## SUSTAINABILITY ASSESSMENT OF URBAN SYSTEMS

---

Cambridge University Press Our world is becoming more urban. More than fifty percent of the global population now lives in cities, which poses new challenges for sustainable development. This book integrates theory and methods of

sustainability assessment with concepts from systems science to provide guidelines for assessing the sustainability of urban systems. It discusses different aspects of urban sustainability, from energy and housing, to mobility and health, covering social, economic and environmental factors, as well as the various stakeholders and actors involved. The book argues for the need to find models and solutions in order to design sustainable cities of the future in light of the complexity of urban social life. Including diverse case studies from the developed and developing world, this book provides a useful reference for researchers and students from a broad range of disciplines working in the field of sustainability, as well as for environmental consultants and policy makers.

---

## **BUILDING INFORMATION MODELING**

---

### **TECHNOLOGY FOUNDATIONS AND INDUSTRY PRACTICE**

---

Springer Building Information Modeling (BIM) refers to the consistent and continuous use of digital information throughout the entire lifecycle of a built facility, including its design, construction and operation. In order to exploit BIM methods to their full potential, a fundamental grasp of their key principles and applications is essential. Accordingly, this book combines discussions of theoretical foundations with reports from the industry on currently applied best practices. The book's content is divided into six parts: Part I discusses the technological basics of BIM and addresses computational methods for the geometric and semantic modeling of buildings, as well as methods for process modeling. Next, Part II covers the important aspect of the interoperability of BIM software products and describes in detail the standardized data format Industry Foundation Classes. It presents the different classification systems, discusses the data format CityGML for describing 3D city models and COBie for handing over data to clients, and also provides an overview of BIM programming tools and interfaces. Part III is dedicated to the philosophy, organization and technical implementation of BIM-based collaboration, and discusses the impact on legal issues including construction contracts. In turn, Part IV covers a wide range of BIM use cases in the different lifecycle phases of a built facility, including the use of BIM for design coordination, structural analysis, energy analysis, code compliance checking, quantity take-off, prefabrication, progress monitoring and operation. In Part V, a number of design and construction companies report on the current state of BIM adoption in connection with actual BIM projects, and discuss the approach pursued for the shift toward BIM, including the hurdles taken. Lastly, Part VI summarizes the book's content and provides an outlook on future developments. The book was written both for professionals using or programming such tools, and for students in Architecture and Construction Engineering programs.

## **THE SENIOR COHOUSING HANDBOOK-2ND EDITION**

---

### **A COMMUNITY APPROACH TO INDEPENDENT LIVING**

---

New Society Publishers How to make your senior years healthy, safe, social, and stimulating. "Architect and author Chuck Durrett's recently released book Senior Cohousing Handbook comes at a time of high interest in greening, sustainable housing and affordable living concerns. Durrett's new book is a comprehensive guide for baby boomers wishing to continue vibrant, active lifestyles." - EPR Real Estate News "Make your senior years safe and socially fun with the idea of senior cohousing and a book on the topic that shows how seniors can custom-build their neighborhood to fit their needs. This is housing built by seniors, not for them, and emphasizes independence and social networking. Any library strong in gerontology or social science and many a general lending library needs this. - James A. Cox, The Midwest Book Review "As a Baby Boomer, I've joked for a few years that we'll all end up living communally again because Social Security will be broke...This is one of the better ways to envision it."-- Sacramento Bee No matter how rich life is in youth and middle age, the elder years can bring on increasing isolation and loneliness as social connections lessen, especially if friends and family members move away. Senior cohousing fills a niche for this demographic—the healthy, educated, and proactive adults who want to live in a social and environmentally vibrant community. These seniors are already wanting to ward off the aging process, so they are unlikely to want to live in assisted housing. Senior cohousing revolves around custom-built neighborhoods organized by the seniors themselves in order to fit in with their real needs, wants, and aspirations for health, longevity, and quality of life. Senior Cohousing is a comprehensive guide to joining or creating a cohousing project, written by the US leader in the field. The author deals with all the psychological and logistical aspects of senior cohousing and addresses common concerns, fears, and misunderstandings. He emphasizes the many positive benefits of cohousing, including: Better physical, mental, emotional, and spiritual health Friendships and accessible social contact Safety and security Affordability Shared resources Successful aging requires control of one's life, and today's generation of seniors—the baby boomers—will find that this book holds a compelling vision for their future. Charles Durrett is a principal at McCamant & Durrett in Nevada City, California, a firm that specializes in affordable cohousing. He co-authored the groundbreaking Cohousing with his wife and business partner, Kathryn McCamant.

## URBAN TOURISM AND URBAN CHANGE

---

### CITIES IN A GLOBAL ECONOMY

---

Routledge Urban Tourism and Urban Change: Cities in a Global Economy provides both a sociological / cultural analysis of change that has taken place in many of the world's cities. This focused treatment of urban tourism examines the implications of these changes for urban management and planning sense, for success and failure in metropolitan change. Uniquely suited for teaching purposes, Costas Spirou integrates numerous case studies of cities to illuminate the significant impact and promise of tourism on urban image and economic development.

## JUSTE MA COLOC

---

Audélo Editions IL VEUT S'EN SORTIR. ELLE CHERCHE UNE PROTECTION... \_\_\_\_\_ Il y a deux ans, j'étais Slade Tomkins, le mec le plus populaire de l'université... mais ça, c'était avant les conneries, avant la prison. Depuis ma libération, j'enchaîne les boulots, tout en créchant dans un meublé merdique des bas-fonds. Quand un toxico s'attaque à ma jeune voisine, je le vire et il me donne l'idée du siècle : proposer à cette petite nana une colocation. À nous deux, on peut se payer un truc bien, en s'entraînant. Gabriela accepte. Elle nous dénêche même un appartement de rêve au cœur du quartier mexicain. Seulement je ne parle pas un mot d'espagnol, et puis, je n'avais pas prévu que ma bébé-coloc allait devenir si belle, si désirable... une fille aussi géniale mérite tellement mieux qu'un mec comme moi. \_\_\_\_\_ Extrait : Bong. Bong. Bong. — J'sais que t'es là, petite salope ! hurle une voix d'homme hystérique dans le couloir de l'immeuble. Réveillé en sursaut, je me retourne, me collant l'oreiller sur la tête dans l'espoir de me rendormir, tout en remontant la couette avec un frisson de froid. Mais trois secondes plus tard, le bordel recommence : Bong. Bong. Bong. — Espèce de pute, ouvre cette lourde ! Le mec cogne comme un forcené. Bong. Bong. Bong. — Satanée garce, ouvre-moi ! En rogne parce que ce connard n'arrêtera pas son cirque si je n'interviens pas - inutile de compter sur les voisins -, je me lève d'un bond. J'attrape mon jean, tout en éternuant. J'enfile mon pull avec un nouveau frisson, le tissu est glacé. Un coup d'œil à ma montre confirme qu'il ne me reste que deux petites heures de sommeil. Cette tête de nœud va me foutre la paix. Il va cesser de taper comme un sourd en vociférant comme un malade ! J'ouvre violemment la porte du taudis qui me sert de logement au risque de la sortir de ses gonds. Le type est en train de se déchaîner contre l'entrée de l'appartement voisin. Je hurle pour couvrir le vacarme : — Elle n'est pas là ! En réalité, je n'en sais rien et je m'en branle, mais c'est la seule chose qui pourra le faire arrêter de s'acharner. Le mec met au moins cinq secondes à comprendre ce que j'ai braillé. Il se tourne vers moi dans la lumière blafarde du couloir. C'est un junky ravagé. Le visage émacié, il est maigre et ses yeux brillent de cette lueur caractéristique des toxicos en manque. Volontairement, je reste dans la zone obscure due à une ampoule grillée et jamais remplacée au-dessus de mon paillason. Dans un vague éclair de lucidité, le type hésite, jugeant prudent de ne pas approcher un adversaire qu'il ne voit pas, comme je l'avais prévu. J'ai fréquenté trop de junkies... — Qu'est-ce que t'en sais ? finit-il par demander en essayant de se redresser pour se donner un semblant de prestance. — On entend tout d'un appart à l'autre. Elle n'est pas là. L'insonorisation est inexistante, le reste est faux. Rentré du boulot à deux heures du mat, je me suis effondré sur mon lit sans prêter la moindre attention à ce qui pouvait se passer ailleurs. Je vis dans ce taudis depuis trois semaines et j'ai pour principe de ne pas m'occuper des voisins. Jusqu'aux élucubrations de ce camé, il ne me serait pas venu à l'idée qu'il pouvait y avoir une fille seule dans ce bâtiment sordide. — C'est ma gamine, se sent obligé d'expliquer le junky. Elle me doit un paquet de fric, cette petite conne. Mais bien sûr ! Je ne réponds pas, ne voulant pas me retrouver embarqué dans une discussion sans fin avec un type dont les neurones sont cramés par les substances toxiques. — Je repasserai plus tard, décide-t-il en se frottant les bras avec ce geste caractéristique...

---

Nantes, city of Breton and Rimbaud, is reconstructed from a memory based on Gracq's childhood lycee.

---

## LABOUR RIGHTS AS HUMAN RIGHTS

---

Oxford University Press on Demand Are efforts to protect workers' rights compatible with the forces of globalization? How can minimum standards designed to protect labour rights be implemented in a world in which national labour law is more and more at the mercy of international forces beyond its control? And does it make any difference if we see rights such as the right to freedom of association, to non-discrimination in the workplace, to freedom from child labour, and to safe and healthy working conditions in terms of international human rights law? Or are they more appropriately seen as 'principles' to be promoted as and where appropriate? The contributors to this volume argue that international agreements and institutions are of central importance if labour rights are to be protected in a globalized economy. But the report cards they give to the World Trade Organization, the European Union, NAFTA, and the Free Trade Agreement of the Americas are generally very critical. While there is a strong rhetorical commitment to labour rights, at least on the part of the US and the EU, the substance of what has been achieved to date is hardly impressive. The role of the International Labour Organization is central and the authors explore some of the options that are open to governments, civil society, and the labour movement in the years ahead.

## TOWERS OF CAPITAL

---

---

---

## OFFICE MARKETS AND INTERNATIONAL FINANCIAL SERVICES

---

John Wiley & Sons Are global city office markets inherently unstable? This examination of office markets in major world cities analyses the flows of capital that create urban form, the nature of ownership, investment and occupation and the impact of office markets on economic stability. Towers of Capital - office markets & international financial services explores the relationship between the evolution of major international financial centres as part of the global capital market system, the development of office markets in those cities, real estate investment in those office markets and the patterns of risk and return that result from the interactions between financial flows and office markets. Rather than focusing on just one single aspect of the relationship, Colin Lizieri sets out the interconnections between the location of financial activity, the processes operating in office markets and the volatility of real estate returns. The resulting schematic model of IFC office markets provides insights into risk and will act as a springboard for subsequent empirical work. Towers of Capital develops a framework for understanding real estate and the transformation of the built environment in financial centres, based both on the development of global capital markets and on micro-level research into the functioning of office markets. By drawing together the insights, models and ideas that address global capital flows, the evolution of city systems, office market processes and real estate finance, the book will help students and researchers in property and urban planning, investors and policy advisors to understand the linkages between the evolution of financial markets, innovation in commercial real estate markets and the dynamics of the office markets in global cities.

## A CANADIAN PRIORITIES AGENDA

---

---

---

## POLICY CHOICES TO IMPROVE ECONOMIC AND SOCIAL WELL-BEING

---

IRPP Rising income inequality has been at the forefront of public debate in Canada in recent years, yet there is still much to learn about the economic forces driving the distribution of earnings and income in this country and how they might evolve in the future. With research showing that the tax-and-transfer system is losing the ability to counteract income disparity, the need for policy-makers to understand the factors at play is all the more urgent. Income Inequality provides a comprehensive review of Canadian inequality trends, including changing earnings and income dynamics among the middle class and top earners, wage and job polarization across provinces, and persistent poverty among vulnerable groups. The Institute for Research on Public Policy (IRPP), in collaboration with the Canadian Labour Market and Skills Researcher Network (CLSRN), presents new evidence by some of the country's leading experts on the impact of skills and education, unionization and labour relations laws, as well as the complex interplay of redistributive policies and politics over time. Amid growing anxieties about the economic prospects of the middle class, Income Inequality will serve to inform the public discourse on inequality, an issue that ultimately concerns all Canadians.

## URBAN WOMEN IN AFRICA

---

Routledge Although women have long been active residents in African cities, explorations of their contributions have been marginal. This volume brings women into the center of the urban landscape, using case studies to illustrate how womens work in trade and agriculture has been the foundation of African urbanization. Chapters focus on patterns of migration and urbanization, womens employment in varied activities from selling crafts to managing small businesses, the emergence of complex new family formations, and participation in community and political activities. Although women have long been active residents in African cities, explorations of their contributions have been marginal. This volume brings women into the center of the urban landscape, using case studies to illustrate their contributions to family, community, work, and political life. The book begins with a rich introduction that discusses how womens work in trade and agriculture has been the foundation of African urbanization. The contributors then focus on patterns of migration and urbanization, with an emphasis on the personal and social issues that influence the decision to migrate

from rural areas; women's employment in varied activities from selling crafts to managing small businesses; the sometimes unavoidable practice of prostitution when options are limited; the emergence of complex new family formations deriving from access to courts and the continued strength of polygyny; and women's participation in community and political activities. The volume includes material from all regions of sub-Saharan Africa and brings together scholars from all the social sciences.

---

## **BOBOS IN PARADISE**

---

### **THE NEW UPPER CLASS AND HOW THEY GOT THERE**

---

Simon and Schuster In his bestselling work of "comic sociology," David Brooks coins a new word, Bobo, to describe today's upper class—those who have wed the bourgeois world of capitalist enterprise to the hippie values of the bohemian counterculture. Their hybrid lifestyle is the atmosphere we breathe, and in this witty and serious look at the cultural consequences of the information age, Brooks has defined a new generation. Do you believe that spending \$15,000 on a media center is vulgar, but that spending \$15,000 on a slate shower stall is a sign that you are at one with the Zenlike rhythms of nature? Do you work for one of those visionary software companies where people come to work wearing hiking boots and glacier glasses, as if a wall of ice were about to come sliding through the parking lot? If so, you might be a Bobo.

---

## **GETTING AGENCIES TO WORK TOGETHER**

---

### **THE PRACTICE AND THEORY OF MANAGERIAL CRAFTSMANSHIP**

---

Brookings Institution Press Collaboration between government agencies, an old joke goes, is an unnatural act committed by nonconsenting adults. Eugene Bardach argues that today's opinion climate favoring more results-oriented government makes collaboration a lot more natural—though it is still far from easy. In this book, Bardach diagnoses the difficulties, explains how they are sometimes overcome, and offers practical ideas for public managers, advocates, and others interested in developing interagency collaborative networks. Bardach provides examples from diverse policy areas, including children, youth, and family services; welfare-to-work; antipollution enforcement; fire prevention; and ecosystem management.

---

## **YOUTH UNEMPLOYMENT AND SOCIAL EXCLUSION IN EUROPE**

---

### **A COMPARATIVE STUDY**

---

Policy Press With contributions from leading experts in the field, this book presents the findings of the first comparative study of unemployed youth in Europe.

---

## **LEARNING FROM OUR BUILDINGS**

---

### **A STATE-OF-THE-PRACTICE SUMMARY OF POST-OCCUPANCY EVALUATION**

---

National Academies Press In 1986, the FFC requested that the NRC appoint a committee to examine the field and propose ways by which the POE process could be improved to better serve public and private sector organizations. The resulting report, *Post-Occupancy Evaluation Practices in the Building Process: Opportunities for Improvement*, proposed a broader view of POEs—from being simply the end phase of a building project to being an integral part of the entire building process. The authoring committee recommended a series of actions related to policy, procedures, and innovative technologies and techniques to achieve that broader view. In 2000, the FFC funded a second study to look at the state of the practice of POEs and lessons-learned programs among federal agencies and in private, public, and academic organizations both here and abroad. The sponsor agencies specifically wanted to determine whether and how information gathered during POE processes could be used to help inform decisions made in the programming, budgeting, design, construction, and operation phases of facility acquisition in a useful and timely way. To complete this study, the FFC commissioned a set of papers by recognized experts in this field, conducted a survey of selected federal agencies with POE programs, and held a forum at the National Academy of Sciences on March 13, 2001, to address these issues. This report is the result of those efforts.

---

## **TOGETHER! THE NEW ARCHITECTURE OF THE COLLECTIVE**

---

Vitra Design Museum The last decade has seen a growing social movement towards collectivity, sharing and participation. This paradigm shift is reflected in architecture as well: In recent years, increasingly innovative collective housing projects, organized around the principle of trading in private spaces for larger, more luxurious shared spaces, have been emerging across the globe - many of them realized through bottom-up grassroots initiatives. The return of the collective in architecture has resulted in surprising architectural solutions that also create new urban spaces. The publication *Together! The New Architecture of the Collective* presents around twenty international building projects from Europe, Japan, and the US that provide innovative platforms for collective living in the present day. A selection of projects are discussed in detail, and extensive photo essays offer rich and vivid impressions of the daily collective and private life and everyday routines in these buildings. Interviews with movers and shakers from the collective housing scene, written by international journalists, offer insights and background information on the processes and people that have made each project possible. All that is complemented by theoretical and historical context, including analytical essays by experts in the field, info graphics providing facts and figures, diagrams explaining how different collective

housing models work, and an extensive timeline detailing genealogy of the collective housing movement in the twentieth century.

---

### **HOUSING AND SOCIAL TRANSITION IN JAPAN**

---

Routledge Bringing together a number of perspectives on the Japanese housing system, *Housing and Social Transition in Japan* provides a comprehensive, challenging and theoretically developed account of the dynamic role of the housing system during a period of unprecedented social and economic change in one of the most enigmatic social, political, and economic systems of the modern world. While Japan demonstrates many of the characteristics of some western housing and social systems, including mass homeownership and consumption-based lifestyles, extensive economic growth and rapid urban modernization has been achieved in balance with traditional social values and the maintenance of the family system. Helpfully divided into three sections, *Housing and Social Transition in Japan*: explores the dynamics of the development of the housing system in post-war Japan deals with social issues related to housing in terms of social aging, family relations, gender and inequality addresses the Japanese housing system and social change in relation to comparative and theoretical frameworks. As well as providing challenges and insights for the academic community at large, this book also provides a good introduction to the study of Japan and its housing, economic, social and welfare system generally.

---

### **NOW IT'S TIME TO SAY GOODBYE**

---

Soho Press Inc *NOW IT'S TIME TO SAY GOODBYE* is Dale Peck's third novel, part of Soho Press' major uniform reissue programme of his work. On the run from the AIDS epidemic, Colin and Justin move to the tiny Kansas city of Galatea. When a young girl is kidnapped, they are drawn into the town's dark web of hatred and fear. A gothic horror story of violence and prejudice in small-town America, published to overwhelming critical acclaim.

---

### **PEER TO PEER ACCOMMODATION NETWORKS**

---

---

#### **AN EXAMINATION**

---

Goodfellow Publishers Ltd The first book to present a new conceptual framework which offers an initial explanation for the continuing and rapid success of such 'disruptive innovators' and their effects on the international hospitality industry. It discusses all the hot topics in this area, with a specific focus on Airbnb, in the international context.

---

### **FRAGMENTS OF AN INFINITE MEMORY**

---

---

#### **MY LIFE WITH THE INTERNET**

---

New York Review of Books "One day, as I was daydreaming on the boulevard Beaumarchais, I had the idea—it came and went in a flash, almost in spite of myself—of doing a Google search to find out what I had been up to and where I had been the previous evening, since my own recollections were confused." So begins Mae-Ani Renouard's *Fragments of an Infinite Memory*, a provocative and elegant inquiry into life in a wireless world. Renouard is old enough to remember life before the Internet but young enough to have fully accommodated his life to the Internet and the gadgets that support it. Here this young philosopher, novelist, and translator tries out a series of conjectures on how human experience, especially the sense of self, is being changed by our continual engagement with a memory that is impersonal and effectively boundless. Renouard has written a book that is rigorously impressionistic, deeply informed historically and culturally, but also playful, ironic, personal, and formally adventurous, a book that withstands comparison to the best of Roland Barthes and Jean Baudrillard.

---

### **PLANNING TWENTIETH CENTURY CAPITAL CITIES**

---

Routledge The twentieth century witnessed an unprecedented increase in the number of capital cities worldwide - in 1900 there were only about forty, but by 2000 there were more than two hundred. And this, surely, is reason enough for a book devoted to the planning and development of capital cities in the twentieth century. However, the focus here is not only on recently created capitals. Indeed, the case studies which make up the core of the book show that, while very different, the development of London or Rome presents as great a challenge to planners and politicians as the design and building of Brasília or Chandigarh. Put simply, this book sets out to explore what makes capital cities different from other cities, why their planning is unique, and why there is such variety from one city to another. Sir Peter Hall's 'Seven Types of Capital City' and Lawrence Vale's 'The Urban Design of Twentieth Century Capital Cities' provide the setting for the fifteen case studies which follow - Paris, Moscow and St Petersburg, Helsinki, London, Tokyo, Washington, Canberra, Ottawa-Hull, Brasília, New Delhi, Berlin, Rome, Chandigarh, Brussels, New York. To bring the book to a close Peter Hall looks to the future of capital cities in the twenty-first century. For anyone with an interest in urban planning and design, architectural, planning and urban history, urban geography, or simply capital cities and why they are what they are, *Planning Twentieth Century Capital Cities* will be the key source book for a long time to come.

---

### **JOURNAL OF THE UNITED STATES ARTILLERY**

---

Franklin Classics Trade Press This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual

or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

---

## **FOCUS ON CENTRAL AND EASTERN EUROPE**

---

---

### **LIFESTYLE MIGRATION**

---

---

#### **EXPECTATIONS, ASPIRATIONS AND EXPERIENCES**

---

Routledge Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate, spurred on by the promise of a better and more fulfilling way of life within their destination. Despite its increasing scale, migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry, until now. This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations, exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination. It also recognizes the structural conditions (and constraints) which frame lifestyle migration, laying the groundwork for further intellectual enquiry. Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of mobility, migration, lifestyle and culture across the social sciences.

---

### **TOTAL HOUSING**

---

---

#### **ALTERNATIVES TO URBAN SPRAWL**

---

ACTAR Publishers An informed survey of multi-family housing as an alternative to urban sprawl focuses on architectural proposals to address today's increasingly dynamic and diverse culture as well as pressing social, environmental and economic needs.

---

### **SOCIAL DIFFERENTIATION**

---

---

#### **PATTERNS AND PROCESSES**

---

University of Toronto Press Social Differentiation examines the economic, political, and normatively defined relations that underlie the construction of social categories. Social differentiation, embedded in inequalities of power, status, wealth, and prestige, affects life chances of individuals as well as the allocation of resources and opportunities. Starting with a theoretical framework that challenges many traditional analyses, the contributors focus on four specific strands of social differentiation: gender, age, race/ethnicity, and locality. They explore the historically specific social practices, policies, and ideologies that produce distinct forms of inequality, in turn revealing and explaining such issues as the formation and maintenance of a gendered order; the privileging of prime-age workers; the penalties incurred by visible minorities in the labour market; the highly disadvantaged position of Aboriginals; and the economic decline of agriculture, resource, and fishing dependent regions. By paying special attention to political processes, norms, and representations, and by indicating how social policies shape economic functioning and relate to normative definitions, this book will interest policy-oriented researchers and decision-makers.

---

### **RACISM, SEXISM, POWER AND IDEOLOGY**

---
