Jet Cutting Technology

Springer Science & Business Media This volume contains papers presented at the 11th International Conference on Jet Cutting Technology, held at St. Andrews, Scotland, on 8-10 September 1992. Jetting techniques have been successfully applied for many years in the field of cleaning and descaling. Today, however, jet cutting is used in operations as diverse as removing cancerous growths from the human body, decommissioning sunsea installations and disabling explosive munitions. The diversity is reflected in the papers presented at the conference. The papers were divided into several main sections: jetting basics -- materials; jetting basics -- fluid mechanics; mining and quarrying; civil engineering; new developments; petrochem; cleaning and surface treatment; and manufacturing. The high quality of papers presented at the conference has further reinforced its position as the premier event in the field. The volume will be of interest to researchers, developers and manufacturers of systems, equipment users and contractors.

Manufacturing Facilities Design and Material Handling

Pearson Educación This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

Process for Assessing Proper Functioning Condition

This technical reference outlines the Bureau of Land Management's (BLM's) process for assessing the functioning condition of riparian areas on public lands. Emphasis is placed on the interaction of vegetation, landforms/soils, and hydrology in defining capability and potential of an area. The importance of using an interdisciplinary team is also stressed. The document describes all four categories of functioning condition--proper functioning condition, functional-at risk, nonfunctional, and unknown, and discusses management strategies for each.

Hydrogen Power

An Introduction to Hydrogen Energy and Its Applications

Elsevier **Hydrogen Power: An Introduction to Hydrogen Energy and its Applications** explains how hydrogen is produced, used, and handled and shows that the use of chemical hydrogen power has enormous advantages as an energy storage, transport, and use medium. Organized into seven chapters, this book first describes the chemical and physical properties of hydrogen. Subsequent chapters elucidate the current industrial uses of hydrogen, methods of producing hydrogen, and hydrogen transportation and storage. Hydrogen safety and environmental considerations are also addressed.

Diversity and Complexity in Prehistoric Maritime Societies

A Gulf Of Maine Perspective

Springer Science & Business Media New England archaeology has not always been everyone's cup of tea; only late in the Golden of nineteenth-century archaeology, as archaeology's focus turned westward, did a few pioneers look northward as well, causing a brief flurry of investigation and excavation. Between 1892 and 1894, Charles C. Willoughby did some exemplary excavations at three small burial sites in Bucksport, Orland, and Ellsworth, Maine, and made some models of that activity for exhibition at the Chicago World's Fair. These activities were encouraged by E Putnam, director of the Harvard Peabody Museum and head of anthropology at the "Columbian" Exposition. Even earlier, another director of the Peabody, Jeffries Wyman, spawned some real interest in the shellheaps of the Maine coast, but that did not last very long. Twentieth-century New England archaeology, specifically in Maine, was--for its first fifty years--rather low key too, with short-lived but important activity by Arlo and Oric (a Bates Harvard student) prior to World War Later, I. another Massachusetts institution, the Peabody Foundation at Andover, took some minor but responsible steps toward further understanding of the area's prehistoric past.

Issues in Aging

Routledge Opportunities and optimism in Aging. Issues in Aging, 3rd edition takes an optimistic view of aging and human potential in later life. This book presents the most up-to-date facts on aging today, the issues raised by these facts, and the societal and individual responses that will create a successful old age for us all. Mark Novak presents the full picture of aging--exhibiting both the problems and the opportunities that accompany older age. The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions. Learning Goals -Upon completing this book, readers will be able to: -Understand how large-scale social issues--social attitudes, the study of aging, and demographic issues--affect individuals and social institutions - Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know -Separate the myths from the realities of aging -Recognize the human side of aging -Trace the transformation of pension plans, health, and opportunities for personal expression and social engagement to the new ecology of aging today

Ignite

Poems

Hillcrest Publishing Group "Kinzie soars . . ." --Kirkus ReviewsFrom top-selling author L E Kinzie comes her first collection of poems. Regardless of the subject matter, Kinzie's poetry reflects an unmatched ability to create works of palpable emotion. Kirkus Reviews agrees, saying Ignite is "a compilation of verse that's popular in the best sense of the word," and referring to it as "this sumptuous collection."Throughout the collection, readers will find remarkably relatable themes of daily life.Simply put, this book is for anyone who has ever felt and held any emotion so intensely it threatens to explode inward if not released through music, words, paint, or some other creation. It's for anyone who has marveled at how inner turmoil can be expressed as something unspeakably beautiful. It's for anyone who has ever created anything and loved it. It's for anyone who has ever created anyone and loved him or her.Ignite examines the sparks that alight threads of commonality between mankind.

PACFISH/INFISH Biological Opinion (PIBO)

Effectiveness Monitoring Program, Seven-year Status Report 1998 Through 2004

The PACFISH/INFISH Biological Opinion (PIBO) Effectiveness Monitoring Program was initiated in 1998 to provide a consistent framework for monitoring aquatic and riparian resources on most Forest Service and Bureau of Land Management lands within the Upper Columbia River Basin. This 7-year status report gives our funding sources, partners, and the public an overview of past activities, current business practices, products and publications, and future program directions. It is designed to increase accountability and summarize our accomplishments during the initial phase of the program.

Standard Construction Guidelines for Microtunneling

Amer Society of Civil Engineers This Standard Guideline covers the planning, design, pipe materials, and construction of microtunneling. Microtunneling is defined as a trenchless construction method for installing pipelines. The North American definition of microtunneling describes a method and does not impose size limitations on that method. The tunnel may be considered a microtunnel if all of the following features apply to construction: the microtunneling boring machine is remote controlled, a laser guidance system is employed, a jacking system is used for thrust, and continuous pressure is provided to the face of the excavation to balance groundwater and earth pressures. This Standard Guideline is a vital reference for owners, engineers, contractors, and construction managers.

Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

Power Converters with Digital Filter Feedback Control

Academic Press Power Converter with Digital Filter Feedback Control presents a logical sequence that leads to the identification, extraction, formulation, conversion, and implementation for the control function needed in electrical power equipment systems. This book builds a bridge for moving a power converter with conventional analog feedback to one with modern digital filter control and enlists the state space averaging technique to identify the core control function in analytical, close form in s-domain (Laplace). It is a useful reference for all professionals and electrical engineers engaged in electrical power equipment/systems design, integration, and management. Offers logical sequences to identification, extraction, formulation, conversion, and implementation for the control function needed. Contains step-by-step instructions on how to take existing analog designed power processors and move them to the digital realm. Presents ways to extract gain functions for many power converters' power processing stages and their supporting circuitry.

The Hardmen: Legends and Lessons from the Cycling Gods

Simon and Schuster Embrace and revel in the stories of the toughest cyclists of all time, told by The Velominati, originators of The Rules. Read and get ready to ride . . . In cycling, suffering brings glory: a rider's value can be judged by their results, but also by their panache and heroism. Prepared to be awed and inspired by Chris Froome riding on at the Tour de France with a broken wrist or Geraint Thomas finishing it with a broken pelvis. In The Hardmen the writers behind cycling superblog Velominati.com and The Rules will tell the stories and illuminate the myths of not just the greatest cyclists ever, but the toughest. From Eddy Merckx to Beryl Burton, and from Marianne Vos to Edwig Van Hooydonk, the book will lay bare the secrets of their extraordinary and inspirational endurance in the face of pain, danger and disaster. After all, suffering is one of the joys of being a cyclist. Embrace climbs, relish the descents, and get ready to harden up. . .
