Room

Bloomsbury Publishing **Kidnapped as a teenage girl, Ma has been locked inside a purpose built room in her captor's garden for seven years. Her five year old son, Jack, has no concept of the world outside and happily exists inside Room with the help of Ma's games and his vivid imagination where objects like Rug, Lamp and TV are his only friends. But for Ma the time has come to escape and face their biggest challenge to date: the world outside Room.**

A Room of One's Own

Renard Press Ltd **In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as A Room of One's Own, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance - women and learning, writing and poverty - which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence - a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, *The Guardian* 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, *The Financial Times***

The Old Man and the Sea

DigiCat **DigiCat Publishing presents to you this special edition of "The Old Man and the Sea" by Ernest Hemingway. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. Malamander

Candlewick Press **A quirky, creepy fantasy set in Eerie-on-Sea finds a colorful cast of characters in hot pursuit of a sea monster thought to convey a surprising gift. It's winter in the town of Eerie-on-Sea, where the mist is thick and the salt spray is rattling the windows of the Grand Nautilus Hotel. Inside, young Herbert Lemon, Lost and Founder for the hotel, has an unexpected visitor. It seems that Violet Parma, a fearless girl around his age, lost her parents at the hotel when she was a baby, and she's sure that the nervous Herbert is the only person who can help her find them. The trouble is, Violet is being pursued at that moment by a strange hook-handed man. And the town legend of the Malamander — a part-fish, part-human monster whose egg is said to make dreams come true — is rearing its scaly head. As various townspeople, some good-hearted, some nefarious, reveal themselves to be monster hunters on the sly, can Herbert and Violet elude them and discover what happened to Violet's kin? This lighthearted, fantastical mystery, featuring black-and-white spot illustrations, kicks off a trilogy of fantasies set in the seaside town.**

The Big Sea

Good Press **"The Big Sea" by Langston Hughes. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.**

Out of My Mind

Sea of Monsters, The (Percy Jackson and the Olympians, Book 2)

Disney Electronic Content After a summer spent trying to prevent a catastrophic war among the Greek gods, Percy Jackson finds his seventh-grade school year unnervingly quiet. His biggest problem is dealing with his new friend, Tyson—a six-foot-three, mentally challenged homeless kid who follows Percy everywhere, making it hard for Percy to have any "normal" friends. But things don't stay quiet for long...

Laboratory and activity disc includes the manual in both student and teacher editions and a lab materials list.

Swearing at a Sea Monster

Lauren Connolly Moira enjoys a well-run town, cozy mystery novels, and swimming in the ocean. She does not enjoy being in the same room as a sea monster. Moira MacNamara cannot stand Levi Abadi, and it has nothing to do with the fact that he's a literal monster. Who cares that the man can transform into a terrifying beast? The truly bothersome things are how he ambushes her in council meetings and wants to demolish her prime real estate on Lake Galen. Plus, there's the whole history of his father stealing a precious selkie pelt from her family. Moira will go so far as to enter a dangerous magical competition just to win an argument against the infuriating monster. He'll make the busybody selkie back down, whatever it takes. Levi is only months from the grand opening of his luxury spa, and he does not need literal duels happening on the vacant property next door. The stubborn selkie owner of the land knows just as well as he does that the ground is steeped in toxic magic, and bad things will continue to happen if no one clears out the evil vibes. Problem is, when Moira comes up with a plan, Levi somehow gets roped in as her assistant. Fine. As long

as this means there's nothing bothering his future customers during their relaxation. On the pair's quest to cleanse the lakeside property, the two mythical enemies find themselves on common ground. Ground they lay down on, roll around on, and maybe lose a few pieces of clothing on. But secrets of the past and new dangers to the town of Folk Haven threaten a fragile romance between the selkie and the sea monster... Dive into the magical waters of Lake Galen with book three in the Folk Haven series, a 70,000+ word paranormal romance. Fans of Molly Harper, Gena Showalter, and Kresley Cole will want to add this book to their shelf!

The Geopolitical Black Sea Encyclopaedia

Cambridge Scholars Publishing Today, we know what the Black Sea is not from a strategic perspective, but we do not know what it is. This strategic indecision is the explanation for all the conflicts, frozen or not, explicit or tacit, and all the political and geopolitical tensions that are now taking place in this space and that are becoming endemic. The story of the Black Sea continues... This text is the first encyclopaedia explicitly dedicated to the geopolitics of the Black Sea, written for Western audiences, an academic research which appeals to the wider academic community, PhD students, professors, and researchers, and to any reader interested in geopolitics, history, international relations, economy, sociology, history, and geography.

EngLits-Jane Eyre (pdf)

InterLingua Publishing

Nineteen Eighty-Four

BoD - Books on Demand George Orwell's *Nineteen Eighty-Four* is unquestionably the most famous dystopian novel of all times. Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member.

Architecture in the Space of Flows

Routledge Traditionally, architecture has been preoccupied with the resolution of form. That concern helps to make photogenic buildings, which have received a great deal of attention. This book looks instead at the idea of the flows, which connects things together and moves between things. It is more difficult to discuss, but more necessary, because it is what makes things work. Architects have to think about flow - the flow of people through buildings, the flow of energy into buildings, and waste out of them - but usually the effects of flow do not find expression. The essays gathered here present a collection of exploratory ideas and offer an understanding of buildings, people and settlements through concepts of flow.

Tailoring the Global Network for Real Burden Sharing at Sea

Rowman & Littlefield This report looks at what the U.S. Navy can do to provide for deeper, more structured international partnerships as part of a federated approach to defense.

Sea Ice

John Wiley & Sons Overview of sea ice growth and properties / Chris Petrich & Hajo Eicken -- Sea ice thickness distribution / Christian Haas -- Snow in the sea-ice system : friend or foe? / Matthew Sturm & Robert A. To the Lighthouse

Renard Press Ltd Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', *To the Lighthouse*, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day - a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, *To the Lighthouse* has earned its reputation - frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

Maritime Strategy and Global Order

Markets, Resources, Security

Georgetown University Press Taken for granted as the natural order of things, peace at sea is in fact an immense and recent achievement—but also an enormous strategic challenge if it is to be maintained in the future. In *Maritime Strategy and Global Order*, an international roster of top scholars offers historical perspectives and contemporary analysis to explore the role of naval power and maritime trade in creating the international system. The book begins in the early days of the industrial revolution with the foundational role of maritime strategy in building the British Empire. It continues into the era of naval disorder surrounding the two world wars, through the passing of the Pax Britannica and the rise of the Pax Americana, and then examines present-day regional security in hot spots like the South China Sea and Arctic Ocean. Additional chapters engage with important related topics such as maritime law, resource competition, warship evolution since the end of the Cold War, and naval intelligence. A first-of-its-kind collection, *Maritime Strategy and Global Order* offers scholars, practitioners, students, and others with an interest in maritime history and strategic issues an absorbing long view of the role of the sea in creating the world we know.

Understanding Modern Warfare

Cambridge University Press **Understanding Modern Warfare** has established itself as the leading introduction to the issues, ideas, concepts and context necessary to understand the theory and conduct of warfare in the twentieth and twenty-first centuries. It is an invaluable text for military professionals and students of military history. Key features include: incisive coverage of the debates surrounding contemporary and future warfare; accessible, yet sophisticated, discussion across the land, sea, and air environments; and coverage of contemporary topics such as drones, cyber warfare, and hybrid warfare. The book makes extensive use of text boxes to explain key concepts and to reference extended examples, and it includes annotated guides to further reading and key questions to promote the reader's further thinking. This second edition has been fully revised and updated to take into account new debates and recent events in Syria, Iraq and Ukraine, and it has also been restructured to further improve its usefulness as a teaching tool.

On Dangerous Ground

America's Century in the South China Sea

Oxford University Press **A robust yet accessible history of US involvement in the world's most dangerous waterway, and a guide for what to do about it.** Lamentations that the United States is "losing" the South China Sea to China are now common. China has rapidly militarized islands and reefs, projects power across the disputed waterway, and freely harasses US allies and partners. The US has been unable to halt these processes or convince Beijing to respect the rights of smaller neighbors. But what exactly would "losing" mean? In *On Dangerous Ground*, Gregory B. Poling evaluates US interests in the world's most complex and dangerous maritime disputes by examining more than a century of American involvement in the South China Sea. He focuses on how the disputes there intersected and eventually intertwined with the longstanding US commitment to freedom of the seas and its evolving alliance network in Asia. He shows that these abiding national interests--defense of maritime rights and commitment to allies, particularly the Philippines--have repeatedly pulled US attention to the South China Sea. Understanding how and why is critical if the US and its allies hope to chart a course through the increasingly fraught disputes, while facing a more assertive, more capable, and far less compromising China. With an emphasis on decisions made not just in Washington and Beijing, but also in Manila and other Southeast Asian capitals, *On Dangerous Ground* seeks to correct the record and balance the China-centric narrative that has come to dominate the issue. It not only provides the most comprehensive account yet of America's history in the South China Sea, but it also demonstrates how that history should inform US national security policy in one of the most important waterways in the world.

EngLits-Oliver Twist (pdf)

InterLingua Publishing **Detailed summaries of great literature.**

The Sailor who Fell from Grace with the Sea

Random House **A band of savage thirteen-year-old boys reject the adult world as illusory, hypocritical, and sentimental, and train themselves in a brutal callousness they call 'objectivity'. When the mother of one of them begins an affair with a ship's officer, he and his friends idealise the man at first; but it is not long before they conclude that he is in fact soft and romantic. They regard this disillusionment as an act of betrayal on his part - and the retribution is deliberate and horrifying.**
