The Human Body in Early Iron Age Central Europe Burial Practices and Images of the Hallstatt World

Routledge Identities and social relations are fundamental elements of societies. To approach these topics from a new and different angle, this study takes the human body as the focal point of investigation. It tracks changing identities of early Iron Age people in central Europe through body-related practices: the treatment of the body after death and human representations in art. The human remains themselves provide information on biological parameters of life, such as sex, biological age, and health status. Objects associated with the body in the grave and funerary practices give further insights on how people of the early Iron Age understood life and death, themselves, and their place in the world. Representations of the human body appear in a variety of different materials, forms, and contexts, ranging from ceramic figurines to images on bronze buckets. Rather than focussing on their narrative content, human images are here interpreted as visualising and mediating identity. The analysis of how image elements were connected reveals networks of social relations that connect central Europe to the Mediterranean. Body ideals, nudity, sex and gender, aging, and many other aspects of women's and men's lives feature in this book. Archaeological evidence for marriage and motherhood, war, and everyday life is brought together to paint a vivid picture of the past. *Paradise Lost A Poem, in Twelve Books*. The Author John Milton Stoneheart Little, Brown Books for Young Readers A city has many lives and layers. London has more than most. Not all the layers are underground, and not all the lives belong to the living. Twelve-year-old George Chapman is about to find this out the hard way. When, in a tiny act of rebellion, George breaks the head from a stone dragon outside the Natural History Museum, he awakes an ancient power. This power has been dormant for centuries but the results are instant and terrifying: A stone Pterodactyl unpeels from the wall and starts chasing George. He runs for his life but it seems that no one can see what he's running from. No one, except Edie, who is also trapped in this strange world. And this is just the beginning as the statues of London awake... This is a story of statues coming to life; of a struggle between those with souls and those without; of how one boy who has been emotionally abandoned manages to find hope. *The Vorrh A Novel* Vintage In a novel that combines history and fantasy, the author explores the Vorrh, a vast forest at the edge of Essenwald, a colonial city in a parallel Africa.
