BASIC INTERVIEWING

A PRACTICAL GUIDE FOR COUNSELORS AND CLINICIANS

Routledge This book offers clear and direct answers to the questions most frequently asked by students and trainees learning how to talk to clients and extract critical data from them. Its development reflects the old adage that "necessity is the mother of invention." For many years, the editors taught beginning level mental health clinicians. They found, however, no text to be satisfactory--including a number that they themselves were involved in producing. Some were too difficult; some were too simplistic; some were too doctrinaire; still others had missing elements. Written in a reader-friendly "how-to" style, the chapters in Basic Interviewing are not weighed down by references. Rather, each contributor suggests readings for students and instructors who wish to pursue questions further. After the initial overview chapter, there are 12 chapters addressing the nuts-and-bolts concerns of all clinicians that can be particularly vexing for neophytes. They cover a variety of issues from the most specific--like how to begin and end interviews--to the more general--like how to build rapport and identify targets for treatment. Throughout, rich clinical illustrations facilitate the pragmatic application of fundamental principles. Beginning graduate students in counseling and clinical psychology, social work, and other allied mental health fields, as well as psychiatric trainees, will find this text to be an indispensable companion.

ADULT BEHAVIOR THERAPY CASEBOOK

Springer Science & Business Media Several year~ ago we edited a casebook on behavior therapy with children. The book appeared to fill a gap in the existing child literature and was quite well received. A similar gap appears to exist in the behavioral literature for adult cases, in that there are very few adult case books currently available. The present book was developed in order to devote an entire casebook to both standard and more innovative clinical applications of behavioral treatments to adult problems. The book, containing 19 chapters, is divided into two parts. In the first part, in a chapter entitled Clinical Considerations, we discuss a variety of clinical issues that are of importance to designing and executing behaviorally based interventions with adults. The bulk of the book, the remaining 18 chapters, contains a variety of cases presented by our experts. Each of the treatment cases is presented using the same format in order to increase consistency and comparability across chapters. Specific sections for each chapter are as follows: (1) Description of the Disorder, (2) Case Identification, (3) Presenting Complaints, (4) History, (5) Assessment, (6) Selection of Treatment, (7) Course of Treatment, (8) Termination, (9) Follow-up, and (10) Overall Evaluation. Thanks are extended to our many expert contributors, without whom this book would not be possible. We also wish to acknowledge the technical support of Mrs. Kim Sterner. Finally, we thank our editor at Plenum, Eliot Werner, for his support and forbearance in the face of the inevitable delays.

ETHICAL STANDARDS CASEBOOK

Amer Counseling Assn This fourth edition of the Ethical Standards Casebook was developed for use in a class in ethics in counseling or in other settings where ethical issues are considered. Section 1 presents the revised American Association for Counseling and Development (AACD) "Ethical Standards" adopted by the Governing Council in March 1988. Section 2 presents each individual ethical standard followed by several incidents intended to illustrate and clarify the meaning of the standard. The incidents vary in their seriousness, ranging from gross unethical conduct to behavior reflecting poor practice or questionable judgment. Section 3 provides a series of case studies that are more detailed and complex than the incidents in the previous section and are more typical of the situations an AACD member may encounter. The case studies reflect the types of complaints that the Ethics Committee receives as well as the current and emerging concerns of the membership. Section 4 presents a series of essays intended to provide further information and provoke thought about ethical issues of particular concern to counselors. The appendices contain information to which the AACD member may need to refer from time to time, including: divisional codes of ethics; the ethical standards of the National Board for Certified Counselors; the AACD Policies and Procedures for Processing Complaints of Ethical Violations; and a description of the purpose and procedure of the AACD Legal Action Program. CLIENT INTERVIEWING, COUNSELING, AND DECISION-MAKING

A PRACTICAL APPROACH

Carolina Academic Press LLC "This book provides a practical approach to client interviewing, counseling, and decision-making. These are practical skills, not theoretical ones. Thus, the overall pedagogical approach taken by the text is to explain to students what to do and how to do it when engaging in interviewing, counseling, and decision-making with a client. This accords with the growing trend in law schools to de-emphasize heuristic theory in teaching practical skills and, instead, to teach those skills in simulated "real-life" contexts. Based on the guidance and techniques provided in the text, students will best learn the skills of interviewing and counseling by applying them in various role plays contained in the Teacher's Manual or through other role plays developed by their professor. Other features of this book that are worthy of mention: The book is deliberately designed to be short-to "get to the point," without unnecessary palaver. The book provides an extensive discussion of the most pertinent provisions of the ABA Model Rules of Professional Conduct relating to client interviewing, counseling, and decision-making. The book discusses interviewing witnesses and counseling in certain special contexts, including counseling about settlement, counseling through the writing of opinion letters, counseling the client as a deponent, and counseling the criminal defendant. The new edition of the book adds sections addressing counseling about mediation, counseling about transactional matters, and the role of emotional intelligence"--
