---

Virago Press Women move through the world differently from men. The constraints and perils, the perceptions and complex emotions women journey with are different. For many women, the inner landscape is as important as the outer. This does not mean that the woman traveller is not politically aware, historically astute or in touch with the customs and language of the place, but it does mean that a woman cannot travel and not be aware of her body and the limitations her sex presents. This illustrated edition of The Virago Book of Women Travellers captures 300 years of wanderlust. Some of the women are observers of the world in which they wander and others are more active. Often they are storytellers, weaving tales about the people they encounter. Whether it is curiosity about the world or escape from personal tragedy, these women approached their journeys with wit, intelligence, compassion and empathy for the lives of others.

## **A MOTHER, HER SON, AND A FIFTY-YEAR SEARCH**

---

Penguin New York Times Bestseller The heartbreaking true story of an Irishwoman and the secret she kept for 50 years When she became pregnant as a teenager in Ireland in 1952, Philomena Lee was sent to a convent to be looked after as a “fallen woman.” Then the nuns took her baby from her and sold him, like thousands of others, to America for adoption. Fifty years later, Philomena decided to find him. Meanwhile, on the other side of the Atlantic, Philomena’s son was trying to find her. Renamed Michael Hess, he had become a leading lawyer in the first Bush administration, and he struggled to hide secrets that would jeopardize his career in the Republican Party and endanger his quest to

find his mother. A gripping exposé told with novelistic intrigue, *Philomena* pulls back the curtain on the role of the Catholic Church in forced adoptions and on the love between a mother and son who endured a lifelong separation.

## **RELIGION**

---

Schopenhauer is one of the few philosophers who can be generally understood without a commentary. All his theories claim to be drawn direct from the facts, to be suggested by observation, and to interpret the world as it is; and whatever view he takes, he is constant in his appeal to the experience of common life. This characteristic endows his style with a freshness and vigor which would be difficult to match in the philosophical writing of any country, and impossible in that of Germany. If it were asked whether there were any circumstances apart from heredity, to which he owed his mental habit, the answer might be found in the abnormal character of his early education, his acquaintance with the world rather than with books, the extensive travels of his boyhood, his ardent pursuit of knowledge for its own sake and without regard to the emoluments and endowments of learning. He was trained in realities even more than in ideas; and hence he is original, forcible, clear, an enemy of all philosophic indefiniteness and obscurity; so that it may well be said of him, in the words of a writer in the *Revue Contemporaine*, *ce n'est pas un philosophe comme les autres, c'est un philosophe qui a vu le monde.*

## HOW TO LIVE

---

### OR A LIFE OF MONTAIGNE IN ONE QUESTION AND TWENTY ATTEMPTS AT AN ANSWER

---

Other Press, LLC Winner of the 2010 National Book Critics Circle Award for Biography How to get along with people, how to deal with violence, how to adjust to losing someone you love—such questions arise in most people’s lives. They are all versions of a bigger question: how do you live? How do you do the good or honorable thing, while flourishing and feeling happy? This question obsessed Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-roaming explorations of his thought and experience, unlike anything written before. He called them “essays,” meaning “attempts” or “tries.” Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog’s ears twitched when it was dreaming, as well as the appalling events of the religious civil wars raging around him. The Essays was an instant bestseller and, over four hundred years later, Montaigne’s honesty and charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet Étienne de La Boétie and with his adopted “daughter,” Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, “how to live?”

## THE YELLOW EMPEROR'S CLASSIC OF INTERNAL MEDICINE

---

Univ of California Press The Yellow Emperor’s Classic of Internal Medicine has become a landmark in the history of Chinese civilization. Written in the form of a dialogue in which the emperor seeks information from his minister Ch’I-Po on questions of health and the art of healing, it is the oldest known document in Chinese medicine. Ilza Veith’s

extensive introduction and monumental translation, first published in 1949, make available the historical and philosophical foundations of traditional practices that have seen a dynamic revival in China and throughout the West. A new foreword by Linda L. Barnes places the translation in its historic contexts, underlining its significance to the Western world's understanding of Chinese medical practice.

#### **HOW SCIENCE WAS BORN IN 300 BC AND WHY IT HAD TO BE REBORN**

---

Springer Science & Business Media The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external world. While Greek culture had reached great heights in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time — anywhere in the world — the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism and stasis that blocked most avenues of intellectual development for a thousand years — until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

#### **THE YELLOW EMPEROR'S CLASSIC OF INTERNAL MEDICINE**

---

Univ of California Press The Yellow Emperor's Classic has become a landmark in the history of Chinese civilization. Since 1949, when this first translation of the oldest known document in Chinese medicine was published, traditional medical practice has seen a dynamic revival in China and throughout many countries in the Western world. Elements of this time-honored therapy, including acupuncture and the harmony of human spirit with the natural world, have become part of mainstream medical practice; The Yellow Emperor's Classic provides the historical and philosophical

foundation of this practice. Ilza Veith provides an extensive introduction to her monumental translation of this classic work, which is written in the form of a dialogue in which the emperor seeks information from his minister Ch-I Po on all questions of health and the art of healing.

## **HOTEL FLORIDA: TRUTH, LOVE, AND DEATH IN THE SPANISH CIVIL WAR**

---

Farrar, Straus and Giroux A spellbinding story of love amid the devastation of the Spanish Civil War Madrid, 1936. In a city blasted by a civil war that many fear will cross borders and engulf Europe—a conflict one writer will call "the decisive thing of the century"—six people meet and find their lives changed forever. Ernest Hemingway, his career stalled, his marriage sour, hopes that this war will give him fresh material and new romance; Martha Gellhorn, an ambitious novice journalist hungry for love and experience, thinks she will find both with Hemingway in Spain. Robert Capa and Gerda Taro, idealistic young photographers based in Paris, want to capture history in the making and are inventing modern photojournalism in the process. And Arturo Barea, chief of the Spanish government's foreign press office, and Ilsa Kulcsar, his Austrian deputy, are struggling to balance truth-telling with loyalty to their sometimes compromised cause—a struggle that places both of them in peril. Beginning with the cloak-and-dagger plot that precipitated the first gunshots of the war and moving forward month by month to the end of the conflict. Hotel Florida traces the tangled and disparate wartime destinies of these three couples against the backdrop of a critical moment in history: a moment that called forth both the best and the worst of those caught up in it. In this noir landscape of spies, soldiers, revolutionaries, and artists, the shadow line between truth and falsehood sometimes became faint

indeed—your friend could be your enemy and honesty could get you (or someone else) killed. Years later, Hemingway would say, "It is very dangerous to write the truth in war, and the truth is very dangerous to come by." In Hotel Florida, from the raw material of unpublished letters and diaries, official documents, and recovered reels of film, the celebrated biographer Amanda Vaill has created a narrative of love and reinvention that is, finally, a story about truth: finding it, telling it, and living it—whatever the cost. \*INCLUDES 16 PAGES OF BLACK-AND-WHITE PHOTOGRAPHS

### **STUDIES IN FREEMASONRY AND THE COMPAGNONNAGE**

---

Sophia Perennis René Guénon (1886-1951) was one of the great luminaries of the twentieth century, whose critique of the modern world has stood fast against the shifting sands of intellectual fashion. His extensive writings, now finally available in English, are a providential treasure-trove for the modern seeker: while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese, the Hellenic and Judaic, the Christian and Islamic, and including also Alchemy, Hermeticism, and other esoteric currents, they direct the reader also to the deepest level of religious praxis, emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization. *Studies in Freemasonry and the Compagnonnage* is both an attempt to rediscover the lost roots of Masonry and a fascinating look into the many controversies swirling around the subject of Masonry in serious intellectual circles during the first half of the twentieth century. It must also be classed, along with *Symbols of Sacred Science*, *Spiritual Authority and Temporal Power*, *Traditional Forms and Cosmic Cycles*, *The Esoterism of Dante*, *Insights into Christian Esoterism* and *Insights into Islamic Esoterism and Taoism*—not to mention related sections in many of his other books—as one of René Guénon's masterful excursions into esoteric myth, symbolism, and secret history. Freemasonry may indeed be, as Guénon ultimately concluded, a largely degenerated and thus no longer strictly 'operative' offshoot of a true initiatory lineage; yet its symbolism, like that of the original Rosicrucians, remains profound, traditional, and therefore ultimately legitimate. And given that the 'Spirit bloweth where it listeth', it is always possible that symbolism of this order may awaken in a receptive soul intimations of the Truth and the Way, which can be of inestimable value in 'the path to the Path', the quest for a living initiatory spirituality.

---

**Harper Collins** When he is diagnosed with cancer, in the silence of the hospital room broken only by the swish of cars outside, Italian writer Tiziano Terzani realizes that his whole life has been one long ride on a merry-go-round where he has always journeyed without a ticket. Now, for the first time, the ticket collector has come to demand his dues. At first, Terzani turns to Western medicine for a cure, but a question soon begins to haunt him: is cancer, as the doctors say, an enemy that needs to be destroyed, or is it a friend one can talk to? Travelling had always been a way of life for him, so he decides to make another trip, in search of a solution - to India. This final ride turns out to be very different though. And more difficult. Because every step, every choice - often between reason and faith, between science and magic - is inextricably linked to his own survival. As he crisscrosses the country from an ashram in Coimbatore to a hut in Almora, the external journey in search of a cure transforms into an inner journey and a return to the divine roots of man. Then, one day, as he looks at the sun rising over the mountains, he stumbles upon the one truth that has eluded him: death is as desirable and eternal as life itself. A bestseller in Europe, this is a book about modern medicine and alternative cures, and the quest to understand the true meaning of mortality.
