No New Land

Emblem Editions **Nuridin Lalani** and his family, Asian immigrants from Africa, have come to the Toronto suburb of Don Mills only to find that the old world and its values pursue them. A genial orderly at a downtown hospital, he has been accused of sexually assaulting a girl. Although he is innocent, traditional propriety prompts him to question the purity of his own thoughts. Ultimately, his friendship with the enlightened Sushila offers him an alluring freedom from a past that haunts him, a marriage that has become routine, and from the trials of coping with teenage children. Introducing us to a cast of vividly drawn characters within this immigrant community, Vassanji is a keen observer of lives caught between one world and another.

Regional Studies on Economic Growth, Financial Economics and Management

Proceedings of the 19th Eurasia Business and Economics Society Conference

Springer This volume presents selected papers from the 19th Eurasia Business and Economics Society (EBES) Conference held in Istanbul. Its primary emphasis is on showcasing the latest empirical research on social change, sustainable development and the management of public and private organizations in emerging economies. The respective articles also address more specialized and related topics such as financial risk tolerance, international strategic partnerships, female labor force participation, human capital dynamics, and economic integration, among others.

Educational Research and Practice

Any Known Blood

HarperCollins Publishers **Langston Cane** V is thirty-eight, divorced and working as a government speechwriter, until he's fired for sabotaging the minister's speech. It seems the perfect time for Langston, the son of a white mother and prominent black father, to embark on a quest for his family's past--and his own sense of self. Any Known Blood follows five generations of an African-Canadian-American family in a compelling story that slips effortlessly from the slave trade of 19th-century Virginia to the modern, predominantly white suburbs of Oakville, Ontario--once a final stop on the Underground Railroad. By turns elegant and sensuous, wry and witty, Any Known Blood is an engrossing tale about one man's attempt to find himself through unearthing and giving voice to those who came before him.

Emerging Areas in Bioengineering

John Wiley & Sons With more than 40 contributions from expert authors, this is an extensive overview of all important research topics in the field of bioengineering, including metabolic engineering, biotransformations and biomedical applications. Alongside several chapters dealing with biotransformations and biocatalysis, a whole section is devoted to biofuels and the utilization of biomass. Current perspectives on synthetic biology and metabolic engineering approaches are presented, involving such example organisms as *Escherichia coli* and *Corynebacterium glutamicum*, while a further section covers topics in biomedical engineering including drug delivery systems and biopharmaceuticals. The book concludes with chapters on computer-aided bioprocess engineering and systems biology. This is a part of the Advanced Biotechnology book series, covering all pertinent aspects of the field with each volume prepared by eminent scientists who are experts on the topic in question. Invaluable reading for biotechnologists and bioengineers, as well as those working in the chemical and pharmaceutical industries. Advanced Biotechnology Biotechnology is a broad, interdisciplinary field of science, combining biological sciences and relevant engineering disciplines, that is becoming increasingly important as it benefits the environment and society as a whole. Recent years have seen substantial advances in all areas of biotechnology, resulting in the emergence of brand new fields. To reflect this progress, Sang-Yup Lee (KAIST, South Korea), Jens Nielsen (Chalmers University, Sweden), and Gregory Stephanopoulos (MIT, USA) have joined forces as the editors of a new Wiley-VCH book series. Advanced Biotechnology will cover all pertinent aspects of the field and each volume will be prepared by eminent scientists who are experts on the topic in question.

Professional English in Use: Law

Suitable for upper-intermediate to advanced students, Professional English in Use Law contains 45 units covering a wide variety of legal terms and vocabulary and has been developed using authentic legal texts and documents. Topics include corporate and commercial law, liability, real property law, employment law, and more.

Nanotechnology for Bioenergy and Biofuel Production

Springer A unique feature of this book is its focus on nanotechnological solutions for the production of bioenergy and biofuels. Coverage includes topics such as nanobiotechnology, microalgae, biofuel cells, biomass pretreatment, and biomass conversion. An international team of experts also addresses the need to precisely characterize nanoparticles and the role of catalysts. The range of topics addressed, together with a chapter on risk management, make this book a highly useful resource for a broad readership including physicists, chemists, microbiologists, biotechnologists, food technologists, agricultural engineers, and nanotechnologists.

Economics: The Basics

McGraw-Hill/Irwin Mandel 1e is one of the first books on the market to be constructed "from the ground up" specifically for the 1-term survey course. Unlike most books in this market that are simply watered-down versions of existing Principles texts, Mandel 1e is written especially for the survey course, and designed for students who will not go on to take other econ courses. Mike Mandel, Chief Economist for BusinessWeek magazine, has written Economics: The Basics, 1e in a journalistic style, drawing upon BusinessWeek articles and experience throughout the text to deliver the basics of economics and develop a students' economic literacy. Mandel's current examples, journalistic writing style and accessible math will help instructors overcome the common challenges of this course, and make the material more approachable and attractive to students.

Quest

Reading and Writing Student

McGraw-Hill Quest Edn 2: Reading and Writing Student Book 3 Quest Second Edition prepares students for academic success. Quest is designed to meet the academic requirements of the new internet-based TOEFL® iBT. Quest provides better on-ramp materials to the TOEFL® iBT than any other series. Quest Second Edition parallels and accelerates the process native-speaking students go through when they prepare for success in a variety of academic subjects. Quest helps students get "up to speed" in terms of both academic content and language skills. Quest Second Edition features two complementary strands. The Reading and Writing strand books combine high-interest material from newspapers and magazines with readings from academic textbooks. The Listening and Speaking strand contains listening strategies and practice activities based on authentic audio and video recordings from "person on the street" interviews, radio programs, and college lectures. Each student book unit focuses on a different area of university study - anthropology, art, biology, business, ecology, economics, history, literature, psychology, and sociology. The Intro level provides high-beginning springboard to series. Robust scaffolding supports students on their journey from general interest to academic content within each chapter. A alignment with TOEFL® iBT objectives prepares students for success on this and other standardized tests. Resource-rich Teacher's Editions with procedural notes, expansion activities, TOEFL® iBT test-prep tips, and tests offer an abundance of support materials for instructors. Cross-curricular and thematically-linked units provide for easy integration of Reading/Writing and Listening/Speaking strands and explore engaging topics from a wide range of academic disciplines, such as sociology, business, psychology, art history, etc.
