MANAGEMENT INFORMATION SYSTEMS

MANAGING THE DIGITAL FIRM

Pearson Educación Management Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases.

BUICK NAILHEAD: HOW TO REBUILD & MODIFY 1953-1966

CarTech Inc Learn how to rebuild and upgrade your Buick Nailhead with the first book ever dedicated to the subject! In this all-new book from Nailhead racer and veteran engine builder Gary Weldon, you will learn everything you need to know about how to rebuild and upgrade the venerable Buick Nailhead engine. Weldon takes you through each step, including a review of the birth of the Nailhead, the benefits of its unique design, serial and casting number information to source and identify the best project, and a history of the engine in development. Also covered are the processes of rebuilding, including disassembly, inspection, sourcing the best parts, making critical upgrades, reassembly, and break-in. Of course, all the machine shop work is covered, and practical advice on building engines for competition is provided. The Nailhead was a throwback to the early overhead-valve engine design, and that unique design makes it a popular choice for period-correct hot rod projects. In addition, if your torquey Nailhead resides between the fenders of a Buick Special, LeSabre, Invicta, Roadmaster, Riviera, Century, Skylark, Wildcat, or Electra 225, this book will help you keep that old beauty on the road.

THE SMELL OF KEROSENE

A TEST PILOT'S ODYSSEY

Createspace Independent Pub The Smell of Kerosene tells the dramatic story of a NASA research pilot who logged over 11,000 flight hours in more than 125 types of aircraft. Donald Mallick gives the reader fascinating firsthand descriptions of his early naval flight training, carrier operations, and his research flying career with NASA and its predecessor agency, the National Advisory Committee for Aeronautics (NACA).

COST, EFFECTIVENESS, AND DEPLOYMENT OF FUEL ECONOMY TECHNOLOGIES FOR LIGHT-DUTY VEHICLES

National Academies Press The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several decades. New powertrain designs, alternative fuels, advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less air pollutants, have more safety features, and will be more expensive to purchase relative to current vehicles. Though the gasoline-powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030, such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more effective than others? Written to inform The United States Department of Transportation's National Highway Traffic Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate Average Fuel Economy (CAFE) and greenhouse gas (GHG) emission standards, this new report from the National Research Council is a technical evaluation of costs, benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential efficiency improvements, and barriers to commercial deployment of technologies that might be employed from 2020 to 2030. This report describes these promising technologies and makes recommendations for their inclusion on the list of technologies applicable for the 2017-2025 CAFE standards.

AMERICAN CARS, 1946-1959

EVERY MODEL, YEAR BY YEAR

McFarland From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955-1957 Chevrolets, the "Forward Look" Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company's models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.

ELECTRONIC VALUE EXCHANGE

ORIGINS OF THE VISA ELECTRONIC PAYMENT SYSTEM

Springer Science & Business Media Electronic Value Exchange examines in detail the transformation of the VISA electronic payment system from a collection of non-integrated, localized, paper-based bank credit card programs into the cooperative, global, electronic value exchange network it is today. Topics and features: provides a history of the VISA system from the mid-1960s to the early 1980s; presents a historical narrative based on research gathered from personal documents and interviews with key actors; investigates, for the first time, both the technological and social infrastructures necessary for the VISA system to operate; supplies a detailed case study, highlighting the mutual shaping of technology and social relations, and the influence that earlier information processing practices have on the way firms adopt computers and telecommunications; examines how "gateways" in transactional networks can reinforce or undermine established social boundaries, and reviews the establishment of trust in new payment devices.

NATION BRANDING

CONCEPTS, ISSUES, PRACTICE

Routledge Nation Branding: Concepts, Issues, Practice was the ground-breaking first textbook to provide an overview of this recently established but fast-growing practice, in which the principles of brand management are applied to countries rather than companies. Many governments have invested in nation branding in order to strengthen their country's influence, improve its reputation, or boost tourism, trade and investment. This new edition has been comprehensively revised and its influential original framework modified to reflect the very latest changes to this still-developing field. It remains an accessible blend of theory and practice rich with international examples and contributions. Updates to this edition: New international cases of countries as diverse as China, United Arab Emirates, Ghana, Cuba, India, Great Britain and many more; New contributions from distinguished scholars, diplomats and businesspeople providing a range of case studies, practitioner insights and academic perspectives; New Companion Website to support the book featuring instructor aids such as PowerPoint presentations for each chapter and an instructor manual; This much-anticipated update to an influential book is an essential introduction to nation branding for students and policy makers.

ENGINEERING THE SPACE AGE

A ROCKET SCIENTIST REMEMBERS

CreateSpace Rarely is a reader exposed to such an extraordinary, multifaceted presentation of aerospace technology as Bob Brulle narrates in this book. After returning from duty as a combat fighter pilot in World War II, this Belgian immigrant developed a multitiered and innovative aerospace career path that addressed many of the aerospace professions. Along the way he forged a career in the aviation and space field that resulted in his participating in several of the most momentous aerospace achievements of the past century. He also expanded his education through hard work to a level at which he was qualified to teach graduate-level aerospace engineering courses. It is interesting to follow how the analysis and design techniques of aerospace vehicles progressed over the years, which incidentally reveals the large role that the computer played in making that possible. The story on the early Cape Canaveral operations was amusing and showed that enterprising innovations played a large role in a successful undertaking. Some of the projects described were a surprise, as I had never heard of them, like reading how a pencil-shaped missile was built that could fly and maneuver over an intercontinental distance at a high hypersonic velocity. He also described how American engineers and scientists fought the Cold War battle for technological supremacy on their desks and in their laboratories. The initiatives by which this enterprising engineer develops his technical approach to a project are very informative and offer the reader an insight into the workings of successful operations. He achieves an interesting behind-the-scenes look at how aerospace history is made by weaving in the historical significance of these projects as they are developed. As a former aeronautical engineer at the rapidly growing Mc-Donnell Aircraft Corporation, Bob gives us an interesting exposure to the importance of top management's relationship with the workforce in a successful company. "Mr. Mac" made it a point to make all his employees team members by frequent communication and friendly association.

AIRLINE OPERATIONS AND MANAGEMENT

A MANAGEMENT TEXTBOOK

Routledge Airline Operations and Management: A Management Textbook is a survey of the airline industry, mostly from a managerial perspective. It integrates and applies the fundamentals of several management disciplines, particularly economics, operations, marketing and finance, in developing the overview of the industry. The focus is on tactical, rather than strategic, management that is specialized or unique to the airline industry. The primary audiences for this textbook are both senior and graduate students of airline management, but it should also be useful to entry and junior level airline managers and professionals seeking to expand their knowledge of the industry beyond their own functional area.

NATION BRANDING

CONCEPTS, ISSUES, PRACTICE

Routledge Nation Branding: Concepts, Issues, Practice is a comprehensive and exciting text that demonstrates why nations are embracing the principles of brand management. It clearly explains how the concepts and techniques of branding can be adapted to the context of nations- as opposed to the more usual context of products, services, or companies. Concepts grounded in the brand management literature such as brand identity, brand image, brand positioning, and brand equity, are transposed to the domain of nation branding and supported by country case insights that provide vivid illustrations of nation branding in practice. Nation branding is a means by which more and more nations are attempting to compete on the global stage. Current practice in nation branding is examined and future horizons traced. The book provides: * The first overview of its kind on nation branding * A blend of academic theory and real world practice in an accessible, readable fashion * A clear and detailed adaptation of existing brand theory to the emerging domain of nation branding * An original conceptual framework and models for nation branding * A rich range of international examples and over 20 contributions by leading experts from around the world Country case insights on nation branding strategies currently being utilized by nations such as Japan, Egypt, Brazil, Switzerland, Iceland, and Russia Clearly and coherently structured, the book is an essential introduction to nation branding for both students and policymakers and will be an essential text for those interested in this fast growing area. Key Features: * Seminal text in a cutting-edge, controversial and crucial field of global importance * Ideal blend of theory and practice * Twenty individual country case studies, including USA, Hong Kong, Japan, New Zealand, Spain and China.

CHRYSLER TORQUEFLITE A-904 & A-727

HOW TO REBUILD

CarTech Inc The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

THE GODFATHER RETURNS

Random House Digital, Inc. A sanctioned sequel to Mario Puzo's blockbuster novel, The Godfather, continues the saga of the Corleone family, beginning in 1955 and recounting the events that occurred between the end of the original novel and the episodes chronicled in Coppola's movie sequels. Reprint.

BUSY PEOPLE: LIBRARIAN

Busy People Step inside the lives of Busy People. Each story focuses on a different character as they go about their daily work. Each day holds a new challenge ... In this story, Rita the librarian has to organise the library's birthday party, as well as finding the perfect story for each child to enjoy reading. Next Steps are included at the back of the book to prompt further discussion and develop vocabulary. More information is provided about the Busy People and the type of equipment they need as well as the characters that work alongside them.

WORKING

PEOPLE TALK ABOUT WHAT THEY DO ALL DAY AND HOW THEY FEEL ABOUT WHAT THEY DO

The New Press A Pulitzer Prize winner interviews workers, from policemen to piano tuners: "Magnificent . . . To read it is to hear America talking." —*The Boston Globe* A National Book Award Finalist and New York Times bestseller Studs Terkel's classic oral history *Working* is a compelling look at jobs and the people who do them. Consisting of over one hundred interviews with everyone from a gravedigger to a studio head, this book provides a "brilliant" and enduring portrait of people's feelings about their working lives. This edition includes a new foreword by New York Times journalist Adam Cohen (*Forbes*). "Splendid . . . Important . . . Rich and fascinating . . . The people we meet are not digits in a poll but real people with real names who share their anecdotes, adventures, and aspirations with us." —*Business Week* "The talk in *Working* is good talk—earthy, passionate, honest, sometimes tender, sometimes crisp, juicy as reality, seasoned with experience." —*The Washington Post*

FLINT, 1890-1960

Arcadia Publishing Many of the postcards that appear in this book were mailed more than 60 or 70 years ago, often bearing simple messages between friends and family members. Now the images are seen again, sharing some of the interesting history of Flint, Michigan. There are postcards from the time when the city had two passenger train stations a few blocks apart, and images of the first steel arches over Saginaw Street. There are images of busy streetcars and the factories that made the town a leading producer of carriages and wagons, earning it the nickname "Vehicle City." Other postcards show how Flint became a leader in the "horseless carriage" industry, and then the birthplace of General Motors. There are images of many of the city's churches, schools, stores, theaters, and amusement parks, and even major events like fires and floods.

U.S. NAVY SEALS

ENCYCLOPEDIA OF US AIR FORCE AIRCRAFT AND MISSILE SYSTEMS: POST-WORLD WAR II BOMBERS, 1945-1973

EARLY EVOLUTIONARY HISTORY OF THE SYNAPSIDA

Springer Science & Business Media Non-mammalian synapsids were the dominant terrestrial vertebrates from the Late Carboniferous to the Middle Triassic and play a key role in understanding the origin and evolution of mammals. Despite these facts and the outstanding fossil record of the group, early synapsids remain obscure. This book showcases the full breadth of contemporary research on non-mammalian synapsids, ranging from taxonomy and phylogenetics to functional morphology, biogeography, paleoecology, and patterns of diversity. It also underscores the importance and potential of studying non-mammalian synapsid paleobiology in its own right, not just in the context of mammalian evolution.

THE FEMALE-IMPERSONATORS

Graphic Arts Books *The Female-Impersonators* (1922) is an autobiography by Earl Lind. Accompanied by an introduction by Dr. Alfred W. Herzog, Lind's autobiography—intended for a clinical audience—has been recognized as a pioneering work in the history of transgender literature. Throughout his life, Lind was forced to justify and defend his existence from puritanical authorities who refused to even recognize the reality of his identity as an androgyne. In this third installment of his autobiographical trilogy, he focuses on the community of androgynes or "female-impersonators" he joined when he moved from Connecticut to New York City. "I was predestined to an unusual role in the great drama we call 'life.' I was brought into the world as one of the rare humans who possess a strong claim, on anatomic grounds as well as psychic, to membership in both the recognized sexes. I was foreordained to live part of my life as man and part as woman." Situating his own identity within the history of transgender oppression, Lind makes the case for recognizing the presence of androgynes in all human societies. Ever since he was a child, Lind identified as feminine and was keenly aware of his homosexual desires, gaining a reputation among the local boys and soon turning to girls for friendship and understanding. In a world that saw androgynes as both corrupt and willfully different, Lind sought to increase understanding and to explain through scientific, historical, and personal evidence why his identity was congenital, and therefore natural. In this final installment of his trilogy of autobiographical works, Lind focuses on the community of androgynes he joined at New York's Columbia Hall, a well-known brothel and gay bar on the Bowery. With a beautifully designed cover and professionally typeset manuscript, this edition of Earl Lind's *The Female-Impersonators* is a classic work of transgender literature reimagined for modern readers.

THE TECHNICAL AND SOCIAL HISTORY OF SOFTWARE ENGINEERING

Pearson Education Pioneering software engineer Capers Jones has written the first and only definitive history of the entire software engineering industry. Drawing on his extraordinary vantage point as a leading practitioner for several decades, Jones reviews the entire history of IT and software engineering, assesses its impact on society, and previews its future. One decade at a time, Jones assesses emerging trends and companies, winners and losers, new technologies, methods, tools, languages, productivity/quality benchmarks, challenges, risks, professional societies, and more. He quantifies both beneficial and harmful software inventions; accurately estimates the size of both the US and global software industries; and takes on "unexplained mysteries" such as why and how programming languages gain and lose popularity.

A FEW GOOD MEN FROM UNIVAC

The author recounts his experiences working in the computer industry, explains why projects fail or succeed, and discusses the future of the industry

COLOR ME VEGAN

MAXIMIZE YOUR NUTRIENT INTAKE AND OPTIMIZE YOUR HEALTH BY EATING ANTIOXIDANT-RICH, FIBER-PACKED, COL

Fair Winds Press "With *Color Me Vegan*, Colleen Patrick-Goudreau takes veganism to a whole new level. This is exactly what people need to eat more compassionately, experience superior health, and enjoy out-of-this-world flavors. Get ready to taste the real rainbow!" —Rory Freedman, author of the #1 New York Times bestseller *Skinny Bitch* "In *Color Me Vegan*, Colleen Patrick-Goudreau makes assembling balanced meals as easy as painting by numbers. With the publication of her third book, Patrick-Goudreau remains one of the most endearing and innovative vegan chefs." —Bryant Terry, author of *Vegan Soul Kitchen* "Taking 'nutrient-dense' to a whole new level, *Color Me Vegan* provides a mouthwatering palette of simple but delectable recipes. We should make a point to eat the rainbow, and this book is the pot of gold at the end that is sure to brighten any diet!" —Dr. Michael Greger, Director of Public Health at the Humane Society of the United States Eat by color for more flavorful meals and extraordinary health! In *Color Me Vegan*, author and vegan extraordinaire Colleen Patrick-Goudreau brings an edible rainbow of plant-based cuisine to your kitchen table with 150 flavorful recipes designed to boost your health and perk up your palate. With color as the guiding principle behind each section, Colleen shows vegetarians, vegans, and everyone in between exactly how phytonutrients—the most powerful, pigmented antioxidants on earth, found in everything from select fruits and vegetables, to grains, legumes, nuts, and seeds—can be expertly incorporated into your meals for the greatest nutritional punch. From the "Color Me Blue" chapter, for example, you'll be treated to recipes such as: —Radicchio Fennel Salad with Caper Dressing —Chilled Blueberry Mango Soup —Lavender-Roasted Purple Onions —Eggplant with Dengaku (Sweet Miso) Sauce —Purple Plum Pie with Crumble Topping From sensational starters and salads, to filling mains and sides, to crave-worthy desserts—in every color—each recipe is not just a feast for your stomach, but a feast for your eyes as well!

BLACK & DECKER CARPENTRY MADE SIMPLE

23 STYLISH PROJECTS - LEARN AS YOU BUILD

Cool Springs Press Featuring 23 complete home furnishing plans presented with simple, graphic photos and illustrations, *BLACK+DECKER Carpentry Made Simple* is an interactive introduction to home carpentry: with great designs. Each carefully selected project contains lessons and valuable tips on skill building and design to help you improve as a DIYer, as you simultaneously create lovely, modern, and even elegant chairs, benches, shelves, cabinets and lots more just pennies on the dollar versus shopping in trendy boutiques. *Carpentry Made Simple* is a nonstop carpentry ride that will impress you with the quality and diversity of the information it shares. The 20+ projects have complete plans, detail photos, and clear assembly instructions. Each project also highlights a skill, tool, or technique that will add a new dimension to your skill set. And not only will completing these projects sharpen your skills, but you will love the projects themselves. The design styles range from modern, to Euro, to industrial, with all of the major furnishing categories represented. When friends and visitors see the subtly beautiful contemporary furniture that you built yourself, you will realize just how satisfying it is to be your own home carpenter.

MARK ROSEN'S BOOK OF MINNESOTA SPORTS LISTS

A COMPILATION OF BESTS, WORSTS, AND HEAD-SCRATCHERS FROM THE WORLDS OF BASEBALL, FOOTBALL, HOCKEY, BASKETBALL, FISHING, CURLING, AND MORE

MVP Books Beloved sportscaster Mark Rosen presents a handpicked collection of fascinating sports memories from a range of athletes, journalists, and other prominent Minnesota voices. The Minnesota sports universe is filled with star players, memorable moments (good and bad), and controversial decisions that have long sparked debate and discussion among fans. In *Mark Rosen's Book of Minnesota Sports Lists*, local broadcasting legend Mark Rosen and co-author Jim Bruton present their own expert opinions and poll the biggest names from Minnesota and beyond to resolve those debates and provide the ultimate rankings of every sports question facing the Minnesota fan. No aspect of sport in Minnesota is left unturned, and Rosen includes the good, the bad, and the ugly from all levels of play: professional, college, high school, amateur, and recreational. Spanning the gamut of statewide sports—mascots, uniforms, sportswriters, movies and TV, sporting sites, and more—Rosen and Bruton explore the greatest on-field accomplishments, the biggest front-office gaffes, the forgotten heroes, the blown calls, and the scandals. Drawing from timeless Minnesota sports figures that include coaching legends, top athletes, journalists, and prominent public figures, the more than 100 lists included in *Mark Rosen's Book of Minnesota Sports Lists* will fascinate, infuriate, and invigorate Minnesota sports fans of all ages and passions.

THE BEST OF PETER EGAN

FOUR DECADES OF MOTORCYCLE TALES AND MUSINGS FROM THE PAGES OF CYCLE WORLD

Motorbooks *The Best of Peter Egan* offers a "greatest hits" collection of Egan's motorcycle musings from the past four decades, delivered in his signature, wise but amusing, style. Peter Egan's writing invites you to pull up a chair, pour a little scotch, and relax while he shares with you his tales from the road, his motorcycling philosophy, and his keen observations about the two-wheeled life. For some

forty years, Peter Egan's columns and feature articles have been among Cycle World's most anticipated monthly content. Egan's legions of fans know they will gain a fresh perspective on motorcycling from each of his articles. Drawings from motoring artist Hector Cademartori beautifully illustrate Egan's musings, and a foreword by super-enthusiast Jay Leno introduces the book. This is an unforgettable collection from a master writer whose simple adventures of two-wheeled life remind us why we love to ride.
