#### THE CUSTOMER TRAP

#### HOW TO AVOID THE BIGGEST MISTAKE IN BUSINESS

Apress American business is dysfunctional. Companies of all sizes follow the mistaken belief that their products and services are best sold through mega-customers with pervasive market reach, such as Amazon and Walmart. Far too many business leaders fail to realize—until it is too late—that the relentless pursuit of volume at all cost is not the key to long-term profits and success. The Customer Trap: How to Avoid the Biggest Mistake in Business is Thomas and Wilkinson's sequel to The Distribution Trap: Keeping Your Innovations from Becoming Commodities, which won the Berry-American Marketing Association Prize for the best marketing book of 2010. The Distribution Trap contended that cracking the big-box channel is not necessarily the Holy Grail that many marketers assume it is. The Customer Trap takes this thesis to the next level by arguing that all companies, regardless of the industry there are in, should maintain control over their sales and distribution channels. Volume forgone by avoiding the mass market is more than offset by higher margins and stronger brand equity. The Customer Trap shows that giving power to a customer who violates "the ten percent rule" sets a company up for ruin. Yet, when presented with the opportunity to push more sales through large customers, most decision-makers jump at the chance. As a result, marketing has come to resemble a relentless quest for efficiency and scale. Demands from mega-customers in the form of discounts, deals, and incentives erode the integrity of the brand and what it originally stood for. Lower margins become the norm and cost-saving compromises on quality take over. In time, the brand suffers and, in some cases, fails outright. Stark examples from Oreck Vacuum Cleaners, Rubbermaid, Goodyear, Levi's, and others illustrate the perils of falling into the "customer trap." This book demonstrates in vivid detail how to thrive by controlling your sales and distribution. The authors show how many firms, such as STIHL Inc., etailz, Apple, Red Ant Pants, and Columbia Paints & Coatings, have prospered by avoiding the "customer trap"—and how your company can have similar success.

#### GARGANTUA AND PANTAGRUEL, BOOK 4 (ILLUSTRATED EDITION) (DODO PRESS)

Francois Rabelais (1494-1553) was a major French Renaissance writer, doctor and humanist. He is regarded as an avant-garde writer of fantasy, satire, the grotesque, dirty jokes and bawdy songs. As a doctor, he used his spare time to write and publish humorous pamphlets which were critical of established authority and stressed his own perception of individual liberty. His revolutionary works, although satirical, revealed an astute observer of the social and political events unfolding during the first half of the sixteenth century. Using the pseudonym Alcofribas Nasier, he published his first book, Pantagruel, that would be the start of his Gargantua series. Gargantua and Pantagruel tells the story of two giants - a father, Gargantua, and his son, Pantagruel - and their adventures, written in an amusing, extravagant, and satirical vein. His use of his native tongue was astoundingly original, lively, and creative. He introduced dozens of Greek, Latin, and Italian loan-words and direct translations of Greek and Latin compound words and idioms into French. He has influenced many modern writers and scholars. Aleister Crowley's writings heavily borrow from Rabelais themes.

### THE BLUEPRINT FOR BUILDING A REAL BUSINESS IN THE LAWN CARE AND LANDSCAPING INDUSTRY

---

AuthorHouse What is Cracking the Code to Profit? Cracking the Code to Profit is the complete, start to finish blueprint for building a REAL BUSINESS in the lawn care and landscaping industry. The author, Ryan Sciamanna, shares all his knowledge on how he went from a solo operator to six crews in three years. Who is the book for? Cracking the Code to Profit is for anyone thinking about starting a lawn care business to companies trying to break through the \$200k to \$300k gross revenue barrier. If you would like to, but are not already, making \$100k per year as the owner of your lawn care company, you will benefit from reading this book. Why Ryan wrote the book: In 2016 Ryan narrowed his lawn care companies service offering down to lawn mowing and lawn treatments only. Prior to that, his company was a full-service lawn and landscape service provider offering all of the typical services including mulching, pruning, cleanups, leaf removals, hardscapes, landscape design and installation, and snow removal. He made the change in his business model to increase profit margins and reduce the amount of time required of him as the owner of the business. Naturally, he needed to find referral partners for his lawn care customers because they still had other lawn and landscape needs his company no longer performed. He contacted several other lawn and landscape business owners in his area and told them he wanted to send them referrals for the work his company no longer performed and only asked they don't 'steal' his customers for the services they were still providing. After shooting off the first several referrals, Ryan quickly realized that a lot of these companies needed help and until they improved their business operations, referring his clients to them was only making him look bad! He has since stopped referring work with the exception of a couple companies that proved they would provide his customers quality work at fair prices and actually be reliable. Ryan says, "I think most lawn care business owners started their business just like I did...they enjoyed the work and were good at it, so they said, why not work for myself. In the beginning, it usually goes pretty smooth, but as they add more and more customers and eventually need to hire employees, they get in over their heads. I did the same thing, but quickly educated myself on how to run an actual business and not just be self-employed." He organized all of his knowledge into Cracking the Code to Profit in hopes it will save new business owners years of frustration. Ryan read a similar 'book' before he started his business that his father had bought for him online. It was actually just a word document that someone had written on starting a lawn care business and his dad printed it off for him. It cost his father \$79.95 for that! Ryan still has that 'book' and even though it was overpriced, terrible quality and a lot of the information was not good, he still credits that book towards helping him get his business off the ground. What you can expect from Cracking the Code to Profit - How to Start a Lawn Care Business: The book flows in chronological order from starting your business to your exit strategy. Ryan put every detail he could recall from his own experience. You can see the book chapters in the book preview. After each chapter, action steps are included so you know exactly what you need to do. At the end of the book, you will find the resource section for continued learning and execution. You can expect to have a much better understanding of how to start and grow your lawn care business is a healthy, profitable way. Ryan's contact info is also included in the book. He would love to hear from you after you finish it!

## FEAR NOT THE WILDERNESS

---

The Wilderness is not a place to be feared. It will be a place of bearing the fruit of Jesus and His ministry for the true believer through the power of the Spirit. {Isa.32:15} until the Spirit be poured upon us from on high, and the wilderness become a fruitful field, and the fruitful field be esteemed as a forest. {51:3} For Jehovah hath comforted Zion; he hath comforted all her waste places, and hath made her wilderness like Eden, and her desert like the garden of Jehovah; joy and gladness shall be found therein, thanksgiving, and the voice of melody. It will be a place of peace and rest through faith in God's Word. For Israel, as a type of the Church, it was a place of deliverance and rest from the Beast kingdom. {Eze.34:25} And I will make with them a covenant of peace, and will cause evil beasts to cease out of the land; and they shall dwell securely in the wilderness, and sleep in the woods. It is a place of supernatural provision. {Rev.12:14} And there were given to the woman the two wings of the great eagle, that she might fly into the wilderness unto her place, where she is nourished for a time, and times, and half a time, from the face of the serpent. Be encouraged by this faith building-book.
