Neither Wolf nor Dog On Forgotten Roads with an Indian Elder *New World Library 1996 Minnesota Book Award winner — A Native American book The heart of the Native American experience: In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It's a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. Neither Wolf nor Dog takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new introduction by the author, Kent Nerburn. "This is a sobering, humbling, cleansing, loving book, one that every American should read." — Yoga Journal If you enjoyed Empire of the Summer Moon, Heart Berries, or You Don't Have to Say You Love Me, you'll love owning and reading Neither Wolf nor Dog by Kent Nerburn.* **Education for Tomorrow A Biocentric, Student-Focused Model for Reconstructing Education** *Springer Science & Business Media Education for Tomorrow A Biocentric, Student-Focused Approach to Education Reform Michael Risku University of the Incarnate Word, USA and Letitia Harding University of the Incarnate Word, USA There are many books on the market which discuss indigenous ways of knowing, and bemoan western society's seeming lack of interest in anything other than scientific fact-based knowledge. Equally plentiful are the writings of critical theorists who consider today's public education system to be divisive, and manipulated by those in power to ensure that their children have the educational advantages needed to maintain the elite hierarchical status quo. Education for Tomorrow is unique in that it brings both of these approaches together first by examining the ways that indigenous people and women of all cultures acquire and pass on knowledge, and the deleterious effects that enforced Eurocentric systems have had on that process. The authors then turn to public schools to explore the influences, both good and bad, that today's programs have on the distribution of opportunities afforded to all children in the United States. Finally, they offer suggestions for a revolutionary education system which highlights the need for all students to have the encouragement and freedom to look critically and rationally at their lives and at their relationship with the natural world. This can be achieved by looking back to the pedagogical methods of our indigenous ancestors, and forward to a time when all children, regardless of ethnic or socio-economic heritage, are taught in such a way that every aspect of their lives is addressed, nurtured, valued, and enhanced.* **Part Wild One Woman's Journey with a Creature Caught Between the Worlds of Wolves and Dogs** *Simon and Schuster Part Wild is the unforgettable story of Ceiridwen Terrill's journey with a creature whose heart is divided between her bond to one woman and her need to roam free. When Terrill adopts a wolfdog— part husky, part gray wolf—named Inyo to be her protector and fellow traveler, she is drawn to Inyo's spark of wildness; compelled by the great responsibility, even danger, that accompanies the allure of the wild; and transformed by the extraordinary love she shares with Inyo, who teaches Terrill how to carve out a place for herself in the world. Over almost four years, Terrill and Inyo's adventures veer between hilarious and heartbreaking. There are peaceful weekends spent hiking in snowy foothills, mirthful romps through dirty laundry, joyful adoptions of dog companions, and clashes brought on by the stress of caring for Inyo, insatiable without the stimulation of a life lived outdoors. Forced to move and accommodate the complaints of fearful neighbors and the desires of her space-craving wolfdog, Terrill must confront the reality of what she has done by trying to tame a part-wild animal. Driven to understand the differences between dogs and wolves, Terrill spent five years interviewing genetics experts, wolf biologists, dog trainers, and wolf rescuers in the United States, Germany, Hungary, Sweden, and Russia. The fascinating results of her investigation make Part Wild as informative as it is moving. A gifted writer able to capture the grace and power of the natural world, the complexity of scientific ideas, and the pulse of the human experience, Terrill has written a bittersweet memoir of the beauty and tragedy that come from living with a measure of wildness.* **Holding Back The Tears** *Rose Garden Press This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-*

worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her beliefs about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be. **The Girl Who Sang to the Buffalo A Child, an Elder, and the Light from an Ancient Sky** New World Library A haunting dream that will not relent pulls author Kent Nerburn back into the hidden world of Native America, where dreams have meaning, animals are teachers, and the "old ones" still have powers beyond our understanding. In this moving narrative, we travel through the lands of the Lakota and the Ojibwe, where we encounter a strange little girl with an unnerving connection to the past, a forgotten asylum that history has tried to hide, and the complex, unforgettable characters we have come to know from *Neither Wolf nor Dog* and *The Wolf at Twilight*. Part history, part mystery, part spiritual journey and teaching story, *The Girl Who Sang to the Buffalo* is filled with the profound insight into humanity and Native American culture we have come to expect from Nerburn's journeys. As the American Indian College Fund has stated, once you have encountered Nerburn's stirring evocations of America's high plains and incisive insights into the human heart, "you can never look at the world, or at people, the same way again." **The Wolf at Twilight An Indian Elder's Journey Through a Land of Ghosts and Shadows** ReadHowYouWant.com A note is left on a car windshield, an old dog dies, and Kent Nerburn finds himself back on the Lakota reservation where he traveled more than a decade before with a tribal elder named Dan. The touching, funny, and haunting journey that ensues goes deep into reservation boarding-school mysteries, the dark confines of sweat lodges, and isolated Native homesteads far back in the Dakota hills in search of ghosts that have haunted Dan since childhood. In this fictionalized account of actual events, Nerburn brings the land of the northern High Plains alive and reveals the Native American way of teaching and learning with a depth that few outsiders have ever captured. **There's a New Dog in Town Book One of the Love Puppies Chronicles** Createspace Independent Publishing Platform Welcome to the first book in the Love Puppy Chronicles. A celebrated anthropologist unearths the mysterious origins of the unique partnership that rewrote the history of both species. Dogs and humans have been inseparable for more than 40,000 years. The relationship has proved to be a pivotal development in our evolutionary history. The same is also true for our canine friends; our connection with them has had much to do with their essential nature and survival. How and why did humans and dogs find their futures together, and how have these close companions (literally) shaped each other? Award-winning anthropologist Pat Shipman finds answers in prehistory and the present day. In *Our Oldest Companions*, Shipman untangles the genetic and archaeological evidence of the first dogs. She follows the trail of the wolf-dog, neither prehistoric wolf nor modern dog, whose bones offer tantalizing clues about the earliest stages of domestication. She considers the enigma of the dingo, not quite domesticated yet not entirely wild, who has lived intimately with humans for thousands of years while actively resisting control or training. Shipman tells how scientists are shedding new light on the origins of the unique relationship between our two species, revealing how deep bonds formed between humans and canines as our guardians, playmates, shepherds, and hunters. Along the journey together, dogs have changed physically, behaviorally, and emotionally, as humans too have been transformed. Dogs' labor dramatically expanded the range of human capability, altering our diets and habitats and contributing to our very survival. Shipman proves that we cannot understand our own history as a species without recognizing the central role that dogs have played in it. **A Wolf Like Me** A midnight ritual by a secret society in the English Countryside nearly costs Thomas Spell his life. As his life begins to spiral out of control, Thomas is forced to confront his own past, as well as the dark forces closing in on him and everything he holds dear. **The Hour Between Dog and Wolf** How Risk-Taking Transforms Us, Body and Mind Random House Canada A successful Wall Street trader turned Cambridge neuroscientist reveals the biology of financial boom and bust, showing how risk-taking transforms our body chemistry, driving us to extremes of euphoria or stressed-out depression. The laws of financial boom and bust, it turns out, have a lot to do with male hormones. In a series of startling experiments, Canadian scientist Dr. John Coates identified a feedback loop between testosterone and success that dramatically lowers the fear of risk in men, especially young men; he has vividly dubbed the moment when traders transform into exuberant high flyers "the hour between dog and wolf." Similarly, intense failure leads to a rise in levels of cortisol, which dramatically lowers the appetite for risk. His book expands on his seminal research to offer lessons from the exploding new field studying the biology of risk. Coates's conclusions shed light on all types of high-pressure decision-making, from the sports field to the battlefield, and leaves us with a powerful recognition: to handle risk isn't a matter of mind over body, it's a matter of mind and body working together. We all have it in us to be transformed from dog to wolf; the only question is whether we can understand the causes and the consequences. **The Girl With Two Names** A Novel Gerard O'Neill Books Be careful what you wish for! An abusive husband, an oppressive recording contract with J-BIG Corp, a company controlled by her husband's family that is crushing her creativity. Then there are all her memories of a life swept away by a tsunami. While in New Zealand to film a music video, she is surprised by her estranged husband Nori, who without warning appears at her hotel and assaults her. Although from two very different worlds, they find themselves falling for each other, both unaware of the extreme measures Nori will take to get Yayoi to return to Japan with him. The Girl With Two Names is set in urban Japan and the raw backwoods of New Zealand. NB : the book, as stated above, is a psychological thriller. You are being purposefully placed in the head of a heroine with strong personality flaws that do have severe outcomes for those who allow her into their lives. This is an important aspect of the story. _____ Four out of four stars! - Official Review, Online Book Club **The Jungle Book** **The Simple Dog Book** Createspace Independent Publishing Platform 'I found with years of human/dog training and reading many books on training, sometimes, the simplest things were missing from the human/dog instructions. Everyone knows this. Each of us contributes his share. But we tend to take the situation for granted. Most people are rather confident of their ability to recognize bullshit and to avoid being taken in by it. So the phenomenon has not aroused much deliberate concern. We have no clear understanding of what bullshit is, why there is so much of it, or what functions it serves. And we lack a conscientiously developed appreciation of what it means to us. In other words, as Harry Frankfurt writes, "we have no theory." Frankfurt, one of the world's most influential moral philosophers, attempts to build such a theory here. With his characteristic combination of philosophical acuity, psychological insight, and wry humor, Frankfurt proceeds by exploring how bullshit and the related concept of humbug are distinct from lying. He argues that bullshitters misrepresent themselves to their audience not as liars do, that is, by deliberately making false claims about what is true. In fact, bullshit need not be untrue at all. Rather, bullshitters seek to convey a certain impression of themselves without being concerned about whether anything at all is true. They quietly change the rules governing their end of the conversation so that claims about truth and falsity are irrelevant. Frankfurt concludes that although bullshit can take many innocent forms, excessive indulgence in it can eventually undermine the practitioner's capacity to tell the truth in a way that lying does not. Liars at least acknowledge that it matters what is true. By virtue of this, Frankfurt writes, bullshit is a greater enemy of the truth than lies are. **Phaedrus** Good Press "Phaedrus" by Plato (translated by Benjamin Jowett). Published by Good Press. Rethinking Canid-Human Relations** McGill-Queen's Press - MQUP In almost 40 per cent of households in North America, dogs are kept as companion animals. Dogs may be man's best friends, but what are humans to dogs? If these animals' loyalty and unconditional love have won our hearts, why do we so often view closely related wild canids, such as foxes, wolves, and coyotes, as pests, predatory killers, and demons? Re-examining the complexity and contradictions of human attitudes towards these animals, *Dog's Best Friend?* looks at how our relationships with canids have shaped and also been transformed by different political and economic contexts. Journeying from ancient Greek and Roman societies to Japan's Edo period to eighteenth-century England, essays explore how dogs are welcomed as family, consumed in Asian food markets, and used in Western laboratories. Contributors provide glimpses of the lives of street dogs and humans in Bali, India, Taiwan, and Turkey and illuminate historical and current interactions in Western societies. The book delves into the fantasies and fears that play out in stereotypes of coyotes and wolves, while also acknowledging that events such as the Wolf Howl in Canada's Algonquin Park indicate the emergence of new popular perspectives on canids. Questioning where canids belong, how they should be treated, and what rights they should have, *Dog's Best Friend?* reconsiders the concept of justice and whether it can be extended beyond the limit of the human species. **The Jerk Next Door** Createspace Independent Publishing Platform Single, lacking cooking skills, and too awkward to function, Isla Matthews is content to spend her nights alone, and her days struggling to keep her cute little flower shop afloat. He believed the dog was immortal. So begins Susan Orlean's sweeping, powerfully moving account of Rin Tin Tin's journey from orphaned puppy to movie star and international icon. Orlean, a staff writer at *The New Yorker* who has been hailed as "a national treasure" by *The Washington Post*, spent nearly ten years researching and reporting her most captivating book to date: the story of a dog who was born in 1918 and never died. It begins on a battlefield in France during World War I, when a young American soldier, Lee Duncan, discovered a newborn German shepherd in the ruins of a bombed-out dog kennel. To Duncan, who came of age in an orphanage, the dog's survival was a miracle. He saw something in Rin Tin Tin that he felt compelled to share with the world. Duncan brought Rinty home to California, where the dog's athleticism and acting ability drew the attention of Warner Bros. Over the next ten years, Rinty starred in twenty-three blockbuster silent films that saved the studio from bankruptcy and made him the most famous dog in the world. At the height of his popularity, Rin Tin Tin was Hollywood's number one box office star. During the decades that followed, Rinty and his descendants rose and fell with the times, making a tumultuous journey from silent films to talkies, from black-and-white to color, from radio programs to one of the most popular television shows of the baby boom era, *The Adventures of Rin-Tin-Tin*. The canine hero's legacy was cemented by Duncan and a small group of others—including Bert Leonard, the producer of the TV series, and Daphne Hereford, the owner of the current Rin Tin Tin—who have dedicated their lives to making sure the dog's legend will never die. At its core, *Rin Tin Tin* is a poignant exploration of the enduring bond between humans and animals. It is also a richly textured history of twentieth-century entertainment and entrepreneurship. It spans ninety years and explores everything from the shift in status of dogs from working farmhands to beloved family members, from the birth of obedience training to the evolution of dog breeding, from the rise of Hollywood to the past and present of dogs in war. Filled with humor and heart and moments that will move you to tears, Susan Orlean's first original book since *The Orchid Thief* is an irresistible blend of history, human interest, and masterful storytelling—a dazzling celebration of a great American dog by one of our most gifted writers.
