It helped to change the world, and the world transformed the institution. In the 1450s, when Europeans from the small corner of the globe least enmeshed in the institution first interacted with peoples of other continents, they created, in the Americas, the most dynamic, productive, and exploitative system of coerced labor in human history. Three centuries later these same intercontinental actions produced a movement that successfully challenged the institution at the peak of its dynamism. Within another century a new surge of European expansion constructed Old World empires under the banner of antislavery. However, twentieth-century Europe itself was inundated by a new system of slavery, larger and more deadly than its earlier system of New World slavery. This book examines these dramatic expansions and contractions of the institution of slavery and the impact of violence, economics, and civil society in the ebb and flow of slavery and antislavery during the last five centuries. **100 Great War Movies: The Real History Behind the Films ABC-CLIO** This book serves as a fascinating guide to 100 war films from 1930 to the present. Memoria teatral reúne, en orden alfabético, agudos conceptos, interpretaciones especializadas, términos técnicos y acepciones bastante personales, a manera de prontuario. Además de compendiar anotaciones esclarecedoras, el autor dramático se atreve a mostrar su propia memoria y la visión que tiene del fenómeno estético en la escena. Opina, controvierte y gesta reconsideraciones que entregan una mirada amplia capaz de extraer la teoría y la práctica de un quehacer diario y persistente, que ha existido durante miles de años, a través de tradiciones expresivas, ya que el teatro pertenece a los orígenes de la cultura humana. Los conceptos se han nutrido con intuiciones y realidades y han adquirido tono propio. Esa identidad de criterios se percibe en las Apostillas, que dejan ver la madurez y la avidez de quien aún no ha renunciado a la odisea de los saberes inherentes al arte teatral. Seguramente los estudiantes de teatro, los formadores, los actores, las actrices, los estudiosos y los espectadores van a encontrar en este libro una herramienta útil que procede de alguien que ha trabajado con aplicación y que es uno de los maestros que está dejando huella en nuestro teatro. In this engrossing and important new work, eminent historian David Landes explores the complex, fascinating and often startling causes of the wealth and poverty of nations. The answers are found not only in the large forces at work in economies: geography, religion, the broad swings of politics, but also in the small surprising details. In Europe, the invention of spectacles doubled the working life of skilled craftsmen, and played a prominent role in the creation of articulated machines, and in China, the failure to adopt the clock fundamentally hindered economic development. The relief of poverty is vital to the survival of us all. As David Landes brilliantly shows, the key to future success lies in understanding the lessons the past has to teach us - lessons uniquely imparted in this groundbreaking and vital book which exemplifies narrative history at its best. **Full Throttle Stories HarperCollins** A New York Times Bestseller Thirteen relentless tales of supernatural suspense, including "In the Tall Grass," one of two stories cowritten with Stephen King and the basis for the terrifying feature film from Netflix. The book provides an authoritative overview of the subject in one text. The work sits within the context of The UN Declaration of the Rights of Indigenous Peoples that states "Indigenous peoples have the right to the dignity and diversity of their cultures, traditions, histories and aspirations which shall be appropriately reflected in education" (Article 14.1). Twenty-five years ago a book of this nature would have been largely written by non-Indigenous researchers about Indigenous people and education. Today Indigenous researchers can write this work about and for themselves and others. The book is comprehensive in its coverage. Authors are drawn from various individual jurisdictions that have significant indigenous populations where the issues include language, culture and identity, and indigenous people's participation in society. It brings together multiple streams of research by 'new' indigenous voices. The book also brings together a wide range of educational topics including early childhood education, educational governance, teacher education, curriculum, pedagogy, educational psychology, etc. The focus of one body of work on Indigenous education is a welcome enhancement to the pursuit of the field of Indigenous educational aspirations and development. **Knuckle Supper** "When the LA heroin-addicted vampire and gang leader named RJ reluctantly takes in a twelve-year-old prostitute called Bait, humanity is introduced to his otherwise lifeless existence"--P.
