Sweet Tea Revenge

Penguin *In the latest novel from the New York Times bestselling author of Agony of the Leaves, Indigo Tea Shop owner Theodosia Browning may always be a bridesmaid, never a bride, but this groom is never going to make it to the altar... Theodosia Browning's dear friend Delaine Dish has asked her to be a bridesmaid for her wedding. But when the big day arrives, everything seems to be going wrong. First, a massive storm is brewing over Charleston. A bad omen? Second, Delaine's sister is late for the ceremony. And finally, the groom not only has cold feet—his whole body is cold. A murderer has crashed the wedding. As Theodosia comforts a devastated Delaine, she needs to sort out the suspects on the groom's side from the suspects on the bride's side. One thing soon becomes apparent—revenge won't be the only dish served cold at this wedding. And if Theodosia doesn't watch her step, a cold-blooded killer may have a rude reception in store for her...*

Tourism Management

An Introduction

SAGE *An introductory text that gives its reader a strong understanding of the dimensions of tourism, the industries of which it is comprised, the issues that affect its success, and the management of its impact on destination economies, environments and communities. Now in a full colour design, the new edition features a clear focus on the issues affecting 21st century tourism, providing students with extensive coverage on the effects of globalisation and global conflict; sustainability and climate change; developments in digital technology and the rise of the sharing economy. International case-studies and snapshots (mini-case studies) are used throughout and have been taken from around the globe, including the US, China, Russia, Gambia, Bhutan, Cuba, Singapore, New Zealand, Australia, Caribbean, Canada and the UK, and from companies including TUI, Airbnb and Marriot. The accompanying Online Resources include PowerPoint slides and an Instructor's Manual for lecturers and additional case studies, useful video links, and web links for students. Suitable for students new to tourism studies.*

Scorched Eggs

Penguin *"In Laura Childs's New York Times bestselling mystery series, Suzanne, Petra, and Toni--co-owners of the Cackleberry Club Café are equally good at serving up breakfast and serving up justice. This time they turn up the heat on a deadly firebug ... As Suzanne is getting her hair colored at Root 66, she's stunned to witness the County Services office next door suddenly go up in flames. Concerned neighbors throng the streets, and the fire department does their best. Unfortunately, their best isn't enough to save longtime civil service worker--and friend to the Cackleberry Club--Hannah Venable. Soon enough, it's discovered that an accelerant was used to fan the flames. Someone set the fire on purpose--was Hannah the intended victim? Suzanne, Petra, and Toni vow to smoke out the culprit. Unfortunately, the list of suspects is as varied as the Cackleberry Club's menu. When Suzanne finds a possible connection between the fire and the nearby Prairie Star Casino, she comes to realize that the arsonist wanted something very big and bad kept secret. And if the ladies aren't careful, they may be the ones gambling with their lives."*

The GMO Deception

What You Need to Know about the Food, Corporations, and Government Agencies Putting Our Families and Our Environment at Risk

Simon and Schuster *Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power*

structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, or lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

The Book of L

Springer Science & Business Media This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Fallocaust

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

Honeyball and Bowers' Textbook on Employment Law

Oxford University Press Succinct in its treatment of the fundamentals, and interwoven with contextual explanation and analytical consideration of the key debates, Honeyball and Bowers' Textbook on Employment Law continues to provide readers with an accessible account of the subject. Including chapter introductions and new end-of-chapter summaries, students of employment law are guided through the intricacies, while further reading suggestions assist with independent research and essay preparation. The critical elements of individual and collective employment law are considered along with treatment of the relationship between UK and EU law, to give readers a wider view of the issues.

308 Circuits

Elektor International Media This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Vipers and Virtuosos

Aiden From the second I saw her, I knew she'd be my ruin. Sitting all alone at the bar, she looked like an angel. Eurydice in human form; her beauty eclipsed by demons. Now, I'm one of them. The ghost she's tried for years to escape. Thinking I wouldn't be able to find her. But I never stopped trying, and now that I have, her past sins should be the least of her worries. *Riley* From the moment he saw me, I knew I'd ruin his life. Alone at the bar, I dared the monster to come and play. *Orpheus* in the flesh, with his sad songs and strange obsessions. I became one of them. The siren who calls to the darkest parts of him. Only, I disappeared before he could act on it. But now he's here, and he wants me to repent for my sins. *** *Vipers and Virtuosos* is a full-length, standalone dark rockstar romance inspired by the myth of Orpheus and Eurydice. It is NOT fantasy, historical, or a retelling. If you are not a dark romance reader, this book may not be suitable for you. Reader discretion is advised.

Aloft

Penguin The New York Times–bestselling novel by the critically acclaimed author of *Native Speaker*, *A Gesture Life* and *My Year Abroad*. At 59, Jerry Battle is coasting through life. His favorite pastime is flying his small plane high above Long Island. Aloft, he can escape from the troubles that plague his family, neighbors, and loved ones on the ground. But he can't stay in the air forever. Only months before his 60th birthday, a culmination of family crises finally pull Jerry down from his emotionally distant course. Jerry learns that his family's stability is in jeopardy. His father, Hank, is growing increasingly unhappy in his assisted living facility. His son, Jack, has taken over the family landscaping business but is running it into bankruptcy. His daughter, Theresa, has become pregnant and has been diagnosed with cancer. His longtime girlfriend, Rita, who helped raise his children, has now moved in with another man. And Jerry still has unanswered questions that he must face regarding the circumstances surrounding the death of his late wife. Since the day his wife died, Jerry has turned avoiding conflict into an art form—the perfect expression being his solitary flights from which he can look down on a world that appears serene and unscathed. From his comfortable distance, he can't see the messy details, let alone begin to confront them. But Jerry is learning that in avoiding conflict, he is also avoiding contact with the people he loves most.
