Re-Envisioning Christian Humanism Education and the Restoration of Humanity

Oxford University Press **Since the early 1980s, there has been renewed scholarly interest in the concept of Christian Humanism. A number of official Catholic documents have stressed the importance of "Christian humanism," as a vehicle of Christian social teaching and, indeed, as a Christian philosophy of culture. Fundamentally, humanism aims to explore what it means to be human and what the grounds are for human flourishing. Featuring contributions from internationally renowned Christian authors from a variety of disciplines in the humanities, Re-Envisioning Christian Humanism recovers a Christian humanist ethos for our time. The volume offers a chronological overview (from patristic humanism to the Reformation and beyond) and individual examples (Jewell, Calvin) of past Christian humanisms. The chapters are connected through the theme of Christian paideia as the foundation for liberal arts education.**

The Dark Child

Penguin Classics **The Dark Child** is a vivid and graceful memoir of Camara Laye's youth in the village of Kouroussa, French Guinea, a place steeped in mystery. Laye marvels over his mother's supernatural powers, his father's distinction as the village goldsmith, and his own passage into manhood, which is marked by animistic beliefs and bloody rituals. Eventually, he must choose between this unique place and the academic success that lures him to distant cities. More than autobiography of one boy, this is the universal story of sacred traditions struggling against the encroachment of a modern world. A passionate and deeply affecting record, *The Dark Child* is a classic of African literature.

Collecting Recipes

Byzantine and Jewish Pharmacology in Dialogue

Walter de Gruyter GmbH & Co KG **With a clear comparative approach, this volume brings together for the first time contributions that cover different periods of the history of ancient pharmacology, from Greek, Byzantine, and Syriac medicine to the Rabbinic-Talmudic medical discourses. This collection opens up new synchronic and diachronic perspectives in the study of the ancient traditions of recipe-books and medical collections. Besides the highly influential Galenic tradition, the contributions will focus on less studied Byzantine and Syriac sources as well as on the Talmudic tradition, which has never been systematically investigated in relation to medicine. This inquiry will highlight the overwhelming mass of information about drugs and remedies, which accumulated over the centuries and was disseminated in a variety of texts belonging to distinct cultural milieus. Through a close analysis of some relevant case studies, this volume will trace some paths of this transmission and transformation of pharmacological knowledge across cultural and linguistic boundaries, by pointing to the variety of disciplines and areas of expertise involved in the process.**

A Critical and Exegetical Commentary on the Book of Daniel

Wipf and Stock Publishers With the exception of Dr. Montgomery in his **Commentary in the International Critical Commentary Series**, all my forerunners in the study of Daniel have been handicapped in many respects owing to the lack of an Aramaic grammar which dealt with the historical development of the language. . . . Accordingly a large section of the Introduction is devoted to the grammatical development of Aramaic idioms, so far as these have any bearing on the Aramaic of our text. . . . Again I may remark that though many of the greatest Semitic scholars have edited Daniel, not one of them seems to have had a first hand knowledge of the characteristics of Apocalyptic outside Daniel. . . . In publishing this Commentary my chief claim is, so far as possible, to recover the oldest form of the text, and to interpret that text in conformity with the usages of Jewish Apocalyptic. --from the Preface

Jesus, Symbol of God

Orbis Books Already hailed as a landmark in contemporary Catholic theology, **Jesus Symbol of God** surveys scriptural data, the key moments in the development of doctrine, and the distinctive horizons of our contemporary world to develop a comprehensive and systematic christology for our time. The task of christology is to explain what it means to say that Jesus is the bearer and revealer of God in the Christian community, the decisive mediation of God's salvation -- or, in other words, the symbol of God.

The Text of the Epistles: A Disquisition Upon the Corpus Paulinum

The Schweich Lectures of The British Academy, 1946

Wipf and Stock Publishers In this wide-ranging work, a scholar of Greco-Roman literature brings his acumen to the textual history of the New Testament epistles. For it is not enough to excavate valuable, nay

invaluable, papyri and, with a bow to their master-editor, to put them, text and facsimile, on the shelves. Nor must we expect to achieve the purpose of textual criticism by merely counting and listing, or alternatively, by blindly adopting, the readings of this new, and oldest, witness. The critic must set to work afresh. He has to utilize the materials which Providence vouchsafes him. --from the Preface CONTENTS First Lecture 1 The Situation and Task of Textual Criticism Today 2 'The Oldest Manuscript' Second Lecture 1 The Main Groups of the Evidence in Their Relation to P46 2 Various Types of Variant Readings Third Lecture 1 Testing the Oldest Evidence 2 Conclusion Addenda et Corrigenda

The Book of Concealed Mystery

A&C Black This is a book of the key text of the Kabbalah, a work known as the Zohar ("Splendour"). The Zohar is a commentary on the Torah and although it is sometimes ascribed to a second-century rabbi, Simon Bar-Yochai, the form in which it is most widely known originates with Moses of Leon, a native of Granada, who died in 1305. The kabbalists believe that the undefinable origin of all things is Ein Sof - the cause of causes, the infinite, that which underlies everything. The universe emanates from the divine in successive layers called esefiroti. Everything exists in God, but God extends infinitely beyond existence. All we know and are is linked together, pervaded and maintained by the divine. According to this work, the light of God must be concealed in order to be revealed to creation. Even though the kabbalists believe that ultimately Ein Sof is beyond expression or understanding, the contemplation of God's presence in all things causes our thoughts to be purified.

Yossel Rakover Speaks to God

Holocaust Challenges to Religious Faith

KTAV Publishing House, Inc. **There are two stories here. One is the now legendary tale of a defiant Jew's refusal to abandon God, even in the face of the greatest suffering the world has known, a testament of faith that has taken on an unpredictable and fascinating life of its own and has often been thought to be a direct testament from the Holocaust. The parallel story is that of Zvi Kolitz, the true author, whose connection to Yosel Rakover has been obscured over the fifty years since its original appearance. German journalist Paul Badde tells how a young man came to write this classic response to evil, and then was nearly written out of its history. With brief commentaries by French philosopher Emmanuel Levinas and Leon Wieseltier, author of Kaddish, this edition presents a religious classic and the very human story behind it.**

Dogmatic Constitution on Divine Revelation

Dei Verbum

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

The Priority of John

Wipf and Stock Publishers It has been the fate of many books on John to be left unfinished, for its interpretation naturally forms the crowning of a lifetime. I have myself been intending to write a book on the Fourth Gospel since the 'fifties, before I broke off (reluctantly) to be Bishop of Woolwich, though I am grateful now that I did not produce it prematurely at that time. It means however that I shall be compelled to refer to and often recapitulate material directly or indirectly related to the Johannine literature, which I have written over the years (some of it indeed while I was bishop). Many scholars in fact, if not most now, think that the author of the Gospel himself never lived to finish it and have seen the work as the product of numerous hands and redactors. As will become clear, I prefer to believe that the ancient testimony of the church is correct that John wrote it 'while still in the body' and that its roughnesses, self-corrections and failures of connection, real or imagined, are the result of its not having been smoothly or finally edited. If so I am in good company. At any rate who could wish for a better last testimony from his friends than that 'his witness is true' (John 21.24)? In other words, he got it right--historically and theologically. --from the Introduction At the time of his death in December 1983, John Robinson had completed the text of the book on which his 1984 Bampton lectures were to be based, so that it is possible to see the full details of his extremely controversial argument that the Gospel of John was the first Gospel to be written. Dr. Robinson himself once described the dawning of his conviction that this was the case as a 'Damascus Road experience', and his presentation of the evidence is made with all the customary vigor with which he would argue for something in

which he deeply believed. The objections which need to be overcome to stand on its head what has long been one of the fundamental assumptions of New Testament scholarship are substantial, but here once again Dr. Robinson shows that so much of what is taken as established fact in that area is no more than preference and presumption. Certainly he will provoke rethinking on a whole series of topics, from the chronology of Jesus' ministry to the nature of his teaching. As The Listener said of the equally controversial *Redating the New Testament: The greatest pleasure Dr. Robinson gives is purely intellectual. His book is a prodigious virtuoso exercise in inductive reasoning and an object lesson in the nature of historical argument and historical knowledge. This sequel equals, if not excels, its predecessor in those respects and is a fitting tribute to a brilliant New Testament scholar. The manuscript was prepared for publication by Dr. Chip Coakley, Dr Robinson's pupil, now Lecturer in Religious Studies in the University of Lancaster.*

The Bar Kokhba War Reconsidered New Perspectives on the Second Jewish Revolt Against Rome

Mohr Siebeck Papers presented at a conference held at Princeton University in Nov., 2001.

The Cambridge Companion to Seneca

Cambridge University Press The Roman statesman, philosopher and playwright Lucius Annaeus Seneca dramatically influenced the progression of Western thought. His works have had an unparalleled impact on the development of ethical theory, shaping a code of behavior for dealing with tyranny in his own age that endures today. This Companion thoroughly examines the complete Senecan corpus, with special emphasis on the aspects of his writings that have challenged interpretation. The authors place Seneca in the context of the ancient world and trace his impressive legacy in literature, art, religion, and politics from Neronian Rome to the early modern period. Through critical discussion of the recent proliferation of Senecan studies, this volume compellingly illustrates how the perception of Seneca and his particular type of Stoicism has evolved over time. It provides a comprehensive overview that will benefit students and scholars in classics, comparative literature, history, philosophy and political theory, as well as general readers.
