Our interaction with technology should be designed according to human needs instead of us being required to adapt to technology. Even so, technology may change quickly and people and their habits change slowly. With the aim of supporting user acceptance of iTV, the focus of this book is on the usability of iTV applications. A method for developing interaction design patterns especially for new technologies is presented for the first time. The main characteristics covered in this new approach are: systematic identification of recurrent design problems; usability as a quality criterion for design solutions; integration of designers into the pattern development process including identification of designers' needs, and iterative evaluation and optimisation of patterns to encourage designers to accept and use them; usability testing to identify proven design solutions and their trade-offs; presentation of specific design guidelines. **Focus On: 100 Most Popular English Male Comedians** e-artnow sro The Political Economy of Television Sports Rights Springer Sport on television is big business, but it is about more than just commerce. It damages the health-supporting infrastructure, displaces populations, violates human rights, and diverts resources. And it subsequently leads to more violence. From Horror to Hope documents the health consequences of war, primarily for noncombatant civilians but also for military personnel and veterans, and outlines what can be done to minimize these consequences. Written by a public health physician engaged with this subject for decades, the book also describes positive developments in addressing the health impacts of war, including new initiatives to protect civilians during war, reduce gender-based violence and mental trauma, and control the international arms trade and nuclear weapons. In addition, From Horror to Hope profiles inspiring health professionals who are providing healthcare for war-affected populations and participating in education, research, and advocacy to reduce the health impacts of war. Finally, the book demonstrates how traditional public health frameworks and new paradigms can be applied to the prevention of war and the promotion of peace. Given the current peak in armed conflicts and the increasing threat of future wars, From Horror to Hope provides an extremely timely overview for anyone seeking to better understand and address the health consequences of war. The changing spaces of television acting From studio realism to location realism in BBC television drama Manchester University Press This book provides a historical overview and then-and-now comparison of performing for British television drama. By examining changing acting styles from distinct eras of television production - studio realism and location realism - it makes a unique contribution to both television and performance studies, unpacking the various determinants that have combined to influence how performers work in the medium. The book compares the original versions of The Quatermass Experiment (BBC, 1953), Doctor Who (BBC, 1963-89) and Survivors (BBC, 1975-77) with their respective modern-day re-makes, unpacking the effects of the shift from multi-camera studio to single-camera location production. Textual analysis is combined with extensive archival research into production process and reception, alongside interviews with numerous actors and production personnel from more than sixty years of television production. **Marketing** Pearson Higher Education AU The ultimate resource for marketing professionals Today's marketers are challenged to create vibrant, interactive communities of consumers who make products and brands a part of their daily lives in a dynamic world. There is 'public confusion and industry uncertainty' over radio switchover and concern that due to the lack of public information people are still buying analogue radios which will be out of date in a few years time. Retailers gave evidence stating that they are not getting adequate information on switchover plans so are unable to offer consumers accurate guidance when making purchases. The report also points out that car manufacturers are still fitting analogue radios in new cars and digital radios will not be fitted as standard in all cars until 2013. The radio switchover is contrasted with the television switchover programme, finding that the benefits of TV switchover were well understood, in contrast surveys show that the public are generally happy with the present FM radio system and with the range of programmes that are provided. The Committee recommends urgent steps on a range of actions including: providing a detailed plan for universal digital radio coverage including how it is to be funded; developing a policy for the long term use of FM; devising a help scheme for radio switchover financed by general taxation rather than the BBC licence fee; ensuring new digital car radios are fitted with a multi-standard chip to enable their use overseas; encouraging radio manufacturers and retailers to devise a sensible scrappage scheme for redundant analogue radios. It is also noted that the BBC and Government disagree over whether the cost of universal digital coverage of their national stations can be met under the current licence fee. The report says that it is essential that a 'firm and unambiguous' plan for funding the completion of build-out of the digital radio service is put in place as soon as possible. The report concludes reversing current policy would be unproductive given the amount of investment in digital radio already and while the switchover in 2015 is ambitious a change of target date is not favoured at this stage. **Channel 4 annual report third report of session 2009-10, report, together with formal minutes, oral and written evidence** The Stationery Office Channel 4 is a unique broadcaster in the UK. Publicly owned, it is a statutory corporation, without shareholders, established and regulated under successive Broadcasting and Communication Acts. It generates all of its revenues in the commercial marketplace but is not-for-profit, its principal focus being the fulfilment of its statutory public service broadcasting (PSB) remit. Channel 4 is required to lay before Parliament an Annual Report of its financial accounts and performance. However, concerns have been expressed that the channel lacks accountability and external scrutiny. This report covers the Committee's session in response to these concerns. The issues put forward included: the extent to which the channel is facing a crisis; preferences regarding possible partnerships; effects of market conditions; profitability of non-core, non-PSB channels; investment in the now abandoned Project Kangaroo; headcount, redundancies and remuneration; children's and educational programming; investment in the nations and regions; and succession of the Chairman and Chief Executive. The Committee plans to hold these sessions examining the Channels Annual reports annually. **The Killings at Badger's Drift** Felony & Mayhem Press A quaint English village is home to a murderer in the Macavity Award-winning mystery series debut that launched the British crime drama Midsomer Murders. Badger's Drift is the ideal English village, complete with vicar, bumbling local doctor, and kindly spinster. But when the spinster dies suddenly, her best friend kicks up a fuss loud enough to attract the attention of Detective Chief Inspector Barnaby. And when Barnaby and his eager-beaver deputy start poking around, they uncover a swamp of ugly scandals and long-suppressed resentments seething below the picture-postcard prettiness. In the grand English tradition of the quietly intelligent copper, Barnaby has both an irresistibly dry sense of humor and a keen insight into what makes people tick. The Killings at Badger's Drift marks Inspector Barnaby's debut, and offers ample proof that Caroline Graham may indeed be "simply the best detective writer since Agatha Christie" (Sunday Times of London). The BBC Myth of a Public Service [Verso Books](#) The BBC: the mouthpiece of the Establishment? The BBC is one of the most important institutions in Britain; it is also one of the most misunderstood. Despite its claim to be independent and impartial, and the constant accusations of a liberal bias, the BBC has always sided with the elite. As Tom Mills demonstrates, we are only getting the news that the Establishment wants aired in public. Throughout its existence, the BBC has been in thrall to those in power. This was true in 1926 when it stood against the workers during the General Strike, and since then the Corporation has continued to mute the voices of those who oppose the status quo: miners in 1984; anti-war protesters in 2003; those who offer alternatives to austerity economics since 2008. From the outset much of its activity has been scrutinised by the secret services at the invitation of those in charge. Since the 1990s the BBC has been integrated into the market, while its independence from government and big business has been steadily eroded. The BBC is an important and timely examination of a crucial public institution that is constantly under threat. The Darling Buds of May Sanditon [Good Press](#) "Sanditon" by Jane Austen. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors.
