## Strengthening Forensic Science in the United States A Path Forward

National Academies Press **Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.**

## Global Trends 2030

## Alternative Worlds

Createspace Independent Publishing Platform **This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment 8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information**

## Black Damage

[Lulu.com](#) Arguably all black communities are dysfunctional and African diaspora communities in prosperous western nations are not exempt. Some scholars have attributed Africans and its diasporas' woes to genetic inferiority. Many argue that Africans' problems are caused by their failure to adopt western democracy and to build strong institutions. This book demonstrates that issues such as the absence of strong institutions and bad leadership are not the root causes of Africa's miseries but are symptoms of more fundamental problems. Using empirical and qualitative studies, this book highlights the six root causes of the unending plight of Africa and its diasporas. It shows that the plight of Africans and African diasporas are interwoven, hence it addresses them concurrently. Femi Akomolafe brings to the fore his invaluable insights as an African who has lived in the UK diaspora for more than a decade in this book. Black Damage rests on the premise that the black race is damaged.

## Global Trends 2030

## Alternative Worlds : a Publication of the National Intelligence Council

[U.S. Government Printing Office](#) This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

## Lieutenant Adnan and The Last Regiment (2017 Edition - PDF)

[Asiapac Books Pte Ltd](#) Lieutenant Adnan bin Saidi was a man who fought valiantly to defend Singapore during the Japanese invasion in February 1942. He, along with the rest of the Malay Regiment, battled the Japanese soldiers on Bukit Chandu. These great men were Singapore's last defence and fought bravely to the end, despite being captured, and even tortured. Narrated by the son of Lieutenant Adnan's son, Mokhtar, this comic book tells the story of Lieutenant Adnan's life - not only depicting the infamous Battle of Bukit Chandu, but also the events before the critical battle and its repercussions thereafter. Through this book, readers would gain a deeper insight into Lieutenant Adnan's admirable character, as they will be given a glimpse of who he was, beyond his role as a soldier: a husband and father.

## Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity

[NYU Press](#) Using conversations, observations, and reflections, psychologist Kopano Ratele meditates on love, violence and masculinity This book seeks to imagine the possibility of a more loving masculinity in a society where structural violence, failures of government and economic inequality underpin much of the violent behavior that men display. Enriched with personal reflections on his own experiences as a partner, father, psychologist and researcher in the field of men and masculinities, *Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity* is Kopano Ratele's meditation on love and violence, and the way these forces shape the emotional lives of boys and men. At the core of these critical and deeply insightful texts is the question of why men hurt women they love. Ratele contends that many men in our society suffer from a painful, unrecognized, yet consequential love hunger that sets in during boyhood. This need for love may lie at the root of some of the male violence that damages the lives of women, children and men themselves. Blending academic analysis and rigor in a readable narrative style, Ratele illuminates the complex nuances of gender, intimacy and power in the context of the human need for love and care. While unsparing in his analysis of men's inner lives, Ratele lays out a path for addressing the hunger for love in boys and men. He argues that just as the beliefs and practices relating to gender, sexuality and the nature of love are constantly being challenged and revised, so our ideas about masculinity, and men's and boys' capacity to show genuine loving care for each other and for women, can evolve.

## Odyssey

## Broken Arrow

[Orca Book Publishers](#) Steve thinks he made the right choice turning down a snowy week with his cousins at a cabin in northern Ontario in favor of a relaxing (and perhaps romantic) time under the Spanish sun with his friend, Laia. But when an email from his brother DJ arrives, implicating their grandfather in some shadowy international plots involving nuclear bombs, Steve and Laia immediately put aside all thoughts of a lazy, sun-drenched vacation. In a desperate attempt to find out if Steve's grandfather was a Cold War-era spy, they crack mysterious codes, confront violent Russian mobsters, dodge spies, unearth a bomb and avoid nudists. But the more they uncover, the more Steve wonders: whose side was Grandpa really on? *Broken Arrow* is the sequel to both *The Missing Skull*, part of *The Seven Prequels* and *Lost Cause*, part of *Seven (The Series)*.

# The Multimedia Encyclopedia of Women in Today's World

**SAGE Publications** This e-only volume expands and updates the original 4-volume Encyclopedia of Women in Today's World (2011), offering a wide range of new entries and new multimedia content. The entries reflect such developments as the Arab Spring that brought women's issues in the Islamic world into sharp relief, the domination of female athletes among medal winners at the London 2012 Olympics, nine more women joining the ranks of democratically elected heads of state, and much more. The 475 articles in this e-only update (accompanied by photos and video clips) supplement the themes established in the original edition, providing a vibrant collection of entries dealing with contemporary women's issues around the world.

## Broken America

**iUniverse** Broken America is an iconoclastic look at the administration of George W. Bush. Author David Cooper takes an in-depth look at the difference between the Bush administration's rhetoric and what their policies actually are regarding many of the most important issues of the day. Using the words of the most powerful people in government themselves, Cooper discovers: The real reason for the Iraq invasion Whether or not the intelligence was simply faulty Why there is not now and never has been an "exit strategy" How the Bush administration "supports" the troops Who's benefiting from the privatization of America Why the administration is desperately attempting to place themselves above the law Broken America also examines the importance and the breakdown of the free press and draws some disturbing and controversial comparisons to history. Broken America is for anyone who wants to cast an informed ballot in 2006.

## Mending Broken Fences Policing: An Alternative Model for Policy Management

**Lulu Press, Inc** Police services across the globe are increasingly perceived as heavy handed, racist, and unnecessarily violent. As a result, large, sometimes even national demonstrations have been waged against police policy and strategy. Mending Broken Fences Policing provides a discussion on contemporary policing, the role of policing in modern society, and its relationship to the diverse communities represented in a postmodern world. Mending Broken Fences Policing provides a model, based on social cohesion and police intervention, intelligence-led and community policing (IP-CP); which, supplemented by a quality/quantity/crime (QQC) framework provide a four-step process for viewing policing services from a vantage point beyond Broken Windows and StatCom. Join the author in seeking solutions as he provides alternatives to outdated methods with Mending Broken Fences Policing.

## Glass Half-Broken

## Shattering the Barriers That Still Hold Women Back at Work

**Harvard Business Press** Why the gender gap persists and how we can close it. For years women have made up the majority of college-educated workers in the United States. In 2019, the gap between the percentage of women and the percentage of men in the workforce was the smallest on record. But despite these statistics, women remain underrepresented in positions of power and status, with the highest-paying jobs the most gender-imbalanced. Even in fields where the numbers of men and women are roughly equal, or where women actually make up the majority, leadership ranks remain male-dominated. The persistence of these inequalities begs the question: Why haven't we made more progress? In Glass Half-Broken, Colleen Ammerman and Boris Groysberg reveal the pervasive organizational obstacles and managerial actions—limited opportunities for development, lack of role models and sponsors, and bias in hiring, compensation, and promotion—that create gender imbalances. Bringing to light the key findings from the latest research in psychology, sociology, organizational behavior, and economics, Ammerman and Groysberg show that throughout their careers—from entry-level to mid-level to senior-level positions—women get pushed out of the leadership pipeline, each time for different reasons. Presenting organizational and managerial strategies designed to weaken and ultimately break down these barriers, Glass Half-Broken is the authoritative resource that managers and leaders at all levels can use to finally shatter the glass ceiling.

## Corporate.PDF Or How I Stopped and Fell Flat in Love with a Copy Machine

[iUniverse](#) Corporate.pdf leaves you hanging on the edge of your toilet. Of course, those are my words, the words of the author, but what do others have to say about the book? "Yes, I liked the book Jeffrey, now clean the dishes," raved Sandra Horton, my mother. "I can't believe anybody in our family can write this good," is an honest to goodness quote from Grandma Wilma Horton. And Uncle Bob Bentz called the book "riveting, I couldn't wait to turn the page." Sure, my family loves me, but what about my friends? Big Mike Leonard was heard somewhere in Germany saying the book was "so descriptive you could smell the bird poop." Darron Vigliotti, not only a friend but a highly respected member of the Stratford High Book Review, deemed it "the culture-bearing work of the MTV generation." He even went as far as saying that I "crafted" the book. My former roommate, Kristen Vernet, said "It's about damn time," in an astounded tone. I think she's just glad she doesn't live with me anymore. And Erin Specht, a current coworker, read the first thirty pages but couldn't handle the pressure of coming up with a quote about it in two minutes. I can personally assure you

that she hugely anticipates reading the rest of the book. Now you, you don't know me, but that's the point. Read the book and make up your own mind. If you enjoy laughing, crying, and taking dumps then you'll love it.

## Doing Equity and Diversity for Success in Higher Education

## Redressing Structural Inequalities in the Academy

[Springer Nature](#) **This book provides a forensic and collective examination of pre-existing understandings of structural inequalities in Higher Education Institutions. Going beyond the current understandings of causal factors that promote inequality, the editors and contributors illuminate the dynamic interplay between historical events and discourse and more sophisticated and racialized acts of violence. In doing so, the book crystallises myriad contemporary manifestations of structural racism in higher education. Amidst an upsurge in racialized violence, civil unrest, and barriers to attainment, progression and success for students and staff of colour, doing equity and diversity for success in higher education has become both politically urgent and morally imperative. This book calls for a redistribution of power across intersectional and racial lines as a means of decentering whiteness and redressing structural inequalities in the academy. It is essential reading for scholars of sociology and education, as well as those interested in equality and social justice.**

## Darwin's Athletes

[Houghton Mifflin Harcourt](#) **Argues that the prominence of African American athletes provides fuel for stereotypes**

## Broken Bargain

[Yale University Press](#) **A history of major financial crises--and how taxpayers have been left with the bill In the 1930s, battered and humbled by the Great Depression, the U.S. financial sector struck a grand bargain with the federal government. Bankers gained a safety net in exchange for certain curbs on their freedom: transparency rules, record-keeping and antifraud measures, and fiduciary responsibilities. Despite subsequent periodic changes in these regulations, the underlying bargain played a major role in preserving the stability of the financial markets as well as the larger economy. By the free-market era of the 1980s and 90s, however, Wall Street argued that rules embodied in New Deal-era regulations to protect consumers and ultimately taxpayers were no longer needed--and government agreed. This engaging history documents the country's financial crises, focusing on those of the 1920s, the 1980s, and the 2000s, and reveals how the two more recent crises arose from the neglect of this fundamental bargain, and how taxpayers have been left with the bill.**

## Environmental Impact Statement

## Invisible Weapons

## Infiltrating Resistance and Defeating Movements

[Oxford University Press](#) **In Invisible Weapons, Marcus Board Jr. argues that the grassroots masses have been conned into helping their oppressors by remaining cooperative, committed to non-violence, and striving for equality. These deeply moral approaches are incapable of stopping oppressive governments from continuing to steal power and destroy lives. To support these challenging claims, Board skillfully relies on multiple data sources, including original survey data, in-depth interviews with long-term unemployed welfare recipients, case studies of the Baltimore Uprising and other moments of mass grassroots resistance, and an investigation of Korryn Gaines, one of many unsung victims uplifted by #SayHerName campaigns. Invisible Weapons explains that oppressed people are being targeted systematically by elite powerholders--from elected officials to welfare bureaucrats--and coerced politically into supporting anti-radicalism. In response, Board convinces us to reject this co-optation, to embrace political and community self-defense, and to recommit to our radical political roots in abolition.**

## Believing

## Our Thirty-Year Journey to End Gender Violence

[Penguin](#) **“An elegant, impassioned demand that America see gender-based violence as a cultural and structural problem that hurts everyone, not just victims and survivors... It's at times downright virtuosic in the threads it weaves together.”—NPR Winner of the 2022 ABA Silver Gavel Award for Books From the woman who gave the landmark testimony against Clarence Thomas as a sexual menace, a new manifesto about the origins and course of gender violence in our society; a combination of memoir, personal accounts, law, and social analysis, and a powerful call to arms from one of our most prominent and poised survivors. In 1991, Anita Hill began something that's still unfinished work. The issues of gender violence, touching on sex, race, age, and power, are as urgent today as they were when she first testified. Believing is a story of America's three decades long reckoning with gender violence, one that offers insights into its roots, and paths to creating dialogue and substantive change. It is a call to action that offers guidance based on what this brave, committed fighter has learned from a lifetime of advocacy and her search for solutions to a problem that is still tearing America apart. We once thought gender-based violence--from casual harassment to rape and murder--was an individual problem that affected a few; we now know it's cultural and endemic, and happens to our acquaintances, colleagues, friends and family members, and it can be physical, emotional and verbal. Women of color experience sexual harassment at higher rates than White women. Street harassment is ubiquitous and can escalate to violence. Transgender and nonbinary people are particularly vulnerable. Anita Hill draws on her years as a teacher, legal scholar, and advocate, and on the experiences of the thousands of individuals who have told her their stories, to trace the pipeline of behavior that follows individuals from place to place: from home to school to work and back home. In measured, clear, blunt terms, she demonstrates the impact it has on every aspect of our lives, including our physical and mental wellbeing, housing stability, political participation, economy and community safety, and how our descriptive language undermines progress toward solutions. And she is uncompromising in her demands that our laws and our leaders must address the issue concretely and immediately.**

## Responding to Call of Duty

## Critical Essays on the Game Franchise

[McFarland](#) **Call of Duty is one of the most culturally significant video game franchises of the 21st century. Since the first game was released for PC in 2003, the first-person shooter has sold over 250 million copies across a range of platforms, along with merchandise ranging from toys and comic books to a special edition Jeep Wrangler. Top players can compete for millions in prize money in tournaments sanctioned by the Call of Duty World League. While the gaming community has reported on and debated each development, Call of Duty has received little scholarly attention. This collection of new essays examines the ideologically charged campaign mode of major franchise releases, with a special focus on militarism, realism and gender.**

## The Sisters are Alright

## Changing the Broken Narrative of Black Women in America

Berrett-Koehler Pub What is wrong with black women? Not a damned thing but the biased lens most people use to view them, says Tamara Winfrey Harris. When African women arrived on American shores, the three-headed hydra of asexual and servile Mammy, angry and bestial Sapphire, and oversexed and lascivious Jezebel followed close behind. In the '60s, the Matriarch, the willfully unmarried baby machine leeching off the state, joined them. These caricatures persist—even in the “enlightened” 21st century—through newspaper headlines, Sunday sermons, social media memes, cable punditry, government policies, and Top 40 lyrics. *The Sisters Are Alright* delves into areas such as marriage, motherhood, health, sexuality, beauty, and more. And using progressive author analysis brought to life by the stories of real women, it reveals the effects of anti-black woman propaganda and how real black women are living their lives and pushing back against distorted cartoon versions of themselves. The book takes sharp aim at pervasive stereotypes about black women, replacing warped prejudices with the straight-up truth—the complicated but far-from-hopeless reality of being a black woman in America. “We have facets like diamonds,” Winfrey Harris writes. “The trouble is the people who refuse to see us sparkling.”

## My Love is Blind (2017 Edition - PDF)

Asiapac Books Pte Ltd “Perhaps I will write about my own life as a blind person,” Choon Guan said. “I’ll entitle it *My Love is Blind*. The word blind will embrace your name, Lin.” His big eyes widened and lit up, sparkling and full of tenderness. His lips moved in a soundless whisper: “My Love is Lin.” Tan Guan Heng lost his sight at the age of 28. In his first novel, he paints a nostalgic picture of Singapore on the brink of independence. With biting honesty and ironic humour, this novel brings to life the world of the blind and their sighted helpers. More than twenty years after its first publication in 1995, *My Love is Blind* has retained its enduring appeal as one of Singapore’s most extraordinary and memorable novels. Asiapac Books is pleased to launch a special edition of this groundbreaking novel, updated with an epilogue and a new foreword by Dr. Tommy Koh, and an afterword by literary critic, Gwee Li Sui.

## Fighting Hurt

## Rule and Exception in Torture and War

Oxford University Press Some of our most fundamental moral rules are violated by the practices of torture and war. If one examines the concrete forms these practices take, can the exceptions to the rules necessary to either torture or war be justified? *Fighting Hurt* brings together key essays by Henry Shue on the issue of torture, and relatedly, the moral challenges surrounding the initiation and conduct of war, and features a new introduction outlining the argument of the essays, putting them into context, and describing how and in what ways his position has modified over time. The first six chapters marshal arguments that have been refined over 35 years for the conclusion that torture can never be justified in any actual circumstances whatsoever. The practice of torture has nothing significant in common with the ticking bomb scenario often used in its defence, and weak U.S. statutes have loop-holes for psychological torture of the kind now favoured by CIA in the ‘war against terrorism’. The other sixteen chapters maintain that for as long as wars are in fact fought, it is morally urgent to limit specific destructive practices that cannot be prohibited. Two possible exceptions to the UN Charter’s prohibition on all but defensive wars, humanitarian military intervention and preventive war to eliminate WMD, are evaluated; and one possible exception to the principle of discrimination, Michael Walzer’s ‘supreme emergency’, is sharply criticized. Two other fundamental issues about the rules for the conduct of war receive extensive controversial treatment. The first is the rules to limit the bombing of dual-use infrastructure, with a focus on alternative interpretations of the principle of proportionality that limits ‘collateral damage’. The second is the moral status of the laws of war as embodied in International Humanitarian Law. It is argued that the current philosophical critique of IHL by Jeff McMahan focused on individual moral liability to attack is an intellectual dead-end and that the morally best rules are international laws that are the same for all fighters. Examining real cases, including U.S. bombing of Iraq in 1991, the Clinton Administration decision not to intervene in the 1994 Rwandan genocide, NATO bombing of Serbia in 1999, and CIA torture after 9/11 and its alternatives, this book is highly accessible to general readers who are interested in the ethical status of American political life, especially foreign policy.
