## Massive Oil Spill in the Gulf of Mexico

Hearing Before the Committee on Energy and Natural Resources, United States Senate, One Hundred Eleventh Congress, Second Session

## Piping and Pipeline Calculations Manual

## Construction, Design Fabrication and Examination

**Butterworth-Heinemann** This book is a "no nonsense" guide to the principle intentions of the codes or standards and provides advice on compliance. After using this book the reader should come away with a clear understanding of how piping systems fail and what the code requires the designer, manufacturer, fabricator,

supplier, erector, examiner, inspector, and owner to do to prevent such failures. The focus of the book is to enhance participants' understanding and application of the spirit of the code or standard and form a plan for compliance. The book is enhanced by a multitude of calculations to assist in problem solving, directly applying the rules and equations for specific design and operating conditions to illustrate correct applications. Each calculation is based on a specific code. Written by a professional/educator with over 35 years of experience Covers all major codes and standards Demonstrates how the code and standard has been correctly and incorrectly applied
