continues to increase worldwide at every level of government and international policy with far-reaching impact on countries' legislations, administrative guidelines and jurisprudence. This book presents an in-depth, issue-by-issue analysis of the current state of developments along with suggestions for future solutions to the problems raised. Emerging from the research conducted by the WU Transfer Pricing Center at the Institute for Austrian and International Tax Law at WU (Vienna University of Economics and Business), this book offers eight topic-based chapters prepared by international experts on transfer pricing. Greatly helping to define recent transfer pricing issues around the world, this book encompasses the following topics: Global Transfer Pricing Developments; Transfer Pricing Developments in the European Union; Transfer Pricing Developments in the United States; Transfer Pricing Developments in Developing Countries and Emerging Economies; Recent Developments on the Tax Challenges Arising from the Digitalization of the Economy (New Nexus Rules); Recent Developments on the Tax Challenges Arising from the Digitalization of the Economy (New Profit Allocation Rules); Recent Developments on Transfer Pricing and Intra-Group Financing; and Recent Developments on the Use of New Technologies for Transfer Pricing Analyses. The intense work of international organizations, such as the Organisation for Economic Co-operation and Development, United Nations and other international organizations, as well as the intense work of the European Union is thoroughly analyzed in this book. The detailed analysis will be of immeasurable value to the various players including international organizations, the business community and advisory firms, corporate CEOs and CFOs, and government officials as well as to tax lawyers, in-house counsel and academics in facilitating efficient dialogue and a coordinated approach to transfer pricing in the future.

Key Elements of Social Theory Revolutionized by Marx

BRILL Marx's oeuvre is vast yet with key elements to an evolving social theory, even including state conspiracies. Deep confrontation with Ricardian economics is an expression, including with accumulation of capital. Luxemburg was the most significant contributor to Marxism, post-Marx.
