Improving Access to and Equity of Care for People with Serious Illness Proceedings of a Workshop *National Academies Press* The Centers for Disease Control and Prevention estimates that approximately 40 million people in the United States suffer from a serious illness that limits their daily activities. These illnesses include heart and lung disease, cancer, diabetes, and Alzheimer's disease and other forms of dementia. However, significant disparities exist across different communities in the quality and access to care for these illnesses. Factors such as race, ethnicity, gender, geography, socioeconomic status, or insurance status exacerbate these complex disparities. It is critical to reevaluate the current models of care delivery across diverse communities and vulnerable populations. On April 4, 2019, The National Academies of Sciences, Engineering, and Medicine convened a workshop to investigate barriers, policy initiatives, and opportunities for improving access to and equity of care for people living with a serious illness. Discussions explored the current climate of health care and opportunities to improve access to care using organizational, community, patient and family, and clinician perspectives. This publication summarizes the discussions and presentations from the workshop.

Fraud investigations are a major component of litigation support services, and this book delves deep into Sarbanes-Oxley compliance and other relevant topics to give you a foundational understanding of how these cases are prosecuted, and your role as the financial services expert. This updated sixth edition includes new coverage of technology's role in the financial expert's practice, and the focus on investigations provides practical insight from leading experts in the field. From the process itself to proving damages, this indispensable reference covers all aspects of litigation services. Providing litigation support requires more than just your financial expertise; you also need a working knowledge of relevant case law, and a deep understanding of both the litigation process and the finer points of courtroom appearances. This book provides the insight and perspective you need to provide superior service to attorneys and their clients. Understand your role in trial preparation and testimony presentation Provide authoritative responses to direct and cross examination Examine and analyze Sarbanes-Oxley rulings Lend financial expertise to fraud investigations The growing demand for financial expert litigation services has created a niche market for CPAs, creating a lucrative opportunity for qualified accountants who also possess the specialized knowledge the role requires. The Litigation Services Handbook is THE essential guide for anyone involved in financial litigation. **Practical Solutions for Healthcare Management and Policy (Collection)** FT Press A brand new collection of state-of-the-art insights into transforming healthcare, from world-renowned experts and practitioners... now in a convenient e-format, at a great price! Making American healthcare work: 3 new eBooks get past ideology to deliver real solutions! Even after Obamacare, America's healthcare system is unsustainable and headed towards disaster. These three eBooks offer real solutions, not sterile ideology. In Overhauling America's Healthcare Machine: Stop the Bleeding and Save Trillions, leading healthcare expert and entrepreneur Douglas A. Perednia identifies the breathtaking complexity and specific inefficiencies that are driving the healthcare system towards collapse, and presents a new solution that protects patient and physician freedom, covers everyone, and won't bankrupt America. Perednia shows how to design a far simpler system: one that delivers care to everyone by drawing on the best of both market efficiency and public "universality" — and is backed with detailed logic and objective calculations. Next, in Improving Healthcare Quality and Cost with Six Sigma, four leading experts introduce Six Sigma from the standpoint of the healthcare professional, showing exactly how to implement it successfully in real-world environments. The first 100% hands-on, start-to-finish blueprint for succeeding with Six Sigma in healthcare, this book covers every facet of Six Sigma in healthcare, demonstrating its use through

examples and case studies from every area of the hospital: clinical, radiology, surgery, ICU, cardiovascular, laboratories, emergency, trauma, administrative services, staffing, billing, cafeteria, even central supply. Finally, in *Reengineering Healthcare: A Manifesto for Radically Rethinking Healthcare Delivery* Jim Champy ("Reengineering the Corporation") and Dr. Harry Greenspun show how reengineering methodologies can deliver breakthrough performance and efficiency improvements both within individual healthcare organizations and throughout the entire system, eliminating much of the 40%+ of U.S. healthcare costs now dedicated to administration. They demonstrate how reengineering can refocus investments on aligning quality and providing accessible care for millions more people. From world-renowned healthcare management experts Dr. Doug Perednia, Praveen Gupta, Brett E. Trusko, Carolyn Pexton, H. James Harrington, Jim Champy, and Harry Greenspun, M.D.

The Palestinian Strategic Report 2007 al-Taqrir al-'Istratiji al-Filastini 2007 (التقرير الاستراتيجي الفلسطيني 2007) The Palestinian Strategic Report is a highly academic annual report that assesses the Palestinian situation. It rigorously studies the developments of various aspects of the Palestinian issue, i.e., internal political affairs, economic development, demographic indicators, the Arab, Islamic and international stands and the Israeli attitudes and policies, all within an academic, well-documented context that is supported with the most recent statistical data. This report is the product of a massive team-work exerted by a group of affiliated researchers and specialists; editors, and consultants. It is published both in Arabic and English. The first Report covered the year 2005. As later reports were released annually, the report was well-received and highly acclaimed, especially within academics. Today, it can be surely asserted that this report is a must reference for every researcher or academic interests in the contemporary developments of the Palestinian issue and the Arab-Israeli conflict. Moreover, its English version is among the few highly academic and objective writings in this field by an Arab research centre.

The Ambulance A History *McFarland* Over several centuries the ambulance has evolved from horse-drawn wagons designed to remove wounded soldiers from the battlefield into high-speed emergency rooms on wheels, staffed by skilled professionals. This thorough history follows the ambulance through every phase, focusing not just on the vehicles but on their role within the developing medical systems they served, as well as the political, social and economic influences that have shaped their advancement. Topics include the critical role of police ambulances in the development of the first emergency medical services, the history of the ambulance intern, breakthroughs in ambulance design and function from the horse-drawn days to the present, notable women in ambulance development, and a fresh look at the first organized paramedic services. More than 275 photographs and other illustrations accompany the text.

Countering Economic Crime A Comparative Analysis *Routledge* Economic crime is a significant feature of the UK's economic landscape and yet despite the government's bold mission statements 'to hold those suspected of financial wrongdoing to account' as part of their 'day of reckoning' and 'serious about white-collar crime' agenda, there is a sense that this is still not being done effectively. This book examines the history of the creation of the UK's anti-economic crime institutions and accompanying legislation, providing a critique of their effectiveness. The book

analyses whether the recent regulatory regime is fit for purpose as well as being appropriate for the future. In order to explore how the UK's economic crime strategies could be improved the book takes a comparative approach analysing policy and legislative responses to economic crime in the United States and Australia in order to determine whether the UK could or should import similar structures or laws to improve the enforcement of UK economic crime. **Exam Ref 70-532**

Integrating Services in South Asia Trade, Investment, and Mobility *Oxford University Press* In this era of globalization, every region and country in the world is pursuing some kind of integration to further its economic, geo-political, and strategic interests. This book explores the prospects for and challenges to services integration in South Asia through an in-depth analysis of services such as telecommunications, energy, tourism, health, and education. Identifying trends in performance, policy issues, and the status of intra-regional trade and investment initiatives, the book argues the case for services integration under the South Asian Free Trade Area (SAFTA). It also stresses the need to address cross-cutting issues of regional mobility of service providers, taxes, transport, trade, research and development, and regulatory cooperation. Expanding the existing work on South Asian integration to cover services from an intra-regional perspective, this book is an important reference for future academic and policy work in South Asia. The industry, country, and regional level statistics provided by the book serve as a useful resource for taking stock of output, employment, trade, and investment in services in this region.

Broadband is a foundation for economic growth, job creation, global competitiveness and a better way of life. The number of Americans who have broadband at home has grown from 8 million in 2000 to nearly 200 million last year. But, 100 million Americans do not have broadband at home. In early 2009, Congress directed the FCC to develop a National Broadband Plan to ensure that every American has access to broadband capability. This plan must also include a strategy for achieving affordability and maximizing use of broadband. The plan presented here ensures that the entire broadband ecosystem networks, devices, content and applications is healthy. Illus. **The State of the World's Biodiversity for Food and Agriculture FAO COMMISSION ON GENETIC RESOURCES FOR FOOD AND AGRICULTURE ASSESSMENTS • 2019** Food & Agriculture Org. The State of the World's Biodiversity for Food and Agriculture presents the first global assessment of biodiversity for food and agriculture worldwide. Biodiversity for food and agriculture is the diversity of plants, animals and micro-organisms at genetic, species and ecosystem levels, present in and around crop, livestock, forest and aquatic production systems. It is essential to the structure, functions and processes of these systems, to livelihoods and food security, and to the supply of a wide range of ecosystem services. It has been managed or influenced by farmers, livestock keepers, forest dwellers, fish farmers and fisherfolk for hundreds of generations. Prepared through a participatory, country-driven process, the report draws on information from 91 country reports to provide a description of the roles and importance of biodiversity for food and agriculture, the drivers of change affecting it and its current status and trends. It describes the state of efforts to promote the sustainable use and conservation of biodiversity for food and agriculture, including through the development of supporting policies, legal frameworks, institutions and capacities. It concludes with a discussion of needs and challenges in the future management of biodiversity for food and agriculture. The report complements other

global assessments prepared under the auspices of the Commission on Genetic Resources for Food and Agriculture, which have focused on the state of genetic resources within particular sectors of food and agriculture. **Microsoft SQL Server 2012 Reporting Services 4/E** McGraw Hill Professional *The Definitive Guide to Microsoft SQL Server 2012 Reporting Services Create, deploy, and manage business intelligence reports using the expert tips and best practices in this hands-on resource. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.* **Water Ecosystem Services A Global Perspective** Cambridge University Press *This*

comprehensive volume describes how ecosystem services-based approaches can assist in addressing major global and regional water challenges, such as climate change, biodiversity loss, and water security in the developing world, by integrating scientific knowledge from different disciplines, such as hydrological modelling, environmental economics, psychology and international law. Empirical assessments at the national, catchment and regional levels are used to critically appraise this systemic approach, and the merits and potential limitations are presented. The practicalities of this approach with regard to water resources management, nature conservation, and sustainable business practices are discussed, and the role of society in underpinning the concept of ecosystem services is explored. Presenting new insights and perspectives on how to shape future strategies, this contributory volume is a valuable reference for researchers, academics, students and policy makers, in environmental studies, hydrology, water resource management, ecology, environmental law, policy and economics, and conservation biology. **Ending Africa's Energy Deficit and the Law Achieving Sustainable Energy for All in Africa** *Oxford University Press* With the inclusion of access to energy in the sustainable development goals, the role of energy to human existence was finally recognized. Yet, in Africa, this achievement is far from realized. Omorogbe and Orдор bring together experts in their fields to ask what is stalling progress, examining problems from institutions catering to vested interests at the continent's expense, to a need to develop vigorous financial and fiscal frameworks. The ramifications and complications of energy law are labyrinthine: this volume discusses how energy deficits can burden disabled people, women, and children in excess of their more fortunate counterparts, as well as considering environmental issues, including the delicate balance between the necessity of water for drinking and cleaning and the use of water in industrial processes. A pivotal work of scholarship, the book poses pressing questions for energy law and international human rights. **Divided Populism, Polarization and Power in the New Saskatchewan** *Fernwood Publishing* *Divided* looks at the last fifteen years in Saskatchewan, during which time the Saskatchewan Party government sought to reforge the province's image into the New Saskatchewan: brash, materialistic, highly competitive and aggressively partisan. In the process, a climate of polarization and hyper-partisanship swept the province into a near-perpetual state of anger and social division. These actions are not without consequences. In *Divided*, diverse voices describe the impact on their lives and communities when simmering wedge issues burst open on social media and in public spaces. The collection dives deep into the long set-up to this moment, from the colonial past to the four decades of neoliberal economics that have widened social and economic gaps across all sectors. *Divided* positions Saskatchewan as a fascinating case study of the global trends of division and provides testament to the resiliency of a vision of social solidarity against all odds. **Governing through Crime in South Africa The Politics of Race and Class in Neoliberalizing Regimes** *Ashgate Publishing, Ltd.* This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment. It examines how the problem of crime has emerged as a major issue to be governed in post-apartheid South Africa. Having undergone a dramatic transition from authoritarianism to democracy, from a white minority to black majority government, South Africa

provides rich material on the role that political authority, and challenges to it, play in the construction of crime and criminality. As such, the study is about the socio-cultural and political significance of crime and punishment in the context of a change of regime. The work uses the South African case study to examine a question of wider interest, namely the politics of punishment and race in neoliberalizing regimes. It provides interesting and illuminating empirical material to the broader debate on crime control in post-welfare/neoliberalizing/post transition polities. **Global Environment Outlook - GEO-6: Healthy Planet, Healthy People** Cambridge University Press Published to coincide with the Fourth United Nations Environmental Assembly, UN Environment's sixth Global Environment Outlook calls on decision makers to take bold and urgent action to address pressing environmental issues in order to protect the planet and human health. By bringing together hundreds of scientists, peer reviewers and collaborating institutions and partners, the GEO reports build on sound scientific knowledge to provide governments, local authorities, businesses and individual citizens with the information needed to guide societies to a truly sustainable world by 2050. GEO-6 outlines the current state of the environment, illustrates possible future environmental trends and analyses the effectiveness of policies. This flagship report shows how governments can put us on the path to a truly sustainable future - emphasising that urgent and inclusive action is needed to achieve a healthy planet with healthy people. This title is also available as Open Access on Cambridge Core. **Report to Congress of the U.S.-China Economic and Security Review Commission Modernizing Legal Services in Common Law Countries Will the US Be Left Behind?** Lexington Books Most people understand that regulations have a direct bearing on their access to things such as clean air and water and safe working environments. However, in the United States, few people make the connection between how legal services are regulated and how difficult it is for them to access legal services. Indeed, on the question of affordable and accessible civil justice, the World Justice Project ranks the US 94th out of 113 countries, behind Albania, Belarus, Myanmar, and Russia. For decades academics and others have debated whether the legal profession is self-regulated and, if it is, whether it should be. But is it the right debate? Self-regulation—or not—does not obviate the need for effective regulation. Independent, accountable, and transparent regulatory bodies, effective oversight of those bodies, the genuine engagement of citizens in the regulatory process, evidence-based research to fully assess the impact of regulation, and an approach to regulation that is proportionate and targeted to actual risks are essential for effective regulation. Through the lens of the adoption of alternative structures, this book explains how England, Wales, and Australia have, by embracing these essential elements, successfully modernized their regulatory environments for legal services, and how Canada has taken firm steps down its own path to the same. In contrast, by rejecting these elements, the United States remains paralyzed in an unproductive regulatory environment for legal services. This book provides a blueprint for how the US can take inspiration from its common law sisters to breathe new life into its regulatory environment for legal services. Ultimately, modernization will require more—and better—regulation that is financed publicly through equitable, progressive revenue sources. **Lubkin's Chronic Illness** Jones & Bartlett Learning Lubkin's Chronic Illness, Tenth Edition is an

Within Our Reach: A National Strategy To Eliminate Child Abuse and Neglect Fatalities *Government Printing Office* "Within Our Reach: A National Strategy to Eliminate Child Abuse and Neglect Fatalities" is the final report of the Commission to Eliminate Child Abuse and Neglect Fatalities, as mandated by the Protect Our Kids Act of 2012. This report discusses the Commission's findings and presents both a comprehensive national strategy for fundamental reform and recommendations specific to populations in need of special attention, including children currently known to child protective services agencies and at high risk for fatality, American Indian/Alaska Native children, and African American children. The report includes recommendations for actions by the executive branch, Congress, and states and counties that the Commission believes will be most effective in ending these tragic deaths, today and into the future. Legislators and policymakers at the State and Federal-level, plus advocates, researchers, and academics may be interested in these findings. Additionally, college students pursuing coursework in Social Work, Sociology, Native American and African American Studies, and children's health and psychotherapy programs may find these findings and recommendations helpful.

Mental Health Culture, Race, and Ethnicity : Executive Summary : a Supplement to Mental Health : a Report of the Surgeon General Remediation and Nature and Landscape Protection Services: An Examination of U.S. and Foreign Markets, Inv. 332-454 DIANE Publishing **Virtues and Fallacies of VAT: An Evaluation after 50 Years** Kluwer Law International B.V. Value-added tax (VAT) is a mainstay of revenue systems in more than 160 countries. Because consumption is a more stable revenue base than other tax bases, VAT is less distorting and hence more likely to encourage investment, savings, optimum labor supply decisions, and growth. VAT is not without criticism however, and faces its own specific technical and policy challenges. This book, the first to thoroughly evaluate VAT from a global policy perspective after over 50 years of experience with its intricacies, offers authoritative perspectives on VAT's full spectrum—from its signal successes to the subtle ways its application can undermine revenue performance and economic neutrality. The

contributors—leading tax practitioners and academics—examine the key policy issues and topics that are crucially relevant for measuring the success of the tax in the first part of the book, including: revenue generation and revenue efficiency; single rate versus multiple rates; susceptibility to fraud; exemptions and exceptions; compliance cost for businesses; policy and compliance gaps in revenue collection; adjustment rules caused by the transactional nature of the tax; transfer pricing issues; treatment of vouchers; permanent establishments and holding companies; payment of refunds; cross-border digital transactions; and supplies for free or below cost price. The second part offers six country reports—on New Zealand, Japan, China, Colombia, Ethiopia, and India—to demonstrate the different ways in which VAT operates in a variety of national economies. Whether a government is contemplating the imposition of a general consumption tax for the first time or new rules for applying an existing one, it is important for policymakers to keep central the aim to design a tax that realizes optimal efficiency and causes minimal distortions. This invaluable book serves as an expert guide to VAT policy development in this area. It will be welcomed not only by concerned government officials but also by tax professionals (both lawyers and accountants) and academics in tax law.

Sustainable Solutions for Water Resources Policies, Planning, Design, and Implementation *John Wiley & Sons* Get the single-source solutions guide to the sustainable management of water resources. Why is water the environmental issue? The answer is simple: without it, life on this planet could not exist. Yet, despite this fact, reckless consumption practices from a growing population are drying up the Earth's already limited water resources. Other factors, such as river and lake contamination, rising temperatures, and disproportionate geographic accessibility further contribute to the fresh water crisis. To confront this pressing concern, this enlightening guide, which covers over twenty case studies offering insights into real-world projects, uses a holistic, integrated approach to illustrate ways to preserve vital water supplies -- from green design remedies to encouraging greater personal responsibility. This book: Provides a basic overview of water resources, hydrology, current problems involving water resources, and the potential impact of global warming and climate change. Covers watershed planning, Best Management Practices, and potential design and planning solutions. Offers a concise overview of the issues affecting water use and management. Includes a full chapter dedicated to planning issues, and a full chapter covering site planning, design, and implementation. Sustainable Solutions for Water Resources takes a practical

approach to head off a global water catastrophe by offering sensible measures that can be put in place immediately to promote a clean, plentiful flow of the Earth's most precious resource. **Acrobat 6 and PDF Solutions** Sybex "If Taz writes a book, I can tell you this--I WANT IT!" It outlines activities driven by the governments and targeted at private sector players in the form of public-private partnerships for service delivery and public-private consultative bodies. It also presents private sector initiatives targeted at public sector players in the form of business advocacy, and it demonstrates the essential role of the private sector in trade and development through examples featuring the Barbadian tourism industry, customs services in Ghana, Thailand's automotive industry, Penang's export hub for electronics, and India's textile parks. **The 2015 Brookings Financial and Digital Inclusion Project Report Measuring Progress on Financial Access and Usage** Brookings Institution Press The 2015 Brookings Financial and Digital Inclusion Project (FDIP) Report and Scorecard evaluate access to and usage of affordable financial services across 21 geographically and economically diverse countries. The 2015 FDIP Report and Scorecard seek to answer a set of fundamental questions about today's global financial inclusion efforts, including: 1) Do country commitments make a difference in progress toward financial inclusion?; 2) To what extent do mobile and other digital technologies advance financial inclusion?; and 3) What legal, policy, and regulatory approaches promote financial inclusion? John D. Villasenor, Darrell M. West, and Robin J. Lewis analyzed the financial inclusion landscape in Afghanistan, Bangladesh, Brazil, Chile, Colombia, Ethiopia, India, Indonesia, Kenya, Malawi, Mexico, Nigeria, Pakistan, Peru, the Philippines, Rwanda, South Africa, Tanzania, Turkey, Uganda, and

Zambia. Countries received scores and rankings based on 33 indicators spanning four dimensions: country commitment, mobile capacity, regulatory environment, and adoption of traditional and digital financial services. The authors' analysis provides several takeaways with respect to expanding financial inclusion across diverse cultural, economic, and political contexts:

- Country commitment is fundamental.
- Movement toward digital financial services will accelerate financial inclusion.
- Geography generally matters less than policy, legal, and regulatory changes, although some regional trends in terms of financial services provision are evident.
- Central banks, ministries of finance, ministries of communications, banks, nonbank financial providers, and mobile network operators play major roles in achieving greater financial inclusion.
- Full financial inclusion cannot be achieved without addressing the financial inclusion gender gap.

This year's Report and Scorecard are the first of a series of publications intended to provide policymakers, the private sector, nongovernmental organizations, and the general public with information that can help improve financial inclusion in these countries and around the world.

"When the Welfare People Come" Race and Class in the US Child Protection System *Haymarket Books* In this groundbreaking look at the history and politics of the US child welfare system, "When the Welfare People Come" exposes the system in its totality, from child protective investigation to foster care and mandated services, arguing that it constitutes a mechanism of control exerted over poor and working class parents and children. Applying the Marxist framework of social reproduction theory to the child welfare system, the author reveals the system's role in the regulation of family life under capitalism. Don Lash is an attorney who has practiced in the areas of disability rights, education, and child welfare for more than twenty years.
