The Golden Dawn of Italian Fashion A Cross-Cultural Perspective on Maria Monaci Gallenga Cambridge Scholars Publishing *This is the first book written about Maria Monaci Gallenga (1880-1944), the enigmatic fashion artist and designer marginalized after decades of fortune and fame. The daughter of Ernesto Monaci, the illustrious philologist and mentor of Luigi Pirandello, Gallenga was the wife of Pietro Gallenga, a medical scientist related to the Gallenga Stuart family. The text outlines Maria Monaci Gallenga's impact on the world of fashion, contextualizing her work and that of other forgotten fashion designers in the 1920s and 1930s. It sheds light on her cultural impact and idealism as a business entrepreneur in Europe and America promoting Italian art and culture. It also highlights her engagement in social and educational activities after she retired from the world of fashion, and explains the reasons behind her marginalization and disappearance, and the obstacles and constraints she faced during the years of Fascism. The book also considers the influence of the British arts and crafts movement and the vision of the Pre-Raphaelite Brotherhood on her aesthetic vision, and, in turn, investigates Maria Gallenga's influence on late Pre-Raphaelite paintings (Frank Cadogan Cowper) inspired by her designs and fabrics. The discovery of her fabrics and accessories by the Fendi sisters in the collections of the Tirelli House eventually sparked a new interest in her models, now enhanced by digital media.* **Historical Painting Techniques, Materials, and Studio Practice Preprints of a Symposium, University of Leiden, the Netherlands, 26-29 June 1995 Getty Publications** *Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing*

museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangka. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century. **Towards a Unified Italy**

Historical, Cultural, and Literary Perspectives on the Southern Question

Springer Since unification in 1860, Italy has remained bitterly divided between the rich North and the underdeveloped South. This book examines the historical, literary, and cultural contexts that have informed and inflamed the debate on the Southern Question for over a century. It brings together analysis of cinema, literature, and newspaper archives to reconsider the myths and stereotypes that both Northerners and Southerners deploy in their narratives. Salvatore DiMaria offers a masterful assessment of the entangled issues that have produced the South's image as impoverished and backwards, such as organized crime, illiteracy, and mass emigration. Documenting the state's largely failed efforts to bring the South into its socio-economic fold, DiMaria also points to the future, arguing that the European Union and globalization are transformative forces that may finally produce a unified Italy. **Tommaso Campanella The Book and the Body of Nature**

Science & Business Media

A friend of Galileo and author of the renowned utopia *The City of the Sun*, Tommaso Campanella (Stilo, Calabria, 1568- Paris, 1639) is one of the most significant and original thinkers of the early modern period. His philosophical project centred upon the idea of reconciling Renaissance philosophy with a radical reform of science and society. He produced a complex and articulate synthesis of all fields of knowledge - including magic and astrology. During his early formative years as a Dominican friar, he manifested a restless impatience towards Aristotelian philosophy and its followers. As a reaction, he enthusiastically embraced Bernardino Telesio's view that knowledge could only be acquired through the observation of things themselves, investigated through the senses and based on a correct understanding of the link between words and objects. Campanella's new natural philosophy rested on the principle that the books written by men needed to be compared with God's infinite book of nature, allowing them to correct the mistakes scattered throughout the human 'copies' which were always imperfect, partial and liable to revisions. It is in the light of these principles that he defended Galileo's right to read the book of nature while denouncing the mistake of those - be they Aristotelian philosophers or theologians - who wanted to stop him from carrying on his natural investigations. However, Campanella maintained that the book of nature, far from being written in mathematical characters, was a living organism in which each natural being was endowed with life and a degree of sensibility that was appropriate for its preservation and propagation. Nature as a whole was an organism in which each single part was directed towards the common good. This is the reason why Campanella thought that nature had to be regarded as an ideal model for any political organisation. Political structures were often ruled by injustice and violence

precisely because they had departed from that natural model. This book charts Campanella's intellectual life by showing the origin, development and persistence of some of the fundamental tenets of his thought. **Religious Narratives in Italian Literature after the Second Vatican Council A Semiotic Analysis Walter de Gruyter GmbH & Co KG** This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative. **Decadent Genealogies The Rhetoric of Sickness from Baudelaire to D'Annunzio Cornell University Press** Barbara Spackman here examines the ways in which decadent writers adopted the language of physiological illness and alteration as a figure for psychic otherness. By means of an ideological and rhetorical analysis of scientific as well as literary texts, she shows how the rhetoric of sickness provided the male decadent writer with an alibi for the occupation and appropriation of the female body. **Libro Da Colorare Adulti 60 Mandala Su Fondo Nero and BONUS: 100 Motivi Da Colorare per Tutta la Famiglia (PDF Da Stampare), Favoriscono il Relax e la Creatività.** *le petit créatif presenta... E come ci si sente a essere i primi in assoluto a predire qualcosa di inatteso riguardo l'Universo? Questa è la storia degli scienziati che, proprio grazie a formule teoriche matematiche, hanno predetto l'esistenza di sconosciuti pianeti, buchi neri, invisibili campi di forze, oscillazioni nello spaziotempo, insospettite particelle subatomiche e persino l'antimateria. Quegli scienziati sono «gli stregoni», ovvero quelle menti visionarie che sanno estrarre miracolose descrizioni straordinariamente accurate da ciò che fino ad allora era solo oscurità. Un incredibile viaggio dalla predizione alla dimostrazione attraverso quasi due secoli di ricerca scientifica, dagli

studi di Parigi e di Cambridge al fronte russo devastato dalla guerra, fino ai bunker accanto ai reattori nucleari, agli osservatori astronomici a Berlino e in California, agli enormi tunnel sotto il confine franco-svizzero **Renovatio Urbis Architecture, Urbanism and Ceremony in the Rome of Julius II Taylor & Francis** Examining the urban and architectural developments in Rome during the Pontificate of Julius II (1503-13) this book focuses on the political, religious and artistic motives behind the changes. Each chapter focuses on a particular project, from the Palazzo dei Tribunali to the Stanza della Segnatura, and examines their topographical and symbolic contexts in relationship to the broader vision of Julian Rome. This original work explores not just historical sources relating to buildings but also humanist/antiquarian texts, papal sermons/eulogies, inscriptions, frescoes and contemporary maps. An important contribution to current scholarship of early sixteenth century Rome, its urban design and architecture. **Look Homeward, Angel GENERAL PRESS** Look Homeward, Angel by Thomas Wolfe is about a young man's burning desire to leave his small town and tumultuous family in search of a better life, in 1929. It is Wolfe's first novel, and is considered a highly autobiographical American coming-of-age story. The character of Eugene Gant is generally believed to be a depiction of Wolfe himself. The novel covers the span of time from Eugene's birth to the age of 19. The setting is the fictional town and state of Altamont, Catawba, a fictionalization of his home town, Asheville, North Carolina. Rich with lyrical prose and vivid characterizations, this twentieth-century American classic will capture the hearts and imaginations of every reader. **Translating Style A Literary Approach to Translation - A Translation Approach to Literature Routledge** Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation, this book sets out to show, through detailed and lively analysis, what it really means to translate literary style. Combining linguistic and lit crit approaches, it proceeds through a series of interconnected chapters to analyse translations of the works of D.H. Lawrence, Virginia Woolf, James Joyce, Samuel Beckett, Henry Green and Barbara Pym. Each chapter thus becomes an illuminating critical essay on the author concerned, showing how divergences between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of 'back translation' that now makes Tim Parks' highly-praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself. **Etna, Umbilicus Inferni Lulu.com** Un'antichissima leggenda egiziana narra che i crateri dei vulcani rappresentano le porte dell'inferno. I crateri, chiusi o aperti, sono le porte dell'inferno, quello dell'Etna ? il pi? grande e il pi? spaventoso di questi ingressi. Il saggio descrive il passaggio dalla Sicilia mitologica a quella cristiana e le conseguenze che ne sono derivate **The Boundaries of Europe From the Fall of the Ancient World to the Age of Decolonisation Walter de Gruyter GmbH & Co KG** Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization,

or the end of the explicit endeavor to “Europeanize” the world. From the decline of the Roman Empire to the polycentrism of today’s world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from “mare nostrum” to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The *Boundaries of Europe*, edited by Pietro Rossi, is the first installment in the ALLEA book series *Discourses on Intellectual Europe*, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Atti del Convegno di Studi (Siacca-Burgio-Ribera, 28-29 marzo 2011), a cura di Marco Milanese, Valentina Caminneci, Maria Concetta Parello, Maria Serena Rizzo Lo studio dei rifiuti delle città storiche, dei sistemi e delle pratiche di smaltimento oggi ha un valore che investe la storia ambientale e che non si limita più alle prospettive dello studio storico-documentario (Leggi, Statuti, Consuetudini, che stabiliscono l’opposto di quelli che erano i comportamenti più diffusi) e di quello archeologico. Le metodologie archeologiche si rapportano a butti, scarichi e rifiuti approfondendo quella chiave d’accesso primaria all’interpretazione della stratificazione archeologica, rappresentata dai processi formativi, particolarmente nel processo interpretativo dei butti e quindi nel percorso, dai butti alla storia, che costituisce il titolo del convegno siciliano di Siacca-Burgio-Ribera, di cui “Archeologia Postmedievale” ha accolto gli Atti. Early Rock Art of the American West The Geometric Enigma University of Washington Press

The earliest rock art in the Americas as elsewhere is geometric or abstract.

Until Early Rock Art in the American West, however, no book-length study has

been devoted to the deep antiquity and amazing range of geometrics and the

fascinating questions that arise from their ubiquity and variety. Why did they

precede representational marks? What is known about their origins and functions?

Why and how did humans begin to make marks, and what does this practice tell us

about the early human mind? With some two hundred striking color images

and discussions of chronology, dating, sites, and styles, this pioneering

investigation of abstract geometrics on stone (as well as bone, ivory, and

shell) explores its wide-ranging subject from the perspectives of ethnology,

evolutionary biology, cognitive archaeology, and the psychology of artmaking. The

authors' unique approach instills a greater respect for a largely unknown and

underappreciated form of paleoart, suggesting that before humans became Homo

symbolicus or even Homo religiosus, they were mark-makers Homo aestheticus.

Europe and Empire On the Political Forms of Globalization Fordham Univ

Press The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual

crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

Dominio Anagrama Una contundente y argumentada denuncia de lo que no funciona en nuestra sociedad y un útil manual de resistencia. Lo admitió nada menos que el mismísimo Warren Buffett a preguntas de un periodista del New York Times: «Es evidente que hay una guerra de clases, pero es mi clase, la clase rica, quien la encabeza, y estamos venciendo.» Este libro analiza esa guerra sigilosa que libra el neoliberalismo, y que enfrenta a poderosos contra pobres, a élites contra ciudadanos, a gobernantes contra súbditos. Es una guerra que se lucha en ámbitos muy diversos, desde la economía y la ideología hasta el lenguaje: por ejemplo, si quieres acometer una privatización o serios recortes llámalo «reforma»; por ejemplo, estigmatiza conceptos como «lucha de clases»... Una guerra en la que fundaciones con intereses muy concretos financian a universidades y centros de investigación para que dejen bien claro que el único régimen económico viable es el capitalismo. Para ello hay que tachar a cualquier oposición a las políticas neoliberales de comunista, y acusarla de atentar contra las libertades individuales. Marco d'Eramo nos propone una contundente y argumentada denuncia de lo que no funciona en nuestra sociedad y un útil manual de resistencia ante las manipulaciones y abusos del poder económico.

Writing Beyond Pen and Parchment Inscribed Objects in Medieval European Literature Walter de Gruyter GmbH & Co KG What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? Writing beyond Pen and Parchment introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre "Material Text Cultures," (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume's focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

Discourse on the State

of the Jews Bilingual Edition Walter de Gruyter GmbH & Co KG In 1638, a small book of no more than 92 pages in octavo was published “*appresso Gioanne Calleoni*” under the title “*Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice.*” It was dedicated to the Doge of Venice and his counsellors, who are labelled “*lovers of Truth.*” The author of the book was a certain Simone (Simḥa) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto’s political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are “*wellsuited for trade,*” much more so than others (such as “*foreigners,*” for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto’s argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism’s alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto’s resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto’s texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

Bianco e nero The Great Black Spider on Its Knock-kneed Tripod Reflections of Cinema in Early Twentieth-century Italy University of Toronto Press The emergence of cinema as a predominant form of mass entertainment in the 1910s inspired intellectuals to rethink their definitions of art. *The Great Black Spider on Its Knock-Kneed Tripod* traces the encounter of Italy’s writers with cinema, and in doing so offers vibrant new perspectives on the country’s early twentieth-century culture. This comparative study focuses on the immediate responses to this cultural phenomenon of three highly influential intellectuals, each with a competing aesthetic vision □ Filippo Tommaso Marinetti, founder of Futurism; Gabriele D’Annunzio, leader of Italian Decadentism; and Luigi Pirandello, a father of modern European theatre and theorist of humour. Along with demonstrating how the popularization of the feature-length narrative influenced each author’s outlook and theories, Michael Syrimis unravels the extent to which cinema enforced or neutralized the ideological and aesthetic differences between them.

Promessa al drago Smartia Publishing Sono fidanzata con uno sconosciuto, un uomo... drago. Se non lo sposo, sono spacciata. Ho trascorso la vita a nascondermi. A differenza del resto della mia un tempo potente famiglia, non possiedo magia. Il mostro immortale che ha divorato tutti i miei parenti continua a darmi la caccia. E mia nonna è

convinta che l'unico modo per salvarmi dal mostro sia darmi in sposa a un altro mostro: un drago. Solo che questo mostro è la perfezione in forma umana: tutto muscoli dorati guizzanti e più magnifico di chiunque si trasformi in una mostruosa fiera scagliosa abbia il diritto di essere. La sua magia mi attrae, il suo calore mi incanta e la mia mente si fonde al tocco delle sue man inumanamente calde sulla mia pelle. Non ho la minima intenzione di sposarlo. So cosa vuole davvero: accesso al potere della mia famiglia. Ma io non ho magia, non ho un potere mio. Lui crede di sapere cosa aspettarsi da me. Io non gioco a certi giochi. Preferisco fuggire da un mostro che sposarne uno. Non sono il tesoro di un drago. Anche se il mio cuore non è d'accordo. **SERIE COMPLETA DISPONIBILE ORA! Writing and Performing Female Identity in Italian Culture Springer** This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century. Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision. **Tre Giornate di Neve Lulu.com** In questo romanzo l'autore racconta la storia e le avventure di tre personaggi braidesi, che si svolgono durante una giornata di abbondante nevicata, in tre epoche diverse, a distanza di 101 anni e un giorno una dall'altra. and the Transformation of the World Princeton University Press Tommaso Campanella (1568-1639) is one of the most fascinating, if hitherto inaccessible, intellectuals of the Italian Renaissance. His work ranges across many of the intellectual, ecclesiastical, and political concerns of that tumultuous era. John Headley uses Campanella's life and works to open a window into this complex period. He not only explicates the frequently contradictory texts of a prolific author but also situates Campanella's writings amidst the larger currents of European thought. For all its obscurely magical and astrolgocial intricacies, Campanella's entire intellectual endeavor expresses an effort to impose a distinctive order and direction upon the major issues and forces of the age different from that which was shortly to prevail with the new Galilean science and the Leviathan state. In the process of identifying and engaging these issues and imparting in some instances something of his own, he managed to mobilize and deploy many of the salient principles of late medieval and Renaissance culture, often cast in a curiously modern hue and aligned with the new forces of the age. Indeed, modern and antique, new and old juxtapose violently in the person of this reformer who combines an encyclopedic comprehensiveness of intellect with an appalling intensity of will. He is a man who strove to destabilize the regnant forces of what he identified as tyranny, sophistry, and hypocrisy and to shake the world into a new order. In this book, Headley invites readers to look anew at this mercurial figure and at the turbulent times in which he lived. John M. Headley is Professor of History at the University of North Carolina at Chapel Hill. He has authored studies of Luther, Thomas More, the Emperor Charles V, and San Carlo Borromeo. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or to pursue a fully human life has become the thread from which the fates of two tribes hangs.
