## COOPERATIVE AND NETWORKING STRATEGIES IN SMALL BUSINESS

---

**Springer** *The book aims to collect the most recent research and best practices in the cooperative and networking small business field identifying new theoretical models and describing the relationship between cooperation and networks in the small business strategy context. It examines different concepts and analytical techniques better understand the links between cooperative strategies and networks in small business. It also studies the existing economic conditions of network and strategic implications to small business from the point of view of their internal and external consistency. Cooperation and networks is a fashionable topic. It is receiving increasing attention in popular management publications, as well as specialized academic journals. Cooperation between firms and industries is a means of leveraging and aggregating knowledge also generating direct benefits in terms of innovation, productivity and competitiveness. Various options and decisions made within the framework of strategic alliances may be identified and differentiated. For example, it has been argued that R&D cooperation between competing firms also facilitates the search for incremental efficiency gains and is thus a competitive advantage. In parallel with a theoretical acceptance of the importance of a sustained competitive advantage to formulate strategy, there is a growing understanding that cooperative and networking behavior among small firms is at the root of many success stories in today's small business management. This condition requires an effort to develop a study of both aspects of cooperation and networks as compatible, complementary facets of a unique reality. In short, the cooperative and networking relationships of a small business can be the source of its competitive advantage. Enhancement of local resources and capabilities for the generation and dissemination of knowledge is still an issue for defining public policies in many countries. Featuring contributions covering such topics as green innovation, social commerce, university cooperation networks, and regional entrepreneurship, this book provides a comprehensive and richly illustrated study of cooperation and networks in small business that will be pertinent to students, academics, professionals, scholars, and policy makers./div*

**SINGLE MOTHERS AND THE PURSUIT OF POSTSECONDARY EDUCATION**

---

**Rutgers University Press** *In Mothering by Degrees, Jillian Duquaine-Watson shows how single mothers pursuing college degrees must navigate a difficult course as they attempt to reconcile their identities as single moms, college students, and in many cases, employees. They also negotiate a balance between what they think a good mother should be, and what society is telling them, and how that affects their choices to go to college, and whether to stay in college or not. The first book length study to focus on the lives and experiences of single mothers who are college students, Mothering by Degrees points out how these women are influenced by dominant American ideologies of motherhood, and the institutional parameters of the schools they attend, and argues for increased attention to the specific ways in which the choices, challenges, and opportunities available to mothers are shaped within their specific environments, as well as the ways in which mothers help shape those environments...*

**ARISTOTELIAN CHARACTER EDUCATION**

---

**Routledge** *This book provides a reconstruction of Aristotelian character education, shedding new light on what moral character really is, and how it can be highlighted, measured, nurtured and taught in current schooling. Arguing that many recent approaches to character education understand character in exclusively amoral, instrumentalist terms, Kristjánsson proposes a coherent, plausible and up-to-date concept, retaining the overall structure of Aristotelian character education. After discussing and debunking popular myths about Aristotelian character education, subsequent chapters focus on the practical ramifications and methodologies of character education. These include measuring virtue and morality, asking whether Aristotelian character education can salvage the effects of bad upbringing, and considering implications for teacher training and classroom practice. The book rejuvenates time-honoured principles of the development of virtues in young people, at a time when 'character' features prominently in educational agendas and parental concerns over school education systems. Offering an interdisciplinary perspective which draws from the disciplines of education, psychology, philosophy and sociology, this book will appeal to researchers, academics and students wanting a greater insight into character education.*

## **POVERTY, INEQUALITY AND THE CRITICAL THEORY OF RECOGNITION**

---

**Springer Nature** *This book brings together philosophical approaches to explore the relation of recognition and poverty. This volume examines how critical theories of recognition can be utilized to enhance our understanding, evaluation and critique of poverty and social inequalities. Furthermore, chapters in this book explore anti-poverty policies, development aid and duties towards the (global) poor. This book includes critical examinations of reflections on poverty and related issues in the work of past and present philosophers of recognition. This book hopes to contribute to the ongoing and expanding debate on recognition in ethics, political and social philosophy by focusing on poverty, which is one highly important social and global challenge. "If one believed that the theme of "recognition" had been theoretically exhausted over the last couple of years, this book sets the record straight. The central point of all the studies collected here is that poverty is best understood in its social causes, psychic consequences and moral injustice when studied within the framework of recognition theory. Regardless of how recognition is defined in detail, poverty is best captured as the absence of all material and cultural conditions for being recognized as a human being. Whoever is interested in the many facets of poverty is well advised to consult this path-breaking book." Axel Honneth, Columbia University.*

## **FACE TO FACE MEETINGS WITH JESUS CHRIST 3 (PDF)**

---

---

### **REVEALING THE END OF THE AGE**

---

**Felix Wantang** *We all live in a world where virtually every spiritual struggle is practically beyond our control. While some of us will die instantly without the opportunity to consciously sense death beforehand, others on the other hand will have the opportunity to know well in advance that death is around the corner. Regardless of which group you eventually find yourself, the truth is that every life on earth will one day without notice suddenly come to an end followed by a swift judgment with no excuses whatsoever. Do you know your final destination? When the disciples asked Jesus about the End of the Age, he said to them, "No one knows about that day or hour, not even the angels in heaven, nor the Son, but only the Father." Matthew 24:36. But in this book and for the first time in human history, Jesus discloses a unique breathtaking code in the Language of Heaven that reveals the only clue to the End of the Age. God's spiritual principle of life for humanity on earth is, "All about Him" because He wants us to make Him the priority of our lives. But on judgment day, when you appear before Jesus Christ, that will all change because God's spiritual principle of life for humanity will become, "All about you". You either have Jesus Christ to enter God's Paradise in Heaven or you don't. What makes your life a supernatural success is where you effectively go from this world; not where you came from or what you did on earth at the expense of*

salvation. No eyes have ever seen, no ears have ever heard, and no human mind can fathom what God is about to unleash on earth through the second coming of His son. This book will give you all the supernatural Biblical spiritual details you need to prepare yourself for what the Bible described as “The Final Hour.” The time is at hand; Jesus loves you. This book is Volume 3 of “Face to Face Meetings with Jesus Christ”. Apart from him, we can do nothing.

Immense in scope and vision and filled with insight into human motivation and behavior, The Six Pillars Of Self-Esteem is essential reading for anyone with a personal or professional interest in self-esteem. The book demonstrates compellingly why self-esteem is basic to psychological health, achievement, personal happiness, and positive relationships. ## **SPORT FOR DEVELOPMENT**

### **WHAT GAME ARE WE PLAYING?**

---

**Routledge** Sport is increasingly regarded as a powerful tool in international development. In this comprehensive introduction to the area of 'sport-for-development', leading researcher Fred Coalter critically evaluates the strengths and weaknesses and successes and failures of sport-for-development policies and programs. Beginning with an outline of the historical development of policies of sport-for-development, this book explores the objectives that remain central to international sport-for-development initiatives, including issues of defining and measuring impacts, the development of self-efficacy and leadership skills, female empowerment, HIV/AIDS awareness and social capital. Drawing on a wealth of fieldwork experience and empirical data from the most extensive monitoring and evaluation project ever undertaken with sport-for-development organisations, this is an unparalleled and fully integrated assessment of theory, policy and practice in international sport-for-development. *Sport-for-development: What game are we playing* is essential reading for any student or practitioner with an interest in sport-for-development, sports policy or international development.
