### THOSE BARREN LEAVES

**Aegitas** Those Barren Leaves is a satirical novel by Aldous Huxley, published in 1925. The title is derived from the poem 'The Tables Turned' by William Wordsworth which ends with the words: Enough of Science and of Art; Close up those barren leaves; Come forth, and bring with you a heart That watches and receives. Stripping the pretensions of those who claim a spot among the cultural elite, it is the story of Mrs. Aldwinkle and her entourage, who are gathered in an Italian palace to relive the glories of the Renaissance. For all their supposed sophistication, they are nothing but sad and superficial individuals in the final analysis.

### RELIGIOUS NARRATIVES IN ITALIAN LITERATURE AFTER THE SECOND VATICAN COUNCIL

#### A SEMIOTIC ANALYSIS

**Walter de Gruyter GmbH & Co KG** This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

### FRANCESCO FILELFO, MAN OF LETTERS

**Brill's Studies in Intellectua** Investigating the oeuvre of the Italian humanist Francesco Filelfo (1398-1481), this collection is the first one to make extensive use of the critical editions of Filelfo's numerous writings - in particular of his Epistolarium, published in 2016 by Jeroen De Keyser, who also edited this volume. Uncovering much new information not previously mentioned in the literature on Filelfo, twelve specialized scholars are drawing attention to long-neglected material, shedding new light on Filelfo's intellectual endeavors and his literary journey between Greek and Latin, as a prominent protagonist on the scene of fifteenth-century Italy. This illuminating collection offers historians of ideas as well as literary scholars and Neo-Latinists new inroads into Filelfo's vast oeuvre, and through it to the world of Quattrocento humanism.0Contributors include: Jean-Louis Charlet, Guy Claessens, Jeroen De Keyser, Tom Deneire, Ide Francois, James Hankins, Noreen Humble, Gary Ianziti, Han Lamers, David Marsh, John Monfasani, and Jan Papy.

**BETWEEN SALT WATER AND HOLY WATER: A HISTORY OF SOUTHERN ITALY**

---

W. W. Norton & Company "Lucid, evocative and richly detailed."—Jay Parini, author of *The Apprentice Lover* Both the Romans and the Greeks were attracted to the dramatically beautiful coasts and fertile plains of the region later known as "The Kingdom of the Two Sicilies." In fact, all myriad influences that shaped modern civilization in the Mediterranean come together in Southern Italy and Sicily. The world's first secular university was founded in Naples. Many of the elements of Italian culture as we now know it in the rest of the world—from comic opera to pizza—were born in the South. Art and music flourished there, as did progressive ideas about education, tolerance, and civic administration. Native Neopolitan and distinguished scholar Tommaso Astarita gives us a history both erudite and full of personality—from the freethinking, cosmopolitan King Frederick who conferred with Jewish and Muslim philosophers (and dared to meet with the Sultan) to the fisherman Masaniello who inspired artists and revolutionaries across Europe. In the medieval South, Jews, Muslims, and Greek and Latin Christians could practice their religions, speak their languages, and live in mostly peaceful cohabitation. From the sixteenth to the eighteenth century, Naples was on par with Paris, one of the largest and most cultured cities in Europe. During the Enlightenment, southern Italy captured the European imagination, and many people traveled far and wide to enjoy southern Italy's ancient ruins, beautiful landscapes, sweet music, and magnificent art, marveling at the lively temperament of the southern population. The drama and beauty of the region inspired visitors to claim that one had to "see Naples, and then die." Yet negative images of the Italian South's poverty, violence, superstition and nearness to Africa long fueled stereotypes of what was and was not acceptably "European." Goethe noted that he had gladly studied in Rome, but in Naples he wanted "only to live," for "Naples is a Paradise: everyone lives in a state of intoxicated self-forgetfulness, myself included. From the Normans and Angevins through Spanish and Bourbon rule to the unification of Italy in 1860 and the subsequent emigration of vast numbers of Southern Italians, *Between Salt Water and Holy Water* captures the rich, dynamic past of a vibrant land.

**GREAT SMALL FIATS**

---

---

[Veloce Publishing Ltd](#) In deciding which models to choose for inclusion in this book selected from Fiat's huge inventory, the author concentrated on three criteria - greatness, size and emotion. Where size is an easy parameter to qualify, greatness is more complicated because it is a combination of both the manufacturer's and the public's opinion. A car that is highly regarded by the public may not have been a commercial success and vice versa. A truly great car is one that works well for both parties. Emotion may be considered to be an element of greatness in that the public's 'love' for a car is a fantastic benefit for a manufacturer and must be treasured. Fiat have made the mistake of 'improving' an icon on several occasions only to find that public opinion went against them. Fortunately Fiat has been magnanimous enough to respond by giving the car buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of the '70s, '80s and '90s. Nuova Panda carries the banner to the present day.

## AMERICAN MULTINATIONALS AND JAPAN

---

### THE POLITICAL ECONOMY OF JAPANESE CAPITAL CONTROLS, 1899-1980

---

[BRILL](#) "This pioneering study of United States direct investment in Japan will interest academic specialists, business managers, and government policymakers in America, Japan, and elsewhere. Drawing on rich historical materials from both sides of the Pacific, including corporate records and government documents never before made public, Mason examines the development of both Japanese policy towards foreign investment and the strategic responses of American corporations. This history is related in part through original case studies of Coca-Cola, Dow Chemical, Ford, General Motors, International Business Machines, Motorola, Otis Elevator, Texas Instruments, Western Electric, and Victor Talking Machine. The book seeks to explain why a little foreign direct investment has entered modern Japan. In contrast to the widely held view that emphasizes an alleged lack of effort on the part of foreign corporations, this study finds that Japanese restrictions merit greater attention. Many analysts of the modern Japanese political economy identify the Japanese government as the key actor in initiating such restrictions. Mason finds that the influence of Japanese business has often proved more potent than these analysts suggest. This book offers fresh insights into both the operation of the modern Japanese political economy and of its relations with the world economy."

#### IMMIGRANTS TURNED ACTIVISTS

---

#### ITALIANS IN 1970S MELBOURNE

---

[Troubador Publishing](#) What do Australian celebrity chef Stefano de Pieri, former Labor state MP Giovanni Sgro, and the late SBS Italian Radio host Umberto Martinengo have in common? They are all Italian immigrants who became political militants, along with several hundreds more, in left-wing organisations and parties before or throughout the 1970s in Melbourne, a key period of Australian political history in the post-Second World War period. This book offers a unique insight into the life trajectories of politically active Italian immigrants and their left-wing grassroots organisations. It does so in the light of fresh archival data and a string of oral accounts gathered from former and current members and collaborators of leading left-wing organisations, such as the Italian Federation of Migrant Workers and Their Families (FILEF). This study, which portrays successful pro-migrant lobbying as well as organisational failures and political sectarianism, is a telling example of the political potential and limits of immigrant activism in Australia."

#### ALFA ROMEO TZ-TZ2

---

#### BORN TO WIN

---

[Giorgio Nada Editore Srl](#) Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.
