LONG WALK TO FREEDOM

THE AUTOBIOGRAPHY OF NELSON MANDELA

Little, Brown The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

THE KINGDOM OF SWAZILAND

STUDIES IN POLITICAL HISTORY

Greenwood Publishing Group A scholarly and engaging study, this history of Swaziland, by an author who spent many years in the kingdom, presents a vivid account of the interplay of politics and personalities along the passage to post-colonial independence. From the early stages of Swazi occupation of the present-day kingdom to the accession of Sobhuza II as king in 1921, this book traces problems in consolidating leadership under the Dlamini chieftaincy and examines the influence of Boer and British settlers, and of mining and commercial interests, on Swazi culture and governance. It recounts the story of a thriving small nation that sought to maintain traditional customs and institutions in the face of a powerful European presence. Each of the sixteen chapters concentrates on an aspect of political history that has influenced the character of the present-day kingdom, and much of the material, especially after 1900, has not been utilized in previous studies. The introduction looks at Swazi experience in a contemporary context, evaluating historic forces that have made for stability in a rapidly changing world. Other sections detail the Swazi reaction to European-controlled neighboring states (the Transvaal, Natal, and Mozambique), the tensions introduced by successive Boer and British policies, the Swazi detachment during two external wars (1899-1902 and 1914-1918), and widespread concerns about colonialism and self-governance following World War I.

CHILD FRIENDLY SCHOOLS MANUAL

UNICEF This Child-Friendly Schools (CFS) Manual was developed during three-and-a-half years of continuous work, involving the United Nations Children's Fund education staff and specialists from partner agencies working on quality education. It benefits from fieldwork in 155 countries and territories, evaluations carried out by the Regional Offices and desk reviews conducted by headquarters in New York. The manual is a part of a total resource package that includes an e-learning package for capacity-building in the use of CFS models and a collection of field case studies to illustrate the state of the art in child-friendly schools in a variety of settings.

TOURISM AND HOSPITALITY STUDIES

Peter Lang D This book discusses "tourism and hospitality" from different perspectives and disciplines. In addition, this book, considering the tourism and hotel management terminology, is expected to be a source book for the theoretical and practical scientific studies in the fields which is in close relationship such as gastronomy, recreation and marketing.

CLASS, RACE, AND INEQUALITY IN SOUTH AFRICA

Yale University Press The distribution of incomes in South Africa in 2004, ten years after the transition to democracy, was probably more unequal than it had been under apartheid. In this book, Jeremy Seekings and Nicoli Nattrass explain why this is so, offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty-first century. They show that the basis of inequality shifted in the last decades of the twentieth century from race to class. Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich. The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy, or what Seekings and Nattrass call the "distributional regime." The post-apartheid distributional regime continues to divide South Africans into insiders and outsiders. The insiders, now increasingly multiracial, enjoy good access to well-paid, skilled jobs; the outsiders lack skills and employment.

DEMOCRACY COMPROMISED

CHIEFS AND THE POLITICS OF THE LAND IN SOUTH AFRICA

BRILL This book argues that the promulgation of the Traditional Leadership and Governance Framework and Communal Land Rights Acts runs the risk of compromising South Africa's democracy. The acts establish traditional councils with land administration powers. These structures are dominated by unelected members.

GLASS CEILINGS

WOMEN IN SOUTH AFRICAN MEDIA HOUSES 2018

Gender Links The third Glass Ceilings survey of South African media launched on 19 October - national press freedom day - 2018 shows there have been dramatic shifts in the race and gender composition of media since the first study twelve years ago. But black women are still not fairly represented in media decision-making; the pay gap is widening, especially in the age of digitisation; and the old boys' network is alive and well. In the #MeToo and #TotalShutDown era, the conversation is moving beyond numbers, to the underlying patriarchal norms that fuel sexist attitudes, harassment and its newest ugly form - cyber misogyny. With the 25th anniversary of democracy fast approaching, the key message in the report is that #TimesUp for the South African media and #TimeisNow to walk the talk of gender equality!

GREEN ECONOMY IN THE TRANSPORT SECTOR

A CASE STUDY OF LIMPOPO PROVINCE, SOUTH AFRICA

Springer This open access book is interdisciplinary and provides cross-sectoral and multi-dimensional exploration of sustainable development and transportation in South Africa. Drawing on work from different disciplines, the book contributes not only to academia but also seeks to inform urban and regional policy with the view of contributing to the national aspirations of South Africa as espoused in the National Development Plan (NDP), 2030, National Spatial Development Framework (NSDF) Draft (2019), National Climate Change Adaptation Strategy (NCASS) Draft (2019), Green Transport Strategy for South Africa (2018-2050), and National Transportation Plan (NATMAP), 2050. Adopting a multi-dimensional assessment, the book provides a background for co-production concerning climate change, sustainable development, and transportation in the Global South. The book contributes in its analysis of the institutional and legislative framework that relates to the climate change, skills and knowledge transfer, sustainable development, and transportation in South Africa, as these are responsible for the evolution of the green economy and transport sector in the country. The connections among different sectors and issues such as environment, transport modes, technology innovation, vehicle management and emission control, skills and knowledge transfer, legislative and policy framework, and the wider objectives of the sustainable development goals (SDGs), especially goals 11 to 13. The success stories relating to climate change, sustainable development, and transportation in South Africa are identified together with the best possible practices that may inform better environmental, urban and regional planning, policy, practice, and management.

SOUTH AFRICA, A COUNTRY STUDY

SUSTAINABLE AGRICULTURAL DEVELOPMENT

RECENT APPROACHES IN RESOURCES MANAGEMENT AND ENVIRONMENTALLY-BALANCED PRODUCTION ENHANCEMENT

Springer Science & Business Media Due to many challenges (i.e. climate change, energy, water and land shortage, high demands on food, land grabbing, etc.), agriculture production potential is expected to be seriously affected; thus, increasing food insecurity and hunger in many already affected regions (especially in Africa). In this context, sustainable agriculture is highly recommended as an eco-system approach where soil, water, plants, environment and living organisms live in harmony. Innovative technologies and research should be developed to ensure sustainable agriculture and productivity using modern irrigation systems, improved varieties, improved soil quality, etc. In the meantime, the preservation of natural environment should be based on resource conservation technologies and best management practices. Sustainable Agricultural Development, not only raises the serious ethical and social issues underlying these huge environmental problems, but also aims at presenting successful experiences from all over the world in relation with sustainable farming, sustainable management of water and land resources, and innovative processes in livestock production. It also aims at providing inputs to decision making processes and encouraging the transfer of relevant know-how, technologies and expertise to different countries where similar agro-climatic conditions may exist; thus saving precious resources and

promoting sustainable agricultural development as a relevant approach to tackle the food security challenge. Finally, this book focuses on the paradigmatic and policy dimensions and call for an innovative approach by analyzing the key themes in a complex and interrelated manner.

MANAGEMENT AND COST ACCOUNTING

The market-leading European text on management accounting and comprehensive authority on all aspects of the subject has been streamlined and substantially redesigned in its 6th edition to make it even more suitable for the needs of today's student. The aim of the new edition is to explain the principles involved in the design and evaluation of management and cost accounting information systems. The emphasis in the book is on management accounting systems that will be used for internal decision-making purposes within an organisation, however, cost accounting systems for external reporting are also comprehensively covered. It has been brought up to date with the latest developments in the subject. Having been made stronger pedagogically with the addition of the answers to the questions and more real-world mini cases, the text brings home the relevance of the subject matter to the real world of business.

HISTORICAL DICTIONARY OF THE ZULU WARS

Scarecrow Press Between 1838 and 1888 the recently formed Zulu kingdom in southeastern Africa was directly challenged by the incursion of Boer pioneers aggressively seeking new lands on which to set up their independent republics, by English-speaking traders and hunters establishing their neighboring colony, and by imperial Britain intervening in Zulu affairs to safeguard Britain's position as the paramount power in southern Africa. As a result, the Zulu fought to resist Boer invasion in 1838 and British invasion in 1879. The internal strains these wars caused to the fabric of Zulu society resulted in civil wars in 1840, 1856, and 1882-1884, and Zululand itself was repeatedly partitioned between the Boers and British. In 1888, the old order in Zululand attempted a final, unsuccessful uprising against recently imposed British rule. This tangled web of invasions, civil wars, and rebellion is complex. The Historical Dictionary of the Zulu Wars unravels and elucidates Zulu history during the 50 years between the initial settler threat to the kingdom and its final dismemberment and absorption into the colonial order. A chronology, an introductory essay, a bibliography, maps, photos, and over 900 cross-referenced dictionary entries that cover the military, politics, society, economics, culture, and key players during the Zulu Wars make this an important reference for everyone from high school students to academics.

A COMMON HUNGER

LAND RIGHTS IN CANADA AND SOUTH AFRICA

University of Calgary Press The impact of colonial dispossession and the subsequent social and political ramifications place a unique burden on governments having to establish equitable means of addressing previous injustices. A Common Hunger considers the efforts by both of these countries to reconcile the damage left by colonial oppression, in part, looking back with a critical eye, but also pointing the way toward a solution that will satisfy the common need for human dignity.

WORLD MALARIA REPORT 2016

The World Malaria Report 2016 summarizes information received from malaria-endemic countries and other sources and updates the analyses presented in the 2015 report. The World Malaria Report is WHO's flagship malaria publication released each year in December. It assesses global and regional malaria trends, highlights progress towards global targets, and describes opportunities and challenges in controlling and eliminating the disease. Most of the data presented in this report is for 2015.

FUELLING THE EMPIRE

SOUTH AFRICA'S GOLD AND THE ROAD TO WAR

John Wiley & Sons What makes a country go to war? At what stage in that sequence of events, of action and reaction, bluff and brinkmanship does war become unavoidable? The South African War was the first large-scale human tragedy of the twentieth century - the prelude to a century that was to be characterised by such large-scale and avoidable tragedy. The cost in human, environmental and financial terms was colossal. Approximately 60,000 men women and children were killed from countries that not only included Britain and South Africa, but also France, the USA, Australia, New Zealand and Canada. Moreover, the peace terms that allowed for the continuation of discriminatory racial policies set the stage for a century of racial inequality and strife in South Africa. In this incisive work, South African author, John Stephens, considers the slide to a war that nobody wanted. This is a story of the shaping of South Africa. It is also a universal story: one of pride, greed and fear - of humans behaving in a very human way.

RIVER BASIN TRAJECTORIES

SOCIETIES, ENVIRONMENTS AND DEVELOPMENT

IWMI This book contains 11 papers which cover a range of vital topics in the areas of water, agriculture, food security and ecosystems - the entire spectrum of developing and managing water in agriculture, from fully irrigated to fully rainfed lands. They are about people and society, why they decide to adopt certain practices and not others and, in particular, how water management can help poor people. They are about ecosystems - how agriculture affects ecosystems, the goods and services ecosystems provide for food security and how water can be managed to meet both food and environmental security objectives. This is the eighth book in the series.

MINDSET

THE NEW PSYCHOLOGY OF SUCCESS

Random House The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset "Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life."—Bill Gates, GatesNotes After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

ORGANIC FOOD SYSTEMS

MEETING THE NEEDS OF SOUTHERN AFRICA

Cabi Organic agriculture world-wide allows farmers to produce healthy food with low levels of external inputs, and often shortens the value chains, giving farmers a higher share of the consumer dollar. This book reports on long-term comparative organic farming systems research trials carried out over the last four years in South Africa's Southern Cape, as well as research on the organic sector and the technical tools it requires in South Africa, Zambia, Uganda and Tanzania. The trials show how the yield gap between organic and conventional crops was closed over 3 years. Water use efficiency was also greater in the organic farming system, and pests and diseases were effectively controlled using biological products. Farmer training approaches, soil carbon analysis, participatory guarantee systems, the Zambian organic farming sector (agronomy) and Ugandan organic farmer training support, and a sector plan for southern African organic farming are examined.

EMERGING VOICES

A REPORT ON EDUCATION IN SOUTH AFRICAN RURAL COMMUNITIES

HSRC Press This examination graphically illustrates the conditions that make dreams of a better life for all virtually unrealizable in rural areas of South Africa. Through the voices of rural people themselves, this study tells not only what the problems surrounding education are but also what can and should be done when the South African government launches its offensive against poverty in rural areas. Rigorous and qualitative, the text is an overview of the need of great numbers of people for the opportunities and capabilities that education can provide for their futures. It also shows the existing situation of many impoverished populations worldwide and illustrates that poverty and inequality continue where such issues are not addressed.

THE FORGOTTEN PEOPLE

POLITICAL BANISHMENT UNDER APARTHEID

BRILL The apartheid state employed many weapons against its opponents: imprisonment, banning, detention, assassination - and banishment. In a practice reminiscent of Tsarist and Soviet Russia, a large number of 'enemies of the state' were banished to remote areas, far from their homes, communities and followers. Here their existence became 'a slow torture of the soul', a kind of social death. This is the first study of an important but hitherto neglected group of opponents of apartheid, set in a global, historical and comparative perspective. It looks at the reasons why people were banished, their lives in banishment and the efforts of a remarkable group of activists, led by Helen Joseph, to assist them. Book jacket.

GLOBAL ISSUES IN WATER, SANITATION, AND HEALTH

WORKSHOP SUMMARY

National Academies Press As the human population grows--tripling in the past century while, simultaneously, quadrupling its demand for water--Earth's finite freshwater supplies are increasingly strained, and also increasingly contaminated by domestic, agricultural, and industrial wastes. Today, approximately one-third of the world's population lives in areas with scarce water resources. Nearly one billion people currently lack access to an adequate water supply, and more than twice as many lack access to basic sanitation services. It is projected that by 2025 water scarcity will affect nearly two-thirds of all people on the planet. Recognizing that water availability, water quality, and sanitation are fundamental issues underlying infectious disease emergence and spread, the Institute of Medicine held a two-day public workshop, summarized in this volume. Through invited presentations and discussions, participants explored global and local connections between water, sanitation, and health; the spectrum of water-related disease transmission processes as they inform intervention design; lessons learned from water-related disease outbreaks; vulnerabilities in water and sanitation infrastructure in both industrialized and developing countries; and opportunities to improve water and sanitation infrastructure so as to reduce the risk of water-related infectious disease.

CHEMOTHERAPEUTIC TARGETS IN PARASITES

CONTEMPORARY STRATEGIES

Cambridge University Press Parasitic infections are the most prevalent of human diseases, and researchers continue to face the challenge of designing drugs to successfully counteract them. Chemotherapeutic Targets in Parasites analyzes the critical metabolic reactions and structural features essential for parasite survival, and advocates the latest molecular strategies with which to identify effective antiparasitic agents. An introduction to the early development of parasite chemotherapy is followed by an overview of biophysical techniques and genomic and proteomic analysis. Several chapters are devoted to specific types of chemotherapeutic agents and their targets in malaria, trypanosomes, leishmania and amitochondrial protists. Chapters on helminths include metabolic, neuromuscular, microtubular and tegumental targets. Emphasized throughout is the design of more selective and less toxic drugs than in the past. This book will be especially relevant to medical and clinical researchers and to graduate students in parasitology, pharmacology, medicine, microbiology, and biochemistry.

EXORCISING THE DEMONS WITHIN

XENOPHOBIA, VIOLENCE AND STATECRAFT IN CONTEMPORARY SOUTH AFRICA

United Nations University Press with Wits University Press On 11 May 2008, residents of Alexandra Township turned violently on their neighbours, launching a string of attacks that, two weeks later, left 60 dead, dozens raped and over a hundred thousand displaced. This book situates recent anti-outsider violence within an extended history of South African statecraft that both produced the conditions for the attacks and has been reshaped by it. It is the first academic text to fully theorise the events that made global headlines in 2008. Through its subtle, empirical and theoretically informed analysis, the book reshapes discussion of xenophobia and violence in South Africa while injecting local debates into global considerations of the meaning of citizenship and the post-colonial state.

TRUTH AND RECONCILIATION COMMISSION OF SOUTH AFRICA REPORT

Palgrave Macmillan The Report of the Truth and Reconciliation of South Africa is one of the most significant documents of our time. Compiled from the evidence of over 20,000 witnesses, the Report represents the record of thirty-four years under apartheid, breaking the terrible silence that surrounded so many gross violations of human rights committed during those years. It contains lessons for the international community, describing the violence and pain that is the unavoidable result of oppression and abuse, and the moral corruption of a society that turns its face away from human rights. The Findings and Recommendations of the Commission constitute not only an inquest on the past, but point the way to a just society. The Report is in five volumes, each with a particular focus. The International edition includes extended tables of contents, a Guide to using the report, two indices and additional maps. For the list price customers will receive the five volumes cloth bound with a four-colour dust jacket, and each set will be accompanied by a CD-ROM of the full text for more in-depth research. It is remarkably informal in its style; it combines accessible, lucid narrative, with highly evocative quotation, effective layout and powerful full-page photographs
