#### **COMMUNITY NUTRITION IN ACTION: AN ENTREPRENEURIAL APPROACH**

---

*Cengage Learning COMMUNITY NUTRITION IN ACTION introduces the program planning, policies, resources, and nutrition issues specific to community nutrition and provides an understanding of creating and implementing nutrition programs from various constituencies (elderly populations, children, impoverished populations, college students, etc.). Successful practitioners in community nutrition have proven to have a mind and skill set that opens them up to new ideas and ventures. Incorporating an entrepreneurial approach, this book helps readers learn how to take risks, try new technologies, and use fresh approaches to improving the public's nutrition and health status. The book also delivers the core material important to those who will be active in solving community nutritional and health problems, including program delivery, nutrition education, nutrition assessment, and planning nutrition interventions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.*

---

#### **PROPOSED FRAMEWORK FOR REVISIONS: INTERIM REPORT**

---

*National Academies Press* *The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) began 40 years ago as a pilot program and has since grown to serve over 8 million pregnant women, and mothers of and their infants and young children. Today the program serves more than a quarter of the pregnant women and half of the infants in the United States, at an annual cost of about \$6.2 billion. Through its contribution to the nutritional needs of pregnant, breastfeeding, and post-partum women; infants; and children under 5 years of age; this federally supported nutrition assistance program is integral to meeting national nutrition policy goals for a significant portion of the U.S. population. To assure the continued success of the WIC, Congress mandated that the Food and Nutrition Service of the U.S. Department of Agriculture (USDA) reevaluate the program's food packages every 10 years. In 2014, the USDA asked the Institute of Medicine to undertake this reevaluation to ensure continued alignment with the goals of the Dietary Guidelines for Americans. This, the second report of this series, provides a summary of the work of phase I of the study, and serves as the analytical underpinning for phase II in which the committee will report its final conclusions and recommendations.*

## **NUTRITION IN PUBLIC HEALTH**

---

### **PRINCIPLES, POLICIES, AND PRACTICE, SECOND EDITION**

---

*CRC Press* *This second edition of a bestseller, Nutrition in Public Health: Principles, Policies, and Practice focuses on the role of the federal government in determining nutrition policy and influencing practice. Beginning with an overview of public health principles, the book examines the application of nutritional policy to dietary guidance, health promotion, and the practice of public health nutrition. Highlights of New Coverage in the Second Edition: Legislation such as Healthy, Hunger-Free Kids Act of 2010; Agricultural Act of 2014 (Farm Bill); and proposals for the next Farm Bill Discussions of study designs, the SEED-SCALE model for health promotion, health disparities and health equity, worksite wellness, Let's Move!, and other initiatives Impact of the ACA on menu labeling policies, the Ryan White HIV/AIDS Act, and legislation regarding breastfeeding Examination of health disparities, demographic trends, and health literacy; sexual orientation, gender identity, and gender expression; and the role of social media in tailored health communications 2010 Dietary Guidelines with analysis of potential upcoming changes in 2015 Dietary Guidelines, Healthy Eating Index 2010, MyPlate, and Harvard Healthy Eating Plate Best Bones Forever! Campaign, text messaging for tailored health communication, and 4 Day Throw Away study assessing the use of social media for education regarding food safety The book explores the importance of nutrition as a component of the broad field of public health. The authors review the principles of public health nutrition, examining nutritional epidemiology and programs that deal with health disparities, weight control challenges, and the needs of special populations. The text addresses the practice of public health nutrition through tools for conducting a food and nutrition assessment of a community, designing and carrying out a social marketing campaign, and developing large and small grant proposals. Nutrition in Public Health provides an integrated view of nutrition needs and the policies and political mechanisms that affect the delivery of quality food and nutrition services. It gives students a thorough understanding of the federal government's role in determining nutrition policy and influencing practice.*

## **UPDATING THE USDA NATIONAL BREASTFEEDING CAMPAIGN**

---

### **WORKSHOP SUMMARY**

---

*National Academies Press* *Support for breastfeeding has been a priority of the WIC program since its inception in the 1970s. The Loving Support Makes Breastfeeding Work campaign, which the U.S. Department of Agriculture's (USDA) Food and Nutrition Services launched in 1997, emphasizes key components needed for a breastfeeding mother to be successful. More than a decade after the campaign began, USDA wants to update it, taking into account changes in the WIC program, participants, and technology. On April 26, 2011, the IOM hosted a workshop to bring together experts to discuss what has changed since Loving Support began, lessons learned from other public health campaigns, and suggestions for where to take the campaign in the future.*

**PLANNING A WIC RESEARCH AGENDA**

---

---

---

**WORKSHOP SUMMARY**

---

National Academies Press *The time has come to initiate a new program of research on the Supplemental Nutrition Program for Women, Infants, and Children (commonly referred to as WIC). WIC is the third largest food assistance program administered by the U.S. Department of Agriculture (USDA). The program's scope is large, serving approximately 9.3 million low-income women, infants, and children at nutritional risk. Through federal grants to states, participants receive three types of benefits: 1) a supplemental food package tailored to specific age groups for infants and children; 2) nutrition education, including breastfeeding support; and 3) referrals to health services and social services. To cover program costs for fiscal year (FY) 2010, Congress appropriated \$7.252 billion. Congress also appropriated \$15 million for research related to the program for FY 2010. The timing of the funding for WIC research is propitious. In October 2009, USDA issued regulations that made substantial revisions to the WIC food package. These revisions are the first major change in the food package since the program's inception in 1972. Over the intervening years WIC has expanded greatly, Medicaid coverage has increased, large changes have occurred in the racial and ethnic backgrounds and socioeconomic status of WIC participants as well as in public health services, and obesity rates have increased substantially among the general population. To guide its planning for the use of the \$15 million allocated for WIC research, the Food and Nutrition Service of USDA asked the Institute of Medicine to*

conduct a two-day public workshop on emerging research needs for WIC. As requested, the workshop included presentations and discussions to illuminate issues related to future WIC research issues, methodological challenges, and solutions. The workshop also planned for a program of research to determine the effects of WIC on maternal and child health outcomes.

#### **BREASTFEEDING AND HUMAN LACTATION**

---

Jones & Bartlett Learning *This best-selling text continues to be the only reference to bring together in a single volume the latest clinical techniques and research findings that direct evidence-based clinical practice for lactation consultants and specialists. This text contains a clear clinical focus and over 2,000 research studies support the clinical recommendations in this book. The Fourth Edition has been completely revised and updated to reflect the worldwide expansion of the lactation specialist role. New content on obstetrical issues, especially the importance of skin-to-skin care has been added and important concepts discussed in chapters are summarized at the end of each chapter. Key features throughout include key concepts, internet resources, evidence-based tables and boxes. Accompanied by a CD-ROM and color insert, both of which accurately depict positioning, the normal breast, and breastfeeding problems!*

---

#### **HALE'S MEDICATIONS & MOTHERS' MILKTM 2021**

---

#### **A MANUAL OF LACTATIONAL PHARMACOLOGY**

---

Springer Publishing Company *Written by a world-renowned expert in perinatal pharmacology, this essential reference contains current, complete, and evidence-based information on the transmission of maternal drugs into human milk. Because so many women ingest medications while breastfeeding, one of the most common questions encountered in pediatrics is: Which drugs are safe and which are hazardous for the infant? This 2021 edition has been extensively revised, and now includes 50 completely new and 356 updated medications, and state-of-the-art coverage of multiple diseases, vaccines, and syndromes. It addresses the use of radiopharmaceuticals, chemotherapeutic agents, and vaccines in breastfeeding mothers, and covers adult concerns, methods of reducing risk to infants, and infant monitoring. New to the 2021 Edition: 50 New Drugs Added 356 Drugs Updated with new data 817 Drug References Updated An updated 7x10 trim size and streamlined design for ease of use in patient education The latest information on the impact of prescription medications, over-the-counter drugs, herbs, and street drugs Key Features: Evidence-based, current information on over 1300 drugs, diseases, vaccines, and syndromes Dr. Hale's renowned "Lactation Risk Categories" incorporate recent updates Key points and savvy tips about breastfeeding and medications for quick reference Common abbreviations and drugs listed in alphabetical order Adult concerns, adult dose, pediatric concerns, infant monitoring, and alternatives Succinct information on evaluation of the infant*

---

#### **CONTINUITY OF CARE IN BREASTFEEDING: BEST PRACTICES IN THE MATERNITY SETTING**

---

Jones & Bartlett Publishers *Implementing Continuity of Care in Breast Feeding emphasizes quality and continuity of care; management issues; and policies and procedures that support breastfeeding in the hospital setting whether in the inpatient maternity, NICU, or ambulatory care.*

---

## SECOND FOLLOWUP REPORT

---

### THE SURGEON GENERAL'S WORKSHOP ON BREASTFEEDING & HUMAN LACTATION

---

*The intent of this second followup report is to provide information on the range of breastfeeding promotion activities that have taken place since the publication of the first followup report. These activities include professional education, public education, support in the health care system, support services in the community, support in the workplace, research, data collection, etc. It is hoped that this report will stimulate interest, serve as a resource for the planning of future breastfeeding promotion efforts, and increase support from all who can have an impact on breastfeeding decisions and opportunities.*

### LEVERAGING ACTION TO SUPPORT DISSEMINATION OF THE PREGNANCY WEIGHT GAIN GUIDELINES

---

#### WORKSHOP SUMMARY

---

*National Academies Press Since 1990, when the last guidelines for weight gain during pregnancy were issued, the average body weight of women entering their childbearing years has increased considerably, with a greater percentage of these women now classified as overweight or obese. Women of childbearing age are also more likely to have chronic conditions such as high blood pressure or diabetes and to be at risk for poor maternal and child health outcomes. All of these factors increase the likelihood of poor pregnancy outcomes for women and their infants. As part of the continuing effort of The Institute of Medicine (IOM) and the National Research Council (NRC) to promote the revised pregnancy weight gain guidelines recommended in their 2009 study *Weight Gain During Pregnancy: Reexamining the Guidelines*, the IOM and NRC convened a workshop in March, 2013, to engage interested stakeholders, organizations, and federal agencies in a discussion of issues related to encouraging behavior change that would reflect the updated guidelines on weight gain during pregnancy. During the workshop, the IOM and NRC presented newly developed information resources to support guidance based on the recommendations of the 2009 report. *Leveraging Action to Support Dissemination of the Pregnancy Weight Gain Guidelines* summarizes the workshop's keynote address and the various presentations and discussions from the workshop, highlighting issues raised by presenters and attendees. Interested stakeholders, organizations, health professionals, and federal agencies met to discuss issues related to encouraging behavior change that would reflect the updated guidelines on weight gain during pregnancy. This report discusses conceptual products as well as products developed for dissemination, ways to facilitate and support behavior change to achieve healthy weight pre- and postpregnancy, and how to put the weight gain guidelines into action to implement change.*

#### THE SUPPORT OF BREASTFEEDING

---

*Jones & Bartlett Learning *The Support of Breastfeeding* explores cultural support for and attitudes toward breastfeeding, advantages and disadvantages of artificial feeding, and breastfeeding support policies and resources. The exams at the end of Modules 1, 2, 3, and 4, while still useful in preparing For The IBCLC exam, are not eligible for CERPS or Continuing Education credits for registered dietitians or nurses. The *Lactation Specialist Self Study Series* is comprised of four modules: Module 1: *The Support of Breastfeeding* (0-7637-0208-0) Module 2: *The Process of Breastfeeding* (0-7637-0195-5) Module 3: *The Science of Breastfeeding* (0-7637-0194-7) Module 4: *The Management of Breastfeeding* (0-7637-0193-9) the modules may be purchased separately, or as a complete set (0-7637-1974-9).*

#### PUBLIC HEALTH REPORTS

---

#### CORE CURRICULUM FOR LACTATION CONSULTANT PRACTICE

---

*Jones & Bartlett Learning Based on the IBLCE exam blueprint, this updated resource allows aspiring and established lactation consultants to assess their knowledge, experience, and expertise in developing an effective study plan for certification. The Second Edition of this text, contributed to by Rebecca Mannel, Patricia J. Martins, and Marsha Walker, has been updated and is the perfect resource to study for the certification exam.*

## **BREASTFEEDING**

### **A GUIDE FOR THE MEDICAL PROFESSION**

Elsevier Health Sciences *Breastfeeding* is a comprehensive reference that provides basic science information as well as practical applications. Dr. Ruth Lawrence-a pioneer in the field of human lactation-covers the uses of certain drugs in lactating women, infectious diseases related to lactation, the latest Australian research on anatomy and physiology, and much more.in print and online. Provide thoughtful guidance to the breastfeeding mother according to her circumstances, problems, and lifestyle from integrated coverage of evidence-based data and practical experience. Make appropriate drug recommendations, including approved medications, over-the-counter medications, and herbal remedies. Access the fully searchable text online at [www.expertconsult.com](http://www.expertconsult.com). Treat conditions associated with breastfeeding-such as sore nipples, burning pain, or hives-using extensive evidence-based information. Apply the latest understanding of anatomy and physiology through coverage of recent Australian CT and MR studies of the breast and its function. Stay current on new research on infectious diseases germane to lactation and new antibiotics, antivirals, and immunizations available for use during lactation. Effectively manage the use of medications during lactation thanks to an updated discussion of this difficult subject. The latest research on breastfeeding and evidence-based solutions for treating associated medical problems from the authority in the field, Dr. Ruth Lawrence

### **OVERVIEW OF ... BUDGET BILL**

### **BREASTFEEDING AND HUMAN LACTATION**

Jones & Bartlett Learning *Breastfeeding and Human Lactation, Fifth Edition* continues as the leading reference for the latest clinical techniques and research findings that direct evidence-based clinical practice for lactation consultants and specialists. Now in its Fifth Edition, it contains a clear clinical focus with more than 2,000 research studies supporting the clinical recommendations found in the text. This new edition has been thoroughly updated and revised with current research, references, and photos. To make studying and learning easier, each chapter includes key concepts, Internet resources, and evidence-based tables and boxes. *Breastfeeding and Human Lactation, Fifth Edition* is also an excellent resource to prepare for certification and practice as an International Board Certified Lactation Consultant (IBCLC).
