SECOND LANGUAGE TESTING FOR STUDENT EVALUATION AND CLASSROOM RESEARCH

STUDENT WORKBOOK

IAP Second Language Testing for Student Evaluation and Classroom Research and its accompanying Student Workbook are introductory-level resources for classroom teachers of all levels of experience, and early-career graduate students in applied linguistics, TESOL, and second/foreign language teaching programs. The book gives a balance between practice and theory for student evaluation, and also aims for readers to use testing to connect to classroom research and to their own teaching. Indeed, Second Language Testing for Student Evaluation and Classroom Research aims at self-discovery and empowerment for readers, even as second language testing as a field undergoes major shifts in scope and areas of concern. Second Language Testing offer a strong basis for readers who wish to analyze and improve their own classroom tests, and for readers who wish to evaluate standardized tests they are required to use, or are thinking of using. We work with the general idea, "OK, now that I know test X has these strengths and weaknesses, what do I do?" Or, "Alright here are students' scores, now how do I use them in my teaching?" At the same time our book provides more in-depth treatments of key testing topics for those readers who want to know "Why?" and "How?" "Why these terms?" "Why this or that analysis?" "Why does it work?" "How does it work?" "What do these numbers mean?" "How do I use them and how do I explain them to my students, my colleagues, my supervisors?" Second Language Testing for Student Evaluation and Classroom Research includes five Appendices for those readers whose interests continue into more advanced areas. Our information and observations on issues such as rater training (Appendix B) are current and discerning, and our Reference section and Glossary would be valued by any advanced testing practitioner or researcher. Second Language Testing is useful to readers at varied levels of engagement, at their choice.

THE BOOK OF ISAIAS

A CHILD OF HISPANIC IMMIGRANTS SEEKS HIS OWN AMERICA

Macmillan In a green town in the middle of America, a bright 18-year-old Hispanic student named Isaias Ramos sets out on the journey to college. Isaias, who passed a prestigious national calculus test as a junior and leads the quiz bowl team, is the hope of Kingsbury High in Memphis, a school where many students have difficulty reading. But Kingsbury's dysfunction, expensive college fees, and forms printed in a language that's foreign to his parents are all obstacles in the way of getting him to a university. Isaias also doubts the value of college and says he might go to work in his family's painting business after high school, despite his academic potential. Is Isaias making a rational choice? Or does he simply hope to avoid pain by deferring dreams that may not come to fruition? This is what journalist Daniel Connolly attempts to uncover in The Book of Isaias as he follows Isaias, peers into a tumultuous final year of high school, and, eventually, shows how adults intervene in the hopes of changing Isaias' life. Mexican immigration has brought the proportion of Hispanics in the nation's youth population to roughly one in four. Every day, children of immigrants make decisions about their lives that will shape our society and economy for generations. This engaging, poignant book captures an American microcosm and illustrates broader challenges for our collective future.

HANDBOOK OF RESEARCH ON THE IMPACT OF COVID-19 ON MARGINALIZED POPULATIONS AND SUPPORT FOR THE FUTURE

IGI Global The COVID-19 pandemic has posed significant risks to particular communities and individuals, including indigenous communities, migrant workers, refugees, transgender individuals, and the homeless population. The disadvantaged population is overwhelmed by deprivation, inequality, unemployment, and infections, both communicable and non-communicable, which make them more vulnerable to COVID-19 and its negative consequences. These marginalized groups struggle to obtain an admirable political representation and face marginalization and lack of access to health, education, and social services. It is imperative that these marginalized groups and their right to life and their livelihoods are supported, especially when they are put at risk during global crises, such as the COVID-19 pandemic. The Handbook of Research on the Impact of COVID-19 on Marginalized Populations and Support for the Future represents a way of acknowledging an improved, pandemic-free, and prosperous environment for everyone in the future where society does not leave behind any poor or marginalized individuals. The book is a representation of the voice of the marginalized people in the new normal attempting to draw on a comprehensive knowledge bank, which includes anthropology, sociology, gender studies, media, education, indigenous dimension, philosophy, bioethics, care ethics, and more. This book focuses solely on the marginalized people, examines the oppressed communities in depth, and provides insights on how we should stand by these vulnerable people. This book is a valuable tool for social workers, government bodies, policymakers, social justice advocates, human rights activists, researchers in gender and race studies, practitioners, academicians, and students interested in how COVID-19 has impacted marginalized populations and how social justice can be advocated for in the future.

A MANUAL FOR WRITERS OF RESEARCH PAPERS, THESES, AND DISSERTATIONS, EIGHTH EDITION

CHICAGO STYLE FOR STUDENTS AND RESEARCHERS

University of Chicago Press A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, A Manual for Writers of Research Papers, Theses, and Dissertations has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of The Chicago Manual of Style. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, A Manual for Writers remains the essential resource for students and their teachers.

BURNS AND GROVE'S THE PRACTICE OF NURSING RESEARCH - E-BOOK

APPRAISAL, SYNTHESIS, AND GENERATION OF EVIDENCE

Elsevier Health Sciences Awarded first place in the 2017 AJN Book of the Year Awards in the Nursing Research category. Master the research methods used as a foundation for evidence-based practice! Burns and Grove's The Practice of Nursing Research, 8th Edition provides a solid foundation in the appraisal, synthesis, and generation of research evidence for clinical nursing practice. Not only will you learn how to properly evaluate and use existing research evidence, but you'll also learn how to participate in research and quality improvement projects. Updated to reflect today's focus on online research and evidence-based practice, this edition includes clear, step-by-step guidelines to research procedures as well as many examples from current and classic literature. From an expert author team led by Jennifer Gray, this book helps you perform scholarly research for evidence-based practice. Emphasis on evidence-based practice helps you learn to generate research evidence and to appraise and synthesize existing research for application to clinical practice. Emphasis on qualitative research includes phenomenological research, grounded theory research, ethnographic research, exploratory-descriptive research, and historical research. Coverage of quantitative, qualitative, and other research methodologies gives you a solid foundation to conduct, appraise, and apply research evidence to the realities of today's clinical practice. Rich examples from the nursing literature bring research principles to life. Information on collecting digital data guides you through the use of online research. Clear, comprehensive coverage is organized into five units: 1) Introduction to Nursing Research, 2) The Research Process, 3) Putting It All Together for Evidence-Based Health Care, 4) Analyzing Data, Determining Outcomes, and Disseminating Research, and 5) Proposing and Seeking Funding for Research. NEW Mixed Methods Research chapter and emphasis covers this increasingly popular approach to research. NEW! Expanded emphasis on qualitative research provides more balanced coverage of qualitative and quantitative methods, addressing the qualitative research methodologies that are often the starting point of research projects, particularly in magnet hospitals and DNP programs. ENHANCED emphasis on evidence-based practice addresses this key graduate-level QSEN competency. UPDATED emphasis on the most currently used research methodologies focuses on the methods used in both quantitative research and qualitative research, as well as outcomes research and mixed methods research. NEW! Quick-reference summaries are located inside the book's covers, including a table of research methods on the inside front cover and a list of types of research syntheses (with definitions) inside the back cover. NEW student resources on the Evolve companion website include 400 interactive review questions along with a library of 10 Elsevier research articles. NEW! Colorful design highlights key information such as tables and research examples

WAC AND SECOND LANGUAGE WRITERS

RESEARCH TOWARDS LINGUISTICALLY AND CULTURALLY INCLUSIVE PROGRAMS AND PRACTICES

Parlor Press LLC Editors and contributors pursue the ambitious goal of including within WAC theory, research, and practice the differing perspectives, educational experiences, and voices of second-language writers. The chapters within this collection not only report new research but also share a wealth of pedagogical, curricular, and programmatic practices relevant to second-language writers. Representing a range of institutional perspectives—including those of students and faculty at public universities, community colleges, liberal arts colleges, and English-language schools—and a diverse set of geographical and cultural contexts, the editors and contributors report on work taking place in the United States, Asia, Europe, and the Middle East.

UNCERTAINTY AND IMPRECISION IN DECISION MAKING AND DECISION SUPPORT: NEW CHALLENGES, SOLUTIONS AND PERSPECTIVES

SELECTED PAPERS FROM BOS-2018, HELD ON SEPTEMBER 24-26, 2018, AND IWIFSGN-2018, HELD ON SEPTEMBER 27-28, 2018 IN WARSAW, POLAND

Springer Nature This book gathers selected papers from two important conferences held on October 24-28, 2018, in Warsaw, Poland: the Fifteenth National Conference of Operational and Systems Research, BOS-2018, one of the leading conferences in the field of operational and systems research not only in Poland but also at the European level; and the Seventeenth International Workshop on Intuitionistic Fuzzy Sets and General Nets, IWIFSGN-2018, one of the premiere conferences on fuzzy logic. The papers presented here constitute a fair and comprehensive representation of the topics covered by both BOS-2018 and IWIFSGN-2018, including extensions of the traditional fuzzy sets, in particular on the intuitionistic fuzzy sets, as well as other topics in uncertainty and imprecision modeling, the Generalized Nets (GNs), a powerful extension of the traditional Petri net paradigm, and InterCriteria Analysis, a new method for feature selection and analyses in multicriteria and multi-attribute decision-making problems. The Workshop was dedicated to the memory of Professor Beloslav Riečan (1936-2018), a regular participant at the IWIFSGN workshops.

NURSING RESEARCH IN CANADA - E-BOOK

METHODS, CRITICAL APPRAISAL, AND UTILIZATION

Elsevier Health Sciences Learn how to better understand and apply research to your everyday practice with LoBiondo-Wood and Haber's *Nursing Research in Canada: Methods, Critical Appraisal, and Utilization*, 5th Edition. Written by an all-star team of educators and research experts from Canada and the US, this thoroughly updated text is the perfect resource to help ground you in the processes behind nursing research and evidence-informed practice. This edition features new research examples that reflect the most current Canadian studies, fresh vignettes, easy-to-use navigation tools, enhanced readability, and well-balanced coverage of both qualitative and quantitative research methods. Balanced-but-distinct coverage of both the qualitative and quantitative approaches to nursing research acquaints you with the processes behind research and evidence-informed practice. Complete, high-quality research examples, including four new sample critiques, demonstrate how to apply the judgement and reasoning principles outlined in the text to published quantitative and qualitative research studies. Research Vignettes introduce you to real-world practitioners of nursing research and help bridge the gaps among clinical research, academia, and clinical practice. Vignettes cover timely topics facing Canadian nurses such as immunization, Medical Assistance in Dying (MAiD), medical cannabis, public health, Indigenous health and nursing, and rural and remote nursing. Effective learning aids in every chapter include Key Terms, Learning Outcomes, Research Hints, Evidence-Informed Practice Tips, Appraising the Evidence, Critiquing Criteria, Critique of a Research Study, Critical Thinking Decision Paths, Critical Thinking Challenges, Critical Judgement Questions, and Key Points. NEW! Part 2: Indigenous Peoples: Research, Knowledges, and Ways of Knowing introduces you to the history and significance of colonization as it relates to how Indigenous peoples have been affected by, and are affecting, nursing and health research. NEW! Inclusion of Indigenous Research Methods and application to the findings of the Truth and Reconciliation Committee. NEW! All-new research examples and vignettes demonstrate the most current, high-quality published studies to exemplify the work of prominent nurse-researchers and to encourage the development of clinical reasoning and judgement. NEW! Critical judgement-focused practice questions in the printed text, accompanying study guide, and companion Evolve website promote critical thinking and prepare you for exam licensure. NEW! Glossary of key terms at the end of the book gives you quick access to all new key terms.

ARNOLD AND BOGGS'S INTERPERSONAL RELATIONSHIPS - E-BOOK

PROFESSIONAL COMMUNICATION SKILLS FOR CANADIAN NURSES

Elsevier Health Sciences Engaging, comprehensive coverage presents the most current issues and communication concepts. Fully adapted content reflects Canada's unique health care context and cultural landscape. Canadian statistics, research, references and resources, guidelines, assessment and screening tools, and more are incorporated throughout the text. Canadian cultural and demographic considerations address issues related to race/ethnicity, Indigenous peoples, gender identity, LGBTQ2 community, family composition, recent immigrants, refugees, and vulnerable persons. Engaging with Humility: Authentic Interpersonal Communication in Partnership with Indigenous Peoples chapter increases awareness and knowledge of the impact of colonization on Indigenous peoples, in order to understand and develop practices which respectfully engage in cultural safety and humility through holistic communication with Indigenous peoples and communities. Rich art programme reflects Canada's cultural diversity in the health care setting. Emphasis on collaborative communication includes related evidence-informed case studies and analysis. Socio-cultural

communication competencies coverage discusses how to reduce health disparities and increase health literacy. Questions for Review and Discussion help students practise their reflective analysis skills and provide opportunities for thoughtful review of chapter content. Content on social media and transitional care delivery reflects current practice standards. Simulation exercises enable students to practise, observe, and critically evaluate their professional communication skills in a safe learning environment. Case examples help students learn to develop empathy for patients' perspectives and needs. Discussion of spirituality and end-of-life needs focuses on trust, empathy, and the nurse-patient relationship — all central components of holistic nursing. Nursing, behavioural, developmental, family, and communication theories provide an essential foundation and a theoretical perspective for effective communication. Ethical Dilemma boxes with reflection questions at the end of each chapter help students absorb and retain key ethical content throughout the text. Evidence-Informed Nursing Practice boxes in each chapter offer a summary of research findings related to the chapter subject and are intended to strengthen awareness of the link between research and practice. Separate chapters on communication across the lifespan highlight crucial communication tools that are the first step in developing a culture of safety in contemporary health care delivery.
