Read this book to... * Meet some fabulous pharaohs... and their mummies * Make revolting recipes for 3000 year old sweets * Discover which king had the most blackheads * Find out why some pharaohs wore false beards * Learn to become an Ancient Egyptian in 10 not-so-easy steps! If you like your history horrible, the Awesome Egyptians and their moaning mummies have it all wrapped up! Aaaaarrgh!*

A History of Ancient Egypt

From the First Farmers to the Great Pyramid

Macmillan *The ancient world comes to life in the first volume in a two book series on the history of Egypt, spanning the first farmers to the construction of the pyramids. Famed archaeologist John Romer draws on a lifetime of research to tell one history's greatest stories; how, over more than a thousand years, a society of farmers created a rich, vivid world where one of the most astounding of all human-made landmarks, the Great Pyramid, was built. Immersing the reader in the Egypt of the past, Romer examines and challenges the long-held theories about what archaeological finds mean and what stories they tell about how the Egyptians lived. More than just an account of one of the most fascinating periods of history, this engrossing book asks readers to take a step back and question what they've learned about Egypt in the past. Fans of Stacy Schiff's Cleopatra and history buffs will be captivated by this re-telling of Egyptian history, written by one of the top Egyptologists in the world.*

The British Study Edition of the Urantia Papers Book [eReader PDF]

Tigran Aivazian *The British Study Edition of the Urantia Papers is based on the standard SRT text, but uses the metric system and adds a critical apparatus of textual variants and study notes.*

A Little History of the World Illustrated Edition

Yale University Press *E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human*

history.

Horrible Histories: Ruthless Romans

Scholastic UK Ruthless Romans reveals the grim goings-on of the greatest empire ever, from the terrible twins who founded Rome to the evil emperors who made murder into a sport. Read on for gory details about the cruel Colosseum and the people and animals who were massacred there... and find out how, if you upset them enough, the ruthless Romans would CRUCIFY you. Eeek!

Horrible Histories: Rotten Romans

Scholastic UK Go back into the really rotten times of the Romans, where there were beastly battles, deadly doctors and marvellous myths. Discover what Roman soldiers wore under their kilts, how ancient Britons got their hair nice and how Romans told the future with dead chickens. With a bold, accessible new look, these bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans. Revised by the author to make Horrible Histories more accessible to young readers.

Inside Inequality in the Arab

Republic of Egypt

Facts and Perceptions Across

People, Time, and Space

World Bank Publications Inside Inequality in the Arab Republic of Egypt: Facts and Perceptions Across People, Time, and Space comprises four papers prepared in the framework of the Egypt inequality study financed by the World Bank. The first paper, by Sherine Al-Shawarby, reviews the studies on inequality in Egypt since the 1950s with the double objective of illustrating the importance attributed to inequality through time and of presenting and compare the main published statistics on inequality. The second paper, by Branko Milanovic, turns to the global and spatial dimensions of inequality. The Egyptian society remains deeply divided across space and in terms of welfare, and this study unveils some of the hidden features of this inequality. The third paper, by Paolo Verme, studies facts and perceptions of inequality during the 2000-2009 period, which preceded the Egyptian revolution. The fourth paper, by Sahar El Tawila, May Gadallah, and Enas Ali A.El-Majeed, assesses the state of poverty and inequality among the poorest villages of Egypt. The paper attempts to explain the level of inequality in an effort to disentangle those factors that derive from household abilities from those factors that derive from local opportunities. Inside Inequality in the Arab Republic of Egypt provides some initial elements that could explain the apparent mismatch between inequality measured with household surveys and inequality aversion measured by values surveys. This is

a particularly important and timely topic to address in light of the unfolding developments in the Arab region. The book should be of interest to any observer of the political and economic evolution of the Arab region in the past few years and to poverty and inequality specialists interested in a deeper understanding of the distribution of incomes in Egypt and other countries in the Middle East and North Africa region. World Bank Studies are available individually or on standing order. The World Bank Studies series is also available online through the Open Knowledge Repository (<https://openknowledge.worldbank.org/>) and the World Bank e-Library (www.worldbank.org/elibrary). Book jacket.

Sphinx

History of a Monument

Cornell University Press "Sphinxes are legion in Egypt—what is so special about this one? . . . We shall take a stroll around the monument itself, scrutinizing its special features and analyzing the changes it experienced throughout its history. The evidence linked to the statue will enable us to trace its evolution . . . down to the worship it received in the first centuries of our own era, when Egyptians, Greeks, and Romans mingled together in devotion to this colossus, illustrious witness to a past that was already more than two millennia old."—from the Introduction

The Great Sphinx of Giza is one of the few monuments from ancient Egypt familiar to nearly everyone. In a land where the colossal is part of the landscape, it still stands out, the largest known statue in Egypt. Originally constructed as the image of King Chephren, builder of the second of the Great Pyramids, the Sphinx later acquired new fame in the guise of the sun god Harmakhis. Major construction efforts in the New Kingdom and Roman Period transformed the monument and its environs into an impressive place of pilgrimage, visited until the end of pagan antiquity. Christiane Zivie-Coche, a distinguished Egyptologist, surveys the long history of the Great Sphinx and discusses its original appearance, its functions and religious significance, its relation to the many other Egyptian sphinxes, and the various discoveries connected with it. From votive objects deposited by the faithful and inscriptions that testify to details of worship, she reconstructs the cult of Harmakhis (in Egyptian, Har-em-akhet, or "Horus-in-the-horizon"), which arose around the monument in the second millennium. "We are faced," she writes, "with a religious phenomenon that is entirely original, though not unique: a theological reinterpretation turned an existing statue into the image of the god who had been invented on its basis." The coming of Christianity ended the Great Sphinx's religious role. The ever-present sand buried it, thus sparing it the fate that overtook the nearby pyramids, which were stripped of their stone by medieval builders. The monument remained untouched, covered by its desert blanket, until the first excavations. Zivie-Coche details the archaeological activity aimed at clearing the Sphinx and, later, at preserving it from the corrosive effects of a rising water table.

The Egyptians

A Radical History of Egypt's Unfinished Revolution

New Press, The The award-winning journalist and longtime Cairo resident delivers a “meticulous, passionate study” of the ongoing battle for contemporary Egypt (*The Guardian*). On January, 25, 2011, a revolution began in Egypt that succeeded in ousting the country’s longtime dictator Hosni Mubarak. In *The Egyptians*, journalist Jack Shenker uncovers the roots of the uprising and explores the country’s current state, divided between two irreconcilable political orders. Challenging conventional analyses that depict a battle between Islamists and secular forces, *The Egyptians* illuminates other, equally important fault lines: far-flung communities waging war against transnational corporations, men and women fighting to subvert long-established gender norms, and workers dramatically seizing control of their own factories. Putting the Egyptian revolution in its proper context as an ongoing popular struggle against state authority and economic exclusion, *The Egyptians* explains why the events since 2011 have proved so threatening to elites both inside Egypt and abroad. As Egypt’s rulers seek to eliminate all forms of dissent, seeded within the rebellious politics of Egypt’s young generation are big ideas about democracy, sovereignty, social justice, and resistance that could yet change the world. “I started reading this and couldn’t stop. It’s a remarkable piece of work, and very revealing. A stirring rendition of a people’s revolution as the popular forces that Shenker vividly depicts carry forward their many and varied struggles, with radical potential that extends far beyond Egypt.” —Noam Chomsky

Horrible Histories: Vicious Vikings (New Edition)

Scholastic UK Sail back to a vicious time with fearsome seafaring Viking warriors with big boats, big shields and enormous ginger beards. Readers can discover all the foul facts about the Vicious Vikings, including Viking gods in wedding dresses, corpses on trial and Death by booby-trapped statues. With a bold, accessible new look, these bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans. Revised by the author and illustrated throughout to make Horrible Histories more accessible to young readers.

When Egypt Ruled the East

University of Chicago Press Here, adequately presented for the first time in English, is the fascinating story of a splendid culture that flourished thirty-five hundred years ago in the empire on the Nile: kings and conquests, gods and heroes, beautiful art, sculpture, poetry, architecture. Significant archeological discoveries are constantly being made in Egypt. In this revision Professor Steele has rewritten whole chapters on the basis of these new finds and offers several new conclusions to age-old problems.

Incredible Incas

Learn all about the incredible Incas, with all the nasty bits left in. Find out the horrible truth, like how a bucket of stewed pee could make you beautiful, why servants ate the emperor's hair and what happened in their legendary golden temples. Includes a grisly quiz to test your knowledge. These bestselling titles are sure to be a huge hit with yet another generation of Terry Deary fans.

Stolen Legacy

Simon and Schuster For centuries the world has been misled about the original source of the Arts and Sciences; for centuries Socrates, Plato and Aristotle have been falsely idolized as models of intellectual greatness; and for centuries the African continent has been called the Dark Continent, because Europe coveted the honor of transmitting to the world, the Arts and Sciences. It is indeed surprising how, for centuries, the Greeks have been praised by the Western World for intellectual accomplishments which belong without a doubt to the Egyptians or the peoples of North Africa.

Treasury of Egyptian Mythology

Classic Stories of Gods, Goddesses, Monsters & Mortals

National Geographic Books *The new National Geographic Treasury of Egyptian Mythology is a stunning tableau of Egyptian myths, including those of pharaohs, queens, the boisterous Sun God Ra, and legendary creatures like the Sphinx. The lyrical storytelling of award-winning author Donna Jo Napoli dramatizes the timeless tales of ancient Egypt in the year when Angelina Jolie will make Cleopatra a multimedia star. And just like the popular National Geographic Treasury of Greek Mythology, the stories in this book will be beautifully illustrated to bring ancient characters vividly to life. The stories are embellished with sidebars that provide historical, cultural, and geographic context and a mapping feature that adds to the fun and fascination. Resource notes and ample back matter direct readers to discover more about ancient Egypt. With its attractive design and beautiful narrative, this accessible treasury stands out from all other mythology titles in the marketplace.*

Death and Salvation in Ancient Egypt

Cornell University Press "Human beings," the acclaimed Egyptologist Jan Assmann writes, "are the animals that have to live with the knowledge of their death, and culture is the world they create so they can live with that knowledge." In his new book, Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole. Drawing on the unfamiliar genre of the death liturgy, he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt. Assmann describes in detail nine different images of death: death as the body being torn apart, as social isolation, the notion of the court of the dead, the dead body, the mummy, the soul and ancestral spirit of the dead, death as separation and transition, as homecoming, and as secret. *Death and Salvation in Ancient Egypt* also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual.

The Book of the Dead

BoD - Books on Demand *Reproduction of the original: The Book of the Dead* by E. A. Wallis Budge

The Seventy Great Mysteries of Ancient Egypt

Ancient Egypt so familiar and yet so distant. In this new compendium in the popular *Seventy* series, an international team of Egyptologists and archaeologists probes the most compelling mysteries in the light of recent research and discoveries. First, there are the puzzles that set the ancient Egyptians apart from other cultures. Where did these people come from originally, and why did they believe their king was a god? Why did they mummify their loved ones in death and then write letters to them? Some mysteries revolve around Egypt's relations with other peoples such as the lost African kingdoms of Yam and Punt, the Israelites and their exodus to the Promised Land, or the Sea People warriors of the ancient Mediterranean. Even today, Egyptologists continue to unearth new mysteries: evidence that Tutankhamun was murdered, unexplained shafts inside the Great Pyramid that seem to align with the stars, and a massive mausoleum built for the sons of Rameses II. All the famous people and places of ancient Egypt are discussed: Rameses the Great, Cleopatra, Akhenaten, the Great Pyramid, the Valley of the Kings as well as fascinating but shadowy figures such as Senenmut, Smendes, and Khababash. Hundreds of evocative photographs and specially commissioned diagrams, maps, plans, and reconstructions complement the intriguing texts. 420 illustrations, 354 in color.

Horrible Histories: Angry Aztecs

Scholastic Non-Fiction Discover all the foul facts about the Angry Aztecs, including why the Aztecs liked to eat scum, when the world is going to end and their horrible habit of drinking live toads in wine. Global Trends 2040

A More Contested World

[Cosimo Reports](#) *"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and*

anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Face to Face Meetings With Jesus Christ 3 (PDF)

Revealing the End of the Age

Felix Wantang *We all live in a world where virtually every spiritual struggle is practically beyond our control. While some of us will die instantly without the opportunity to consciously sense death beforehand, others on the other hand will have the opportunity to know well in advance that death is around the corner. Regardless of which group you eventually find yourself, the truth is that every life on earth will one day without notice suddenly come to an end followed by a swift judgment with no excuses whatsoever. Do you know your final destination? When the disciples asked Jesus about the End of the Age, he said to them, "No one knows about that day or hour, not even the angels in heaven, nor the Son, but only the Father." Matthew 24:36. But in this book and for the first time in human history, Jesus discloses a unique breathtaking code in the Language of Heaven that reveals the only clue to the End of the Age. God's spiritual principle of life for humanity on earth is, "All about Him" because He wants us to make Him the priority of our lives. But on judgment day, when you appear before Jesus Christ, that will all change because God's spiritual principle of life for humanity will become, "All about you". You either have Jesus Christ to enter God's Paradise in Heaven or you don't. What makes your life a supernatural success is where you effectively go from this world; not where you came from or what you did on earth at the expense of salvation. No eyes have ever seen, no ears have ever heard, and no human mind can fathom what God is about to unleash on earth through the second coming of His son. This book will give you all the supernatural Biblical spiritual details you need to prepare yourself for what the Bible described as "The Final Hour." The time is at hand; Jesus loves you. This book is Volume 3 of "Face to Face Meetings with Jesus Christ". Apart from him, we can do nothing.*

Global Trends 2030

Alternative Worlds : a Publication of the National Intelligence Council

U.S. Government Printing Office *This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but*

instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

Sophie's World

A Novel About the History of Philosophy

Farrar, Straus and Giroux *One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.*

The Good Kings

Absolute Power in Ancient Egypt and the Modern World

Disney Electronic Content *Written in the tradition of historians like Stacy Schiff and Amanda Foreman who find modern lessons in ancient history, this provocative narrative explores the lives of five remarkable pharaohs who ruled Egypt with absolute power, shining a new light on the country's 3,000-year empire and its meaning today.*

The Prodigies of Egypt

Createspace Independent Publishing Platform *Murtada ibn al-'Afif, also known as Murtadi, son of Gaphiphus (1154 or 1155-1237 CE), was an obscure Arabian writer who studied in Alexandria, Damascus, and Cairo. While he is credited with having written many books, no titles survive, not even the original title of his only complete work to survive to modern times, the book known variously as the Egyptian History or the Prodigies of Egypt, which reported traditional folklore associated with the pyramids, the Flood, and the wonders of Egypt. In French and English translations (the Arabic original was lost) the Prodigies of Egypt influenced the English Romantics, and it preserves some legends of Egypt not found in other sources. This edition reprints the 1672 translation of John Davies to bring this medieval treasury to modern readers in its classic and widely-cited English translation.*

Ancient Egypt

Gods and Pharaohs

Napoleon's Egypt

Invading the Middle East

Macmillan Recounts the occupation of Egypt by Napoleon and his army, describing how misunderstandings and miscalculations on both sides led to the failure of the ill-fated French attempt to bring liberty and the rule of law to the country.
