GIVING VOICE TO VALUES

HOW TO SPEAK YOUR MIND WHEN YOU KNOW WHAT'S RIGHT

Yale University Press **How can you effectively stand up for your values when pressured by your boss, customers, or shareholders to do the opposite? Drawing on actual business experiences as well as on social science research, Babson College business educator and consultant Mary Gentile challenges the assumptions about business ethics at companies and business schools. She gives business leaders, managers, and students the tools not just to recognize what is right, but also to ensure that the right things happen. The book is inspired by a program Gentile launched at the Aspen Institute with Yale School of Management, and now housed at Babson College, with pilot programs in over one hundred schools and organizations, including INSEAD and MIT Sloan School of Management. She explains why past attempts at preparing business leaders to act ethically too often failed, arguing that the issue isn't distinguishing what is right or wrong, but knowing how to act on your values despite opposing pressure. Through research-based advice, practical exercises, and scripts for handling a wide range of ethical dilemmas, Gentile empowers business leaders with the skills to voice and act on their values, and align their professional path with their principles. Giving Voice to Values is an**

engaging, innovative, and useful guide that is essential reading for anyone in business.

GIVING VOICE TO VALUES IN THE BOARDROOM

Routledge **This book takes the central issues facing board members today and applies the giving voice to values framework while also providing insights from practicing board members who have faced these issues. It covers such topics as strategic planning and monitoring, director independence, privacy and cyber risk, executive compensation and CEO succession planning. With this book, readers will also grapple with the conflicts of interest that might arise in the director selection process, role of the nominating committee and the compensation committee in order to cultivate more optimal board dynamics. The principles of giving voice to values start by asking a deceptively simple question: 'What if you were going to act on your values—what would you say and do?' The book then provides an overview of the current landscape of corporate governance along with the major rules and director duties applicable to the board of directors. The book's latter chapters contain a series of five scenarios common to the board of directors that are presented as a set of "Board Challenges" involving the tensions often found in board work. In Giving Voice to Values in the Boardroom, the author, Cynthia E. Clark, provides practical strategies for board members and other constituents of corporate governance to deal with these challenges. These cases are designed to help users of the book implement prescripting and action planning. Each case will also have discussion questions about the stakes and stakeholders, common reasons and rationalizations and examples of how firms and governance professionals have handled similar board challenges.**

A NEW VOICE FOR ISRAEL

FIGHTING FOR THE SURVIVAL OF THE JEWISH NATION

St. Martin's Press **Many Americans who care about Israel's future are questioning whether the hard-line, uncritical stances adopted by many traditional pro-Israel advocates really serve the country's best interests over the long-term.**

Moderate Jeremy Ben-Ami, founder of J Street, the new pro-Israel, pro-peace political movement, punctures many of the myths that have long guided our understanding of the politics of the American Jewish community and have been fundamental to how pro-Israel advocates have pursued their work. These myths include: - that leaders of established Jewish organizations speak for all Jewish Americans when it comes to Israel - that being pro-Israel means you cannot support creation of a Palestinian state - that American Jews vote for candidates based largely on their support of Israel - that talking peace with your enemies demonstrates weakness - that allying with neoconservatives and evangelical Christians is good for Israel and good for the Jewish community. Ben-Ami, whose grandparents were first-generation Zionists and founders of Tel Aviv, tells the story of his own evolution toward a more moderate viewpoint. He sketches a new direction for both American policy and the conduct of the debate over Israel in the American Jewish community.

RETHINKING VALUE-ADDED MODELS IN EDUCATION

CRITICAL PERSPECTIVES ON TESTS AND ASSESSMENT-BASED ACCOUNTABILITY

Routledge Since passage of the of No Child Left Behind Act in 2001, academic researchers, econometricians, and statisticians have been exploring various analytical methods of documenting students' academic progress over time. Known as value-added models (VAMs), these methods are meant to measure the value a teacher or school adds to student learning from one year to the next. To date, however, there is very little evidence to support the trustworthiness of these models. What is becoming increasingly evident, yet often ignored mainly by policymakers, is that VAMs are 1) unreliable, 2) invalid, 3) nontransparent, 4) unfair, 5) fraught with measurement errors and 6) being inappropriately used to make consequential decisions regarding such things as teacher pay, retention, and termination. Unfortunately, their unintended consequences are not fully recognized at this point either. Given such, the timeliness of this well-researched and thoughtful book cannot be overstated. This book sheds important light on the debate surrounding VAMs and thereby offers states and practitioners a highly important resource from which they can move forward in more research-based ways.

MANY VOICES, ONE VISION: THE EARLY YEARS OF THE WORLD HERITAGE CONVENTION

Routledge In 1972, UNESCO put in place the World Heritage Convention, a highly successful international treaty that influences heritage activity in virtually every country in the world. Focusing on the Convention's creation and early implementation, this book examines the World Heritage system and its global impact through diverse prisms, including

its normative frameworks, constituent bodies, programme activities, personalities and key issues. The authors concentrate on the period between 1972 and 2000 because implementation of the World Heritage Convention during these years sets the stage for future activity and provides a foil for understanding the subsequent evolution in the decade that follows. This innovative book project seeks out the voices of the pioneers - some 40 key players who participated in the creation and early implementation of the Convention - and combines these insightful interviews with original research drawn from a broad range of both published and archival sources. The World Heritage Convention has been significantly influenced by 40 years of history. Although the text of the Convention remains unchanged, the way it has been implemented reflects global trends as well as evolving perceptions of the nature of heritage itself and approaches to conservation. Some are sounding the alarm, claiming that the system is imploding under its own weight. Others believe that the Convention is being compromised by geopolitical considerations and rivalries. This book stimulates reflection on the meaning of the Convention in the twenty-first century.

STRENGTHENING FORENSIC SCIENCE IN THE UNITED STATES

A PATH FORWARD

National Academies Press **Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.**

ENGAGING STUDENT VOICES IN HIGHER EDUCATION

DIVERSE PERSPECTIVES AND EXPECTATIONS IN PARTNERSHIP

Springer **This book examines the importance of exploring the varied and diverse perspectives of student experiences. In both academic institutions and everyday discourse, the notion of the 'student voice' is an ever-present reminder of the importance placed upon the student experience in Higher Education: particularly in a context where the financial burden of undertaking a university education continues to grow. The editors and contributors explore how notions of the 'student voice' as a single, monolithic entity may in fact obscure divergence in the experiences of students. Placing so much emphasis on the 'student voice' may lead educators and policy makers to miss important messages communicated – or consciously uncommunicated – through student actions. This book also explores ways of working in partnership with students to develop their own experiences. It is sure to be of interest and value to scholars of the student experience and its inherent diversity.**

EXIT, VOICE, AND LOYALTY

RESPONSES TO DECLINE IN FIRMS, ORGANIZATIONS, AND STATES

Harvard University Press **An innovator in contemporary thought on economic and political development looks here at decline rather than growth. Albert O. Hirschman makes a basic distinction between alternative ways of reacting to deterioration in business firms and, in general, to dissatisfaction with organizations: one, "exit," is for the member to quit the organization or for the customer to switch to the competing product, and the other, "voice," is for members or customers to agitate and exert influence for change "from within." The efficiency of the competitive mechanism, with its total reliance on exit, is questioned for certain important situations. As exit often undercuts voice while being unable to counteract decline, loyalty is seen in the function of retarding exit and of permitting voice to play its proper role. The interplay of the three concepts turns out to illuminate a wide range of economic, social, and political phenomena. As the author states in the preface, "having found my own unifying way of looking at issues as diverse as competition and the two-party system, divorce and the American character, black power and the failure of 'unhappy' top officials to resign over Vietnam, I decided to let myself go a little."**

PERFORMING FARMSCAPES

Springer Nature **This book argues that the performance-based work in the featured case studies contributes to the construction of food democracy where the public takes back decision-making in shaping the food system. It explores how contemporary artists translate scientific research about local and global agricultural issues into life stories that inform and engage their audiences and, in so doing, transform passive food consumers into proactive food citizens. The pairing of performing and farmscapes (complex webs of farmlands and storylines) enables artists to use embodied practices to encourage audiences to imagine a just and sustainable agri-food system and to collaborate on making it a reality. The book arranges the case studies on a trajectory that moves from projects that foreground knowledge acquisition to ones that emphasize social engagement by creating conversations and coalitions between farming and nonfarming communities to a final one that pairs protest art and political activism to achieve legally-binding changes in the agricultural landscape.**

CREATING A TIPPING POINT: STRATEGIC HUMAN RESOURCES IN HIGHER EDUCATION

ASHE HIGHER EDUCATION REPORT, VOLUME 38, NUMBER 1

John Wiley & Sons **In a turbulent, unstable era of severe financial pressures, thedevelopment of strategic human resource (HR) practices has becomean urgent mandate in higher education. With significant andwidespread institutional shifts resulting from globalization,heightened competition, and rapid innovation, educational leadersmust optimize their most significant resource—humancapital—and align HR strategies, structures, and processeswith organizational goals. Due to substantial cuts in stateappropriations and rapidly diminishing budgets, public institutionsof higher education in particular are struggling to realignresources and programs to fulfill their educational missions andmaintain academic quality, while simultaneously responding tocomplex external legislative and accreditation mandates. In light of these challenges, Creating a Tipping Point:Strategic Human Resources in Higher Education breaks new groundby presenting a research-based approach that supports the evolutionof HR practices from siloed, transactional models to strategicoperations that serve the entire university. This monographprovides a concrete, progressive road map to developingorganizational capabilities in support of the university's academicmission and illustrates this pathway with examples drawn frompublic research universities. It offers strategies, tools, metrics,and action steps that support the development of an effective andefficient strategic HR operation in higher education. Forinstitutions seeking to implement strategic HR, this book is apractical and invaluable resource.**

GIVING VOICE TO DIVERSITY IN CRIMINOLOGICAL RESEARCH

'NOTHING ABOUT US WITHOUT US'

Policy Press **The people most impacted by criminal justice policies and practices are seldom included in the decision-making processes that affect their lives. Building on the 'nothing about us without us' social movement, this edited volume advocates an inclusive approach to criminology that gives voice to historically marginalized, silenced, and ignored groups. Incorporating the experiences of service users, academics, and state and grassroots practitioners, this volume considers how researchers might bridge the gap between theory and lived experience. It furthers criminological scholarship by capturing the voices of marginalized groups and exploring how criminology can authentically incorporate these voices.**

PROBABILISTIC AND STATISTICAL METHODS IN COMPUTER SCIENCE

Springer Science & Business Media **Probabilistic and Statistical Methods in Computer Science presents a large variety of applications of probability theory and statistics in computer science and more precisely in algorithm analysis, speech recognition and robotics. It is written on a self-contained basis: all probabilistic and statistical tools needed are introduced on a comprehensible level. In addition all examples are worked out completely. Most of the material is scattered throughout available literature. However, this is the first volume that brings together all of this material in such an accessible format. Probabilistic and Statistical Methods in Computer Science is intended for students in computer science and applied mathematics, for engineers and for all researchers interested in applications of probability theory and statistics. It is suitable for self study as well as being appropriate for a course or seminar.**
