### Freedom from Fear, Freedom from Want

### An Introduction to Human Security

[University of Toronto Press](#) **Adopting an interdisciplinary perspective, Freedom from Fear, Freedom from Want is a brief introduction to human security, conflict, and development. The book analyzes such key human security issues as climate change, crimes against humanity, humanitarian intervention, international law, poverty, terrorism, and transnational crime, among others. The authors encourage readers to critically assess emerging threats while evaluating potential mechanisms of deterrence such as conflict resolution, economic development, diplomacy, peacekeeping, international law, and restorative justice. Concise yet comprehensive, Freedom from Fear, Freedom from Want is an ideal text for human security courses.**

### Human Trafficking

### A Global Perspective

[Cambridge University Press](#) **This book examines all forms of human trafficking globally, revealing the operations of the trafficking business and the nature of the traffickers themselves. Using a historical and comparative perspective, it demonstrates that there is more than one business model of human trafficking and that there are enormous variations in human trafficking in different regions of the world. Drawing on a wide body of academic research - actual prosecuted cases, diverse reports and field work and interviews conducted by the author over the last sixteen years in Asia, Latin America, Africa, Europe and the former socialist countries - Louise Shelley concludes that human trafficking will grow in the twenty-first century as a result of economic and demographic inequalities in the world, the rise of conflicts and possibly global climate change. Coordinated efforts of government, civil society, the business community, multilateral organizations and the media are needed to stem its growth.**

### Ending Human Trafficking in the Twenty-First Century

[Council on Foreign Relations Press](#) **"Human trafficking is more than a violation of human rights: it is also a threat to national security, economic growth, and sustainable development," warns a new Council Special Report, Ending Human Trafficking in the Twenty-First Century. However, the United States "lacks sufficient authorities and coordination across the federal government to address human trafficking adequately, instead treating this issue as ancillary to broader foreign policy concerns." "Critics who challenge the allocation of political and financial capital to combat human trafficking underestimate trafficking's role in bolstering abusive regimes and criminal, terrorist, and armed groups; weakening global supply chains; fueling corruption; and undermining good governance," write Council on Foreign Relations (CFR) Senior Fellows Jamille Bigio and Rachel B. Vogelstein. Trafficking generates \$150 billion in illicit profits, and "an estimated twenty-five million people worldwide are victims-a number only growing in the face of vulnerabilities fueled by the COVID-19 pandemic." Despite efforts by multilateral institutions and governments around the world, the authors explain that "anti-trafficking efforts are undermined by insufficient authorities, weak enforcement, limited investment, and inadequate data." To address these gaps, the Joe Biden administration "should lead on the global stage . . . by strengthening institutional authorities and coordination, improving accountability, increasing resources, and expanding evidence and data," the authors contend. Specifically, it should "enact due diligence reforms to promote corporate accountability for forced labor in supply chains," including by expanding the U.S. National Action Plan to Combat Human Trafficking; "reform labor recruitment systems to combat the exploitation of migrant workers"; "increase trafficking prosecutions by scaling the successful U.S. anti-trafficking coordination team model, which includes law enforcement, labor officials, and social service providers"; "leverage technology against human trafficking; and increase investment to counter it"; and "enlist leaders in the private, security, and global development sectors to propose innovative and robust prevention and enforcement initiatives." Such efforts will advance U.S. economic and security interests by boosting GDP with improved productivity and human capital, and saving governments the direct costs of assisting survivors. By elevating the issue, Bigio and Vogelstein conclude, "human trafficking can be eradicated with a comprehensive and coordinated response."**

### Sex Crimes and Offenders

### Exploring Questions of Character and Culture

[Rowman & Littlefield](#) **Sex Crimes and Offenders emphasizes the need to focus on individual perpetrators while also stressing the importance of looking at the offender's social and cultural environments, as well as the social and political responses designed to hold perpetrators accountable and help support victims**

### Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States

[National Academies Press](#) **Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.**

## Criminal Markets and Mafia Proceeds

[Routledge](#) This book estimates the proceeds of crime and mafia revenues for different criminal markets such as sexual exploitation, drugs, illicit cigarettes, loan sharking, extortion racketeering, counterfeiting, illicit firearms, illegal gambling and illicit waste management. It is the first time that scholars have adopted detailed methodologies to ensure the highest reliability and validity of the estimation. Overall, estimated proceeds of crime amount to € 22.8 billion: 1.5% of the Italian GDP. Of this, up to € 10.7 billion (0.7 of the GDP) may be attributable to the Italian mafias. These figures are considerably lower than the ones most frequently circulated on the news, without any details about their methodology, which were defined by a UN study as "gross overestimates". Far from underestimating criminal revenues, the results of this study bring the issue of the proceeds of crime to an empirically-based debate, providing support for improved future estimates and more effective policies. The volume's contributions were inspired by a project awarded by the Italian Ministry of Interior to Transcrime, which produced the first report on mafia investments ([www.investmentioc.it](http://www.investmentioc.it)). This book was originally published as a special issue of Global Crime.

## America: The Farewell Tour

[Simon & Schuster](#) Chris Hedges's profound and unsettling examination of America in crisis is "an exceedingly...provocative book, certain to arouse controversy, but offering a point of view that needs to be heard" (Booklist), about how bitter hopelessness and malaise have resulted in a culture of sadism and hate. America, says Pulitzer Prize-winning reporter Chris Hedges, is convulsed by an array of pathologies that have arisen out of profound hopelessness, a bitter despair, and a civil society that has ceased to function. The opioid crisis; the retreat into gambling to cope with economic distress; the pornification of culture; the rise of magical thinking; the celebration of sadism, hate, and plagues of suicides are the physical manifestations of a society that is being ravaged by corporate pillage and a failed democracy. As our society unravels, we also face global upheaval caused by catastrophic climate change. All these ills presage a frightening reconfiguration of the nation and the planet. Donald Trump rode this disenchantment to power. In his "forceful and direct" (Publishers Weekly) America: The Farewell Tour, Hedges argues that neither political party, now captured by corporate power, addresses the systemic problem. Until our corporate coup d'état is reversed these diseases will grow and ravage the country. "With sharply observed detail, Hedges writes a requiem for the American dream" (Kirkus Reviews) and seeks to jolt us out of our complacency while there is still time.

## The Oxford Handbook of the Economics of Prostitution

[Oxford University Press](#) "A study of the economics of sex work"--

## Criminal Justice and Regulation Revisited

## Essays in Honour of Peter Grabosky

[Routledge](#) This volume brings together leading researchers to celebrate the significant contributions of Peter Grabosky to the field of Criminology, and in particular his work developing and adapting regulatory theory to the study of policing and security. Over the past three decades, his path-breaking theoretical and empirical research has contributed to a burgeoning literature on the myriad ways regulatory systems drive state and non-state interactions in an effort to control crime. This collection of essays showcases Grabosky's pioneering treatment of key regulatory concepts as they relate to such interactions, and illustrate how his work has been instrumental in shaping contemporary scholarship and practice around the governance of security. Revisiting the work of a key figure in the field, this book will be of interest to criminologists, sociologists, socio-legal studies and those engaged with security and policy studies.

## Investigating Social Problems

[SAGE Publications](#) A. Javier Treviño, working with a panel of experts, thoroughly examines all aspects of social problems, providing a contemporary and authoritative introduction to the field. Each chapter is written by a specialist on that particular topic and the unique, contributed format ensures that the research and examples provided are the most current and relevant available. The text is framed around three major themes: intersectionality (the interplay of race, ethnicity, class, and gender), the global scope of many problems, and how researchers take an evidence-based approach to studying problems.

## International and Transnational Crime and Justice

[Cambridge University Press](#) Provides a key textbook on the nature of international and transnational crimes and the delivery of justice for crime control and prevention.

## Human Trafficking

## Women's Stories of Agency

[Cambridge Scholars Publishing](#) This book explores women's stories of agency in a lived experience of trafficking. The idea of agency is a difficult concept to fathom, given the unscrupulous acts and exploitative practices which define trafficking. In response to the '3-P' anti-trafficking paradigm - to prevent and protect victims and prosecute traffickers - official discourse constructs agency in singular opposition to victimhood. The 'true' victim of trafficking is reified in attributes of passivity and worthiness, whereas signs of women's agency are read as consent in their own predicament or as culpability in criminal justice and immigration rule-breaking. Moving beyond the official lack or criminal fact of agency, this collection of stories adds knowledge on agency constructed with, on, and by, women possessing a trafficking experience. Based on the stories of twenty-six women, agency is seen to exist in relationship to women's victimisation under trafficking. Exploring well-being agency (women's physical safety and economic needs), and agency freedom (women's capacity to construct choices and the conditions affecting choice), women demonstrate agency in their identity, decision making, and actions. Acknowledging the existence of a migration-crime-security nexus in contemporary human trafficking, the narratives of fifteen anti-trafficking professionals highlight how official actions mediate women's achievement of well-being and agency freedoms. This book will be of interest to students undertaking courses in modern slavery, human trafficking, human geography, police studies, social work, and criminology.

## Feline Dermatology

[Springer Nature](#) This richly-illustrated handbook covers all aspects of modern feline dermatology, from the approach to different signs and symptoms to the description of the etiology, pathogenesis, clinical manifestation, diagnosis and current treatment of each feline dermatological disease. Thus this manual serves as essential practical guide to the busy practitioner to quickly and surely tackle cats with dermatological conditions, and offers a current and complete reference tool for the feline veterinarian and the veterinary dermatologist.

## Human Factors Considerations of Undergrounds in Insurgencies

### Second Edition

[Createspace Independent Publishing Platform](#) **From the preface:** "The 1966 'Human Factors' edition focused on the contemporary threat of Maoist insurgencies, particularly in Southeast Asia, and also drew extensively on World War II resistance movements in Europe. Much of this information is still relevant and has been retained and integrated. In the post-Cold War world, the most important insurgencies tend to be ethnic and religious. Long-simmering conflicts, sometimes with roots in colonial policies, have become prominent; examples include the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, Euskadi Ta Askatasuna (Basque Homeland and Freedom or ETA) in Spain, the Hutu-Tutsi genocides, the Ushtria Çlirimtare e Kosovës (Kosovo Liberation Army, or KLA), and the Provisional Irish Republican Army (PIRA). Battle lines in these conflicts are often drawn along ethnic lines, even when land or politics are the immediate issues in contention. The other important new category is extremist religious movements, most prominently Islamic groups, including regional insurgent movements like Hizbollah and Harakat al-Muqawamah al-Islamiyyah (Islamic Resistance Movement, or HAMAS) and global movements like Al Qaeda. These present a different profile of ideology, organizational forms, and psychology than either Cold War Maoists or post-colonial ethnic insurgencies (although the Palestinian cause could be considered a post-colonial issue). Globalization has also changed underground operations in numerous ways. Insurgencies, enabled by low-cost transportation, Internet based communications, and other information technologies, can more easily recruit, communicate, and operate across borders. It is correspondingly much more difficult to contain an insurgency in a region. Global media has led to development of new tactics, in particular new types of terrorism, designed to capture worldwide attention. Compared with what was available in the 1960s, there are orders of magnitude more academic research available relevant to this study's topics. We were able to draw on more recent work in psychology, political science, economics, sociology, organizational studies, and communications studies. Readers of this edition will, over the course of eleven chapters, get a wide exposure to basic concepts from a number of disciplines".

### Imperial Leather

### Race, Gender, and Sexuality in the Colonial Contest

[Routledge](#) Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power.

### The Crimes of Wildlife Trafficking

### Issues of Justice, Legality and Morality

[Routledge](#) This book examines trade and trafficking in endangered animal species and how the trade increasingly puts large numbers of nonhuman species at risk. Focusing on illegal trafficking, the book also discusses the harmful aspects of the trade and trafficking which is taking place in concordance with laws and regulations. Drawing on the findings of empirical research from Norway and Colombia, the study discusses how this global, transnational trend is addressed, and features of the trade and the ways in which it is controlled in the two case study locations. It also explores the motives driving the trade, and the consequences in terms of animal abuse and environmental harm. The book discusses whether internationally agreed measures, such as international conventions, actually help prevent the trade. Possible ways to address the harms of wildlife trade are considered, including a total ban. The work draws on a green criminology and eco feminist theoretical framework to provide a broad perspective on concepts such as harm, animal rights, species justice and speciesism.

### Cyberpolitics in International Relations

[MIT Press](#) An examination of the ways cyberspace is changing both the theory and the practice of international relations.

### Organizational Telephone Directory

### The Alcohol Textbook

### A Reference for the Beverage, Fuel and Industrial Alcohol Industries

### Endocytosis and Signaling

[Springer](#) This book focuses on the context dependency of cell signaling by showing how the endosomal system helps to structure and regulate signaling pathways. The location and concentration of signaling nodes regulate their activation cycles and engagement with distinct effector pathways. Whilst many cell signaling pathways are initiated from the cell surface, endocytosis provides an opportunity for modulating signaling networks' output. In this book, first a series of reviews describe the endocytic and endosomal system and show how these subcellular platforms sort and regulate a wide range of signaling pathway components and phenotypic outputs. The book then reviews the latest scientific insights into how endocytic trafficking and subcellular location modulate a set of major pathways that are essential to normal cellular function and organisms' development.

### Illegal Mining

## Organized Crime, Corruption, and Ecocide in a Resource-Scarce World

[Springer Nature](#) This book provides a comprehensive analysis of the illegal extraction of metals and minerals from the perspectives of organized crime theory, green criminology, anti-corruption studies, and victimology. It includes contributions that focus on organized crime-related offences, such as drug trafficking and trafficking in persons, extortion, corruption and money laundering and sheds light on the serious environmental harms caused by illegal mining. Based on a wide range of case studies from the Amazon rainforest through the Ukrainian flatlands to the desert-like savanna of Central African Republic and Australia's elevated plateaus, this book offers a unique insight into the illegal mining business and the complex relationship between organized crime, corruption, and ecocide. This is the first book-length publication on illegal extraction, trafficking in mined commodities, and ecocide associated with mining. It will appeal to scholars working on organized crime and green crime, including criminologists, sociologists, anthropologists, and legal scholars. Practitioners and the general public may welcome this comprehensive and timely publication to contemplate on resource-scarcity, security, and crime in a rapidly changing world.

## The Strength of the Wolf

## The Secret History of America's War on Drugs

[Verso](#) Carefully and extensively documented, a definitive history of the Federal Bureau of Narcotics.

## Business Ethics

## Methods and Application

[Routledge](#) Ethical aspects of business and the economy are of increasing concern in business practice, higher education, and society in general. This concern results from significant business scandals and economic crises, such as the financial crisis of 2008 and the following great recession, as well as from pressing current and future challenges for the economy, such as sustainability and globalization. As a result, there is a growing demand for normative analysis and orientation for business and the economy, where business ethics has become a crucial part of organizational management, risk management, branding, and strategic management. Business Ethics: Methods and Application provides a new systematic approach to normative business ethics that covers the complex and various ethical challenges of modern business. It aims to train analytical thinking skills in the field of business ethics and to approach ethical issues in business in a rational and systematic way. The book develops a number of specific methods for business ethics analysis that are tailored for ethical decision-making in business and for analyzing complex ethical topics in business. The book discusses fundamental ethical questions regarding the meaning of business and the economy for the individual person, society, the environment, and people around the world. As a result, Business Ethics: Methods and Application develops normative guidelines for business in the 21st century and its fundamental challenges and will be key reading for undergraduate, postgraduate, and MBA students of business ethics, business strategy, business and society, and related fields.

## Branded!

## How the 'Certification Revolution' is Transforming Global Corporations

[New Society Publishers](#) Why market campaigns and certification systems are actually working.

## Debating Sex Work

[Oxford University Press](#) Prostitution is often referred to as "oldest profession." Critics of this expression redescribe it as "the oldest oppression." Debates about how best to understand and regulate prostitution are bound up with difficult moral, legal, and political questions. Indeed, it can be approached from numerous angles--is buying and selling sex fundamentally wrong? How can it possibly be regulated? How can sex workers be protected, if they are allowed to work at all? In this concise, for-and-against volume, ethicists Lori Watson and Jessica Flanigan engage with each other on the nature and consequences of sex work, revealing new and profound ways in which to understand it. The volume opens with a joint introduction, before Lori Watson first argues for a sex equality approach to prostitution in which buyers are criminalized and sellers are decriminalized, also known as the Nordic model. Watson defends the Nordic Model on the grounds that prostitution is an exploitative and unequal practice that only entrenches existing patterns of gendered injustice. Full decriminalization of prostitution only stymies existing occupational health and safety standards and securing worker autonomy and equality. Further, to Watson, drawing a distinction between sex trafficking and prostitution is irrelevant for public policy; what underpins them is demand, which fuels the inequalities of both. That is what needs to be addressed. In a rebuttal, Jessica Flanigan contends that sex work should be fully decriminalized because restrictions on the sale and purchase of sex violate the rights of sex workers and their clients. She argues that decriminalization is preferable to policies that could expose sex workers and their clients to criminal penalties, and leave them at the mercy of public officials. Putting these two views on sex work into conversation with one another, and opening up space for readers to weigh both approaches, the book provides a thorough, accessible exploration of the issues surrounding sex work, written with both sympathy and philosophical rigor.

## Human Trafficking, Human Misery

## The Global Trade in Human Beings

[Greenwood Publishing Group](#) This volume takes a global perspective and uses first-hand accounts and stories to examine the problem of human trafficking in its various manifestations around the world.

## Slavery Today

[Groundwood Books Ltd](#) Discusses worldwide modern slavery and its effects, including the types of modern slavery, its relationship with globalization, and how the world can end slavery.

## Fair Society, Healthy Lives

Olschki

### Moving Away from the Death Penalty

### Arguments, Trends and Perspectives

**UN** Capital punishment is irrevocable. It prohibits the correction of mistakes by the justice system and leaves no room for human error, with the gravest of consequences. There is no evidence of a deterrent effect of the death penalty. Those sacrificed on the altar of retributive justice are almost always the most vulnerable. This book covers a wide range of topics, from the discriminatory application of the death penalty, wrongful convictions, proven lack of deterrence effect, to legality of the capital punishment under international law and the morality of taking of human life.

### Guide for Implementing the Comprehensive Strategy for Serious, Violent, and Chronic Juvenile Offenders

### Global Report on Trafficking in Persons 2020

**UN** The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

### Human Trafficking Around the World

### Hidden in Plain Sight

**Columbia University Press** An examination of human trafficking around the world including the following countries: United States, Japan, United Arab Emirates, Thailand, Israel and the Occupied Palestinian Territories, Colombia, Iraq, Syria, Canada, Italy, France, Iran, India, Niger, China, South Africa, Australia, United Kingdom, Chile, Germany, Poland, Mexico, Russia, and Brazil.

### Criminal Behavior

### Theories, Typologies and Criminal Justice

**SAGE** Rich in historical and contemporary theory and research, *Criminal Behavior: Theories, Typologies, and Criminal Justice* is a comprehensive core text that provides an interdisciplinary overview of criminal behavior by examining relevant crime theories, explanations of how and why crime typologies are developed, literature reviews for major crime categories, and discussions of how crime theories and crime typologies are used throughout the criminal justice process. Focusing on relevant themes and current issues, this text also looks closely at categorizations of criminal behavior, the relationship between crime and pop culture, mass media, and computer technology, and gender issues and crime. This engaging book applies theory and research to real-world criminal justice practice. **Key Features and Benefits:** Applies theory and research to concrete examples of criminal justice practice in law enforcement, public safety, courts/law, and corrections Explores real-world examples and contemporary issues—using chapter-opening vignettes, illustrative photos and graphs, boxed real-life case studies, and an interdisciplinary framework—making the text lively and engaging Views crime as a dynamic, changing phenomenon and examines how mass media and computer technology shape criminal behavior in a unique chapter on crime, media, and technology that addresses cybercrime and copy cat crimes—topics that fascinate students Examines feminist issues and cultural criminology, reviewing the role of gender and culture in shaping criminal behavior Boasts full chapters on political crime and economic crime—subjects often ignored in other texts Includes comparative information throughout, giving students an international perspective, as well as topical coverage relating to race, ethnicity, and gender issues Ancillaries A Student study site at [www.sagepub.com/helfgottstudy](http://www.sagepub.com/helfgottstudy) includes self-quizzes, e-flashcards, NPR and Frontline audio and video clips, SAGE Journal articles, and more. Instructor Resources on CD include test questions, PowerPoint slides, and in-class exercises. Contact Customer Care at 1.800.818.7243 to request a copy. **Intended Audience** This core text offers contemporary insight on criminal behavior for undergraduate and graduate students in criminology and criminal justice, psychology, and related fields.

### Forensic Genetics in the Governance of Crime

**Springer Nature** This open access book uses a critical sociological perspective to explore contemporary ways of reformulating the governance of crime through genetics. Through the lens of scientific knowledge and genetic technology, Machado and Granja offer a unique perspective on current trends in crime governance. They explore the place and role of genetics in criminal justice systems, and show how classical and contemporary social theory can help address challenges posed by social processes and interactions generated by the uses, meanings, and expectations attributed to genetics in the governance of crime. Cutting-edge methods and research techniques are also integrated to address crucial aspects of this social reality. Finally, the authors examine new challenges emerging from recent paradigm shifts within forensic genetics, moving away from the construction of evidence as presented in court to the production of intelligence guiding criminal investigations.

### The Slave Next Door

### Human Trafficking and Slavery in America Today

**Univ of California Press** In this riveting book, authors and authorities on modern slavery Kevin Bales and Ron Soodalter expose the disturbing phenomenon of human trafficking and slavery that exists now in the United States. In *The Slave Next Door* we find that these horrific human rights violations are all around us; people sold into slavery are often hidden in plain sight: the dishwasher in the kitchen of the neighborhood restaurant, the kids on the corner selling cheap trinkets, the man sweeping the floor of the local department store. In these pages we also meet some unexpected modern-day slave owners, such as a 27-year old middle-class Texas housewife who is currently serving a life sentence for offences including slavery. Weaving together a wealth of voices—from slaves, slaveholders,

and traffickers as well as from experts, counselors, law enforcement officers, rescue and support groups, and community leaders—this book is also a call to action, telling what we, as private citizens and political activists, can do to raise community awareness, hold politicians accountable, and finally bring an end to this horrific and traumatic crime.

## Trafficking and Prostitution Reconsidered

## New Perspectives on Migration, Sex Work, and Human Rights

**Routledge** Since the 2005 publication of the highly acclaimed first edition of *Trafficking and Prostitution Reconsidered*, human trafficking has become virtually a household phrase. This new edition adds vitally important updates related to recent developments. A new introduction considers the term 'sex trafficking' and its growing use amongst feminist researchers. In a new chapter Ratna Kapur looks at changes in anti-trafficking legislation especially under the Obama administration. Jyoti Sanghera reports from her experience as a UN Human Rights commissioner and Bandana Pattanaik examines feminist participatory research on 'trafficking'. The book concludes with a list of relevant websites, organisations, and publications useful for students, researchers, and activists.

## Juárez

## The Laboratory of Our Future

Text and graphic photographs describe the realities of life in Juárez, Mexico, just across the border from El Paso, covering the effects of the North American Free Trade Agreement, gangs, drug trafficking, poverty, and other issues.

## Human Trafficking

## Applying Research, Theory, and Case Studies

**SAGE Publications** This practical, interdisciplinary text draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

## Beyond Convergence

## World Without Order

**Createspace Independent Publishing Platform** The world order built upon the Peace of Westphalia is faltering. State fragility or failure are endemic, with no fewer than one-third of the states in the United Nations earning a "high warning"-or worse-in the Fragile States Index, and an equal number suffering a decline in sustainability over the past decade.<sup>1</sup> State weakness invites a range of illicit actors, including international terrorists, globally networked insurgents, and transnational criminal organizations (TCOs). The presence and operations of these entities keep states weak and incapable of effective governance, and limit the possibility of fruitful partnerships with the United States and its allies. Illicit organizations and their networks fuel corruption, eroding state legitimacy among the governed, and sowing doubt that the state is a genuine guardian of the public interest. These networks can penetrate the state, leading to state capture, and even criminal sovereignty.<sup>2</sup> A growing number of weak and corrupt states is creating gaping holes in the global rule-based system of states that we depend on for our security and prosperity. Indeed, the chapters of this book suggest the emergence of a highly adaptive and parasitic alternative ecosystem, based on criminal commerce and extreme violence, with little regard for what we commonly conceive of as the public interest or the public good. The last 10 years have seen unprecedented growth in interactivity between and among a wide range of illicit networks, as well as the emergence of hybrid organizations that use methods characteristic of both terrorist and criminal groups. In a convergence of interests, terrorist organizations collaborate with cartels, and trafficking organizations collude with insurgents. International terrorist organizations, such as al-Qaeda and Hezbollah, engage energetically in transnational crime to raise funds for their operations. Prominent criminal organizations like Los Zetas in Mexico and D-Company in Pakistan have adopted the symbolic violence of terrorists-the propaganda of the deed-to secure their "turf." And networked insurgents, such as the Islamic State of Iraq and the Levant (ISIL), the Revolutionary Armed Forces of Colombia (FARC), and the Liberation Tigers of Tamil Eelam (LTTE), have adopted the techniques of both crime and terror.

## Understanding Global Slavery

## A Reader

**Univ of California Press** Slavery continues as a blight on the human world, with an estimated 27 million people around the world in bondage. Kevin Bales undertakes a discussion of the causes of enslavement & the socio-economic factors that sustain slavery in the 21st century.
