Hot Rod Milestones: America's Coolest Coupes, Roadsters, and Racers

Cartech Incorporated Every pastime has its greats, and hot rodding is no exception. Once in a while, a hot rodder puts together a car that's so right and so well done that it becomes an instant icon in the rodding world. These cars represent a clear vision that sets the standard for others to follow. They have been imitated, coveted, and revered; today, many have been painstakingly restored for private collections or museum display. *Hot Rod Milestones* covers 25 of the most influential, innovative hot rods ever built from the late 1940s to the mid-1960s. These cars include the Niekamp roadster, Isky's T, the Pearson Brothers coupe, Doane Spencer's '32, the So-Cal '34 coupe, The Pacific Gunsight Special, and Roth's Outlaw T. Each car's history, technical background, and influence are discussed, along with information on the builders and owners. Photos include contemporary shots of the cars as they exist today, along with vintage photos of the cars when they were first built and shown. With Ken Gross' deep knowledge of the genre, and Robert Genat's well-trained lens, this new paperback edition is an important addition to any hot rodder's library.

Hot Rod Gallery II

More Great Photos and Stories from Hot Rodding's Golden Years

CarTech Inc In the best-selling original book, *Hot Rod Gallery: A Nostalgic Look at Hot Rodding's Golden Years: 1930-1960*, author and historian Pat Ganahl opened his archives and shared 192 pages and 350 photos of "some" of the most interesting and best photos of his collection. Filled with fascinating images of some of the coolest cars and builders, long-forgotten car clubs, and great shots of the dry lakes, nostalgia fans flocked to grab a piece of hot rodding history all in one convenient package. Well, if some is good, more is better, right? In *Hot Rod Gallery II: More Great Photos and Stories from Hot Rodding's Golden Years*, Ganahl dug deeper into his massive archive for even cooler and more never-before-seen photos in both color and black and white to provide another album of great hot rodding photos. He was pleasantly surprised to find that he had more great stuff in old files and folders, hidden away for decades. In this edition are even more dry lakes shots, post-war rods, lead sleds, show circuit cars, and a chapter on marvelous mills. He even dug a little deeper into the early 1960s. If you liked the first edition of *Hot Rod Gallery* by Pat Ganahl: *A Nostalgic Look at Hot Rodding's Golden Years: 1930-1960*, you may like this one even more. Ganahl guarantees that it is filled with images you have never seen, and he offers his commentary and a lifetime of expertise in this selection of fantastic images from his expansive archive. You can spend hours looking at all the details and soaking in the history in these images, and we know you'll enjoy this book as much as you did the first.

American Auto Racing

The Milestones and Personalities of a Century of Speed

McFarland As soon as there were automobiles, there was racing. The first recorded race, an over road event from Paris to Rouen, France, was organized by the French newspaper *Le Petit Journal* in 1894. Seeing an opportunity for a similar event, Hermann H. Kohlsaat--publisher of the *Chicago Times-Herald*--sponsored what was hailed as the "Race of the Century," a 54-mile race from Chicago's Jackson Park to Evanston, Illinois, and back. Frank Duryea won in a time of 10 hours and 23 minutes, of which 7 hours and 53 minutes were actually spent on the road. Race cars and competition have progressed continuously since that time, and today's 200 mph races bear little resemblance to the event Duryea won. This work traces American auto racing through the 20th century, covering

its significant milestones, developments and personalities. Subjects included are: Bill Elliott, dirt track racing, board track racing, Henry Ford, Grand Prix races, Dale Earnhardt, the Vanderbilt Cup, Bill France, Gordon Bennett, the Indianapolis Motor Speedway, the Mercer, the Stutz, Duesenberg, Frank Lockhart, drag racing, the Trans Am, Paul Newman, vintage racing, land speed records, Al Unser, Wilbur Shaw, the Corvette, the Cobra, Richard Petty, NASCAR, Can Am, Mickey Thompson, Roger Penske, Mario Andretti, Jeff Gordon, and Formula One. Through interviews with participants and track records, this text shows where, when and how racing changed. It describes the growth of each different form of auto racing as well as the people and technologies that made it ever faster.

Road & Track

Hot Rod

The Photography of Peter Vincent

Motorbooks Aesthetics are at the core of hot rodding. And nothing captures the visual essence of the hot rod like Peter Vincent's photography. In brilliant color and fully-saturated black-and-white photography, Vincent will capture America's most essential hot rods, hot rodders, and racers in dramatic settings such as the Bonneville Salt Flats and California's dry lakes - the places from which hot rodders have always drawn inspiration. The majority of the book's photographs will get the same treatment: each will have its own page, surrounded by white space and properly cropped and framed to show off Vincent's photographic artistry. Woven throughout the book, Vincent will tell the story of hot rodding through interviews with the originators of the culture, land speed racers, and the new generation of hot rodders who are keeping alive the aesthetic sensibility of hot rodding. About the Author From the salt flats of Bonneville to the endless variety of dry lakes and drag strips that dot the American landscape, photographer Peter Vincent magnificently reveals the pure artistry of the cars themselves. Inspired by early associations with Ansel Adams and others, Peter's amazing images have appeared in popular enthusiast publications since the 1980s, including *Rodder's Journal*, *Street Rodder* magazine, *Hop Up*, and in his best-selling book *Hot Rod, An American Original* in 2001. In addition, Peter's works have been exhibited in museums and galleries from New York to San Francisco. Vincent lives in Moscow, Idaho.

Lost Hot Rods II

More Remarkable Stories of How They Were Found

CarTech Inc Pat Ganahl once again opens the archives and pounds the pavement in order to bring you the stories on some of the coolest cars ever to appear in shows or grace the pages of automotive magazines. A perfect companion to the best-selling *Lost Hot Rods*.

Classic American Cars

An Illustrated Guide

Chartwell Books "Comprehensive coverage of more than 75 of America's greatest automobiles, from the Model T to the '57 Cadillac Eldorado and the late '60s Plymouth Roadrunner. The design and engineering modifications of each vehicle are described in detail. Illustrated with over 1000 full-color, specially-commissioned photographs detailing every aspect of these spectacular and fascinating cars. Includes comprehensive specification panels giving detailed technical and performance information"--Jacket.

Popular Science

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that *Popular Science* and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The Essential Muscle Car

Motorbooks *Essential Muscle Cars* pays tribute to the legend and is lavishly illustrated with large format, full-color photographs of all the major models, along with a comprehensive technical specification of each. It is the perfect reference book for everyone interested in America's most interesting performance cars. *Essential Muscle Cars* tells the full story of America's most exciting cars from their early days, covering the developments in style, and details of the increases in power. Knudsen's Pontiac Division probably deserves to be credited with introducing the first bona fide Muscle Car, the mighty and magnificent GTO. Based on the Tempest, the Pontiac GTO was as fast, if not faster, in a straight line than the Italian stallion whose initials it had cheekily usurped. The motorists of America simply revelled in its combination of style and potency. Soon everyone was in on the act, furiously pumping iron - and a lot of gas. The Oldsmobile 4-4-2 and the Chevrolet Impala Super Sport were followed in '67 by the Camaro. Ford soon added the splendid Shelby Mustangs to its celebrated 'Pony Car' line and Chrysler rounded out the decade with their incredible Dodge Daytona Charger and Plymouth Superbird. For a brief, glorious, uninhibited, period before the arrival of the oil crisis and restrictive legislation of the nineteen-seventies, American enjoyed the thrill of unfettered automotive power and every stop light became the start line of a drag strip. *Essential Muscle Cars* pays tribute to the legend and is lavishly illustrated with large format, full-colour, cut-out photographs of all

the major models, along with a comprehensive technical specification of each. It will be the perfect reference book for everyone interested in America's most interesting performance cars.

Shelby Cars in Detail

Cars of the Shelby American Collection

Haynes Publishing Group Here, studio photography emphasizes each car's distinctive shape, unique characteristics and mechanical attributes. The photography is supported by lively and authoritative chassis histories for every featured car.

The History of AMC Motorsports

Trans-Am, Drag, NASCAR, Land Speed and Off-Road Racing

CarTech Inc When thinking of a manufacturer's racing involvement, AMC is not a manufacturer that immediately comes to mind. Yet even from the very beginning of American motorsports, the companies that became AMC had some serious involvement in motorsport. From the early Nash and Hudson models all the way through the muscle car era, AMC had direct involvement in racing. The success of Nash and Hudson in early NASCAR racing, AMC Javelins in Trans-Am racing, and AMC's involvement with Mark Donahue and Roger Penske in both their Trans-Am and 1970s NASCAR teams prove that AMC was "in it to win it." The History of AMC Motorsports from veteran racing journalist Bob McClurg covers it all, from a Nash-American Motors corporate history, the first years of NASCAR, the 1960s efforts that included Trans-Am and drag racing Super Stock programs, to the Craig Breedlove land speed record efforts when 106 world records were shattered and covered by Hot Rod magazine. And let's not forget the 1970s Trans-Am championships with Donahue and Penske, and finally the NASCAR success with Bobby Allison in the always-curious looking Matador, which is also covered here. Never before has a single volume chronicled the events that encompass AMC racing history. Whether a hardcore racing history fan or a casual enthusiast of the AMC street offerings, The History of AMC Motorsports provides a unique showcase vital to every enthusiast's library.

Legendary Corvettes

Vettes Made Famous on Track and Screen

Motorbooks International Chevrolet has never built an "ordinary" Corvette, but through racetrack victories, movie fame and other achievements, a select few have attained mythic status. This book features eighteen of the most legendary Corvettes of all time.

Car

The Definitive Visual History of the Automobile

Penguin From the first motor cars and classic cars to today's supercars and Formula 1, this is the ultimate book about the history of the car. Packed with stunning photography, and featuring more than 2,000 cars, Car shows you how cars have evolved around the world over the the last 130 years, and their impact on society as objects of curiosity, symbols of status and luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The book also features virtual photographic tours of some of the most iconic cars from each era such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and Ferrari F40, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the men, machines, and magic that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love Car. It is simply a must-have title for all car enthusiasts.

Classic Car

The Definitive Visual History

Penguin "When I see an Alfa Romeo, I lift my hat." Henry Ford Few things ignite such reverence as a classic car. With more than 250 iconic models from the 1940s to the 1980s, photographed from every angle, this title is a glorious celebration of the stars in the classic car firmament. Edited by award-winning automotive journalist Giles Chapman, Classic Car brings you the story of more than 20 great marques, including household names Bentley, Mercedes, Ferrari, Cadillac, and Aston Martin. Its lavish photography reveals every detail in close-ups of models that range from the 1940s giant two-ton Daimler DE36, which ferried royals about in style, through to sleek Ferraris from the 1980s capable of smashing the 200mph barrier. It puts you in the driving seat of such icons as the Chevrolet Corvette, the Ford Thunderbird, and the Mercedes 300SL and brings you the designers of these amazing machines and the story of their manufacturers. Whether you dream of owning one of these super-cool cars or you are a collector already, Classic Car is set to

become a treasured favorite.

Middletown Pacemakers

The Story of an Ohio Hot Rod Club

Arcadia Publishing *Hot Rodding began in Southern California in the 1930s and had spread throughout the United States by the mid 1950s, spawning the sport of drag racing and the advent of the Detroit "muscle cars" of the '60s and '70s. Hot Rod Magazine and the National Hot Rod Association promoted the formation of responsible car clubs to combat the delinquent reputation of hot rodders, earned through illegal street races and Hollywood's portrayal in "B" movies. And thus were born the Middletown Pacemakers in 1951. The Pacemakers brought southern Ohio its first reliability runs (1952), custom auto shows (1954), and drag racing competitions-setting national records (1958, '63, '64) and winning national championships (1963, '64, '65). When the hot rodders were not busy upgrading their drive train for more horsepower or "chopping" and "channeling" for improved performance, they could often be seen on the streets of Middletown feeding expired parking meters or rescuing motorists whose cars had broken down or run out of gas. By 1966, as was the fate of so many hot rod clubs, the mass production of Detroit muscle cars ushered the Pacemakers to fold.*

Made to Break

Technology and Obsolescence in America

Harvard University Press *Made to Break* is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support ever-shorter product lives, we may well be shortening the future of our way of life as well.

Hot Rod Dreams

Car Shows and Culture

There was time - not long ago - when cars were much more than transportation. Part function, part fashion, part id, cars were the largest thing you could wear. Every American teenager dreamed of having their own car because it promised joy, freedom and self-expression. During this era, Bob Larivee was the undisputed ringmaster of the greatest show on Earth - the indoor hot rod and custom car show. Driven by pure enthusiasm, and possessing a natural gift of knowing what would draw people, Larivee built an empire that showcased style, color, chrome, horsepower, pop culture and fantasy. His Promotions, Inc. (PI) produced events for decades that helped define American car passion while fueling the dreams of millions around the world. *Hot Rod Dreams - Car Shows and Culture* celebrates the people and stories of this not-so-long-ago - and still evolving - world. From the earliest days of Ed "Big Daddy" Roth through the golden era of car-crazy TV, *Hot Rod Dreams* celebrates what it was really like to buy an "Outlaw", employ Playboy Playmates, and make sure Dale Earnhardt got home in time for dinner - while also exploring how popular culture inspires our concepts of personal identity.

Popular Mechanics

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Chevrolet Trucks

100 Years of Building the Future

Motorbooks International "The full illustrated history of Chevrolet, from the Series 490 to today's Silverado and Colorado"--

Popular Music and Automobiles

Bloomsbury Publishing USA Particularly since the 1950s, cars and popular music have been constantly associated. As complementary goods and intertwined technologies, their relationship has become part of a widely shared experience-one that connects individuals and society, private worlds and public spheres. *Popular Music and Automobiles* aims to unpack that relationship in more detail. It explores the ways in which cars and car journeys have shaped society, as well as how we have shaped them. Including both broad synergies and specific case studies, *Popular Music and Automobiles* explores how attention to an ongoing relationship can reveal insights about the assertion and negotiation of identity. Using methods of enquiry that are as diverse as the topics they tackle, its contributors closely consider specific genders, genres, places and texts.

Dragging and Driving

Wildside Press LLC Do you know these special words used by the dragging and driving experts? DASH-POT: device on some stock cars that keeps the throttle from closing fast and stalling engine when foot is lifted suddenly off gas pedal. JOHNSON ROD: there is no such rod. When you can't figure out what is wrong with your engine, you blame it on the Johnson rod. SQUIRREL: the type who guns his motor and burns his tires. VELOCITY STACKS: air funnels on carburetors which eliminate cleaners.

I Got The Show Right Here

The Amazing, True Story of How an Obscure Brooklyn Horn Player Became the Last Great Broadway Showman

Simon and Schuster [Guys & Dolls...The Boyfriend...How to Succeed in Business Without Really Trying...Can-Can...](#) These are just a few of the many Broadway shows produced by the legendary Cy Feuer, who, in partnership with the late Ernest H. Martin, brought to life many of America's most enduring musicals. Cy Feuer was at the center of these creations, as well as the films based on two of Broadway's most exceptional musicals, *Cabaret* and *A Chorus Line*. He was the man in charge, the one responsible for putting everything together, and -- almost more important -- for holding it together. Now, at age ninety-two, as Cy Feuer looks back on the remarkable career he had on Broadway and in Hollywood, the stories he has to tell of the people he worked with are fabulously rich and entertaining. There's Bob Fosse, a perfectionist with whom Feuer did battle over the filming of the movie *Cabaret*. There's Frank Loesser, the brilliant and explosive composer of *Guys & Dolls*, *Where's Charley?*, and *How to Succeed...* There's Liza Minnelli, star of both the movie *Cabaret* and the Broadway musical *The Act*, whose offstage activities threatened to disrupt the show. There's the contentious George S. Kaufman, the librettist and director whose ego was almost as great as his talent. Add to the list such glamorous figures as Cole Porter, Julie Andrews, Abe Burrows, Gwen Verdon, John Steinbeck, Martin Scorsese, and George Balanchine, and you have a sense of the unbeatable cast of characters who populate this fabulous story of a young trumpet player from Brooklyn who became musical director for the Republic Pictures film studio, then feverishly tackled Broadway, back when "putting on a show" did not require the support of major corporations, and when dreams of overnight success really did have a chance of coming true. Funny, witty, and immensely entertaining, *I Got the Show Right Here* is a treat for anyone who loves show business, a story wonderfully told by one of Broadway's greatest and most talented producers.
