## Edexcel GCE Advanced Subsidiary Chinese Specimen 2017, Paper 1 (8CN0/01) (PDF Book)

### Intensive Revision Course Based on Past Exam Papers

Legoo Mandarin Pearson Edexcel AS believes languages should appeal to all students. The new Pearson Edexcel AS Level in Chinese has been developed to inspire all students who have an appreciation of the language, literature, film and culture of the Chinese-speaking world. Pearson Edexcel AS designed a motivating course of study that will enable your students to develop an advanced level knowledge and understanding of the Chinese language, the culture of China and other Chinese-speaking countries and communities, as well as practical and valuable language and transferable study skills. This specification will help to prepare students for higher education and enhance their employability profile. The two Inspiring and engaging themes are studied alongside either one literary text or one film and assessed through two externally-examined papers (Papers 1 and 2) and one teacher-examiner conducted speaking assessment (Paper 3). Theme 1: Changes in contemporary Chinese society Theme 2: Chinese culture We are expert in Chinese for foreigners and we pay attention to Edexcel GCSE, GCE Chinese closely since 1999. We build a huge database to cover all GCSE, A LEVEL, AP, SAT, IB Chinese from different exam board and HSK (Chinese Proficiency Test). We collected 250,000 plus vocabulary with the best possible English translation to help foreigners understand Chinese better. We are building the most authentic teaching materials for Chinese oversea teaching, combining the cutting-edge IT and modern teaching methods. In our textbooks, we give the English Translation for main paragraph for better understanding. Meanwhile, we use footnotes to give vocabulary with the HSK classification. If necessary, we will give vocabulary expansion according to the root words. Using our research and theory to expand your vocabulary fast and gain fast reading and writing skill in in Unique Smart Way. Combining our 26 years' experience in Teaching and editing our own materials, here is the "LIFE SAVING" book called by many students for their exams. Grab this unique book!

### Female Immigrant Entrepreneurs

### The Economic and Social Impact of a Global Phenomenon

Gower Publishing, Ltd. Written by a team of researchers based in prestigious business schools and universities on almost every continent, this important book begins the process of discovering why and how female driven business start-ups often seem to spontaneously emerge in adverse environments. Is it randomness, luck, or chance that determines success or failure, or vital critical forces and the inherent qualities of the women involved? The research emerging from the Female Immigrant Entrepreneurship (FIE) project discusses the integration of immigrant communities, their interaction with host economic and business environments, and the role of women in that interaction.

## Big Data Analytics and Knowledge Discovery

22nd International Conference, DaWaK 2020, Bratislava, Slovakia, September 14–17, 2020, Proceedings

Springer Nature The volume LNCS 12393 constitutes the papers of the 22nd International Conference Big Data Analytics and Knowledge Discovery which will be held online in September 2020. The 15 full papers presented together with 14 short papers plus 1 position paper in this volume were carefully reviewed and selected from a total of 77 submissions. This volume offers a wide range to following subjects on theoretical and practical aspects of big data analytics and knowledge discovery as a new generation of big data repository, data pre-processing, data mining, text mining, sequences, graph mining, and parallel processing.

## The Law and Economics of Enforcing European Consumer Law

### A Comparative Analysis of Package Travel and Misleading Advertising

Ashgate Publishing, Ltd. This book offers a comparative law and economics analysis of the changing landscape of EU consumer law enforcement policy now that EU member states are moving away from purely public or private law enforcement towards a more mixed approach. The book reflects on the need for efficient enforcement designs and examines the economic factors according to which the efficiency of different enforcement mechanisms can be assessed. A variety of hypothetical case scenarios are considered to illustrate various consumer law problems and the findings are used to assess real life situations in countries with different enforcement traditions.

## Searching for Justice After the Holocaust

### Fulfilling the Terezin Declaration and Immovable Property Restitution

Oxford University Press, USA The Nazis and their state-sponsored cohorts stole mercilessly from the Jews of Europe. In the aftermath of the Holocaust, returning survivors had to navigate a frequently unclear path to recover their property from governments and neighbors who had failed to protect them and who often had been complicit in their persecution. While the return of Nazi-looted art has garnered the most media attention, and there have been well-publicized settlements involving stolen Swiss bank deposits and unpaid insurance policies, there is a larger piece of Holocaust injustice that has not been adequately dealt with: stolen land and buildings, much of which today still remain unrestituted. This book is about the less publicized area of post-Holocaust restitution involving immovable (real) property confiscated from European Jews and others during World War II. In 2009, 47 countries convened in Prague to deal with the lingering problem of restitution of pre-war private, communal and heirless property stolen in the Holocaust. The outcome was the issuance by 47 states of the Terezin Declaration on Holocaust Era Assets and Related Issues, which aimed, among other things, to "rectify the consequences" of the wrongful property seizures. This book sets forth the legal history of Holocaust immovable property restitution in each of the Terezin Declaration signatory states. It also analyses how each of the 47 countries has fulfilled the standards of the Guidelines and Best Practices of the Terezin Declaration, issued in 2010 in conjunction with the establishment of the European Shoah Legacy Institute (ESLI) to monitor compliance. The book is based on the Holocaust (Shoah) Immovable Property Restitution Study commissioned by ESLI, written by the authors and issued in Brussels in 2017 before the European Parliament.

## Sustainable Regeneration of Former Military Sites

Routledge Sustainable Regeneration of Former Military Sites is the first book to analyze a profound land use change happening all over the world: the search for sustainable futures for property formerly dedicated to national defense now becoming redundant, disposed of and redeveloped. The new military necessity for rapid flexible response requires quite different physical resources from the massive fixed positions of the Cold War, with huge tracts of land and buildings looking for new uses. The transition from military to civilian life for these complex, contaminated, isolated, heritage laden and often contested sites in locations ranging from urban to remote is far from easy. There is very little systematic analysis of what follows base closures, leaving communities, governments, developers, and planners experimenting with untested land use configurations, partnership structures, and financing strategies. With twelve case studies drawn from different countries, many written by those involved, Sustainable Regeneration of Former Military Sites enables the diverse stakeholders in these projects to discover unique opportunities for reuse and learn from others' experiences of successful regeneration.

## Strategic Cultures in Europe

### Security and Defence Policies Across the Continent

Springer Science & Business Media European countries work together in crisis management, conflict prevention and many other aspects of security and defence policy. Closer cooperation in this policy arena seems to be the only viable way forward to address contemporary security challenges. Yet, despite the repeated interaction, fundamental assumptions about security and defence remain remarkably distinct across European nations. This book offers a comparative analysis of the security and defence policies of all 27 EU member states and Turkey, drawing on the concept of 'strategic culture', in order to examine the chances and obstacles for closer security and defence cooperation across the continent. Along the lines of a consistent analytical framework, international experts provide case studies of the current security and defence policies in Europe as well as their historical and cultural roots.

## Synchronizing Science and Technology with Human Behaviour

Routledge A rare achievement, one of the first books to link technological and behavioural change to the sustainability agenda Charles Landry, author of The Creative City Any course interested in sustainable development in practice would benefit from the case studies here Dr Adrian Smith, SPRU Science and Technology Policy Research Unit, University of Sussex, UK Two disjointed voices can be identified in the prevailing sustainability discourse: one technology-focused, the other favouring behavioural solutions. This new, practical text bridges the gap in a 'co-evolutionary' framework, enabling more sustainable policies and projects to be developed. Arguing that technical and social realms are much more connected than most people concerned with sustainability tend to admit, the author has developed an innovative and integrated strategy that encourages planners, architects and politicians to work with end-users in 'co-designing' technologies and infrastructures that make socially desired behaviours more attractive. Having explained the nature of the

problem, the author outlines key concepts and shared characteristics of co-evolutionary projects and anticipates possible criticisms. Through detailed analysis and diverse case studies, the reader is presented with a clear picture of a more holistic approach to planning sustainable cities and regions, which will be invaluable for students and professionals alike. This will be an invaluable textbook and planning tool suitable for students of science and technology studies (STS), regional policy and planning, and practitioners including city and regional planners, policy makers and consultants.

## Paper Knowledge

### Toward a Media History of Documents

Duke University Press Books Paper Knowledge is a remarkable book about the mundane: the library card, the promissory note, the movie ticket, the PDF (Portable Document Format). It is a media history of the document. Drawing examples from the 1870s, the 1930s, the 1960s, and today, Lisa Gitelman thinks across the media that the document form has come to inhabit over the last 150 years, including letterpress printing, typing and carbon paper, mimeograph, microfilm, offset printing, photocopying, and scanning. Whether examining late nineteenth century commercial, or "job" printing, or the Xerox machine and the role of reproduction in our understanding of the document, Gitelman reveals a keen eye for vernacular uses of technology. She tells nuanced, anecdote-filled stories of the waning of old technologies and the emergence of new. Along the way, she discusses documentary matters such as the relation between twentieth-century technological innovation and the management of paper, and the interdependence of computer programming and documentation. Paper Knowledge is destined to set a new agenda for media studies.

### Model Rules of Professional Conduct

American Bar Association The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

## Artificial Intelligence and the Environmental Crisis

### Can Technology Really Save the World?

Routledge A radical and challenging book which argues that artificial intelligence needs a completely different set of foundations, based on ecological intelligence rather than human intelligence, if it is to deliver on the promise of a better world. This can usher in the greatest transformation in human history, an age of re-integration. Our very existence is dependent upon our context within the Earth System, and so, surely, artificial intelligence must also be grounded within this context, embracing emergence, interconnectedness and real-time feedback. We discover many positive outcomes across the societal, economic and environmental arenas and discuss how this transformation can be delivered. Key Features: Identifies a key weakness in current AI thinking, that threatens any hope of a better world. Highlights the importance of realizing that systems theory is an essential foundation for any technology that hopes to positively transform our world. Emphasizes the need for a radical new approach to AI, based on ecological systems. Explains why ecosystem intelligence, not human intelligence, offers the best framework for AI. Examines how this new approach will impact on the three arenas of society, environment and economics, ushering in a new age of re-integration.

## Robo-Advisory

### Investing in the Digital Age

Springer Nature Robo-Advisory is a field that has gained momentum over recent years, propelled by the increasing digitalization and automation of global financial markets. More and more money has been flowing into automated advisory, raising essential questions regarding the foundations, mechanics, and performance of such solutions. However, a comprehensive summary taking stock of this new solution at the intersection of finance and technology with consideration for both aspects of theory and implementation has so far been wanting. This book offers such a summary, providing unique insights into the state of Robo-Advisory. Drawing on a pool of expert authors from within the field, this edited collection aims at being the vital go-to resource for academics, students, policy-makers, and practitioners alike wishing to engage with the topic. Split into four parts, the book begins with a survey of academic literature and its key insights paired with an analysis of market developments in Robo-Advisory thus far. The second part tackles specific questions of implementation, which are complemented by practical case studies in Part III. Finally, the fourth part looks ahead to the future, addressing questions of key importance such as artificial intelligence, big data, and social networks. Thereby, this timely book conveys both a comprehensive grasp of the status-quo as well as a guiding outlook onto future trends and developments within the field.

## Break the Caste

### Inequality, Immobility, and Poverty in America and How We Can Change It

Garrett County Press In Break the Caste, George Gerharz unmasks common American misperceptions of poverty, inequality, and social mobility. Based on personal experience from five decades of anti-poverty work and current research, he proposes solutions to inequality, lack of mobility, and poverty and examines how the American social order and corporate powers create these problems. In this book, he provides four strategies to create a more equal and economically mobile nation.

Disha Publications

## Central Banks and Financial Markets

### The Declining Power of US Monetary Policy

Edward Elgar Publishing ÖHasan Cmerts timely book reaches us during the prolonged conditions of the global great recession. By providing a thorough and detailed econometric analysis of the institutional and historical developments of the hegemonic leader of capitalism, Cmerts book reveals that the simplistic monetary policy tools of the central banks of the so-called Ömodern great moderation era are over, and we are now at cross-roads of a paradigmatic shift. Cmerts book suggests itself as one of the first leading examples of this shift. Ö Erini Yeldan, Yasar University, Turkey ÖThis provocative book shows that the Federal Reserve has, in the last four decades, gradually lost influence over credit and financial markets. This argument, supported by institutional analysis and econometric tests, has two explosive implications: first, Federal Reserve policy did not cause the subprime

crisis; second, central banks no longer have instruments for intervening in economies whose growth they are now expected to restore. Anyone concerned with the future of global capitalism should consider Comert's work as a matter of urgency. ð Gary Dymksi, Leeds University Business School, UK and University of California, Riverside, US ð Prior to the outbreak of the financial crisis in 2008, mainstream economists celebrated a 'New Consensus' on monetary policy in which independent central banks were assumed able to bring about a 'Great Moderation' of low inflation and high economic growth by manipulating short-term interest rates. In this important and interesting book, Hasan Cmert demonstrates convincingly, through institutional analysis and econometrics, that central banks lost control of the price and quantity of credit starting two decades before this celebration. He shows that central banks themselves, through their support of financial market deregulation and globalization, helped bring about both monetary policy impotence and the global crisis. It's a must-read. ð James Crotty, University of Massachusetts, Amherst, US In the wake of the financial crisis of 2008, there has been increasing debate over the appropriate role of central banks in mitigating economic disaster. This timely volume combines detailed historical and econometric analyses to explore the profound changes that occurred within the US financial system from the 1980s to the present, and shows how these changes have affected the US economy. Hasan Cmert demonstrates how dramatic shifts in the financial system undermined the ability of the US Federal Reserve to control the price and quantity of credit. He identifies several key factors that facilitated this loss of control, including deregulation, rapid financial innovations, increased financial integration and a number of policy decisions implemented within the Federal Reserve itself. Through a combination of several methods, including historical and institutional analyses, descriptive statistics, simulation and econometric techniques, the author provides a well-rounded and vitally important picture of the US financial system and offers insightful policy recommendations for the future. Students, professors and policymakers with an interest in economics, finance, banking and monetary policy will no doubt find this book a fascinating and invaluable resource.

## Property and Human Flourishing

Oxford University Press Many people assume that what morally justifies private ownership of property is either individual freedom or social welfare, defined in terms of maximizing personal preference-satisfaction. This book offers an alternative way of understanding the moral underpinning of private ownership of property. Rather than identifying any single moral value, this book argues that human flourishing, understood as morally pluralistic and objective, is property's moral foundation. The book goes on to develop a theory that connects ownership and human flourishing with obligations. Owners have obligations to members of the communities that enabled the owners to live flourishing lives by cultivating in their community members certain capabilities that are essential to leading a well-lived life. These obligations are rooted in the interdependence that exists between owners and their community members, and inherent in the human condition. Obligations have always been inherent in ownership. Owners are not free to inflict nuisances upon their neighbors, for example, by operating piggeries in residential neighborhoods. The human flourishing theory explains why owners at times have obligations that enable their fellow community members to develop certain necessary capabilities, such as health care and security. This is why, for example, farm owners may be required to allow providers of health care and legal assistance to enter their property to assist employees who are migrant workers. Moving from the abstract and theoretical to the practical, this book considers implications for a wide variety of property issues of importance both in the literature and in modern society. These include questions such as: When is a government's expropriation of property legitimated for the reason it is for public use? May the owner of a historic or architecturally significant house destroy it without restriction? Do institutions that owned African slaves or otherwise profited from the slave trade owe any obligations to members of the African-American community? What insights may be gained from the human flourishing concept into resolving current housing problems like homelessness, eviction, and mortgage foreclosure?

## Is the Last Mile the Longest? Economic Gains from Gender Equality in Nordic Countries

OECD Publishing Denmark, Finland, Iceland, Norway and Sweden have led the way for modern family and gender policy. This report shows that improvements in gender equality have contributed considerably to their economic growth.

### ADB and Social Protection

### Challenges and Opportunities

Asian Development Bank Social protection is central to the goal of the Asian Development Bank (ADB) of achieving the inclusive growth agenda in Asia and the Pacific. The report takes stock of ADB's support for social protection and the progress with implementing ADB's Social Protection Strategy. It presents the institution's social protection interventions from 1996 up to 2013.

## Cambridge IGCSE Chinese Foreign Language (0547-21) 2018 Intensive Revision PDF Book- A Quick Reference to past Exam Papers

Legoo Mandarin Cambridge IGCSE Chinese Foreign Language (0547) 2018 Intensive Revision PDF Book- A Quick Reference to past Exam Papers By referring to GCSE, IGCSE past papers with our in-depth 25 years experience, we present each set of past paper with 3 products to enable students can achieve good result in short time: 1 Cambridge IGCSE Chinese Foreign Language (0547-21) 2018 Intensive Revision PDF Book- A Quick Reference to past Exam Papers with 2 detailed Explanations 2 Cambridge IGCSE Chinese Foreign Language Mock Online Test- A Quick Reference to past Exam Papers (0547-21) 2018 with Explanations 3 Cambridge IGCSE Chinese Foreign Language (0547-21) 2018 Intensive Revision Video Course - Examination Skills, Tips and Guide Cambridge IGCSE is the world's most popular international qualification for 14 to 16 year old. It is recognized by leading universities and employers worldwide, and is an international passport to progression and success. Developed over 25 years ago, it is tried, tested and trusted by schools worldwide. This syllabus is designed for learners who are learning Mandarin Chinese as a foreign language. The aim is to develop an ability to use the language effectively for purposes of practical communication. The course is based on the linked language skills of listening, reading, speaking and writing, and these are built on as learners progress through their studies. Cambridge IGCSE Chinese aims to offer insights into the culture and civilization of countries where Mandarin Chinese is spoken, encouraging positive attitudes towards language learning and towards speakers of foreign languages.

## Russian-Speakers in Post-Soviet Latvia

### Discursive Identity Strategies

Edinburgh University Press The political shocks of the 2014 Ukrainian crisis have been felt in many former Soviet countries, not least Latvia, where over 35 per cent of the population are native Russian speakers. At a time when analysts and commentators are unsure about Russia's future plans to intervene on behalf of their 'compatriots', this study provides a detailed political and cultural analysis of Russian-speaking identity in Latvia. By using Russian-speakers in Latvia as a specific case study, this volume also offers a fresh methodological approach to the study of discourses and discursive strategies. It outlines a coherent methodology to study the evolution of discourses over time, rather than a single de-contextualised and static time period. Drawing on media analysis, elite interviews, focus groups and survey data, this volume situates the identity strategies of Russian speakers within the transformations of the post-Soviet era. By assessing political, cultural and economic links with their home state (Latvia) and their potential kin-state (Russia), it offers important insights into the complex identity positions of Latvia's Russian speakers, and how these positions have evolved in Latvia since the late Soviet period. At a historical moment when many will question the loyalty of Russian speakers to their various 'host states', this book provides a timely, scholarly account of ethnic politics in Latvia. It also offers a methodological framework that allows for the mapping of trends in discursive strategies, exploring how they evolve through time.
