Few men can say they have known Africa as Capstick has known it—leading safaris through lion country; tracking man-eating leopards along tangled jungle paths; running for cover as fear-maddened elephants stampede in all directions. And of the few who have known this dangerous way of life, fewer still can recount their adventures with the flair of this former professional hunter-turned-writer. Based on Capstick's own experiences and the personal accounts of his colleagues, **Death in the Long Grass** portrays the great killers of the African bush—not only the lion, leopard, and elephant, but the primitive rhino and the crocodile waiting for its unsuspecting prey, the titanic hippo and the Cape buffalo charging like an express train out of control. Capstick was a born raconteur whose colorful descriptions and eye for exciting, authentic detail bring us face to face with some of the most ferocious killers in the world—underrated killers like the surprisingly brave and cunning hyena, silent killers such as the lightning-fast black mamba snake, collective killers like the wild dog.

Readers can lean back in a chair, sip a tall, iced drink, and revel in the kinds of hunting stories Hemingway and Ruark used to hear in hotel bars from Nairobi to Johannesburg, as veteran hunters would tell of what they heard beyond the campfire and saw through the sights of an express rifle. A Cognitive Linguistics Account of Wordplay *Cambridge Scholars Publishing* Even though the ability to create witty puns seems to be an inherent skill of humankind, an apt explanation of their linguistic nature has evaded many academic descriptions. This monograph offers a novel conceptual perspective on the creation of meaning observable beneath the surface of wordplay. The rationale for such an approach lies in the fact that language, and hence wordplay, is a cognitive phenomenon which involves some underlying complex mental processes, such as thinking in terms of image schemas, conceptual metaphor and metonymy, or blending, to mention just a few. The book provides a survey of relevant linguistic research, introduces the main tenets of cognitive linguistics, and offers an analysis of wordplay in the light of available cognitive literature. The final outcome of this work is an array of intricate mechanisms that govern creation and comprehension of wordplay. The book will be of interest to anybody who finds wordplay research appealing, no matter

**their level of expertise in the field. Bengali Vocabulary Book A Topic Based Approach German Military Abbreviations**  
**"Perhaps to a greater extent than any other army, the German Armed Forces employ military abbreviations on their maps and charts, on task force tables of organization, on direction and location sign posts in combat zones, on field orders, and, in short, in every case where abbreviations may possibly be used. These abbreviations are often used in connection with military symbols (see German Military Symbols, January 1943, Military Intelligence Service). A thorough knowledge of both abbreviations and symbols is therefore essential to military personnel engaged in the interpretation of captured documents."--Page 1.
