ICCIDE 2017

Springer The book presents high quality research work in cutting edge technologies and most-happening areas of computational intelligence and data engineering. It contains selected papers presented at International Conference on Computational Intelligence and Data Engineering (ICCIDE 2017). The conference was conceived as a forum for presenting and exchanging ideas and results of the researchers from academia and industry onto a common platform and help them develop a comprehensive understanding of the challenges of technological advancements from different viewpoints. This book will help in fostering a healthy and vibrant relationship between academia and industry. The topics of the conference include, but are not limited to collective intelligence, intelligent transportation systems, fuzzy systems, Bayesian network, ant colony optimization, data privacy and security, data mining, data warehousing, big data analytics, cloud computing, natural language processing, swarm intelligence, and speech processing.

A Love Story

Jake McKallister might have been a rock star, but he was no ordinary one. Surviving an unspeakable crime as a young teen had shaped him into a guarded workaholic, and he now lived his life trying to forget. If it hadn't been for music and the redemption he found through it, he might not have survived. Career success came easily for him. Personal connections did not. When outspoken, vivacious college student Casey Caldwell was paired with the famously reserved rockstar for a friend's wedding, she was prepared for the worst. What could they possibly have in common? She was a bubbly talker; he was a reclusive loner. His life was filled with music; she couldn't carry a tune. She'd enjoyed a happy childhood; his was a well-publicized nightmare. Yet despite their obvious differences, Jake and Casey found each other, and her light balanced out his darkness. Would their love be strong enough to survive the weight of his tragic past?

Sustainable Technologies for Computational Intelligence Proceedings of ICTSCI 2019

Springer Nature This book gathers high-quality papers presented at the First International Conference on Sustainable Technologies for Computational Intelligence (ICTSCI 2019), which was organized by Sri Balaji College of Engineering and Technology, Jaipur, Rajasthan, India, on March 29-30, 2019. It covers emerging topics in computational intelligence and effective strategies for its implementation in engineering applications.

Today We Have No Plans Kill Alex Cross

Little, Brown The President's son and daughter are abducted, and Detective Alex Cross is one of the first on the scene. But someone very high-up is using the FBI, Secret Service, and CIA to keep him off the case and in the dark. A deadly contagion in the water supply cripples half of the capital, and Alex discovers that someone may be about to unleash the most devastating attack the United States has ever experienced. As his window for solving both crimes narrows, Alex makes a desperate decision that goes against everything he believes--one that may alter the fate of the entire country. KILL ALEX CROSS is faster, more exciting, and more tightly wound than any Alex Cross thriller James Patterson has ever written!
