You heard that right! They don't make their money from stocks, but from the chatroom memberships, video courses, and monthly subscriptions they sell to you! Before we get started, let me first go over what I don't include in this book... • I have no "day trading" chatroom which charges your credit card each month for a service you'll never use. • I have no monthly website subscription service for "more advanced strategies" that are needed to get started, but not included in the book. • I have no Lamborghini I rented to put behind me in a video, or fake money on a table in front of me. What I do have is a book that will teach you how the day trading industry actually works, my own wisdom from being in the stock market for almost a decade, and strategies you can use to actually start day trading. Here's What You'll Learn In This Book: —————▼————— • Chapter 1: The Industry - In the first part of the book, I peel back the curtain and go over the actual day trading industry with you. I show you how so called "pro" traders are able to fake charts, statistics, and trades to make it appear like they actually make money day trading, when they really don't. I then go over the tactics they use to scam traders, and even a website which exposes all the fake educators. • Chapter 2: Terminology - Here we go over all the terms you'll need to know as we progress to through the book. Volume, chart types, indicators, order types... it's all covered! • Chapters 3 + 4: Pre-Trading Basics - In these chapters, I go over the basics of day trading. This includes what software and broker to use, finding mentors who you can refer to for help, and what the typical day in the life of a day trader looks like. I then show you how to set up your trading screen, what time frame to use, and the most beneficial types of stocks to trade. • Chapter 5: Day Trading Strategies - This is the heart of the book, and where I spend the most time. In this section, I give you 8 different strategies you can immediately start using to day trade. I include detailed explanations, charts, and examples so you know exactly how to implement the strategies I go over. • Chapter 6: Additional Advice - In the last part of the book, I give you my final bits of advice. This includes how to increase the probability of your trades, using a practice account, and more bits of wisdom I have learned over the years. —————▲————— I must admit to you, day trading is not easy and there is no guarantee of actually making it. However I feel this book gives you the best chance of actually getting started, as well providing a big picture of the day trading industry. If you've been on the fence about day trading, now is your chance to finally learn what it's all about! As a complimentary bonus, only for book buyers, you'll receive my special report titled Crush the Market! This report goes over 14 beneficial tips I have learned throughout my trading career that will help keep your account profitable in the stock market. Simple Strategies for Beginners to Achieve More Success and Passive Income Every Day Investing in Fundamentals Markets (Swing, Options, Futures) The trading market has no "one-size-fits-all" key. It is your decision if you want to be a part-time trader or you want to do it every day. You can even decide to make it a business - your trading business. If there is any secret actually, it is within your brain, and together with your mental awareness, control and accumulated skills and knowledge that you have acquired and the accordant alignment of your objectives and actions, and expertise that is gained through a quality amount of constant practice till knowledge becomes instinctive wisdom. It is possible to learn to trade, however, the experience has to be acquired. It is developed personally through individual effort and comprehension. It does not just happen in one day. Like any other profession, trading also requires commitment. The theory is acceptable, but practice perfects your skills and combines all your previously acquired knowledge. One other important thing is to know that it is impossible to stop learning. Every day, there is a change in the market, and the Forex market like its traders, is constantly evolving. " Conservative Options Trading Hedging Strategies, Cash Cows, and Loss Recovery [Business Expert Press](http://Business.Expert.Press) The world of options is considered high-risk by many. At its original options trading in the modern era began in the early 1970s when the first listed calls were offered on a short list of companies; a few years later, put trading was added. Since this time, options trading has become available on most companies on the large public exchanges. However, the high-risk reputation of options has persisted through the years, even as dozens of new and often conservative strategies have been introduced. Today, the best use of options is not to speculate on price movement, but to hedge market risk in equity portfolios. Many strategies can combine hedging with income, establishing advantageous circumstances for risk-averse traders. It is possible to apply several strategies to reduce risk and in some instances, to eliminate market risk completely. This book examines the many ways this can be accomplished, based on options for three highly-rated companies. These are qualified as a first step by exceptionally attractive fundamental attributes and trends: Higher than average dividend yield with dividend increases over at least 10 years; a range of moderate price/earnings ratios each year; growing revenue, earnings and net return; and level or declining long-term debt as a percentage of total capitalization. Forex Trading Secrets : Underground Little Dirty Secrets Making You Forex Millionaire Forex Trading Secrets and Weird Tricks CreateSpace You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was

holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?
