Jake's Tale [Createspace Independent Publishing Platform](#) **Born in 1935, Jake Gruber grew up in the often violent streets of Brooklyn's Coney Island. In a neighborhood controlled by gangsters and often corrupt cops, he survived it all taking advantage of the safety in numbers that a local street gang provided. He was one of the few that eventually managed to escape the street life and forge a successful life for himself and his family winding up in the Long Island suburbs. As an adult he managed to appear very much like his law abiding neighbors most of the time, except when a circumstance might cause the street kid in him to come roaring back. Those neighbors had no idea where Jake really came from or what he had experienced in his childhood. "Jake's Tale" opens to find Jake waking from anesthesia after undergoing a medical procedure in a local hospital. Hearing that he has to spend several days as a patient he decides to spend those days thinking about and reliving, not only his life as a boy on the streets of Coney Island, but about the times when as an adult, the street kid in him came back to alter his otherwise socially acceptable behavior. In this fictional account based on real life stories Jake's memories of the past and the near present come flooding back to him. They arrive in no apparent chronological order. As he thinks about his life he comes face to face with the ethics...or lack of it...of life on the streets and how it applies to his more civilized and peaceful life in the suburbs. And he faces what he was and what he has become. The War Within Poems & Essays [Author House](#) "I couldnt put it down!! Never before has any book ignited so wide array of feelings and emotions within (no pun intended). I laughed, cried and read it again, and again, and again. The War Within provides a glimpse into the mind of a soldier. I could feel the pain, joy and anger of the young woman and fellow veteran, who stood tall when the nation called. I understand her quest to regain the person she left behind, on the field of battle. Her writing is a stroke of literary genius." ~ Kate W. Drexler, CPO (Ret.), US Navy Rubys poetry is written in a very compelling, gripping fashion. Real life is stripped of all distractions. It is artistic and intuitive. ~ Lorraine Austin very powerful and moving poems about the military experience. ~ Sheila Fullwood, SFC (Ret.), US Army Face Reading What Does Your Face Say? Jakes Tale The Eight Beatitudes Poetry Speaks to Children [Sourcebooks MediaFusion](#) An illustrated collection of ninety-five poems for children features the works of seventy-three classic and contemporary poets. **Jonah and the Big Fish** [Lion Hudson](#) **Jonah was out in the ocean when?splash!?a huge fish appeared! Analyzing the obstacles as well as the processes and mechanisms of integration and implementation, **Spatial Data Infrastructures in Context: North and South** investigates the technological and the non-technological aspects of the widespread adoption of spatial data infrastructures. Supporting theoretical issues with empirical studies, the editors pay particular attention to the non-technological aspects of organizational, financial, and legal issues including owner rights, liability, copyrights, and compatibility with precedent and supercedent laws. The authors also highlight the importance of understanding the local environment and circumstances in the process of tailoring the approaches to the conditions that characterize societies of different cultural, institutional, and economic settings. Designed to improve the accessibility, interoperability, and affordability of spatial data, the book focuses on the increasing challenges associated with integrating individuals and organizations into a network to support (1) public authorities and administrations at various levels, (2) thematic user communities, (3) enterprises, and (4) citizen-oriented society as a whole. It addresses the implementation and development of spatial data infrastructures for a wide range of themes, applicable technical standards and protocols, and specific organizational issues unique to data policy. Highlighting the potential for profound changes to the access, use, and exchange of spatial data for citizens, organizations, and geographically related applications, and therefore to the role and interaction of the stakeholders from the public and private sectors, this timely contribution provides new insights into improving our understanding of the increasing relevance, applicability, and value of spatial data infrastructures. **Environment and the Formation of Galaxies: 30 years later Proceedings of Symposium 2 of JENAM 2010** [Springer Science & Business Media](#) The publication of the morphology - density relation by Alan Dressler in 1980 brought into the limelight the role played by environment in the formation and evolution of galaxies. The symposium****

Environment and the Formation of Galaxies: 30 years later, was organised with the purpose of establishing the environmental impact on the evolution of galaxies and its dependence on look-back time. Special emphasis was placed on the physical mechanisms that are responsible for transforming galaxies once they are accreted by a group or a cluster, including the observable imprint left in the galaxy HI distribution. Other major topics of the symposium were the environmental dependence of galaxy properties at $z \geq 1$ and the implementation of environmental effects in cosmological models of galaxy formation and evolution. This book presents the edited proceedings of this stimulating meeting.

Bhakti Religion in North India Community Identity and Political Action [SUNY Press](#) In India, religion continues to be an absolutely vital source for social as well as personal identity. All manner of groups--political, occupational, and social--remain grounded in specific religious communities. This book analyzes the development of the modern Hindu and Sikh communities in North India starting from about the fifteenth century, when the dominant bhakti tradition of Hinduism became divided into two currents: the sagun and the nirgun. The sagun current, led mostly by Brahmins, has remained dominant in most of North India and has served as the ideological base of the development of modern Hindu nationalism. Several chapters explore the rise of this religious and political movement, paying particular attention to the role played by devotion to Ram. Alternative trends do exist in sagun tradition, however, and are represented here by chapters on the low-caste saint Chokhamel and the tantric sect founded by Kina Ram. The nirgun current, led mostly by persons of Ksand artisan castes, formed the base of both the Sikh community, founded by Guru Nanak, and of various non-Brahmin sectarian movements derived from such saints as Kabir, Raidas, Dadu, and Shiv Dayal Singh. Two chapters discuss the formation of a distinctive Sikh theology and a Sikh community identity separate from that of the Hindus. Other chapters discuss the validity of the sagun-nirgun distinction within Hindu tradition and the interplay of social and religious ideas in nirgun hagiographic texts and in sectarian movements such as the Adi Dharma Mission and the Radhasoami Satsang.

COX-2 Blockade in Cancer Prevention and Therapy [Springer Science & Business Media](#) This book chronicles the evidence for the chemopreventive and therapeutic effects of cyclooxygenase-2 (COX-2) inhibitors against virtually all forms of cancer and presents exciting new opportunities for the use of COX-2 blockade in its prevention and treatment. The authors elucidate the process by which COX-2 inhibitors interrupt prostaglandin biosynthesis and cancer development, examine the positive epidemiological effects of such NSAIDs as aspirin and ibuprofen on various cancers, and demonstrate through animal models that COX-2 inhibitors and NSAIDs inhibit a variety of malignant neoplasms in vivo. They also present genetic models confirming the critical role of COX-2 in carcinogenesis and discuss how its molecular biology modulates carcinogenesis. In addition, the authors review the clinical applications of selected NSAIDs that are immediately relevant to cancer prevention and control and outline the future prospects of COX-2 blocking agents.

Self-Portrait in a Convex Mirror Poems [Penguin](#) John Ashbery's most renowned collection of poetry -- Winner of The Pulitzer Prize, the National Book Award, and the National Book Critics Circle Award First released in 1975, Self-Portrait in a Convex Mirror is today regarded as one of the most important collections of poetry published in the last fifty years. Not only in the title poem, which the critic John Russell called "one of the finest long poems of our period," but throughout the entire volume, Ashbery reaffirms the poetic power that made him an outstanding figure in contemporary literature. These are poems "of breathtaking freshness and adventure in which dazzling orchestrations of language open up whole areas of consciousness no other American poet as ever begun to explore" (The New York Times).

Pacific Citizens Larry and Guyo Tajiri and Japanese American Journalism in the World War II Era [University of Illinois Press](#) Offering a window into a critical era in Japanese American life, Pacific Citizens collects key writings of Larry S. Tajiri, a multitalented journalist, essayist, and popular culture maven. He and his wife, Guyo, who worked by his side, became leading figures in Nisei political life as the central purveyors of news for and about Japanese Americans during World War II, both those confined in government camps and others outside. The Tajiris made the community newspaper the Pacific Citizen a forum for liberal and progressive views on politics, civil rights, and democracy, insightfully addressing issues of assimilation, multiracialism, and U.S. foreign relations. Through his editorship of the Pacific Citizen as well as in articles and columns in outside media, Larry Tajiri became the Japanese American community's most visible spokesperson, articulating a broad vision of Nisei identity to a varied audience. In this thoughtfully framed and annotated volume, Greg Robinson interprets and examines the contributions of the Tajiris through a selection of writings, columns, editorials, and correspondence from before, during, and after the war. Pacific Citizens contextualizes the Tajiris' output, providing a telling portrait of these two dedicated journalists and serving as a reminder of the public value of the ethnic community press.

History's Famous Women Pirates Grace O'Malley, Anne Bonny and Mary Read *Includes historic illustrations depicting the three women and important people and places in their lives. *Includes a profile of Anne Bonny and Mary Read from the famous English pirate history "A General History of the Pyrates." *Discusses common legends about the three women, separating fact from fiction. *Includes Bibliographies for further reading. The people who have lived outside the boundaries of normal societies and refused to play by the rules have long fascinated the world, and nowhere is this more evident than the continuing interest in the pirates of centuries past. As the subjects of books, movies, and even theme park rides, people continue to let their imaginations go when it comes to pirates, with buried treasure, parrots, and walking the plank all ingrained in pop culture's perception of them. While that explains some of the reasons Grace O'Malley's life and legacy continue to resonate, she was clearly a different kind of woman altogether. Far from being a member of an unprivileged class

seeking to steal booty from any ship she could, she was both a queen and a rebel who defiantly fought to protect her home and way of life against the English. Naturally, while foreigners might remember her as a pirate and one of many famous rebels opposing the English over the centuries, Ireland has remembered her as a folk hero, and she has become the subject of all the poetry, songs, plays, and movies that come along with such a standing. 19th century writer James Hardiman may have summed up her legacy the best when he wrote, "Her name has been frequently used by our Bards, to designate Ireland. Hence our Countrymen have been often called 'Sons of old Grana Weal.'" One of the most famous pirates of all time, and possibly the most famous woman to ever become one, was Anne Bonny. The Irish-born girl moved with her family to the Bahamas at a young age in the early 18th century, which at that time was a hotbed for piracy by the likes of Blackbeard, but the redhead with a fiery temper would go on to forge her own reputation. After marrying a poor sailor who accepted clemency to give up piracy, Anne began a legendary affair with Calico Jack Rackam and became pregnant with his child, but that did not stop them from plundering the high seas aboard his pirate ship Revenge, at least until they were captured by British authorities. Anne avoided execution by "pleading her belly," getting a temporary stay of execution due to her pregnancy. Among all the pirates of the "Golden Age of Piracy," none were as unique as Mary Read, who was one of just two known women to be tried as a pirate during the Golden Age, alongside her own crewmate (and possible lover) Anne Bonny. Like Anne, Mary Read was an illegitimate child who spent some of her childhood dressed up as and disguised as a little boy through incredibly strange circumstances. But unlike her future shipmate, Mary ultimately took a liking to it, and she continued to disguise her gender to take on roles reserved for men, including in the British army. In 1720, Mary's ship was captured by Calico Jack, who already had his lover Anne Bonny as part of his crew and now unwittingly added a second female when Mary opted to join. Together the three played a legendary role as shipmates and possible lovers while continuing their piracy around the Bahamas, only to eventually be captured by authorities in October 1720. Most of the crew was executed, but Mary was able to successfully "plead the belly" and thereby receiving a stay of execution. This spared her the noose, but Mary died of illness before giving birth anyway. History's Famous Women Pirates chronicles the lives and legacies of the three famous women. Along with bibliographies and pictures, you will learn about Grace O'Malley, Anne Bonny and Mary Read like never before.
