Competitive Strategy

Techniques for Analyzing Industries and Competitors

Createspace Independent Publishing Platform Porter's five forces analysis is a framework for analyzing the level of competition within an industry and business strategy development. It draws upon industrial organization (IO) economics to derive five forces that determine the competitive intensity and therefore the attractiveness of an industry. Attractiveness in this context refers to the overall industry profitability. An "unattractive" industry is one in which the combination of these five forces acts to drive down overall profitability. A very unattractive industry would be one approaching "pure competition," in which available profits for all firms are driven to normal profit. This analysis is associated with its principal innovator Michael E. Porter of Harvard University. This updated and expanded second edition of Book provides a user-friendly introduction to the subject. Taking a clear structural framework, it guides the reader through the subject's core elements. A flowing writing style combines with the use of illustrations and diagrams throughout the text to ensure the reader understands even the most complex of concepts. This succinct and enlightening overview is a required reading for all those interested in the subject. We hope you find this book useful in shaping your future career & Business.

The Fifth Discipline

The Art & Practice of The Learning Organization

Currency MORE THAN ONE MILLION COPIES IN PRINT • “One of the seminal management books of the past seventy-five years.”—Harvard Business Review This revised edition of the bestselling classic is based on fifteen years of experience in putting Peter Senge's ideas into practice. As Senge makes clear, in the long run the only sustainable competitive advantage is your organization's ability to learn faster than the competition. The leadership stories demonstrate the many ways that the core ideas of the Fifth Discipline, many of which seemed radical when first published, have become deeply integrated into people's ways of seeing the world and their managerial practices. Senge describes how companies can rid themselves of the learning blocks that threaten their productivity and success by adopting the strategies of learning organizations, in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create the results they truly desire. Mastering the disciplines Senge outlines in the book will: • Reignite the spark of genuine learning driven by people focused on what truly matters to them • Bridge teamwork into macrocreativity • Free you of confining assumptions and mindsets • Teach you to see the forest and the trees • End the struggle between work and personal time This updated edition contains more than one hundred pages of new material based on interviews with dozens of practitioners at companies such as BP, Unilever, Intel, Ford, HP, and Saudi Aramco and organizations such as Roca, Oxfam, and The World Bank.

PESTEL-Analysis of BMW

GRIN Verlag Seminar paper from the year 2015 in the subject Business economics - Business Management, Corporate Governance, grade: 70 %, Prifysgol Cymru University of Wales, language: English, abstract: Germany is one of the leading car manufacturer industries in the world. The German automotive market convinces customer preferences around the world with companies like Volkswagen, BMW or Daimler, as confirmed by export rates of 190 billion euro through vehicles and components in 2012 (Frankfurter Allgemeine Zeitung, 2013). The Bavarian automobile manufacturer BMW is one of these highly regarded and venerated automobile brands. The enterprise BMW Group assert their top position in the premium segment with a new record in global sales of about 2.1 million automobiles in 2014. The additional brand MINI could hold the level of its sales from the previous year and, for the first time, Rolls Royce Motor Cars was able to increase the sales over 4.000 units in 2014, and thus assert the position as the market leader in the absolute luxury segment. Hawranek (2008) and Reithofer, chief executive of BMW, (BMW Group, 2015) emphasize that the company remain faithful to its strategy to continuously hold the position as the world's top seller in the premium class. The elaboration will present an environmental analysis of the BMW Group in the automotive industry with help of the principles of a PESTEL-Analysis. After a general over-view of the automotive industry in the 21st century in chapter 2, each point of the PESTEL-analysis will be processed separately in chapter 3. The conclusion in chapter 4 includes the results, an overall assessment of the BMW Group and recommendations considering the focus of the business strategy.

How to Write a Business Plan

Business Success Series

Createspace Independent Publishing Platform A business plan is a document that outlines in detail what the business is and how it will generate revenue. It is a projected roadmap to success that typically takes into account the next 1-5 years of the business lifecycle. A business plan is often referred to as a "living document", meaning that it is not set in stone but rather evolves with new information or new circumstances as the business grows. Venture capitalists and general investors in a business like to see a business plan so they can gauge its potential for success. This book covers every single section of a business plan. It covers how to do a market analysis. It has terms such as SWOT and PESTEL analysis. It is also filled with examples of how other companies or startups set up their business plan or business model. Only enough examples to make the points clear. This is meant to make your life easier, and we know it will. Read the book, learn the concepts, follow the steps, and you'll have your first business plan! As a bonus for our readers we have included a section on building your pitch deck. The last section of this book explains the elements of a slide deck, which is the digital presentation (PowerPoint or PDF format) used to pitch your company to investors for funding. It is essentially the executive summary in slide format. The 'ask' or funding request section is easily omitted when repurposing the slide deck for a presentation to a general audience, and repurposed as a pricing slide when used for sales meetings. The pitch deck is your visual business plan, thus it seemed only natural to include it in this title and save our readers from having to buy another book on the matter. The Concise Reads Business Success series is a collection of short reading material that highlights important concepts in business education that every student, business owner, and entrepreneur should know from accounting and incorporating, to building a robust business plan and managing operations. We hope you enjoy Peter's easy to read explanations. The affordable pricing makes this series available to anyone willing to learn and the concise aspect makes it so it does not take more than a single day to learn or a single weekend to master. Good luck and please review the book when you're done so that others could see the value derived from this affordable series. If there is a business topic that will benefit readers to learn about then please also mention that in your review. We will read every review and adjust our titles based on your needs. Thank you for your interest and happy concise reading!
