CONFEDERATE SHEET MUSIC

McFarland During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, "The South must not only fight her own battles but sing her own songs and dance to music composed by her own children." Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.

FLUTE FOR DUMMIES

John Wiley & Sons An excellent primer for those with little or no experience playing the flute Always wanted to play the flute? Are you a former flautist who wants to refresh your skills? Flute For Dummies is the guide for you. Following along with the book's accompanying CD, you will learn the nuances of playing the flute as an accompanying instrument or for playing a solo, in a variety of musical styles. Readers will learn how to play, step-by-step - from the correct angle for blowing into the mouthpiece and controlling pitch, to proper breathing, creating vibrato, and much more The book's accompany CD allows readers to play what they are learning, and listen to the accompanying track to see if they're getting it right Karen Moratz is Principal Flutist with the Indianapolis Symphony Orchestra and Artist in Residence and Adjunct Professor of Flute at the School of Music/Jordan College of Fine Arts at Butler University Easy-to-understand methods and instructions make learning to play this beautiful instrument as simple and straightforward as possible!

OUR WARMING PLANET: TOPICS IN CLIMATE DYNAMICS

World Scientific The processes and consequences of climate change are extremely heterogeneous, encompassing many different fields of study. Dr David Rind in his career at the NASA Goddard Institute for Space Studies and as a professor at Columbia University has had the opportunity to explore many of these subjects with colleagues from these diverse disciplines. It was therefore natural for the Lectures in Climate Change series to begin with his colleagues contributing lectures on their specific areas of expertise. This first volume, entitled *Our Warming Planet: Topics in Climate Dynamics*, encompasses topics such as natural and anthropogenic climate forcing, climate modeling, radiation, clouds, atmospheric dynamics/storms, hydrology, clouds, the cryosphere, paleoclimate, sea level rise, agriculture, atmospheric chemistry, and climate change education. Included with this publication are downloadable PowerPoint slides of each lecture for students and teachers around the world to be better able to understand various aspects of climate change. The lectures on climate change processes and consequences provide snapshots of the cutting-edge work being done to understand what may well be the greatest challenge of our time, in a form suitable for classroom presentation.

THE POWER OF INDIGNATION

THE AUTOBIOGRAPHY OF THE MAN WHO INSPIRED THE ARAB SPRING

Simon and Schuster His brief pamphlet *Indignez-vous! (Cry Out!)* is an international bestseller, calling for a return to the values of his native France's "greatest generation," the resistance fighters of World War II. It has inspired citizens participating in the Arab Spring and Occupy Wall Street uprisings. Now Stéphane Hessel, one of France's preeminent thinkers and activists, is back. With extraordinary insight, the ninety-four-year-old Hessel gives his intellectual autobiography. His thinking is nourished by the exchange he has maintained for years with his close friends, as well as prominent political and literary figures: Edgar Morin, Jean-Paul Dollé, Daniel Cohn-Bendit, Régis Debray, Peter Sloterdijk, Laure Adler, Michel Rocard, and Jean-Claude Carrière. This book is accessible and profound—it is for all those who seek, despite the contradictions and violence of our contemporary lives, to "regain our dignity as men and women while governed by a frenzy of selfish and irresponsible people." This book is, for Stéphane Hessel, a way to encourage us to reflect on the past in order to take charge of our future destiny. At once a handbook for the revolutionary, a treatise on human rights, and an inside look at the relationships, thoughts, and recollections of one of the most important figures in France today, this is a not-to-be-missed book for 2012.

THE HUMAN PRIMER

Taylor Enterprises and Publishing (TEP) **The Human Primer illuminates our most basic common denominators for being human. Everything you will ever think, feel or do distills down to the same exact common denominators regardless of where you are being human on our planet. Location doesn't matter. Culture doesn't matter. Race, gender and age don't matter. We must all be human. Knowing how to be human is the greatest knowledge anyone can possess and it is identical for us all. If you are human, you might find it useful to know how you are being human. It is really that simple. All the mainstream sciences have discovered the impact humans have on human biology, chemistry, DNA and the quantum level. When we make a decision (free will) we can now see and measure that impact. We have always been, always will be and currently are impacting ourselves and the planet. It is time we all learned HOW we are doing it. The Human Primer explains the "How" through a cast of characters. There is Grandpa, Mom, Cousin Gene, Bubba, Goober and a cast of party animals. All members of the "The Atoms Family" - your family. As you will see, your entire worldview changes when the Atoms Family shows up. Discerning today's rhetoric, disinformation, propaganda and bias can be a daunting task. The Human Primer provides a new lens to distill your observation, assessment and buy-in skills down to a very simple filter.... by inviting the Atoms Family to the party. When the Family shows up, you will realize all sources of persuasion asking you to adopt their views and ideas to hate, anger and fear are really asking you to throw your family under the bus tires! Should you buy into their negative disposition, you will cause your cells to stop reproducing, deteriorate your immune system, cause your DNA to react, affect your body chemistry and most importantly cause your own energy field to go negative which affects "Mom" - the electromagnetic field around the planet. This new lens illuminates the intended outcome and effect caused by the idea they are selling (bus tires)... so you simply opt out. It will become obvious that every free-willed moment in your daily existence is either making MOM happy or not. "If Mama ain't happy, ain't nobody happy" is actually true. Seven billion people on the planet are doing exactly the same thing using their locally-sold justifications to throw their families under the bus and affect Mom... positively or negatively. The resulting demeanor of Mom's frequency is measurable. This is Human Primer knowledge. It is just the science underneath it all. It is time you met the Atom's Family.**

This is an excellent resource to determine the kind of entrance you want to make into the world of singer-songwriters." —Amy Stroup, indie artist, The Other Side of Love Sessions**

LOUIS AND BEBE BARRON'S FORBIDDEN PLANET

A FILM SCORE GUIDE

Scarecrow Press **James Wierzbicki's book on the score for Forbidden Planet deals with the composers' backgrounds; the composers' studio techniques; the critical context of 1950's American science-fiction films and a summary of critical readings of Forbidden Planet; an analysis of the decontextualized music as presented on the 1977 "original soundtrack album"; and a cue-by-cue analysis of the Barrons' music as it is actually used in the film. With numerous transcriptions and graphs to illustrate various aspects of musical structure, this study blazes a much-needed trail in the study of electronic music.**

THE BOB DYLAN COPYRIGHT FILES 1962-2007

AuthorHouse **Paradine Island is a story about James Morgan, a Kansas-bred entrepreneur, and the people who follow in his footsteps. The death of his mother brings him close to his daughter, Lammy. She spends her summer holiday sailing in the Caribbean with him on his ketch, the C. M. Paradine. They meet Ricardo, an Argentine graduate of Iowa State. Ricardo and James put Lammy on a plane to resume her pre-medical courses at the University of Kansas, and together they sail to the Canary Islands. James takes pity on a teenage**

dance hall orphan and spirits her away from her intended sponsors. Martina learns English and many of James American ideals as they cross the Atlantic back to his home on Paradine Island. He finds her to be intelligent and falls in love with her. His business prospers. They have two boys. On a sailing holiday they are attacked by pirates. James is killed. Tina escapes with her boys and carries on the business. With the assistance of Lammy, two clever biochemists, a British attorney, and Andrew, a quarter-breed Arapaho cowboy, the company becomes an international giant with headquarters in St.Louis. Andrew, Tina's second husband, and two of their little girls are killed in the bombing of the company's properties by Mid-eastern terrorists who are encouraged by liberal political organizations. After reestablishing the company headquarters in England, Tina takes her two boys on a fishing trip into the Scottish highlands. They meet a recluse Scottish earl. The boys initiate a romance between the earl and their mother. Marrying the earl, Tina takes him for a honeymoon sail on the C.M.Paradine. They and others have a myriad of experiences in the Caribbean chasing a thief who intended to sell to terrorists the company's irreplaceable supply of a lethal material he had stolen.

STRANGE STARS

DAVID BOWIE, POP MUSIC, AND THE DECADE SCI-FI EXPLODED

Melville House **A Hugo Award-winning author and music journalist explores the weird and wild story of when rock 'n' roll met the sci-fi world of the 1970s As the 1960s drew to a close, and mankind trained its telescopes on other worlds, old conventions gave way to a new kind of hedonistic freedom that celebrated sex, drugs, and rock 'n' roll. Derided as nerdy or dismissed as fluff, science fiction rarely gets credit for its catalyzing effect on this revolution. In Strange Stars, Jason Heller recasts sci-fi and pop music as parallel cultural forces that depended on one another to expand the horizons of books, music, and out-of-this-world imagery. In doing so, he presents a whole generation of revered musicians as the sci-fi-obsessed conjurers they really were: from Sun Ra lecturing on the black man in the cosmos, to Pink Floyd jamming live over the broadcast of the Apollo 11 moon landing; from a wave of Star Wars disco chart toppers and synthesiser-wielding post-punks, to Jimi Hendrix distilling the "purplish haze" he discovered in a pulp novel into psychedelic song. Of course, the whole scene was led by David Bowie, who hid in the balcony of a movie theater to watch 2001: A Space Odyssey, and came out a changed man... If today's culture of Comic Con fanatics, superhero blockbusters, and classic sci-fi reboots has us thinking that the nerds have won at last, Strange Stars brings to life an era of unparalleled and unearthly creativity—in magazines, novels, films, records, and concerts—to point out that the nerds have been winning all along.**
