A special type of induction generator, called a doubly fed induction generator (DFIG), is used extensively for high-power wind applications. They are used more and more in wind turbine applications due to the ease of controllability, the high energy efficiency, and the improved power quality. This research aims to develop a method of a field orientation scheme for control both, the active and the reactive powers of a DFIG that are driven by a wind turbine. Also, the dynamic model of the DFIG, driven by a wind turbine during grid faults, is analyzed and developed, using the method of symmetrical components. Finally, this study proposes a novel fault ride-through (FRT) capability with a suitable control strategy (i.e. the ability of the power system to remain connected to the grid during faults).

The Government launched a reform to merge local governments and strengthen the decentralisation process, giving additional power and resources to sub-national authorities. In a short period, successful steps have been taken toward achieving municipal mergers and greater fiscal, administrative and political decentralisation, complemented by the State Strategy for Regional Development 2015-2020. The first local elections have been held and more public services are being delivered by certain local authorities. Yet, important challenges remain, ranging from a need to address rising disparities and adjusting multi-level governance practices and territorial structures, to better structuring fiscal decentralisation. This report addresses regional performance and disparities in Ukraine, provides insight into Ukraine's current territorial reform and approach to decentralisation, explores the impact of fiscal decentralisation measures, and includes a case study of the transport sector. It also provides a set of recommendations for action to support Ukraine in meeting the conditions for successful decentralisation. **Miss Anne in Harlem The White Women of the Black Renaissance Harper Collins** Celebrated scholar Carla Kaplan's cultural biography, *Miss Anne in Harlem: The White Women of the Black Renaissance*, focuses on white women, collectively called "Miss Anne," who became Harlem Renaissance insiders. Because we want answers. Why is there an organized effort to control the narrative on the case of Christopher Watts?What is it the attackers were hired to hide? Is it true that Christopher Watts' wife was Bipolar - as her father-in-law suggested during his interview? Is it true that she was medically abusing their children - as we've been told by people who claim to know that she was caught by the hospital in December of 2016? Is it true that she was a con? Is it true that at the time of her death there was an open CPS case against her? If so, is it true that she was not allowed to be alone with their children? Is it true that Christopher Watts was a battered husband?Be clear, we have the right to discuss true crime cases that are on the public stage - without being attacked.Yet, the attackers have "mass reported" and shut down discussion channels and groups to interfere with our right to discuss true crime cases on social media. The attackers are also flooding my book reviews with fake posts. They don't bother to read my work. They don't bother to discuss the cases. Instead, they post libelous comments accusing me of cheating on my ex? Accusing me of lying about my law degree? Accusing me of lying about having my own real estate company? Also, the attackers claim that I plagiarize my work. Obviously they don't even know the meaning of the word. Clearly, those who are attempting to silence us richly deserve to be arrested and jailed for the bad acts they have committed and continue to commit against us. Because we have the right to speak. We have the right to discuss true crime cases that are on the public stage. We have the right to ask questions and to state our opinions on the case while the people who are attempting to silence us - lose their right to freely speak the second they use free speech to harass and harm us. There are two little girls - Bella and Ce Ce Watts - at the center of this case who deserve for us to continue the discussion. Because Bella and Ce Ce DESERVE FOR THE TRUTH TO BE KNOWN. Is it possible their father was telling the truth in his first police interview when he insisted that HE DID NOT MURDER HIS CHILDREN?Join the discussion.And YOU decide.
