It is difficult to imagine anyone seriously interested in Dante who will not want to own this book" AN Wilson, *The Times* Since Dante Alighieri wrote the Divine Comedy it has defined how people imagine and depict not only heaven and hell, but romantic love and the human condition. However, while Dante's works are widely celebrated outside Italy, the circumstances of his extraordinary life are less well known. Born in 1265, Dante's adolescence was characterised by literary genius, but his political activism in one of the medieval world's wealthiest cities led to his death in exile. Pre-eminent Dante scholar **Alessandro Barbero** and celebrated translator **Allan Cameron** bring the poet vividly to life. Animating the political intrigue, violence, civil war, exile and

cities that shaped Dante's poetic and political life, this is a remarkable portrait of one of the creators of European literature and a towering medieval figure in time for the 700th anniversary of his death. *The Name of the Rose* Houghton Mifflin Harcourt It is the year 1327. Franciscans in an Italian abbey are suspected of heresy, but Brother William of Baskerville's investigation is suddenly overshadowed by seven bizarre deaths.

Translated by William Weaver. A Helen and Kurt Wolff Book *The Best of Me* (Movie Tie-In Enhanced Ebook) Grand Central Publishing WITH FEATURETTES FROM NICHOLAS SPARKS AND THE MOVIE CAST, DELETED SCENES, MUSIC VIDEO, AND MORE! IN THEATERS OCTOBER 17, 2014! Starring Michelle Monaghan, James Marsden, Luke Bracey, and Liana Liberato "Everyone wanted to believe that endless love was possible. She'd believed in it once, too, back when she was eighteen." In the spring of 1984, high school students Amanda Collier and Dawson Cole fell deeply, irrevocably in love.

Though they were from opposite sides of the tracks, their love for one another seemed to defy the realities of life in the small town of Oriental, North Carolina. But as the summer of their senior year came to a close, unforeseen events would tear the young couple apart, setting them on radically divergent paths. Now, twenty-five years later, Amanda and Dawson are summoned back to Oriental for the funeral of Tuck Hostetler, the mentor who once gave shelter to their high school romance. Neither has lived the life they imagined . . . and neither can forget the passionate first love that forever changed their lives. As Amanda and Dawson carry out the instructions Tuck left behind for them, they realize that everything they thought they knew -- about Tuck, about themselves, and about the dreams they held dear -- was not as it seemed. Forced to confront painful memories, the two former lovers will discover undeniable truths about the choices they have made. And in the course of a single, searing weekend, they will ask of the living, and the dead: Can love truly rewrite the past?

*Children and Peace From Research to Action* Springer Nature This open access book brings together discourse on children and peace from the 15th International Symposium on the Contributions of Psychology to Peace, covering issues pertinent to children and peace and approaches to making their world safer, fairer and more sustainable. The book is divided into nine sections that examine traditional themes (social construction and deconstruction of diversity, intergenerational transitions and memories of war, and multiculturalism), as well as contemporary issues such as Europe's "migration crisis", radicalization and violent extremism, and violence in families, schools and communities. Chapters contextualize each issue within specific social ecological frameworks in order to reflect on the multiplicity of influences that affect different outcomes and to discuss how the findings can be applied in different contexts. The volume also provides solutions and hope through its focus on youth empowerment and peacebuilding programs for children and families. This forward-thinking volume offers a multitude of views, approaches, and strategies for research and activism drawn from peace psychology scholars and United

Nations researchers and practitioners. This book's multi-layered emphasis on context, structural determinants of peace and conflict, and use of research for action towards social cohesion for children and youth has not been brought together in other peace psychology literature to the same extent. **Children and Peace: From Research to Action** will be a useful resource for peace psychology academics and students, as well as social and developmental psychology academics and students, peace and development practitioners and activists, policy makers who need to make decisions about the matters covered in the book, child rights advocates and members of multilateral organizations such as the UN. **Mores Italiae 1575 Cambridge IGCSE® and O Level Economics Coursebook** *Cambridge University Press* Covers the Cambridge IGCSE syllabus (0455) and the Cambridge O Level syllabus (2281), first examination from 2020. The Complete Prophecies of Nostradamus *Sterling Publishing Company, Inc.* Provides the complete prophecies of Nostradamus, accompanied by new interpretations of the seer's predictions with analysis that includes the dates on which the predictions would occur. *Someone to Run With A Novel Farrar, Straus and Giroux* Earnest, awkward, and painfully shy, sixteen-year-old Assaf is having the worst summer of his life. With his big sister gone to America and his best friend suddenly the most popular kid in their class, Assaf worries away his days at a lowly summer job in Jerusalem city hall and spends his evenings alone, watching television and playing games on the Internet. One morning, Assaf's routine is interrupted by an absurd assignment: to find the owner of a stray yellow lab. Meanwhile, on the other side of the city, Tamar, a talented young singer with a lonely, tempestuous soul, undertakes an equally unpromising mission: to rescue a teenage drug addict from the Jerusalem underworld . . . and, eventually, to find her dog. *Someone to Run With* is the most popular work to date from "a writer who has been, for nearly two decades, one of the most original and talented . . . anywhere" (*The New York Times Book Review*), a bestseller hailed by the Israeli press (and reform politicians such as Shimon Peres) for its mixture of fairy-tale magic, emotional sensitivity, and gritty realism. The novel explores the life of Israeli street kids-whom Grossman interviewed extensively for the novel-and the anxieties of family life in a society racked by self-doubt. Most of all, it evokes the adventure of adolescence and the discovery of love, as Tamar and Assaf, pushed beyond the limits of childhood by their quests, find themselves, and each other. *A Simple Story* In a small Sicilian village, a young and inexperienced policeman receives a strange phone call from a retired diplomat. On investigating the matter, he finds the diplomat dead. What at first appears to be a simple case of suicide turns into an intricate tale of corruption that involves the Mafia, the head of police, and the entire Sicilian establishment. Leonardo Sciascia (1921-1989) was born in Sicily. One of Italy's &most important modern writers, he was also a controversial commentator on political affairs, especially within Sicily. In addition to notable mystery novels, including *The Day of the Owl* and *The Wine Dark*

Sea, Sciascia wrote plays, short stories, and essays. Arrian's History of the Expedition of Alexander the Great, and Conquest of Persia Swiftiana Mein Kampf (English) My Struggle In Mein Kampf, Hitler used the main thesis of "the Jewish peril", which posits a Jewish conspiracy to gain world leadership. The narrative describes the process by which he became increasingly antisemitic and militaristic, especially during his years in Vienna. He speaks of not having met a Jew until he arrived in Vienna, and that at first his attitude was liberal and tolerant. When he first encountered the anti-semitic press, he says, he dismissed it as unworthy of serious consideration. Later he accepted the same anti-semitic views, which became crucial in his program of national reconstruction of Germany. Mein Kampf has also been studied as a work on political theory. For example, Hitler announces his hatred of what he believed to be the world's two evils: Communism and Judaism. During his work, Hitler blamed Germany's chief woes on the parliament of the Weimar Republic, the Jews, and Social Democrats, as well as Marxists, though he believed that Marxists, Social Democrats, and the parliament were all working for Jewish interests. He announced that he wanted to completely destroy the parliamentary system, believing it to be corrupt in principle, as those who reach power are inherent opportunists.

The Salt Road Anchor Canada From the author of *The Tenth Gift* comes another story of exotic, foreign lands, entwining storylines spanning generations, and the quests to overcome love lost. "My dear Isabelle, in the attic you will find a box with your name on it." Isabelle's estranged archeologist father dies, leaving her a puzzle. In a box she finds some papers and a mysterious African amulet — but their connection to her remains unclear until she embarks on a trip to Morocco to discover how the amulet came into her father's possession. When the amulet is damaged and Isabelle almost killed in an accident, she fears her curiosity has got the better of her. But Taib, her rescuer, knows the dunes and their peoples, and offers to help uncover the amulet's extraordinary history, involving Tin Hinan — She of the Tents — who made a legendary crossing of the desert, and her beautiful descendant Mariata. souls wounded by history and of love blossoming on barren ground. From the German entry into Turin on 10 September 1943 to the liberation of the city on 28 April 1945, Gobetti recorded an almost daily account of events, sentiments, and personalities, in a cryptic English only she could understand. Italian senator and philosopher Benedetto Croce encouraged Ada to convert her notes into a book. Published by the Italian publisher Giulio Einaudi in 1956, it won the Premio Prato, an annual prize for a work inspired by the Italian Resistance (Resistenza). From a political and military point of view, the Partisan Diary provides firsthand knowledge of how the partisans in Piedmont fought, what obstacles they encountered, and who joined the struggle against the Nazis and the Fascists. The mountainous terrain and long winters of the Alpine regions (the site of many of their battles) and the ever-present threat of reprisals by German occupiers and their fascist partners exacerbated problems of organization among the various partisan groups. So arduous was their fight, that key military events--Italy's declaration of war on Germany, the fall of Rome, and the Allied landings on D-Day -- appear in the diary as remote and almost unrelated incidents. Ada Gobetti writes of the heartbreak of mothers who lost their sons or watched them leave on dangerous missions of sabotage, relating it to worries about her own son Paolo. She reflects on the relationship between anti-fascist thought of the 1920s, in particular the ideas of her husband, Piero Gobetti, and the Italian resistance movement (Resistenza) in which she and her son were participating. While the Resistenza represented a culmination of more than twenty years of anti-fascist activity for Ada, it also helped illuminate the exceptional talents, needs, and rights of Italian women, more than one hundred thousand of whom participated. **Dominoes: One: Frankenstein** *OUP Oxford* Word count: 5,915 **The Princess of Elsseria** She is

*OUP Oxford* **Viruses are disarmingly small and simple. None the less, the smallpox virus killed over 300 million people in the 20th century prior to its eradication in 1980. The AIDS virus, HIV, is now the single most common cause of death in Africa. In recent years, the outbreaks of several lethal viruses such as Ebola and hanta virus have caused great public concern. In her fascinating and vividly written book, Dorothy Crawford describes all aspects of the natural history of these deadly parasites, explaining how they differ from other microorganisms. She looks at the havoc viruses have caused in the past, where they have come from, and the detective work involved in uncovering them. Finally, she considers whether a new virus could potentially wipe out the human race. This is an informative and highly readable book, which will be read by all those seeking a deeper understanding of these minute but remarkably efficient killers.** **Are Clothes Modern? An Essay on Contemporary Apparel** *Chicago Paul Theobald* **A History of the Internet and the Digital Future** *Reaktion Books* **A History of the Internet and the Digital Future tells the story of the development of the**

Internet from the 1950s to the present and examines how the balance of power has shifted between the individual and the state in the areas of censorship, copyright infringement, intellectual freedom, and terrorism and warfare. Johnny Ryan explains how the Internet has revolutionized political campaigns; how the development of the World Wide Web enfranchised a new online population of assertive, niche consumers; and how the dot-com bust taught smarter firms to capitalize on the power of digital artisans. From the government-controlled systems of the Cold War to today's move towards cloud computing, user-driven content, and the new global commons, this book reveals the trends that are shaping the businesses, politics, and media of the digital future. **The Fear of Barbarians Beyond the Clash of Civilizations** *University of Chicago Press* The relationship between Western democracies and Islam, rarely entirely comfortable, has in recent years become increasingly tense. A growing immigrant population and worries about cultural and political assimilation—exacerbated by terrorist attacks in the United States, Europe, and around the world—have provoked reams of commentary from all parts of the political spectrum, a frustrating majority of it hyperbolic or even hysterical. In **The Fear of Barbarians**, the celebrated intellectual Tzvetan Todorov offers a corrective: a reasoned and often highly personal analysis of the problem, rooted in Enlightenment values yet open to the claims of cultural difference. Drawing on history, anthropology, and politics, and bringing to bear examples ranging from the murder of Theo van Gogh to the French ban on headscarves, Todorov argues that the West must overcome its fear of Islam if it is to avoid betraying the values it claims to protect. True freedom, Todorov explains, requires us to strike a delicate balance between protecting and imposing cultural values, acknowledging the primacy of the law, and yet strenuously protecting minority views that do not interfere with its aims. Adding force to Todorov's arguments is his own experience as a native of communist Bulgaria: his admiration of French civic identity—and Western freedom—is vigorous but non-nativist, an inclusive vision whose very flexibility is its core strength. The record of a penetrating mind grappling with a complicated, multifaceted problem, **The Fear of Barbarians** is a powerful, important book—a call, not to arms, but to thought. **The Natural History of Religion** *Good Press* "The Natural History of Religion" by David Hume. The contributors focus on attitudes of medieval men

and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe.
