The Silent Conversation Severn House Publishers Ltd When DNA evidence links a present-day murder to the disappearance of a young boy four years earlier, detectives Anderson & Costello are plunged into a baffling mystery. It's been four years since four-year-old Johnny Clearwater disappeared without trace one hot summer afternoon. Now, a new TV documentary series is revisiting the case, dredging up memories perhaps best left forgotten. On the night the TV show is broadcast, detectives Anderson and Costello are called out to investigate the murder of a female police officer. On arriving at the scene, they discover that nothing about this death is as straightforward as it would appear. What was the victim doing in the garden of the exclusive gated residence where she was found? How did she die? Why is the key witness so reluctant to speak to them? Even the off-duty police officer who

was first on the scene isn't telling them everything. The pressure intensifies when a link is discovered between the dead woman and the disappearance of Johnny Clearwater four years earlier. What secrets are lurking behind the closed doors of this small, exclusive community . . . and what really happened to little Johnny Clearwater? Don't Disturb the Dead The Story of the Ramsay Brothers Harper Collins Everyone knows about the Ramsays - even those who have never watched a Ramsay film. But who were they really? Where did they come from? Why did they make the films they did? And how? How, really, did they pull it off? In India, the Ramsay name remains synonymous with horror movies. Still, all these decades later. Don't Disturb the Dead is the story of their cinema, their methods and madnnesses, the people and the processes, arguments and agreements, about horror cinema as a business model, and more. It is also an open-minded and affectionate ode to the 'disreputable' Ramsay films, and to a family that was once a genre in itself, one whose contribution to cinema deserves to be recognized. Frank Ramsey A Sheer Excess of Powers Oxford University Press When he died in 1930 aged 26, Frank Ramsey had already invented one branch of mathematics and two branches of economics, laying the foundations for decision theory and game theory. Keynes deferred to him; he was the only philosopher whom Wittgenstein treated as an equal. Had he lived he might have been recognized as the most brilliant thinker of the century. This amiable shambling bear of a man was an ardent socialist, a believer in free love, and an intimate of the Bloomsbury set. For the first time Cheryl Misak tells the full story of his extraordinary life. Red, Red Snow Severn House Publishers Ltd "An attention-grabbing procedural with unsettling surprises inside every snowbank" - Kirkus Reviews, Starred Review Called to investigate the bloodstained aftermath of an eventful Christmas party, detectives Anderson & Costello discover that the holiday season can be anything but merry. A family man is stabbed to death at a crowded Christmas Ice Show. Murdered in plain sight. No clues, no witnesses, no known motive. A week later, two bodies are discovered at a holiday cottage in a remote highland glen: one in the kitchen; the other sprawled outside on the icy lawn. The killer would appear to have arrived and left without leaving a trace, not even a footprint in the snow. What secrets are lurking within this isolated, superstitious community? As the snow piles higher, detectives Anderson and Costello put their wits to solving a seemingly impossible crime, and gradually uncover a twisted tale of greed, obsession - and cold-blooded murder. And the more Vina gets to know him, the more she thinks it wasn't him who signed up for a mate after all. Absolution Speaking Volumes
"Highly literate and entirely engrossing. One of the year's best literary thrillers." —The Washington Post

It's twenty years since police detective Alan McAlpine has set foot in Patrickhill Station—and more than twenty years since he fell forever in love with the mute, faceless woman he called Anna as she lay dying in Glasgow's Western Infirmary. Daily he'd watched over her, and they had begun to communicate with each other, she by moving her wounded fingers. Her fingers could not tell the sad, unseasoned police cadet her name, however, or name for him the father of her newborn baby girl or identify the assailants who had flung the acid in her once incomparably beautiful face. Or tell him how she'd smuggled a cache of uncut diamonds into Scotland. Now McAlpine is back in Patrickhill, where he's been summoned to head up the investigation of a disturbing murder case. Two women—their arms outstretched, their legs together and feet crossed at the ankle—have already died at the hands of a man the press has tagged the Crucifixion Killer. With crimes in the present continually detouring both McAlpine and the elusive killer he pursues into an unredeemed past, the mystery in this steely, piercing psychological thriller is as gripping as its twists are surprising. And *absolution* proves to be extreme. Praise for **CARO RAMSAY** "While fellow-Scot Ian Rankin's narrative is unruly, Ramsay's is stately. It works because the story she tells is highly literate and entirely engrossing. McAlpine's passion leads the novel to a conclusion as powerful as it is unexpected. *Absolution* is among the year's best literary thrillers."—Patrick Anderson, *The Washington Post*

"Let me recommend a first novel by Caro Ramsay, a Scottish author who is able to write scenes of heartbreaking tenderness nestled amid evocations of such grotesque violence that it is difficult to imagine that they can coexist as such sublime interlocking pieces of the whole. A noir police novel, like those by fellow Scottish author Ian Rankin, but with deeper psychological exploration, *Absolution* marks the beginning of what certainly will be a major career."—Otto Penzler, *New York Sun*

Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation Special Report of the Intergovernmental Panel on Climate Change Cambridge University Press This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.
