RELUCTANT INTIMACIES

JAPANESE ELDERCARE IN INDONESIAN HANDS

Berghahn Books Based on seventeen months of ethnographic research among Indonesian eldercare workers in Japan and Indonesia, this book is the first ethnography to research Indonesian care workers' relationships with the cared-for elderly, their Japanese colleagues, and their employers. Through the notion of intimacy, the book brings together sociological and anthropological scholarship on the body, migration, demographic change, and eldercare in a vivid account of societal transformation. Placed against the background of mass media representations, the Indonesian workers' experiences serve as a basis for discussion of the role of bodily experience in shaping the image of a national "other" in Japan.

EMBEDDED RACISM

JAPAN'S VISIBLE MINORITIES AND RACIAL DISCRIMINATION

Lexington Books Despite domestic constitutional provisions and international treaty promises, Japan has no law against racial discrimination. Consequently, businesses around Japan display "Japanese Only" signs, denying entry to all 'foreigners' on sight. Employers and landlords routinely refuse jobs and apartments to foreign applicants. Japanese police racially profile 'foreign-looking' bystanders for invasive questioning on the street. Legislators, administrators, and pundits portray foreigners as a national security threat and call for their segregation and expulsion. Nevertheless, Japan's government and media claim there is no discrimination by race in Japan, therefore no laws are necessary. How does Japan resolve the cognitive dissonance of racial discrimination being unconstitutional yet not illegal? *Embedded Racism* carefully untangles Japanese society's complex narrative on race by analyzing two mutually-supportive levels of national identity maintenance. Starting with case studies of hundreds of individual "Japanese Only" businesses, it carefully analyzes the construction of Japanese identity through legal structures, statute enforcement, public policy, and media messages. It reveals how the concept of a "Japanese" has been racialized to the point where one must look "Japanese" to be treated as one. The product of a quarter-century of research and fieldwork by a scholar living in Japan as a naturalized Japanese citizen, *Embedded Racism* offers an unprecedented perspective on Japan's deeply-entrenched, poorly-understood, and strenuously-unacknowledged discrimination as it affects people by physical appearance.

JAPANESE LANGUAGE AND SOFT POWER IN ASIA

Springer This cutting edge collection considers how the Japanese language functions as a key element of Japanese soft power in Asia. Within Japanese culture itself, the promotion of language has been an area of ambivalence. This interdisciplinary book looks across the fields of language policy, language teaching, socio-linguistics, cultural studies and history to identify the links between Japan's language policies and broader social, economic and political processes. It examines the challenges that undermine Japan's potential soft power by identifying a gap between the "official Japan" portrayed by the Japanese government and the "cultural Japan" that foreigners perceive. It also reveals historical continuity in the way Japanese language is perceived and promoted by policy makers and how the current practices of Japanese language teaching in Asian countries have been shaped within the framework of "international exchange", which has been a key concept in Japanese foreign policies since the 1970s. It particularly considers the concept of 'Cool Japan' as a symbol of Japan's interpretation of its cultural power and offers a thoughtful assessment of the future of Japanese as a form of soft power in Asia as the country prepares for the 2020 Tokyo Olympics.
