Just Traveling

God, Leaving Home, and a Spirituality for the Road

Augsburg Fortress Publishers Just Traveling celebrates overcoming distance and seeking difference as defining human traits. Following the scriptural witness of God as the Earthroamer, the book explores the liminal qualities of traveling through six movements: anticipating, leaving, surrendering, meeting, caring, and returning. To travel is to move at the speed of being present to one's experiences, bridging distance and difference through acts of care. Drawing on personal experience as well as the wisdom of theology, anthropology, psychology, philosophy, and cultural studies, Hamman reimagines travel in a welcoming and beautiful, yet also complex and troubled world. Whether leaving home serves our wanderlust and curiosity or has personal or spiritual purposes; whether we travel a few miles or cover vast distances, we travel best when we contribute to human flourishing. Care--the compassionate reaching out to someone or something--is the practice that allows one to travel differently. The spirituality of roads is filled with hopeful restorative potential, and life is best lived with the Earthroamer.

A Russian Journal

Penguin Steinbeck and Capa's account of their journey through Cold War Russia is a classic piece of reportage and travel writing. A Penguin Classic Just after the Iron Curtain fell on Eastern Europe, Pulitzer Prize-winning author John Steinbeck and acclaimed war photographer Robert Capa ventured into the Soviet Union to report for the New York Herald Tribune. This rare opportunity took the famous travelers not only to Moscow and Stalingrad - now Volgograd - but through the countryside of the Ukraine and the Caucasus. Hailed by the New York Times as "superb" when it first appeared in 1948, A Russian Journal is the distillation of their journey and remains a remarkable memoir and unique historical document. What they saw and movingly recorded in words and on film was what Steinbeck called "the great other side there ... the private life of the Russian people." Unlike other Western reporting about Russia at the time, A Russian Journal is free of ideological obsessions. Rather, Steinbeck and Capa recorded the grim realities of factory workers, government clerks, and peasants, as they emerged from the rubble of World War II--represented here in Capa's stirring photographs alongside Steinbeck's masterful prose. Through it all, we are given intimate glimpses of two artists at the height of their powers, answering their need to document human struggle. This edition features an introduction by Steinbeck scholar Susan Shillinglaw. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Cancer Journals

Penguin Moving between journal entry, memoir, and exposition, Audre Lorde fuses the personal and political as she reflects on her experience coping with breast cancer and a radical mastectomy. A Penguin Classic First published over forty years ago, The Cancer Journals is a startling, powerful account of Audre Lorde's experience with breast cancer and mastectomy. Long before narratives explored the silences around illness and women's pain, Lorde questioned the rules of conformity for women's body images and supported the need to confront physical loss not hidden by prosthesis. Living as a "black, lesbian, mother, warrior, poet," Lorde heals and re-envision herself on her own terms and offers her voice, grief, resistance, and courage to those dealing with their own diagnosis. Poetic and profoundly feminist, Lorde's testament gives visibility and strength to women with cancer to define themselves, and to transform their silence into language and action.

My Vegetable Love

A Journal of a Growing Season

HMH "Home gardeners, cooks and nature lovers will savor this delightful account" of a journey from first spring planting to final fall harvest (Publishers Weekly). My Vegetable Love is a daily record of a growing season in Iowa—but it's about much more than planting peppers, tending tomatoes, or harvesting eggplants. It's about all the things that influence this gardener: the weather, the neighborhood, his wife's possibly recurring cancer, the changing nature of the academic community. It's about the last months of his twenty-year-old cat, about his dog, and about all the other humans and animals in his gardening world. And about his family: the aunts and uncles who cared for and fed a six-year-old orphan, and helped him understand that good food was a way of knowing that someone cared. In all the gardens he has tended, the dills he has pickled, and the dinners he has cooked, Carl H. Klaus has tried to carry on that tradition and pass it on to his own children—and in this "delectable" book, he shares it with us as well (Publishers Weekly). "Part Gilbert White, part Henry David Thoreau, this chronicle of an Iowa gardener's year has drawn from the heartland a calm, compassionate harvest." —Roger B. Swain, host of PBS's Victory Garden "Wholeheartedly celebrates friendship, love, pets, the elements of family, academia, cooking, eating—and of course, gardening . . . Bon appétit—and good reading." —Smithsonian

Wanderlust

A History of Walking

Penguin A passionate, thought provoking exploration of walking as a political and cultural activity, from the author of the memoir *Recollections of My Nonexistence* Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.

The Scientific Journal

Authorship and the Politics of Knowledge in the Nineteenth Century

University of Chicago Press Not since the printing press has a media object been as celebrated for its role in the advancement of knowledge as the scientific journal. From open communication to peer review, the scientific journal has long been central both to the identity of academic scientists and to the public legitimacy of scientific knowledge. But that was not always the case. At the dawn of the nineteenth century, academies and societies dominated elite study of the natural world. Journals were a relatively marginal feature of this world, and sometimes even an object of outright suspicion. The *Scientific Journal* tells the story of how that changed. Alex Csiszar takes readers deep into nineteenth-century London and Paris, where savants struggled to reshape scientific life in the light of rapidly changing political mores and the growing importance of the press in public life. The scientific journal did not arise as a natural solution to the problem of communicating scientific discoveries. Rather, as Csiszar shows, its dominance was a hard-won compromise born of political exigencies, shifting epistemic values, intellectual property debates, and the demands of commerce. Many of the tensions and problems that plague scholarly publishing today are rooted in these tangled beginnings. As we seek to make sense of our own moment of intense experimentation in publishing platforms, peer review, and information curation, Csiszar argues powerfully that a better understanding of the journal's past will be crucial to imagining future forms for the expression and organization of knowledge.

Asian Journals

India and Japan

Joseph Campbell Foundation Travel with Comparative Mythologist Joseph Campbell to discover the power of myth in Asia At the beginning of his career, Joseph Campbell developed a lasting fascination with the cultures of the Far East, and explorations of Buddhist and Hindu philosophy later became recurring motifs in his vast body of work. However, Campbell had to wait until middle age to visit the lands that inspired him so deeply. In 1954, he took a sabbatical from his teaching position and embarked on a yearlong voyage through India, Thailand, Cambodia, Burma, Hong Kong, Taiwan, and finally Japan. *Asian Journals* combines the two hardcover editions of Campbell's journals, *Bakshesh & Brahman* and *Sake & Satori*, into one paperback volume, an edited day-to-day travel diary of the people he met and the historical places he visited on his trek through Asia. Along the way, he enlivens the narrative with his musings on culture, religion, myth, and politics, describing both the trivial and the sublime. As always, Campbell's keen intellect and boundless curiosity shine through in his lucid prose. From these pages, Campbell enthusiasts will come away with a deeper understanding of the man, his work, and his enduring legacy.

Monstrous Adversary

The Life of Edward de Vere, 17th Earl of Oxford

Liverpool University Press The Elizabethan Court poet Edward de Vere has, since 1920, lived a notorious second, wholly illegitimate life as the putative author of the poems and plays of William Shakespeare. The work reconstructs Oxford's life, assesses his poetic works, and demonstrates the absurdity of attributing Shakespeare's works to him. The first documentary biography of Oxford in over seventy years, *Monstrous Adversary* seeks to measure the real Oxford against the myth. Impeccably researched and presenting many documents written by Oxford himself, Nelson's book provides a unique insight into Elizabethan society and manners through the eyes of a man whose life was privately scandalous and richly documented.

Security and Suspicion

An Ethnography of Everyday Life in Israel

University of Pennsylvania Press In Israel, gates, fences, and walls encircle public spaces while guards scrutinize, inspect, and interrogate. With a population constantly aware of the possibility of suicide bombings, Israel is defined by its culture of security. *Security and Suspicion* is a closely drawn ethnographic study of the way Israeli Jews experience security in their everyday lives. Observing security concerns through an anthropological lens, Juliana Ochs investigates the relationship between perceptions of danger and the political strategies of the state. Ochs argues that everyday security practices create exceptional states of civilian alertness that perpetuate—rather than mitigate—national fear and ongoing violence. In Israeli cities, customers entering gated urban cafés open their handbags for armed security guards and parents circumnavigate feared neighborhoods to deliver their

children safely to school. Suspicious objects appear to be everywhere, as Israelis internalize the state's vigilance for signs of potential suicide bombers. Fear and suspicion not only permeate political rhetoric, writes Ochs, but also condition how people see, the way they move, and the way they relate to Palestinians. Ochs reveals that in Israel everyday practices of security—in the home, on commutes to work, or in cafés and restaurants—are as much a part of conflict as soldiers and military checkpoints. Based on intensive fieldwork in Israel during the second intifada, *Security and Suspicion* charts a new approach to issues of security while contributing to our appreciation of the subtle dynamics of the Israeli-Palestinian conflict. This book offers a way to understand why security propagates the very fears and suspicions it is supposed to reduce.

Travelling Chronicles

News and Newspapers from the Early Modern Period to the Eighteenth Century

"Travelling Chronicles presents fourteen episodes in the history of news, written by some of the leading scholars in the rapidly developing fields of news and newspaper studies. Ranging across eastern and western Europe and beyond, the chapters look back to the early modern period and into the eighteenth century to consider how the news of the past was gathered and spread, how news outlets gained respect and influence, how news functioned as a business, and also how the historiography of news can be conducted with the resources available to scholars today. Travelling Chronicles offers a timely analysis of early news, at a moment when historical newspaper archives are being widely digitalised and as the truth value of news in our own time undergoes intense scrutiny"--

Wanderlust

The Amazing Ida Pfeiffer, the First Female Tourist

National University of Singapore Press I found no one to accompany me, and was determined to do; so I trusted to fate, and went alone. In 1797 in Vienna, Ida Pfeiffer was born into a world that should have been too small for her dreams. The daughter of an Austrian merchant, she made clear from an early age that she would not be bound by convention, dressing in boys' clothing and playing sports. After her tutor introduced her to stories of faraway lands, she became determined to see the world first-hand. This determination led to a lifetime of travel--much of it alone--and made her one of the most famous women of the nineteenth century. Pfeiffer faced many obstacles, not least expectations of her gender. She was a typical nineteenth century housewife with a husband and two sons. She was not wealthy nor well connected. Yet after the death of her husband, and once her sons were grown and settled, at the age of forty-one she set off on her first journey, not telling anyone the true extent of her travel plans. Between that trip and her death in 1858, she would barely pause for breath, circling the globe twice--the first woman to do so--and publishing numerous popular books about her travels. Usually traveling solo, Pfeiffer faced storms at sea, trackless deserts, plague, malaria, earthquakes, robbers, murderers, and other risks. In *Wanderlust*, John Van Wyhe tells Pfeiffer's story, with generous excerpts from her published accounts, tell of her involvement with spies, international intrigue, and more. The result is a compelling portrait of the remarkable life of a pioneer unjustly forgotten.

Working Days

The Journals of The Grapes of Wrath

Penguin John Steinbeck wrote *The Grapes of Wrath* during an astonishing burst of activity between June and October of 1938. Throughout the time he was creating his greatest work, Steinbeck faithfully kept a journal revealing his arduous journey toward its completion. The journal, like the novel it chronicles, tells a tale of dramatic proportions—of dogged determination and inspiration, yet also of paranoia, self-doubt, and obstacles. It records in intimate detail the conception and genesis of *The Grapes of Wrath* and its huge though controversial success. It is a unique and penetrating portrait of an emblematic American writer creating an essential American masterpiece.

How to Creatively Market a Technical Product

Navigate Content, Inc. Do you have a great story to tell, but don't know how to tell it? Are you struggling with making a transition from old-school media to the new age of digital marketing? Does your marketing message stand out in a crowd, or is it drowning in a sea of competitors? Is your technical or engineered product innovative and exciting, but you can't seem to reach your target audience? How can you make your technical product seem sexy? When you think of marketing a technical product, data sheets and operation manuals are no longer enough to get the job done. Trade shows are expensive and time consuming, and there is no way to accurately track the success of traditional print ads. Direct mail marketing, due to stricter personal data laws and regulations, is obsolete. In today's ever-evolving digital age, old-school marketing is not enough to get your technical product noticed in an extremely saturated, competitive landscape. We acknowledge that the fundamentals of product marketing include the ability to frame a strong and unique value proposition with proof points, to understand the personas (target groups) for whom to develop messages/channels/deliverables, and to have a content marketing strategy which is underpinned by key narratives. This book partly covers these concepts but is more tactical, drawing on some relevant industry case studies and examples. This book provides the basic insights you need to develop a creative approach to technical product marketing. We demonstrate how to embrace new media, how to find the right balance with an omnichannel approach, and how to benefit from the power of content marketing. We provide a road map to help you build an effective content strategy and teach you the simple yet powerful benefits of repurposing content. Most important, you will learn how to combine various forms of creative media to strike just the right balance to bring a message to your audience that will generate leads and build profits.

Louis Vuitton Travel Book 'Venice'

Chosen by Louis Vuitton to be one of only a handful of artists to illustrate their new Travel Book series, Taniguchi naturally made a story of it! After his mother's death aged 78, the author discovers a beautifully lacquered box which contains what appear to be old photos and hand-drawn postcards of Venice. One photo of Piazza San Marco particularly catches his eye. It is of a Japanese couple feeding a multitude of pigeons in the square dressed in what looked like 1930's styled clothes. Who were they? What relevance did they have for his mother? Armed with the contents of the lacquered box he travels to Venice to track down the places and events displayed in the images and to discover the identity of the young couple in the old photograph. With very few but well chosen words and his artist's eye for detail, Taniguchi portrays 'La Serenissima' of today in a most deserving light.

Where I Come From

Stories from the Deep South

Vintage In this irresistible collection of wide-ranging and endearingly personal columns culled from his best-loved pieces in *Southern Living* and *Garden & Gun*, Pulitzer Prize-winning author Rick Bragg muses on everything from his love of Tupperware to the decline of country music; from the legacy of Harper Lee to the metamorphosis of the pickup truck; and from the best way to kill fire ants to why any self-respecting Southern man worth his salt should carry a good knife. An ode to the stories and the history of the South, crackling with tenderness, wit, and deep affection, *Where I Come From* celebrates "a litany of great talkers, blue-green waters, deep casseroles, kitchen-sink permanents, lying fishermen, haunted mansions, and dogs that never die, things that make this place more than a dotted line on a map or a long-ago failed rebellion, even if only in some cold-weather dream." Evoking the beauty and the odd particularity of humble origins, Bragg's searching vision, generous humor, and richly nuanced voice bring a place, a people, and a world vividly to life.

Overtourism

Excesses, Discontents and Measures in Travel and Tourism

CABI This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

Tourism Product Development in China, Asian and European Countries

Springer Nature This book analyzes a broad variety of tourism products in China, Asia and Europe that employ both cutting-edge IT technologies and advanced methodologies. These products are cultural tourism, recreational tourism, sport tourism, adventure tourism, medical tourism and more. Authors from different areas contributed to the book, including academic researchers, graduate students, government administrators and industry practitioners. The book covers the entire chain of tourism product business processes: product development and improvement, tourist behavior analysis, marketing and sales, customer service, etc. In addition, it addresses related issues such as tourism sustainability, policymaking, environmental protection and human resource development. Big data processing, data mining, visual content analysis and textural content analysis, semantic nets and sentiment analysis are among the cutting-edge technological tools used to study tourism product development here. The book gathers selected papers from the 9th International Conference on Tourism and Hospitality between China and Spain (www.china-spain.org) with participants from 18 countries. Though the book is mainly intended for researchers and policymakers, it will also appeal to a wider audience, due to its first-hand content, insightful analysis and broad geographic coverage.
