From Mounds to Megachurches Georgia's Religious Heritage *University of Georgia Press* This sweeping overview of the role religion, especially diverse denominations of Christianity, has played in Georgia's history, from pre-colonial days to the modern era, uses the stories of important figures to portray larger historical narratives and denominational battles. **African American History Day by Day: A Reference Guide to Events A Reference Guide to Events** *ABC-CLIO* The proof of any group's importance to history is in the detail, a fact made plain by this informative book's day-by-day documentation of the impact of African Americans on life in the United States. • More than 365 chronologically arranged entries featuring events and information about African Americans • An introduction that overviews the importance of African American history in a day-by-day approach • A preface that explains the scope, methodology, and rationale for coverage • Primary source excerpts for some events and two vetted books and websites for all events **The Moravians in Georgia, 1735-1740** *Genealogical Publishing Com* The Moravian Brethren are one of the most notable of the pietistic sects to emerge from the Protestant Reformation. Mrs. Fries here documents the brief history of the Moravian community in Georgia, commencing with an overview of the sect and continuing through the negotiations between Brethren leader August Spangenburg and Georgia founder General James Oglethorpe, establishment of the Brethren community in Savannah, missionary work among the Creeks, and the departure of the Moravians for England, Pennsylvania, and other locations. Genealogists will find numerous references to transfers of land involving the Moravians, settlement maps, passenger lists of Moravian arrivals, a brief list of Moravian deaths in Georgia, and a name index to the persons mentioned in the text. **Family Discipleship Leading Your Home through Time, Moments, and Milestones** *Crossway* The most important disciple a parent will make is within their own home, and yet this is the most difficult disciple to make. Family Discipleship by Matt Chandler and Adam Griffin helps readers develop a sustainable rhythm of gospel-centered discipleship through a guided framework focusing on moments of discipleship in 3 key areas: time (intentional time gathering your family around gospel activities or conversations), moments (leveraging opportunities throughout the day), and milestones (celebrating significant life events). Each section provides parents with Scriptures to consider, questions to answer, structures to implement, and ideas to try out as they seek to see Christ formed in their children. Here is a book that begins with the end in mind, offering ideas and examples of what gospel-centered family discipleship looks like, helping parents design their own discipleship plan as they seek to raise children in the love and fear of the Lord. **Whitebread Protestants Food and Religion in American Culture** *Springer* At the beginning of Whitebread Protestants, Daniel Sack writes "When I was young, church meant food. Decades later, it's hard to point to particular events, but there are lots of tastes, smells, and memories such as the taste of dry cookies and punch from coffee hour - or that strange orange drink from vacation Bible school." And so he begins this fascinating look at the role food has played in the daily life of the white Protestant community in the United States. He looks at coffee hours, potluck dinners, ladies' afternoon teas, soup kitchens, communion elements, and a variety of other things. A blend of popular culture, religious history and the growing field of food studies, the book will reveal both conflict and vitality in unexpected places in American religious life. **The Anxious Bench Enough Why the World's Poorest Starve in an Age of Plenty** *Public Affairs* "The Chicago Council on Global Affairs." The Message of Revelation *InterVarsity Press* The vivid and often confusing imagery in the book of Revelation has elicited much discussion, both in the church and outside of the faith community. Michael Wilcock explains the concepts and images which are important for understanding Revelation. **The Gnostic New Age How a Countercultural Spirituality Revolutionized Religion from Antiquity to Today** *Columbia University Press* Gnosticism is a countercultural spirituality that forever changed the practice of Christianity. Before it emerged in the second century, passage to the afterlife required obedience to God and king. Gnosticism proposed that human beings were manifestations of the divine, unsettling the hierarchical foundations of the ancient world. Subversive and revolutionary, Gnostics taught that prayer and mediation could bring human beings into an ecstatic spiritual union with a transcendent deity. This mystical strain affected not just Christianity but many other religions, and it characterizes our understanding of the purpose and meaning of religion today. In **The Gnostic New Age**, April D. DeConick recovers this vibrant underground history to prove that Gnosticism was not suppressed or defeated by the Catholic Church long ago, nor was the movement a fabrication to justify the violent repression of alternative forms of Christianity. Gnosticism alleviated human suffering, soothing feelings of existential brokenness and alienation through the promise of renewal as God. DeConick begins in ancient Egypt and follows with the rise of Gnosticism in the Middle Ages, the advent of theosophy and other occult movements in the nineteenth and early twentieth centuries, and contemporary New Age spiritual philosophies. As these theories find expression in science-fiction and fantasy films, DeConick sees evidence of Gnosticism's next incarnation. Her work emphasizes the universal, countercultural appeal of a movement that embodies much more than a simple challenge to religious authority. **Revivalism and Social Reform** *Wipf and Stock Publishers* **Studies in Revelation** *Biblical Studies Press* **How Now Shall We Live?** *Tyndale House Publishers, Inc.* **2000 Gold Medallion Award winner!** Christianity is more than a personal relationship with Jesus Christ. It is also a worldview that not only answers life's basic questions—Where did we come from, and who are we? What has gone wrong with the world? What can we do to fix it?—but also shows us how we should live as a result of those answers. **How Now Shall We Live?** gives Christians the understanding, the confidence, and the tools to confront the world's bankrupt worldviews and to restore and redeem every aspect of contemporary culture: family, education, ethics, work, law, politics, science, art, music. This book will change every Christian who reads it. It will change the church in the new millennium. **Confessions of a Reformission Rev.** **Hard Lessons from an Emerging Missional Church** *Zondervan* This is the story of the birth and growth of Seattle's innovative Mars Hill Church, one of America's fastest growing churches located in one of America's toughest mission fields. It's also the story of the growth of a pastor, the mistakes he's made along the way, and God's grace and work in spite of those mistakes. Mark Driscoll's emerging, missional church took a rocky road from its start in a hot, upstairs youth room with gold shag carpet to its current weekly attendance of thousands. With engaging humor, humility, and candor, Driscoll shares the failures, frustrations, and just plain messiness of trying to build a church that is faithful to the gospel of Christ in a highly post-Christian culture. In the telling, he's not afraid to skewer some sacred cows of traditional, contemporary, and emerging churches. Each chapter discusses not only the hard lessons learned but also the principles and practices that worked and that can inform your church's ministry, no matter its present size. The book includes discussion questions and appendix resources. "After reading a book like this, you can never go back to being an inwardly focused church without a mission. Even if you disagree with Mark about some of the things he says, you cannot help but be convicted to the inner core about what it means to have a heart for those who don't know Jesus."—Dan Kimball, author, **The Emerging Church** "... will make you laugh, cry, and get mad ... school you, shape you, and mold you into the right kind of priorities to lead the church in today's messy world."—Robert Webber, Northern Seminary Mapping **Global Theatre Histories** *Springer* This textbook provides a global, chronological mapping of significant areas of theatre, sketched from its deepest history in the evolution of our brain's 'inner theatre' to ancient, medieval, modern, and postmodern developments. It considers prehistoric cave art and built temples, African trance dances, ancient Egyptian and Middle-Eastern ritual dramas, Greek and Roman theatres, Asian dance-dramas and puppetry, medieval European performances, global indigenous rituals, early modern to postmodern Euro-American developments, worldwide postcolonial theatres, and the hyper-theatricality of today's mass and social media. Timelines and numbered paragraphs form an overall outline with distilled details of what students can learn, encouraging further explorations online and in the library. Questions suggest how students might reflect on present parallels, making their own maps of global theatre histories, regarding geo-political theatrics in the media, our performances in everyday life, and the theatres inside our brains. **Architecture of the World's Major Religions An Essay on Themes, Differences, and Similarities** *BRILL* In **Architecture of the World's Major Religions: An Essay on Themes, Differences, and Similarities**, Thomas Barrie presents religious architecture as an amalgam of aesthetic, social, political, cultural, economic, and doctrinal elements, which are often materialized in different ways in the world's principal religions. **Brainwashed Challenging the Myth of Black Inferiority** *ReadHowYouWant.com* Black people are not dark-skinned white people, says advertising visionary Tom Burrell. In fact, they are a lot more. They are survivors of the Middle Passage and centuries of humiliation and deprivation, who have excelled against the odds, constantly making a way out of no way! At this point in history, the idea of black inferiority sh... **American Fascists The Christian Right and the War on America** *Simon and Schuster* Explores the political ambitions of the Christian right, discussing how their agenda gained momentum through alternative networks, schools, and publishers, and warns that another national crisis may enable the Christian right to seize political power. **The ABCs of Strategic Communication Thousands of Terms, Tips and Techniques** *AuthorHouse* This Book portrays God's calling of an Afro-American lad from the segregated Southern USA, in 1957, and elevated him and his wife, Dorothy, to become two of the most outstanding **Black Pioneer Missionaries in World Missions, today!** They have evangelized and planted churches in over 95 countries, and even more extensively, in the 23 countries where Christians in Action Missions has ministries. You will experience glimpses of fifty years of the Taylor's life and ministry, beginning with Elgin's call to missions in 1957, while in the USMarines. It Moves to their service as the First Black Missionaries to Japan, 1959-64; Elgin Pastored, studied Japanese, and attended The University of Maryland, earned his BA degree, and later earned his MTh in California. Dorothy, a high school teacher, taught at Okinawa Christian School and ran the youth ministry. They transferred to Nigeria, Africa, but due to a civil war, were evacuated to London, England, where they founded a Bible College, an Evangelical Church, and directed CinA's Europe, Africa, and India Ministries for 15 years. Returning to America, 1980, they worked at the US Center for World Missions, Pasadena, CA with Dr Ralph Winters. In 1982, Elgin was elected CEO of CinA Missions International, (the only known Afro-American Director of a multi-ethnic, international, cross curtural ministry during this time). The book closes, with the spotlight on their present involvement in Ghana, West Africa, where they lead medical/outreach teams, build churches and schools, bore fresh water wells, and hold leadership seminars. They were appointed Chief and Queen Mother in the Broang Ahafo Region by the King, Ohmahene Okatakayie Kodom IV, in

2001. Today, they are blessed with much remaining fruit, in both the low places of the streets, to the palaces of Kings, to God be the Glory! *Market Relations and the Competitive Process* Manchester University Press There has been increasing interest and debate in recent years on the nature of economic processes in general and the related ideas of the market, in particular the competitive process. This study lies at the interface between two largely independent disciplines, economics and sociology, and reflects an attempt to bring the two fields of discourse more closely together. It explores this interface in a number of ways, looking at the competitive process and market relations from a number of different perspectives. A wide range of contributors are included, most of whom are leading writers and thinkers in the field. *The Sense of Dissonance Accounts of Worth in Economic Life* Princeton University Press What counts? In work, as in other areas of life, it is not always clear what standards we are being judged by or how our worth is being determined. This can be disorienting and disconcerting. Because of this, many organizations devote considerable resources to limiting and clarifying the logics used for evaluating worth. But as David Stark argues, firms would often be better off, especially in managing change, if they allowed multiple logics of worth and did not necessarily discourage uncertainty. In fact, in many cases multiple orders of worth are unavoidable, so organizations and firms should learn to harness the benefits of such "heterarchy" rather than seeking to purge it. Stark makes this argument with ethnographic case studies of three companies attempting to cope with rapid change: a machine-tool company in late and postcommunist Hungary, a new-media startup in New York during and after the collapse of the Internet bubble, and a Wall Street investment bank whose trading room was destroyed on 9/11. In each case, the friction of competing criteria of worth promoted an organizational reflexivity that made it easier for the company to change and deal with market uncertainty. Drawing on John Dewey's notion that "perplexing situations" provide opportunities for innovative inquiry, Stark argues that the dissonance of diverse principles can lead to discovery. *The American Family From Obligation to Freedom* Springer Traces the movement from mutualism to individualism in the context of American family life. Families survived or even flourished during colonization, Revolution, slavery, immigration and economic upheaval. In the past century, prosperity created a culture devoted to pleasure and individual fulfilment. *Brandwashed* Random House Australia A shocking insider's look at how global giants conspire to obscure the truth and manipulate our minds. Marketing visionary Martin Lindstrom has been on the front lines of the branding wars for over twenty years. Here, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned dollars. Picking up from where Vance Packard's bestselling classic, *The Hidden Persuaders*, left off more than half-a-century ago, Lindstrom reveals: New findings that reveal how advertisers and marketers intentionally target children at an alarmingly young age - starting when they are still in the womb! Shocking results of an fMRI study which uncovered what heterosexual men really think about when they see sexually provocative advertising (hint: it isn't their girlfriends). How marketers and retailers stoke the flames of public panic and capitalize on paranoia over global contagions, extreme weather events, and food contamination scares. The first ever neuroscientific evidence proving how addicted we all are to our iPhones and our Blackberry's (and the shocking reality of cell phone addiction - it can be harder to shake than addictions to drugs and alcohol). How companies of all stripes are secretly mining our digital footprints to uncover some of the most intimate details of our private lives, then using that information to target us with ads and offers 'perfectly tailored' to our psychological profiles. How certain companies, like the maker of one popular lip balm, purposely adjust their formulas in order to make their products chemically addictive. What a 3-month long guerrilla marketing experiment, conducted specifically for this book, tells us about the most powerful hidden persuader of them all. And much, much more. This searing expose introduces a new class of tricks, techniques, and seductions - the Hidden Persuaders of the 21st century- and shows why they are more insidious and pervasive than ever. *Religious Imaging in Millennialist America* Dark Gnosis Springer Ashley Crawford investigates how such figures as Ben Marcus, Matthew Barney, and David Lynch—among other artists, novelists, and film directors—utilize religious themes and images via Christianity, Judaism, and Mormonism to form essentially mutated variations of mainstream belief systems. He seeks to determine what drives contemporary artists to deliver implicitly religious imagery within a 'secular' context. Particularly, how religious heritage and language, and the mutations within those, have impacted American culture to partake in an aesthetic of apocalypticism that underwrites it. What Americans Really Believe New Findings from the Baylor Surveys of Religion "What Americans Really Believe" gives a detailed, comprehensive often surprising snapshot of the most current impulses in American religion . . . confirm[ing] that about 95 percent of the American population is interested in religion and spirituality. --George H. Gallup Jr. *The Political Economy of City Branding* Routledge Globalization affects urban communities in many ways. One of its manifestations is increased intercity competition, which compels cities to increase their attractiveness in terms of capital, entrepreneurship, information, expertise and consumption. This competition takes place in an asymmetric field, with cities trying to find the best possible ways of using their natural and created assets, the latter including a naturally evolving reputation or consciously developed competitive identity or brand. *The Political Economy of City Branding* discusses this phenomenon from the perspective of numerous post-industrial cities in North America, Europe, East Asia and Australasia. Special attention is given to local economic development policy and industrial profiling, and global city rankings are used to provide empirical evidence for cities' characteristics and positions in the global urban hierarchy. On top of this, social and urban challenges such as creative class struggle are also discussed. The core message of the book is that cities should apply the tools of city branding in their industrial promotion and specialization, but at the same time take into account the special nature of their urban communities and be open and inclusive in their brand policies in order to ensure optimal results. This book will be of interest to scholars and practitioners working in the areas of local economic development, urban planning, public management, and branding. *How Should We Then Live? The Rise and Decline of Western Thought and Culture* Crossway Francis Schaeffer's Classic Analysis of the Rise and Decline of Western Thought and Culture Civilizations throughout history have built societies around their own limited value systems including rulers, finite gods, or relativism—only to fail. The absence of a Christian foundation eventually leads to breakdown, and those signs are visible in present-day culture as well. Can modern society avoid the same fate? In this latest edition of *How Should We Then Live?*, theologian Francis A. Schaeffer traces the decline of Western culture from the fall of Rome, through the Middle Ages and the Enlightenment, and up to the twentieth century. Studying humanism's impact on philosophy, science, and religion, he shows how this worldview historically results in apathy, chaos, and decline. Schaeffer's important work calls on readers to live instead by Christian ethics, placing their trust in the infinite personal God of the Bible. Originally written in 1976, *How Should We Then Live?* remains remarkably applicable today. *A History of the Ozarks, Volume 1 The Old Ozarks* University of Illinois Press Geologic forces raised the Ozarks. Myth enshrouds these hills. Human beings shaped them and were shaped by them. The Ozarks reflect the epic tableau of the American people—the native Osage and would-be colonial conquerors, the determined settlers and on-the-make speculators, the endless labors of hardscrabble farmers and capitalism of visionary entrepreneurs. *The Old Ozarks* is the first volume of a monumental three-part history of the region and its inhabitants. Brooks Blevins begins in deep prehistory, charting how these highlands of granite, dolomite, and limestone came to exist. From there he turns to the political and economic motivations behind the eagerness of many peoples to possess the Ozarks. Blevins places these early proto-Ozarkers within the context of larger American history and the economic, social, and political forces that drove it forward. But he also tells the varied and colorful human stories that fill the region's storied past—and contribute to the powerful myths and misunderstandings that even today distort our views of the Ozarks' places and people. A sweeping history in the grand tradition, *A History of the Ozarks, Volume 1: The Old Ozarks* is essential reading for anyone who cares about the highland heart of America. Everything But the Coffee Learning about America from Starbucks Univ of California Press "Simon knows more about Starbucks—and about why so many Americans find perfection in their lattes—than anyone. He connects our deepest desires to be good, smart, ethical consumers with our equally strong yearning to consume in an authentic way. Our coffee, Simon shows, is us."—Sharon Zukin, author of *Naked City* *The Formation of a Planter Elite Jonathan Bryan and the Southern Colonial Frontier* University of Georgia Press The rise of the plantation slavery system in the colonial South is chronicled through the career of Jonathan Bryan, who rose from the obscurity of the southern frontier to become one of Georgia's richest, most powerful men. Reprint. *An Angel Directs the Storm Apocalyptic Religion and American Empire* Scm Press Appraises two visions of religious freedom: the apocalyptic vision of George W Bush and the Christian conservatives who back his policies in relation to Iraq and the war on terror; and the peaceable vision of a Christian majority elsewhere who resist what they view as American neo-imperialism with an overlay of Christian apocalyptic rhetoric. *Our Sufficiency in Christ* Crossway Too many Christians have displaced their true spiritual resources with watered-down beliefs like mysticism, pragmatism, and psychology. Here is a renewed understanding of what it means to be complete in Christ. *How Now Shall We Live? Study Guide* Tyndale House Publishers, Inc. Great for stimulating discussion in small groups, this study guide helps individuals probe deeper into the issues raised by Colson in "How Now Shall We Live?." *A History of the Ozarks, Volume 3 The Ozarkers* University of Illinois Press Between the world wars, America embraced an image of the Ozarks as a remote land of hills and hollers. The popular imagination stereotyped Ozarkers as ridge runners, hillbillies, and pioneers—a cast of colorful throwbacks hostile to change. But the real Ozarks reflected a more complex reality. Brooks Blevins tells the cultural history of the Ozarks as a regional variation of an American story. As he shows, the experiences of the Ozarkers have not diverged from the currents of mainstream life as sharply or consistently as the mythmakers would have it. If much of the region seemed to trail behind by a generation, the time lag was rooted more in poverty and geographic barriers than a conscious rejection of the modern world and its progressive spirit. In fact, the minority who clung to the old days seemed exotic largely because their anachronistic ways clashed against the backdrop of the evolving region around them. Blevins explores how these people's disproportionate influence affected the creation of the idea of the Ozarks, and reveals the truer idea that exists at the intersection of myth and reality. The conclusion to the acclaimed trilogy, *The History of the Ozarks, Volume 3: The Ozarkers* offers an authoritative appraisal of the modern Ozarks and its people. *Caribbean Religious History An Introduction* NYU Press The colonial history of the Caribbean created a context in which many religions, from indigenous to African-based to Christian, intermingled with one another, creating a rich diversity of religious life. *Caribbean Religious History* offers the first comprehensive religious history of the region. Ennis B. Edmonds and Michelle A. Gonzalez begin their exploration with the religious traditions of the Amerindians who flourished prior to contact with European colonizers, then detail the transplantation of Catholic and Protestant Christianity and their centuries of struggles to become integral to the Caribbean's religious ethos, and trace the twentieth century penetration of American Evangelical Christianity, particularly in its Pentecostal and Holiness iterations. *Caribbean Religious History* also illuminates the influence of Africans and their descendants on the shaping of such religious traditions as Vodou, Santeria, Revival Zion, Spiritual Baptists, and Rastafari, and the success of Indian indentured laborers and their descendants in reconstituting Hindu and Islamic practices in their new environment. Paying careful attention to the region's social and political history, Edmonds and Gonzalez present a one-volume panoramic introduction to this religiously vibrant part of the world. *Baptists in America* Columbia University Press From Little Dove Old Regular Baptist Church, up a hollow in the Appalachian Mountains, with its 25-member congregation, to the 18,000-strong Saddleback Valley Church in Lake Forest, California, where hymns appear on wide-screen projectors; and from Jerry Falwell, Jesse Helms, and Tim LaHaye to Martin Luther King Jr., Jesse Jackson, Bill Clinton, and Maya Angelou, Baptists are a study in contrasts. At first glance, Baptist theology seems classically Protestant in its emphasis on the Trinity, the incarnation of Jesus Christ, the authority of Scripture, salvation by faith alone, and baptism by immersion. Yet interpretation and implementation of these beliefs have made Baptists one of the most fragmented denominations in the United States. Indeed, they are often characterized as a people who "multiply by dividing." This book introduces readers to this fascinating and diverse denomination, offering a sociological portrait of a group numbering some thirty million members. Bill J. Leonard explores Baptist history, beliefs, practices and disputes, as well as contributions to American culture and the religious landscape. Leonard also discusses the major controversial issues within the denomination, including race, the interpretation of scripture, the role of women in the church, the separation of church and state, religion

and politics, ethics, and sexuality. -- From publisher description. **Studying the Historical Jesus Evaluations of the State of Current Research** *BRILL* This coordinated collection of studies provides important critical assessments of recent progress in Life of Jesus research. Topics treated include Jesus and Palestinian politics, the parables and miracles of Jesus, and the Jesus tradition in extracanonical sources. **The Making of the American Landscape** *Routledge* The only compact yet comprehensive survey of environmental and cultural forces that have shaped the visual character and geographical diversity of the settled American landscape. The book examines the large-scale historical influences that have molded the varied human adaptation of the continent's physical topography to its needs over more than 500 years. It presents a synoptic view of myriad historical processes working together or in conflict, and illustrates them through their survival in or disappearance from the everyday landscapes of today. **Historic Rural Churches of Georgia** *University of Georgia Press* Forty-seven early houses of worship from all areas of the state. Nearly three hundred stunning color photographs capture the simple elegance of these sanctuaries and their surrounding grounds and cemeteries. **America's Fastest Growing Churches Why 10 Sunday Schools Are Growing Fast Here** is the story of 10 churches in America that are growing at a very rapid pace. They are different in many respects: sections of the country, age of congregation, age of pastor, and their approach to the task of growth. Author Towns has done a very fine job in elaborating these differences but the major contribution of the book may well be the strong emphasis on the ways in which they are alike. It is must reading for every pastor and church member who is depressed by declining attendance or lack of growth. **The Yugas Keys to Understanding Our Hidden Past, Emerging Present and Future Enlightenment** *Crystal Clarity Publishers* Today's view of history cannot account for ancient anomalies, such as the Pyramids and advanced knowledge contained in India's Vedas-but in 1894 an Indian sage gave us an explanation not only for our hidden past, but for the trends of today and for our future enlightenment-the 24,000 year yuga cycle.
