Global Trends 2030 Alternative Worlds *Createspace Independent Publishing Platform* This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Produced by the Department of Economic and Social Affairs, the five United Nations regional commissions, the United Nations Conference on Trade and Development, with contributions from the UN World Tourism Organization and other intergovernmental agencies. **Global Trends 2030 Alternative Worlds : a Publication of the National Intelligence Council** *U.S. Government Printing Office* This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report. **Responsible Business The Textbook for Management Learning, Competence and Innovation** *Routledge* As sustainable development becomes an increasingly important strategic issue for all organizations, there is a growing

need for management and executive education to adapt to this new reality. This textbook provides a theoretically sound and highly relevant introduction to the topic of socially and environmentally responsible business. The authors take a “competence-based approach” to responsible management education. The book aims to go beyond the traditional domains of teaching and towards the facilitation of learning across key competences. Each chapter in this book has a section dedicated to exercises that cover five core competences – know, think, do, relate, be – to enable self-directed transformative learning. Drawing from the classic background theories such as corporate sustainability, business ethics, and corporate social responsibility, these concepts are applied to the most up-to-date practices. The book covers an international perspective, featuring cases from countries all around the world, has a strong theoretical basis, and fully integrates the topics of sustainability, responsibility and ethics. The book includes a wide variety of tools for change at individual, company and systemic levels. Published with the Principles for Responsible Management Education (PRME), a United Nations Global Compact supported initiative, this is both an essential resource for business students at all levels and self-study handbook for executives.

Action for roads a network for the 21st century *Stationery Office* The road network is vital to our nation and a crucial part of the national transport system. The challenge is both to make best use of the network we have, and also to plan ahead to help the economy grow. The Department has just announced the biggest-ever upgrade of our motorways and key A roads. By 2021, spending on road enhancements will have tripled from today's levels, and we will have resurfaced 80% of the network. This white paper presents the next steps as being to: invest in 52 schemes, including 16 new projects; start construction on five major road schemes by April 2014; begin feasibility studies on five problem hotspots on the strategic road network, prioritising solutions; continue with route based strategies for the whole network, to build a next generation of improvements and interventions; consult later this year on turning the Highways Agency into a publicly owned strategic highways company; publish a draft national policy statement for national networks in 2013, with the aim of formally designating the document in 2014; introduce legislation in 2014, providing a stable funding basis for investment and legal powers for the new Highways Agency; and produce the first Road Investment Strategy later this parliament, guaranteeing roads investment to 2021

Energy Efficiency in Developing Countries Policies and Programmes *Routledge* This book presents a comparative analysis of energy efficiency policies in developing countries. Although there is a vast amount of literature available about renewable energy policy and implementation in the developing world, energy efficiency tends to lack attention. This book fills this lacuna by examining the current state of the field and scope for future improvements. Drawing on a wide range of case studies including Brazil, China and Chile, the authors use a comparative approach to examine the policies and programmes being implemented, looking at the existing legal frameworks and regulatory challenges. By showcasing stories of success, as well as barriers to energy efficiency, they highlight the opportunities for increased energy access and efficiency and demonstrate how these opportunities may directly impact on climate change mitigation. This volume will be a useful resource for scholars and practitioners with an interest in energy policy and efficiency, climate change and

international development. **The 30 Day MBA in International Business Your Fast Track Guide to Business Success** Kogan Page Publishers As business becomes increasingly reliant on succeeding in export markets, the need for specialist knowledge in international trade is at its highest. What Are the Risks and What Can Be Done?** OECD Publishing Corruption is the antithesis of good governance, and it is a direct threat to the purpose of state ownership. This report brings a comprehensive set of facts and figures to the discussion about the corruption risks facing state-owned enterprises (SOEs). **Serving Library Users from Asia A Comprehensive Handbook of Country-Specific Information and Outreach Resources** Rowman & Littlefield Asian populations are among some of the fastest growing cultural groups in the US. This book is a comprehensive guide to serving library users from 24 specific Asian countries. It begins with a broad overview of how libraries can better serve Asian communities and then devotes a chapter to each country, providing wealth of valuable resources. **Cross-border Transfer and Collateralisation of Receivables A Comparative Analysis of Multiple Legal Systems** Bloomsbury Publishing Legal systems around the world vary widely in terms of how they deal with the transfer of and security interests in receivables. The aim of this book is to help international financiers and lawyers in relevant markets in their practice of international receivables financing. Substantively, this book analyses three types of receivables financing transactions, ie outright transfer, security transfer and security interests. This book covers comprehensive comparison and analysis of the laws on the transfer of and security interests in receivables of fifteen major jurisdictions, encompassing common law jurisdictions, Roman-Germanic jurisdictions and French-Napoleonic jurisdictions, as well as relevant EU Directives. To be more specific, this book compares and analyses the relevant legal systems of the US, Canada, New Zealand, Australia, Korea, Japan, France, Belgium, England, Hong Kong, Singapore, China, Germany, Austria and the Netherlands. Furthermore, in order to analyse those legal systems from the international perspective, this book compares relevant international conventions; it also proposes to establish an international registration system for the transfer of and security interests in receivables. **Business and Human Rights From Principles to Practice** Routledge In a global economy, multinational companies often operate in jurisdictions where governments are either unable or unwilling to uphold even the basic human rights of their citizens. The expectation that companies respect human rights in their own operations and in their business relationships is now a business reality that corporations

need to respond to. *Business and Human Rights: From Principles to Practice* is the first comprehensive and interdisciplinary textbook that addresses these issues. It examines the regulatory framework that grounds the business and human rights debate and highlights the business and legal challenges faced by companies and stakeholders in improving respect for human rights, exploring such topics as: the regulatory framework that grounds the business and human rights debate, challenges faced by companies and stakeholders in improving human rights, industry-specific human rights standards, current mechanisms to hold corporations to account, future challenges for business and human rights. With supporting case studies throughout, this text provides an overview of current themes in the field and guidance on practical implementation, demonstrating that a thorough understanding of the human rights challenges faced by business is now vital in any business context. **Corporate Social Responsibility - Sustainable Business Environmental, Social and Governance Frameworks for the 21st Century** *Kluwer Law International B.V.* In a dramatic departure from its voluntary origins, corporate social responsibility (CSR) is rapidly shifting to hold multinational companies accountable for more than traditional shareholder performance. This CSR movement is embracing new environmental, social and governance (ESG) frameworks that both promote global sustainability goals and enhance accountability for negative impacts businesses can have on 'planet and people'. This collection of essays by leading businesspeople, international civil servants, legal practitioners, academics, and other experts offers a forward-looking and pragmatic perspective that illuminates the major themes in this movement towards increasingly sustainable, transparent and accountable business practices. The collection shows how CSR has evolved to account for societal pressures, environmental, climate change and human rights impacts, international policy imperatives and the practical challenges of regulating commercial activity that transcends borders. The chapters offer an in-depth examination of current issues including: international frameworks and multistakeholder initiatives catalysing foundational change; the shifting emphasis on corporate imperatives to avoid harm to third parties; trends in CSR, focused on assuring the planet's future sustainability and social stability; regulatory initiatives around the globe, including Europe, North America, Asia and Africa; and extended accountability for activities of corporate group members and supply chains. The pressure and business case for companies to incorporate CSR into corporate governance is intensifying with each quarter, shareholder meeting, and regulatory agenda. The integration of CSR and new ESG frameworks into multinational corporate strategy and operations is key to sustainable business models that can generate long-term value for the organization and all stakeholders. Their acceptance as cornerstones of 21st century business practice appears inevitable. Taking full account of the imperative for companies and their lawyers to grapple with the practical and legal challenges in this area, this volume is an invaluable and pragmatic addition to the practitioners' toolbox at this important juncture in an ever-more dynamic field. **Global Trends 2040 A More Contested World** *Cosimo Reports* "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) *Global Trends 2040-A More Contested World* (2021), released by the US National Intelligence

Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading. **Dynamics of International Advertising Theoretical and Practical Perspectives** Peter Lang "The second edition of this great book brings a wealth of updates and insights into international advertising. Barbara Mueller has a knack of drawing you in so that you find yourself unable to put each chapter down. One of the great strengths of the book is that it provides context, be it historic, societal or marketing, along with considerable depth of knowledge."---Douglas West, University of Birmingham --

Globalization at Risk Yale University Press History has declared globalization the winner of the 20th century. Globalization connected the world and created wealth unimaginable in the wake of the Second World War. But the financial crisis of 2008-09 has now placed at risk the liberal economic policies behind globalization. Engulfing the entire world, the crisis gave new fuel to the skeptics of the benefits of economic integration. Policy responses seem to favor anti-globalizers. New regulations could balkanize the global financial system, while widespread protectionist impulses might undo the Doha Round. Issues from climate change to national security may be used as convenient excuses to keep imports out, keep jobs at home, and to clamp down on global capital. Will globalization triumph or perish in the 21st century? What reforms make sense in the post-crisis world?International economists Gary Clyde Hufbauer and Kati Suominen argue that globalization has been a force of great good, one that needs to be actively advanced and honed. Drawing on the latest economic analyses, they reveal the drivers and effects of global finance and trade, lay out the key risks to globalization, and offer a practical policy roadmap for managing the challenges while increasing the gains. Vital reading for anyone in business, finance, foreign affairs, or economics, Globalization at Risk is sure to advance public debate on this defining issue of the 21st century. **Country Report Oman Global Business Connecting Theory to Reality** Routledge This textbook is designed to help students understand the key issues of global business by connecting theory with reality. Divided into three parts, it covers critical issues of international business, introducing readers to topics they will connect with, and discussing core concepts. With a user-friendly pedagogy and a host of helpful visuals, the authors offer a practitioner's perspective on global business knowledge, examining familiar theory on trade, direct investment, and political environment alongside fresh topics, like geopolitical conflicts, emerging markets, and sustainability. Over sixty case studies are included to illustrate the magnitude and complexity of global business involving different stakeholders. Undergraduate students looking for an introduction to international business and graduate students

looking to apply their knowledge will find *Global Business* stimulating, since it demonstrates how theories and concepts work in real-world business settings. **Environmental Law in Arab States** *Oxford University Press* *Environmental Law in Arab States* offers a comprehensive and authoritative account of the guiding principles and rules relating to environmental protection in the Arab region. **Blended Finance in the Least Developed Countries 2020 Supporting a Resilient COVID-19 Recovery** *OECD Publishing* The least developed countries (LDCs) are the furthest from achieving the Sustainable Development Goals (SDGs). They are also likely to be hit the hardest by the COVID-19 crisis and badly need the additional private finance that blended finance can unlock. Yet evidence shows that too little private finance is mobilised for investment in LDCs. How can this be fixed? **Business Strategy (The Brian Tracy Success Library)** *AMACOM* Taking control of your company's destiny starts with planning strategically from the beginning. How will you determine if your company has succeeded if you can't base its performance on a well-defined business strategy? A strategic plan, established at your venture's birth, helps crystalize the future of the organization--mapping a clear path from where the company stands today to where you wish it to be. Setting a business strategy enables you to develop absolute clarity on priorities, organize resources, and get better results than ever before. Renowned business author Brian Tracy has provided a simple path to creating the specific business strategy needed for your company's success. In *Business Strategy*, Tracy will help you discover how to: Ask the five key questions vital to any strategic plan Determine a corporate mission that lifts and inspires people Define themselves in relation to their competition Reposition their business with new products, services, and technology Anticipate crises, and more! The path to success starts at the beginning! **Reputation Management The Key to Successful Public Relations and Corporate Communication** *Routledge* *Reputation Management* is an established how-to guide for students and professionals, as well as CEOs and other business leaders. This fourth edition is updated throughout, including: new social media management techniques for the evolving age of digital media, and perspectives on reputation management in an era of globalization. The book is embroidered by ethics, and organized by corporate communication units, such as media relations, issues management, crisis communication, organizational communication, government relations, and investor relations. Each chapter is fleshed out with the real-world experiences cited by the authors and contributions from 36 leaders in the field, including The Arthur W. Page Society, the International Communications Consultancy Organization, the PR Council, CVS Health, Edelman and Ketchum. This was the first book on reputation management and, now in its fourth edition, remains a must-have reference for students taking classes in public relations management, corporate communication, communication management, and business. CEOs, business leaders, and professionals working in these areas find it a reliable resource for measuring, monitoring and managing reputation. **United Nations Commission on International Trade Law (UNCITRAL) Yearbook 2014** *United Nations* This Yearbook is a compilation of all

substantive documents related to the work of the Commission and its Working Groups. It also reproduces the annual Report of the Commission which is published as Supplement No. 17 of the "Official Records of the General Assembly". UNCITRAL is the core legal body of the United Nations system in the field of international trade law. It specializes in the modernization and harmonization of rules on international business.

Myths and Realities of Business Environmentalism Good Works, Good Business Or Greenwash? *Edward Elgar Publishing* Many businesses profess to be voluntarily taking steps to protect the environment, and going beyond compliance with environmental regulations to do so. Kurt Strasser evaluates these claims in this timely and cuttingedge inquiry.

The WTO Transit Regime for Landlocked Countries and its Impacts on Members' Regional Transit Agreements The Case of Afghanistan's Transit Trade with Pakistan *Springer Nature* This book assesses Afghanistan's transit trade with Pakistan in the context of WTO transit regime for landlocked countries and its impacts on Members' regional transit agreements. The key questions this book seeks to answer are the extent Afghanistan can benefit from WTO transit rules in demanding freedom of transit through the territory of Pakistan, how these rules influence the transit agreement concluded between Afghanistan and Pakistan, and finally how useful it would be to challenge Pakistan under the WTO dispute settlement system for its failure to provide Afghanistan freedom of transit and free access to and from the sea.

Global Poverty Alleviation: A Case Book *Springer Science & Business Media* This case book provides examples of multi-stakeholder partnerships that aim to create sustainable enterprises for both the for-profit sectors and for individuals who live in conditions of poverty. Ideal for teaching, after a brief introduction to the case method, the cases are presented as descriptions with no comments or criticisms. The cases are arranged thematically and cover a broad array of solutions in diverse countries including India, Bangladesh, Vietnam, Tanzania, the United States, South Africa, Mozambique, Peru, Ghana, Haiti, and Mexico. Specific programs for alleviating—or even eradicating—poverty through profitable partnerships come from myriad sectors such as banking, health, education, infrastructure development, environment, and technology. The cases highlight solutions that focus on bringing about substantive shifts in the conditions of life for those living in poverty.

Fast Forward How Women Can Achieve Power and Purpose *HMH* This book, based on interviews with the world's most inspiring women, "shows every woman how she can empower herself and her community" (Madeleine Albright). Important conversations about leaning in, work/life balance, and empowering females around the world have energized a generation of women. Fast Forward, by two leaders whose experience spans corporate America, public service, and global diplomacy, takes the next step. Through interviews with a network of more than seventy trailblazing women, Fast Forward shows women how to accelerate their growing economic power and combine it with purpose to find both success and meaning in their lives. Companies, countries, and organizations the world over are waking up to today's new reality. Women control the lion's share of purchasing power and are increasingly essential to competitiveness. The age of women's transformative economic influence has finally arrived, and women are using their power for purpose, redefining what power and success mean in the process. Through clear, practical advice and personal stories of women around the world—including Hillary

Clinton, Geena Davis, Christine Lagarde, and Diane von Furstenberg—Fast Forward shows every woman how to know her power, find her purpose, and connect with others to achieve her life goals. **Competition Law in Developing Countries** *Oxford University Press* This book brings together perspectives of development economics and law to tackle the relationship between competition law enforcement and economic development. It addresses the question of whether, and how, competition law enforcement helps to promote economic growth and development. This question is highly pertinent for developing countries largely because many developing countries have only adopted competition law in recent years: about thirty jurisdictions had in place a competition law in the early 1980s, and there are now more than 130 competition law regimes across the world, of which many are developing countries. The book proposes a customized approach to competition law enforcement for developing countries, set against the background of the academic and policy debate concerning convergence of competition law. The implicit premise of convergence is that there may exist one, or a few, correct approaches to competition law enforcement, which in most cases emanate from developed jurisdictions, that are applicable to all. This book rejects this assumption and argues that developing countries ought to tailor competition law enforcement to their own economic and political circumstances. In particular, it suggests how competition law enforcement can better incorporate development concerns without causing undue dilution of its traditional focus on protecting consumer welfare. It proposes ways in which approaches to competition law enforcement need to be adjusted to reflect the special economic characteristics of developing country economies and the more limited enforcement capacity of developing country competition authorities. Finally, it also addresses the long-running debate concerning the desirability and viability of industrial policy for developing countries. **First Steps in SAP Business One** *Espresso Tutorials GmbH* Dive into SAP Business One! Access to Medicine in the Global Economy International Agreements on Patents and Related Rights *Oxford University Press* Access to medicine is a topic of widespread interest. However, some issues that impact such access are presently inadequately understood. In particular, international laws require most nations to provide patents on drugs, resulting in premium prices that limit access. In *Access to Medicine in the Global Economy*, Professor Cynthia Ho explains such laws and their impact for a diverse group of readers, from scholars and policy makers to students in a variety of disciplines. This book explains and interprets important international agreements, beginning with the landmark Agreement on Trade Related Aspects of Intellectual Property (TRIPS), but also including more recent free trade agreements and the pending Anti-Counterfeiting Trade Agreement (ACTA). Professor Ho addresses controversial topics, such as when a nation can provide a compulsory license, as well as whether a nation may suspend in-transit generic goods. The book also discusses how patent-like rights (such as "data exclusivity") prevent lower-cost generic medicines from entering into the marketplace and provides strategies for minimizing the harm of such rights. Clear explanations and diagrams, frequently asked questions, and case studies make these topics accessible to any reader. The case studies also provide a theory of patent perspectives that helps explain why access to medicine, though a universal goal, remains elusive in practice. The book aims to provide an important first step toward eventual workable solutions by promoting a better understanding of existing and future laws that impact access to medicine.

Women in Management A Framework for Sustainable Work-Life Integration *Routledge* This book presents a realistic perspective on the paradoxes employees face when navigating work and personal responsibilities for career success. The author answers the critical question of how to achieve sustainable and rewarding work-life integration from a perspective of "both/and" rather than "either/or." While most books focus on a fragmented, hyper-effective view of women and leadership, this book advances the need for an integrated approach. Its Competing Values Framework acts as an organizing model that aligns personal competency with organizational capability, helping readers to identify important leadership roles and competencies, break societal barriers, and choose the right set of behaviors to fit their personal and professional goals. In-chapter text boxes provide personal insight from real employees both entering and established in leadership positions, offering a varied perspective on the challenges and resolutions available to women in management. As men become more engaged with their families, they too will find this book a useful tool. Students in diversity management, women and management, career development, leadership, and organizational behavior classes will benefit from this realistic and sustainable alternative to the "have it all" model.

Human Rights of Older People Universal and Regional Legal Perspectives *Springer* This book focuses on descriptions of the developments in legal frameworks and policies regarding the human rights of older persons. First, it covers the policies adopted and practices developed at the universal system, particularly within the sphere of the United Nations. Second, it includes a side-by-side comparison of the work of regional human rights mechanisms, which have picked up some momentum in the past decade. Through its inclusion of law, policy, and current processes, the widest net possible has been cast to collect a descriptive resource for advocates. Overall, we hope that this book contributes to a better understanding of the current limitations and possibilities that international institutions offer to uphold the human rights of older persons. We expect that this information will allow states and other policy makers to move forward with the international recognition of the human rights of older persons. We know this is only a first effort in compiling and reporting the standards that are being produced by different international institutions. But we have no doubt that many others will follow with their expert analysis of these emerging standards, and that the ongoing discussion will finally crystalize in international human rights binding instruments explicitly recognizing the universal rights of older persons. **Financial**
