The New London Magazine The Social Structure of the Rabbinic Movement in Roman Palestine Mohr Siebeck "While rabbinic literature enables us to know more about the rabbis than any of the other members of the Jewish population of Roman Palestine, the social structure of the rabbinic movement remained largely unexplored. In the present study Catherine Hezser combines a critical analysis of the available literary, legal, and epigraphic evidence with a selective employment of sociological models. She examines the definition of the boundaries of the rabbinic movement, deals with the nature of the relationships amongst rabbis, and investigates the relationship between rabbis and their contemporaries, that is students, the community, and the patriarch."--BOOK JACKET. Men and Women of the Time A Dictionary of Contemporaries Celestial Aspirations Classical Impulses in British Poetry and Art Princeton University Press A unique look at how classical notions of ascent and flight preoccupied early modern British writers and artists Between the late sixteenth century and early nineteenth century, the British imagination—poetic, political, intellectual, spiritual and religious—displayed a pronounced fascination with images of ascent and flight to the heavens. Celestial Aspirations explores how British literature and art during that period exploited classical representations of these soaring themes—through philosophical, scientific and poetic flights of the mind; the ascension of the disembodied soul; and the celestial glorification of the ruler. From textual reachings for the heavens in Spenser, Marlowe, Shakespeare, Donne and Cowley, to the ceiling paintings of Rubens, Verrio and Thornhill, Philip Hardie focuses on the ways that the history, ideologies and aesthetics of the postclassical world received and transformed the ideas of antiquity. In England, narratives of ascent appear on the grandest scale in Milton's Paradise Lost, an epic built around a Christian plot of falling and rising, and one of the most intensely classicizing works of English poetry. Examining the reception of flight up to the Romanticism of Wordsworth and Tennyson, Hardie considers the Whig sublime, as well as the works of Alexander Pope and Edward Young. Throughout, he looks at motivations both public and private for aspiring to the heavens—as a reward for political and military achievement on the one hand, and as a goal of individual intellectual and spiritual exertion on the other. Celestial Aspirations offers an intriguing look at how creative minds reworked ancient visions of time and space in the early modern era.

Americana Americana, American Historical Magazine Memoirs of Her Majesty Sophia Charlotte Queen of Great Britain The Gentleman's Magazine, and Historical Chronicle, for the Year ... The Forgotten Prime Minister: The 14th Earl of Derby Volume II: Achievement, 1851-1869 OUP Oxford Lord Derby was the first British statesman to become prime minister three times. He remains the longest serving party leader in modern British politics, heading the Conservative party for twenty-two years from 1846 to 1868. He abolished slavery in the British Empire, established a national system of education in Ireland, was a prominent advocate for the 1832 Reform Act and, as prime minister, oversaw the introduction of the Second Reform Act in 1867. Yet no biography of Derby, based upon his papers and correspondence, has previously been published. Alone of all Britain's premiers, Derby has never received a full scholarly study examining his policies, personality, and beliefs. Largely airbrushed out of our received view of Victorian politics, Derby has become the forgotten prime minister. This ground-breaking biography, based upon Derby's own papers and extensive archive, as well as recently discovered sources, fills this striking gap. It completely revises the conventional portrait of Derby as a dull and apathetic politician, revealing him as a complex, astute, influential, and significant figure, who had a profound effect on the politics and society of his time. As Hawkins shows, far from being an uninterested dilettante, Derby played an instrumental role in directing Britain's path through the historic opportunities and challenges confronting the nation at a time of increasing political participation, industrial pre-eminence, urban growth, colonial expansion, religious controversy, and Irish tragedy. This book is likely not only to change our view of Derby himself but also fundamentally to affect our understanding of nineteenth century British party politics, the history of the Conservative party, and the nature of public life in the Victorian age in general, including some of its foremost figures, such as Robert Peel, Lord John Russell, Lord Palmerston, William Gladstone, and Benjamin Disraeli. Volume II opens with Derby's first period as prime minister in 1852 and takes us through to his death in 1869.

Hand-book of Universal Biography ... Putnam's Home Encyclopedia ... The Chicago Daily News Almanac and Political Register for ... Frederick III Germany's Liberal Emperor Greenwood Publishing Group Recent historians have challenged the long-held view that liberalism's failure in 19th century Germany presaged Hitler's triumph, claiming that earlier scholars have overlooked liberalism's positive contributions to German history. This book reassesses Frederick III's contribution to the liberal movement. Using documents recently made available from the Kurhessische Stiftung, the author considers the question of whether Frederick abetted the liberal movement's successes or was part of its tragic history.

The Cult of Saint Catherine of Siena A Study in Civil Religion Ashgate Publishing, Ltd. This book examines the origins, development and history of the cult of Saint Catherine of Siena. Gerald Parsons argues that the cult of Catherine of Siena constitutes a remarkable example of the cult of a particular saint which, across more than six centuries, has been the vehicle for an

evolving sequence of civil religious rituals and meanings. He shows how the cult of this particular saint developed, firstly, as an expression of Sienese civil religion; secondly, as a focus for Italian civil religion; and finally into an expression of European civil religion. Instead of the predominantly devotional - and frequently essentially hagiographical - approach of much of the literature on Catherine of Siena, Parsons examines the significance of her cult from the perspective of civil religion and the social history of religion. **Standard Atlas of Manistee County, Michigan Including a Plat Book of the Villages, Cities and Townships of the County...patrons Directory, Reference Business Directory...**
