This text uses the United Nations Security Councils Resolution 1325 (UNSCR 1325) on Women, Peace and Security in Eastern and Southern Africa as a framework to present the causes and impacts of VAW and to trace the journey of sub-Saharan African countries toward gender equality. It also provides an overview of the policy and legislative frameworks that underpin the progress, challenges, and achievements of addressing VAW based on four key pillars: prevention, protection, participation, and relief and recovery. Chapters provide a wealth of knowledge, as the book draws on academic literature; national, regional, and international legislations; and data collected from field research, and makes use of end-of-chapter discussion questions and quick study guides. Students will come away equipped with the tools, resources, and knowledge necessary to address and fix VAW in sub-Saharan Africa and beyond. This revised and updated edition incorporates new acts, such as the Policing and Crime Act 2017 and Mental Capacity (Amendment) Act 2019. It also covers the findings and implications from Professor Sir Simon Wessely's 2018 review of the Mental Health Act in a new chapter. Written by two leading psychiatrists with many years of experience in using the mental health legislation and in running mental health law courses, this book outlines how changes to statutes and case law have a direct bearing on day-to-day psychiatric practice and why it is important that clinicians of all disciplines have access to and understand the legislation. This is the go-to guide for all clinicians, doctors and nurses working in mental health services. **Indiana Notary Public Guide** Lulu.com A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual. **Computer Security Handbook, Set** John Wiley & Sons Computer security touches every part of our daily lives from our computers and connected devices to the wireless signals around us. Furthermore, the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty, but does not detail how such a body should be established and how it should effectively function. The Arms Trade Treaty: A Commentary explains in detail each of the treaty provisions, the parameters for prohibitions or the denial of transfers, international cooperation and assistance, and implementation obligations and mechanisms. As states ratify and implement the Treaty over the next few years, the commentary provides invaluable guidance to government officials, commentators, and scholars on the meaning of its contentious provisions. This volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the Arms Trade Treaty regulates. It covers international human rights, trade, disarmament, humanitarian law, criminal law, and state-to-state use of force, as well as the application of the treaty to non-state actors. **Cohort Default Rate Guide, Published August 2001 How to Think about Homeland Security Risk, Threats, and the New Normal** Rowman & Littlefield Volume 2: Risk, Threats, and the New Normal explains the new political and technological developments that created new domestic national security threats against the nation and the people of the United States. **FEAC Certified Enterprise Architect CEA Study Guide** McGraw Hill Professional "The only official study guide to CEA--the #1 vendor-neutral enterprise architecture certification Written and authorized by the FEAC Institute, FEAC Certified Enterprise Architect CEA Study Guide offers complete coverage of all the material on the Certified Enterprise Architect exam. Social Studies A Practical Guide to Life After Your Degree** Routledge Thousands of students graduate from university each year. The lucky few have the rest of their lives mapped out in perfect detail - but for most, things are not nearly so simple. Armed with your hard-earned degree the possibilities and career paths lying before you are limitless, and the number of choices you suddenly have to make can seem bewildering. Life After ... Social Studies has been written specifically to help students currently studying, or who have recently graduated, make informed choices about their future lives. It will be a source of invaluable advice and wisdom to business graduates (whether you wish to use your degree directly or not), covering such topics as: Identifying a career path that interests you Seeking out an opportunity that matches your skills and aspirations Staying motivated and pursuing your goals Networking and self-promotion Making the transition from scholar to worker Putting the skills you have developed at university to good use in life. The Life After ... series of books are more than simple 'career guides'. They are unique in taking a holistic approach to career advice - recognising the increasing view that, although a successful working life is vitally important, other factors can be just as essential to happiness and fulfilment. They are the indispensable handbooks for students considering their future direction. **The Future of Commercial Law Ways Forward for Change and Reform** Bloomsbury Publishing The reform of commercial law through harmonisation, unification, codification and other means remains one of the most important projects in developing the institutional architecture for the global economy. This edited collection engages with the challenges and contributes to a greater understanding of the problems faced by states.

international organisations, and private sector actors in this ongoing reform project for commercial law. The volume takes stock of the project to date and looks towards a restructuring of the agenda to deal with new challenges. The primary aim of the collection is to understand the future of commercial law reform in a way that offers ideas and strategies for innovation as well as in methodologies for project selection and evaluation. In so doing, the collection informs the debate on the global reform of commercial law and will be of interest not only to academics, but also to those involved in the reform of commercial law around the world. The volume collects papers presented at the UK Society of Legal Scholars Annual Seminar 2017. **The Hague Child Abduction Convention A Critical Analysis** A&C Black International child abduction is one of the most emotionally charged and fascinating areas of family law practice. The 1980 Hague Convention on the Civil Aspects of International Child Abduction was the response of the international community to the increase in the phenomenon of parental child abduction. However, behind the widely acclaimed success of this Convention - which has now been ratified by more than 90 states - lie personal tragedies, academic controversy and diplomatic tensions. The continuing steady flow of case-law from the various Member States has resulted in the emergence of different approaches to the interpretation of key concepts in the Convention. In addition, over the years other global and regional legal instruments and the recommendations of the Special Commissions have had an impact on the implementation of the Convention. This book brings together all these strands and provides an up-to-date, clear and highly readable discussion of the international operation of the Abduction Convention together with in-depth critical academic analysis in light of the objectives of the Convention and other relevant legal norms, such as the 1989 UN Convention on the Rights of the Child. Throughout the book, examples are brought from case law in many jurisdictions and reference is made to relevant legal and social science literature and empirical research. Over the past decade, increasing focus has been placed on what might be seen as procedural issues, such as separate representation for children, undertakings, judicial liaison and mediation. The book analyses the significance of these developments and the extent to which they can help resolve the continuing tension between some of the objectives of the Convention and the interests of individual children. This book will be essential reading for judges, practitioners, researchers, students, policy-makers and others who are seeking a critical and informed analysis of the latest developments in international abduction law and practice. From the Foreword by Brenda Hale, Justice of the Supreme Court of the United Kingdom 'This book is, as far as I am aware, the first scholarly monograph to study the interpretation and application of the Convention across the whole legal space which it occupies and to critically assess these in light of the object and purposes of the Convention and other relevant legal norms. Cases are drawn from many jurisdictions to discuss how different countries interpret the Convention and links are made with relevant statistical, social and psychological research in a thoughtful discussion of the significance of such material both to judicial decision-making and to policy development...a study which deserves to be read by anyone with an interest in the modern phenomenon of international child abduction, whether judge, practitioner, policy-maker, parent, researcher or scholar. There is plenty for us all to think about.' **Environmental Change and Human Security in Africa and the Middle East** Springer This volume brings together insights on the interactions between environmental change and human security in the Middle East and Africa. These regions face particular challenges in relation to environmental degradation, the decline of natural resources and consequent risks to current and future human security. The chapters provide topical analysis from a range of disciplines on the theory, discourse, policy and practice of responding to global environmental change and threats to human security. Case studies from Morocco, Tunisia, Egypt, Turkey, Iraq and Syria provide empirical evidence, with a focus section dedicated to the critical issue of water resources and water security in the region. The contributions demonstrate above all that the risks posed to human security arise through multiple and interconnected processes operating across diverse spatial and temporal scales. The complexity of these processes requires new ways of thinking and intervening. As a contribution, the current volume provides engaging insights from theory and practice for those seeking to address the challenges of environmental change. **Judicial Bench Book on Violence Against Women in Commonwealth East Africa** Commonwealth Secretariat The Judicial Bench Book on Violence Against Women in Commonwealth East Africa situates VAW in Kenya, Rwanda, Tanzania and Uganda. By placing VAW within the socio-cultural and legal context of the region, the bench book will enhance the ability of judicial officers to handle cases of VAW, both within a human rights as well as a gender perspective. **Missouri Notary Handbook** Lulu.com We are pleased to provide you with this Missouri Notary Public Handbook. The powers and responsibilities of a notary are described in the Missouri Revised Statutes Chapter 486. The provisions of this statute are included in this handbook for your convenience. In addition to the statutes, this resource provides general information related to your role as a notary, a glossary of important terms and copies of key application forms to assist you in the administration of your notary duties. **Sustainable procurement The power of public and private consumption for an inclusive green economy** Public Administration and Citizenship Program "It's a fight against time." That is how the book begins, presenting a historical background of how the topic of sustainable production and consumption was included in the global agenda and reached Brazil. It is clear in the work who and what the potential actors and instruments that interact for that purpose are. In a fun way, thematic infographics show the impact from consumption and production, inspired by Life Cycle Assessment (LCA). In Chapters 2 and 3, readers will find inspiring examples of institutional procurement collected through exclusive interviews, news articles, corporate reports and scientific articles describing successful experiences in the public and private sectors, highlighting which institutions broke the resistance and became protagonists in the use of transformation potential through sustainable consumption and production. In Chapter 4, under a guidance perspective, two tools are recommended for continuously improving management of public and business procurement - the former was developed by ICLEI, for the Procura+ campaign, and the latter by the UN Global Compact. Also, propositions are presented in order to incorporate sustainability attributes in the procurement and supply management systems. Based on our experiences with consultancies and projects in partnership with governments, business platforms and academic researches, a survey was conducted with about 50 institutions, among public bodies and businesses, organizing lessons learnt and calling attention for facilitators and barriers of institutional consumption aimed at sustainability. Among the institutions we surveyed, we picked up the examples described in this work. Finally, in Chapter 5, under an integrated perspective of sectors and actors, including individual consumers, we made a critical analysis of the advancements and challenges faced in the past years, and point to guidelines for the future of the so-wanted 'inclusive green economy', considering institutional procurement as an essential tool to (re)build a global scenario that is more favorable to sustainable development. **Caring for Veterans and Their Families: A Guide for Nurses and Healthcare Professionals** Jones & Bartlett Learning Of the approximately 20 million veterans of the U.S. armed forces, less than half utilize the Veteran's Health Administration health care system. Scholars have proposed various arguments to explain this process ranging from bureaucratic politics, to nationalism, and to the security dilemma. The Nexus of Naval Modernization in India and China demonstrates that from 1990 until 2020, the primary driver of naval modernization resulted from a strategic rivalry. Key to strategic rivalries is perceived threat perceptions that cause decision makers to prepare for worst-case scenarios when trying to decipher their enemy's behaviour. When a state believes it is threatened by a rival's naval power it is likely to pursue its own form of naval modernization for self-protection. Importantly, rivalries do not exist in a vacuum and are frequently linked. This project will reveal how the interconnected nature of rivalries can also cause naval modernization. Through a close examination of scholarly works, government documents, and in-depth focused interviews with experts based in India, China, Australia, and the U.S. Colley argues that while strategic rivalry is not the only driver of naval modernization, it is the most compelling explanation. Other arguments are frequently embedded within the strategic rivalry model and thus are best seen as only partial drivers. This study contributes to the rivalry research program as well as the policy and security studies literatures. **Essential Readings in Problem-Based Learning Exploring and Extending the Legacy of Howard S. Barrows** Purdue University Press Like most good educational interventions, problem-based learning (PBL) did not grow out of theory, but out of a practical problem. Medical students were bored, dropping out, and unable to apply what they had learned in lectures to their practical experiences a couple of years later. Neurologist Howard S. Barrows reversed the sequence, presenting students with patient problems to solve in small groups and requiring them to seek relevant knowledge in an effort to solve those problems. Out of his work, PBL was born. The application of PBL approaches has now spread far beyond medical education. Today, PBL is used at levels from elementary school to adult education, in disciplines ranging across the humanities and sciences, and in both academic and corporate settings. This book aims to take stock of developments in the field and to bridge the gap between practice and the theoretical tradition, originated by Barrows, that underlies PBL techniques. **California State Publications A Monthly Listing of Official California State Documents Received by the Government Publications Section of the California State Library** Macau's Languages in Society and Education Planning in a Multilingual Ecology Springer Nature This book examines the role of English within education and society in the quickly changing city of Macau. Macau's multilingual language ecology offers the unique opportunity to examine language planning and policy issues within a small speech community. The languages within the ecology include several Chinese varieties, such as Cantonese, Putonghua and Hokkien, European languages like Portuguese and English, and a number of Asian languages that include, among others, Burmese, Filipino languages, Japanese, Timorese, etc. As the smallest city in South China's Pearl River Delta, Macau has sought to maintain cultural and linguistic independence from its larger neighbours, and independence has been built upon an historic commitment to multilingualism and cultural plurality. As economic development and globalisation offer new opportunities to a growing middle class, the sociolinguistics of a small society constrain and influence the language policies that the territory seeks to implement. Macau's multilingual and pluralistic response to language needs within the territory echoes historical responses to similar challenges and suggests that small communities function sociolinguistically in ways that differ from larger communities. **International Handbook of Public Procurement** Routledge Since the 1990s, government at all levels is under increasing pressure to do more with less. However, despite the U.S. government spending about 15 to 20 percent of its GDP on contracts for goods and services, there is a paucity of reference books for public procurement officials and very few textbooks for courses on the subject. Filling this void, the International Handbook of Public Procurement provides the knowledge necessary to understand how procurement works and how to improve the cost-effectiveness of procurement systems. Taking a multidisciplinary approach, the book focuses on the managerial, economic, political, and legal aspects of this topic. It begins with a conceptual framework and highlights various reforms occurring in certain countries. By examining these improvements, readers are able to apply this knowledge to their own strategies. The next section presents selected cases that illustrate the public procurement process, examining systems in various nations including Germany, China, South Africa, Cambodia, Uganda, and Estonia. The book also discusses the rise of electronic procurement systems (E-procurement) and reviews the benefits of these efficient systems. Other topics presented in this comprehensive volume include practical discussions on contract negotiations, bidding, price strategies and cost analysis, and an insightful chapter on the market's response to contract award announcements. A virtual encyclopedia from numerous international experts, this book was assembled by Khi V. Thai, Professor at Florida Atlantic University and Editor of the Journal of Public Procurement. Dr. Thai has provided technical assistance in the area of public procurement to governments across the world. Empowering those on all sides of the issue, this volume dispenses advice valuable to government officials and contractors, as well as providing a comprehensive text for public administration students. **Handbook of Research on E-Learning Applications for Career and Technical Education: Technologies for Vocational Training** IGI Global Provides an authoritative reference collection on leading international insights into the integration of technology tools and applications with adult and vocational instruction. **Web 2.0-Based E-Learning: Applying Social Informatics for Tertiary Teaching** IGI Global "This book deals with Web 2.0 and how social

This CSIS study fulfills that congressional requirement. **Remediation of Buried Chemical Warfare Materiel** National Academies Press As the result of disposal practices from the early to mid-twentieth century, approximately 250 sites in 40 states, the District of Columbia, and 3 territories are known or suspected to have buried chemical warfare materiel (CWM). Much of this CWM is likely to occur in the form of small finds that necessitate the continuation of the Army's capability to transport treatment systems to disposal locations for destruction. Of greatest concern for the future are sites in residential areas and large sites on legacy military installations. The Army mission regarding the remediation of recovered chemical warfare materiel (RCWM) is turning into a program much larger than the existing munition and hazardous substance cleanup programs. The Army asked the Nation Research Council (NRC) to examine this evolving mission in part because this change is significant and becoming even more prominent as the stockpile destruction is nearing completion. One focus in this report is the current and future status of the Non-Stockpile Chemical Material Project (NSCMP), which now plays a central role in the remediation of recovered chemical warfare materiel and which reports to the Chemical Materials Agency. Remediation of Buried Chemical Warfare Materiel also reviews current supporting technologies for cleanup of CWM sites and surveys organizations involved with remediation of suspected CWM disposal sites to determine current practices and coordination. In this report, potential deficiencies in operational areas based on the review of current supporting technologies for cleanup of CWM sites and develop options for targeted research and development efforts to mitigate potential problem areas are identified. **Defense Against the Dark Arts in Space Protecting Space Systems from Counterspace Weapons** Rowman & Littlefield This analysis from the CSIS Aerospace Security Project addresses different methods and technologies that can be used by the United States government, and others, to protect against or deter adversarial attacks via counterspace weapons. **State of Maine Motorist Handbook and Study Guide** How does this work?Everyone jokes about the ferocity of Maine winters, but driving in them is no laughing matter, which is why in order to get your driver's permit, you need to thoroughly study this: the Maine Driver's Handbook.
