FORESTRY CAMP: GUIDE AND PRACTICAL

Universiti Malaysia Sabah Press Universiti Malaysia Sabah (UMS) through the Faculty of Tropical Forestry (formerly known as School of International Tropical Forestry) have conducted forestry camp in the Forestry education curriculum since it was introduced in 2000. Every year, we bring the students sometimes two troops in a year to train them as a forester. At the same time, the lecturers and staff prepare the teaching materials and equipment needed for the camp, and of course, we teach them relatively similar content every year by the respective lecturer or expert with staff assistance. Indeed, writing this book is not an easy job when we have so many ideas but quite challenging to transform in a book due to time constraints and other commitments by the lecturers for many years. However, we got the motivation that we want the best for our students and we have experience in coordinating forest camps for many years. Therefore, we wrote this book to provide a guide and practical to the students about forestry camp for learning, forest mentoring, both theoretical and practical as a compliment in achieving forester values in the related forestry discipline, hard skills as well as soft skills. More than that, this book is also intended to reach a broad audience on basic knowledge about how to survive in the forest, introduction on some wild edible plant and non-forest resources, birds, wildlife, forest recreation as well as camping hazard management for those people who are intended for organizing camping in the forest. We hope that this publication provides invaluable insights that may help not only forestry students but also the people who love and enjoy the forest.

ATLAS OF THE HEART

MAPPING MEANINGFUL CONNECTION AND THE LANGUAGE OF HUMAN EXPERIENCE

Random House #1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."
