Women of Character

Profiles of 100 Prominent Lds Women

For generations latter-day prophets have extolled the noble role of womanhood. Leaders often tell of the wonderful contributions that the women in their lives have made both inside and outside the home. From rearing a faithful posterity to demanding and defending rights in the halls of Congress, Latter-day Saint women have been and continue to be a powerful influence for good in shaping the destiny of future generations. With this book we celebrate noble women in The Church of Jesus Christ of Latter-day Saints with one hundred inspiring biographies of LDS women who have accomplished the extraordinary, leaving an indelible mark on history. These are stories about life, love, and a remarkable determination to do one's best— messages that reveal to the reader that neither happiness nor greatness is found in compromising self, but instead is found in reaching to a higher source. By reaching up, these women have reached out to make a valuable difference.

Recorded Music in American Life

The Phonograph and Popular Memory, 1890-1945

Oxford University Press Have records, compact discs, and other sound reproduction equipment merely provided American listeners with pleasant diversions, or have more important historical and cultural influences flowed through them? Do recording machines simply capture what's already out there, or is the music somehow transformed in the dual process of documentation and dissemination? How would our lives be different without these machines? Such are the questions that arise when we stop taking for granted the phenomenon of recorded music and the phonograph itself. Now comes an in-depth cultural history of the phonograph in the United States from 1890 to 1945. William Howland Kenney offers a full account of what he calls "the 78 r.p.m. era"--from the formative early decades in which the giants of the record industry reigned supreme in the absence of radio, to the postwar proliferation of independent labels, disk jockeys, and changes in popular taste and opinion. By examining the interplay between recorded music and the key social, political, and economic forces in America during the phonograph's rise and fall as the dominant medium of popular recorded sound, he addresses such vital issues as the place of multiculturalism in the phonograph's history, the roles of women as record-player listeners and performers, the belated commercial legitimacy of rhythm-and-blues recordings, the "hit record" phenomenon in the wake of the Great Depression, the origins of the rock-and-roll revolution, and the shifting place of popular recorded music in America's personal and cultural memories. Throughout the book, Kenney argues that the phonograph and the recording industry served neither to impose a preference for high culture nor a degraded popular taste, but rather expressed a diverse set of sensibilities in which various sorts of people found a new kind of pleasure. To this end, *Recorded Music in American Life* effectively illustrates how recorded music provided the focus for active recorded sound cultures, in which listeners shared what they heard, and expressed crucial dimensions of their private lives, by way of their involvement with records and record-players. Students and scholars of American music, culture, commerce, and history--as well as fans and collectors interested in this phase of our rich artistic past--will find a great deal of thorough research and fresh scholarship to enjoy in these pages.

Traditional Plant Foods of Canadian Indigenous Peoples

Nutrition, Botany and Use

Routledge First published in 1991, *Traditional Plant Foods of Canadian Indigenous Peoples* details the nutritional properties, botanical characteristics and ethnic uses of a wide variety of traditional plant foods used by the Indigenous Peoples of Canada. Comprehensive and detailed, this volume explores both the technical use of plants and their cultural connections. It will be of interest to scholars from a variety of backgrounds, including Indigenous Peoples with their specific cultural worldviews; nutritionists and other health professionals who work with Indigenous Peoples and other rural people; other biologists, ethnologists, and organizations that address understanding of the resources of the natural world; and academic audiences from a variety of disciplines.

The Perfume Handbook

Springer Science & Business Media In 1948 I was posted, as a Political Officer, to a remote part of south-west Arabia on the edge of the great desert called the Empty Quarter. In valleys made fertile by seasonal flood-waters lay the remains of an ancient civilization. I found inscriptions and the ruin sites of towns, palaces and temples. Almost buried under the sand dunes were the tumbled walls of a great city. From here, two thousand years before, huge camel caravans had trudged their way along 1600 miles of burning sand and rocks to Petra and Gaza, burdened with a most precious cargo - frankincense, myrrh and other perfume materials for the courts, temples and perfume shops of Rome. My book *Frankincense and Myrrh* delved into the details of this romantic trade and led to a broader interest in the perfumes of ancient times. Then, researching on behalf of a perfume house into the Arab contribution to perfumery, I came across the collection of perfume recipes assembled by the Arab philosopher-scientist Yaqub al-Kindi, which have never been translated into English (some, which I have translated myself, are now included in an appendix to this book). I realized that in that work I had found key evidence to demonstrate how the medieval Arab perfume makers had been the bridge in perfume history between ancient and modern times. Perfumery could now be seen as an art with a continuous history of development since the dawn of civilization.

Food and Flavor

Applewood Books Henry Finck's aim in his 1913 work ""Food and Flavor"" is to introduce gastronomy to Americans, to show that America can be an even more gastonomic nation than France. Though an understanding of the ""importance to health and happiness of raising only the best food stuffs, cooking them in savory ways and eating them with intelligence and pleasure,"" Finck aims to reinvigorate the food culture of an America that had given up much of its old-fashioned methods in favor of ""cheaper chemical preservatives."" Finck's argument for cultivating an appreciation for natural, whole American grown and cooked foods is thoroughly modern in its concern.

Ethnobotany and Biocultural Diversities in the Balkans

Perspectives on Sustainable Rural Development and Reconciliation

Springer This volume addresses recent and ongoing ethnobotanical studies in the Balkans. The book focuses on elaborating the relevance of such studies for future initiatives in this region, both in terms of sustainable and peaceful (trans-regional, trans-cultural) rural development. A multi-disciplinary viewpoint is utilized, with an incorporation of historical, ethnographic, linguistic, biological, nutritional and medical perspectives. The book is also authored by recognized scholars, who in the last decade have extensively researched the Balkan traditional knowledge systems as they pertain to perceptions of the natural world and especially plants. *Ethnobotany and Biocultural Diversities in the Balkans* is the first ethnobotany book on one of the most biologically and culturally diverse regions of the world and is a valuable resource for both scholars and students interested in the field of ethnobotany.

The Nine Days' Queen, Lady Jane Grey, and Her Times

Library of Alexandria The tragedy of Lady Jane Grey is unquestionably one of the most poignant episodes in English history, but its very dramatic completeness and compactness have almost invariably caused its wider significance to be obscured by the element of personal pathos with which it abounds. The sympathetic figure of the studious, saintly maiden, single-hearted in her attachment to the austere creed of Geneva, stands forth alone in a score of books refulgent against the gloomy background of the greed and ambition to which she was sacrificed. The whole drama of her usurpation and its swift catastrophe is usually treated as an isolated phenomenon, the result of one man's unscrupulous self-seeking; and with the fall of the fair head of the Nine Days' Queen upon the blood-stained scaffold within the Tower the curtain is rung down and the incident looked upon as fittingly closed by the martyrdom of the gentlest champion of the Protestant Reformation in England. Such a treatment of the subject, however attractive and humanly interesting it may be, is

nevertheless unscientific as history and untrue in fact. An adequate appreciation of the tendencies behind the unsuccessful attempt to deprive Mary of her birthright can only be gained by a consideration of the circumstances preceding and surrounding the main incident. The reasons why Northumberland, a weak man as events proved, was able to ride rough-shod over the nobles and people of England, the explanation of his sudden and ignominious collapse and of the apparent levity with which the nation at large changed its religious beliefs and observance at the bidding of assumed authority are none of them on the surface of events; and the story of Jane Grey as it is usually told, whilst abounding in pathetic interest gives no key to the vast political issues of which the fatal intrigue of Northumberland was but a by-product. To represent the tragedy as a purely religious one, as is not infrequently done, is doubly misleading. That one side happened to be Catholic and the other Protestant was merely a matter of party politics, and probably not a single active participator in the events, except Jane herself, and to some extent Mary, was really moved by religious considerations at all, loud as the professions of some of the leaders were.

Bob Ross' New Joy of Painting

Harper Collins Since 1983, Bob Ross has been television's favorite artist. His Joy of Painting show captures higher ratings than any other art program in history, year after year. Bob's quick painting style and easy, encouraging manner reach millions of viewers around the world each day. His third book -- New Joy of Painting -- is now available in paperback, containing another sixty of his favorite landscape paintings. Each is presented in full color, along with written instructions and detailed black-and-white how-to photographs. Now you really can complete your very own beautiful masterpiece -- you can do it. "Remember, there is no failure, only learning," says author Annette Kowalski. "As I've heard Bob Ross say a thousand times, I hope you never create a painting that you're totally satisfied with, for it's this dissatisfaction that will create the motivation necessary for you to start your next painting, armed with the knowledge you acquired from the previous one."

A Colorful Life

Gere Kavanaugh, Designer

Chronicle Books The designer Gere Kavanaugh is an irrepressible force of nature who epitomized the craft and folk vibe of the '60s and '70s California design scene and remains a larger-than-life personality today. Raised in Memphis, Tennessee, Kavanaugh became in 1952 only the third woman to earn a degree in Cranbrook Academy of Art's design program. After successful stints as one of GM's so-called Damsels of Design and as director of interiors for Victor Gruen's architecture and planning firm, she opened Gere Kavanaugh/Designs. There, Kavanaugh put her unique stamp on textiles, furniture, toys, graphics, store and restaurant interiors, holiday decor, housewares, and public art—even designing and curating exhibitions. But perhaps her most enduring project has been the joyful, open-ended, ongoing experiment of her own lifestyle and homes, a dream of color and handcraft. Kavanaugh was awarded the AIGA Medal in 2016, recognizing her "prodigious and polymathic approach to design."

Club Life of London - With Aecdotes of the Clubs, Coffee Houses and Taverns of the Metropolis During the 17th, 18th and 19th Centuries -

Littlefield Press This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

New Hampshire Coastal and Tidal Areas

Integrating Zooarchaeology and Paleoethnobotany

A Consideration of Issues, Methods, and Cases

Springer Science & Business Media In recent years, scholars have emphasized the need for more holistic subsistence analyses, and collaborative publications towards this endeavor have become more numerous in the literature. However, there are relatively few attempts to qualitatively integrate zooarchaeological (animal) and paleoethnobotanical (plant) data, and even fewer attempts to quantitatively integrate these two types of subsistence evidence. Given the vastly different methods used in recovering and quantifying these data, not to mention their different preservational histories, it is no wonder that so few have undertaken this problem. Integrating Zooarchaeology and Paleoethnobotany takes the lead in tackling this important issue by addressing the methodological limitations of data integration, proposing new methods and innovative ways of using established methods, and highlighting case studies that successfully employ these methods to shed new light on ancient foodways. The volume challenges the perception that plant and animal foodways are distinct and contends that the separation of the analysis of archaeological plant and animal remains sets up a false dichotomy between these portions of the diet. In advocating qualitative and quantitative data integration, the volume establishes a clear set of methods for (1) determining the suitability of data integration in any particular case, and (2) carrying out an integrated qualitative or quantitative approach.

Agents of Faith

Votive Objects in Time and Place

Bard Center Votive objects or ex-votos are a broad category of material artifacts produced with the intention of being offered as acts of faith. Common across historical periods, religions, and cultures, they are presented as tokens of gratitude for prayers answered, as well as the physical manifestation of hopes and anxieties. Agents of Faith explores votive offerings in the context of material culture, art history, and religious studies to better understand their history and present-day importance. By looking at what humans have chosen to offer in their votive transactions, this volume uncovers their most intimate moments in life and questions the nature, role, and function of one of the most fundamental aspects of the relationship between people and things--the imbuing of objects with sentiment. Encompassing exquisite works of art as well as votives of humble origin and material, with objects dating from 2000 B.C. to the twenty-first century, the beautiful illustrations and wide-ranging text expose the global reach of votive practices and the profoundly personal nature behind their creation.
