Devotion Yale University Press "In lyric essays, a story, poems, and photographs, Smith illuminates the whirl of chance and choice that stokes a writer's imagination, recounting her fascination on the eve of a trip to Paris with Simone Weil and an evocative, accidentally discovered film about Stalin's mass deportation of Estonians. In France, a gravestone, a televised figure-skating competition, a meal, and a garden all converge in what becomes Devotion, [a] ... fairy tale about a

young, displaced Estonian skater and a solitary dealer in rare objects and arms. For almost seventeen years, **The Daily Show** with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of **The Daily Show's** most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, **The Daily Show** has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows. **Winger** [Simon and Schuster](#) A teen at boarding school grapples with life, love, and rugby in this unforgettable novel that is "alternately hilarious and painful, awkward and enlightening" (Publishers Weekly, starred review). Ryan Dean West is a fourteen-year-old junior at a boarding school for rich kids. He's living in Opportunity Hall, the dorm for troublemakers, and rooming with the biggest bully on the rugby team. And he's madly in love with his best friend Annie, who thinks of him as a little boy. Ryan Dean manages to survive life's complications with the help of his sense of humor, rugby buddies, and his penchant for doodling comics. But when the unthinkable happens, he has to figure out how to hold on to what's important, even when it feels like everything has fallen apart. Filled with hand-drawn infographics and illustrations and told in a pitch-perfect voice, this realistic depiction of a teen's experience strikes an exceptional balance of hilarious and heartbreaking. **Found by You** He's noticed by everyone... Griffin Chandler. He's captain of our college's basketball team. I swear to God I've already seen him in a Nike ad, and he's one of the top picks when he goes pro following our spring graduation. His life is on display for the world. Both his accomplishments and demons there for judgment. I'm a girl who likes to play roller derby from, of all places, Wisconsin. My own demons better concealed. And one day... He notices me. **Found by You** is a new adult contemporary romance. **How to Not Die Alone** The Surprising Science That Will Help You Find Love [Simon and Schuster](#) A "must-read" (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, "Why has everyone found love except me?" You're not the only one. Great relationships don't just appear in our lives—they're the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn't lead to results. You have to actually change your behavior. Ury shows you how. This "simple-to-use guide" (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: -What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. **How to Not Die Alone** will help you find, build, and keep the relationship of your dreams. **Year of the Monkey** [Knopf Canada](#) From the National Book Award-winning author of *Just Kids* and *M Train*, a profound, beautifully realized memoir in which dreams and reality are vividly woven into a tapestry of one transformative year. Following a run of New Year's concerts at San Francisco's legendary Fillmore, Patti Smith finds herself tramping the coast of Santa Cruz, about to embark on a year of solitary wandering. Unfettered by logic or time, she draws us into her private wonderland with no design, yet heeding signs--including a talking sign that looms above her, prodding and sparring like the Cheshire Cat. In February, a surreal lunar year begins, bringing with it unexpected turns, heightened mischief, and inescapable sorrow. In a stranger's words, "Anything is possible: after all, it's the Year of the Monkey." For Smith--inveterately curious, always exploring, tracking thoughts, writing--the year evolves as one of reckoning with the changes in life's gyre: with loss, aging, and a dramatic shift in the political landscape of America. Smith melds the western landscape with her own dreamscape. Taking us from California to the Arizona desert; to a Kentucky farm as the amanuensis of a friend in crisis; to the hospital room of a valued mentor; and by turns to remembered and imagined places, this haunting memoir blends fact and fiction with poetic mastery. The unexpected happens; grief and disillusionment set in. But as Smith heads toward a new decade in her own life, she offers this balm to the reader: her wisdom, wit, gimlet eye, and above all, a rugged hope for a better world. Riveting, elegant, often humorous, illustrated by Smith's signature Polaroids, **Year of the Monkey** is a moving and original work, a touchstone for our turbulent times. **Riley's Secret A Moon's Glow Novel # 1** [AuthorHouse](#) Megan

Smith comes the story of Maya: When Maya is scared about meeting her new teacher and classmates, her mother has a special lesson that will change the way Maya thinks about herself forever! In the Plex How Google Thinks, Works, and Shapes Our Lives [Simon & Schuster](#) "The most interesting book ever written about Google" (The Washington Post) delivers the inside story behind the most successful and admired technology company of our time, now updated with a new Afterword. Google is arguably the most important company in the world today, with such pervasive influence that its name is a verb. The company founded by two Stanford graduate students—Larry Page and Sergey Brin—has become a tech giant known the world over. Since starting with its search engine, Google has moved into mobile phones, computer operating systems, power utilities, self-driving cars, all while remaining the most powerful company in the advertising business. Granted unprecedented access to the company, Levy disclosed that the key to Google's success in all these businesses lay in its engineering mindset and adoption of certain internet values such as speed, openness, experimentation, and risk-taking. Levy discloses details behind Google's relationship with China, including how Brin disagreed with his colleagues on the China strategy—and why its social networking initiative failed; the first time Google tried chasing a successful competitor. He examines Google's rocky relationship with government regulators, particularly in the EU, and how it has responded when employees left the company for smaller, nimbler start-ups. In the Plex is the "most authoritative...and in many ways the most entertaining" (James Gleick, The New York Book Review) account of Google to date and offers "an instructive primer on how the minds behind the world's most influential internet company function" (Richard Waters, The Wall Street Journal).

Anxiety: The Missing Stage of Grief A Revolutionary Approach to Understanding and Healing the Impact of Loss [Da Capo Lifelong Books](#) A groundbreaking book exploring the little-known yet critical connections between anxiety and grief, with practical strategies for healing that follow the renowned Kübler-Ross stages model. If you're suffering from anxiety but not sure why, or if you're struggling with loss and looking for solace, Anxiety: The Missing Stage of Grief offers help -- and answers. Significant loss and unresolved grief are primary underpinnings of anxiety, something that grief expert Claire Bidwell Smith discovered in her own life and in her practice with her therapy clients. Now, using research and real life stories, Smith breaks down the physiology of anxiety, giving you a concrete foundation of understanding in order to help you heal. Starting with the basics of What Is Anxiety? and What Is Grief? and moving to concrete approaches such as Making Amends, Taking Charge, and Retraining Your Brain, Anxiety takes a big step beyond Elisabeth Kübler-Ross's widely accepted five stages to unpack everything from our age-old fears about mortality to the bare vulnerability a loss can make us feel. With concrete tools and coping strategies for panic attacks, getting a handle on anxious thoughts, and more, Smith bridges these two emotions in a way that is deeply empathetic and eminently practical.

Tax, Inequality, and Human Rights Oxford University Press](#) For the first time, *Human Rights and Tax in an Unequal World* brings together works by human rights and tax law experts, to illustrate the linkages between the two fields and to reveal their mutual relevance in tackling economic, social, and political inequalities. Against the backdrop of systemic corporate tax avoidance, the widespread use of tax havens, persistent pressures to embrace austerity policies, and growing gaps between the rich and poor, this book encourages readers to understand fiscal policy as human rights policy, with profound consequences for the wellbeing of citizens around the world. The essays collected examine where the foundational principles of tax law and human rights law intersect and diverge; discuss the cross-border nature and human rights impacts of abusive practices like tax avoidance and evasion; question the role of states in bringing transparency and accountability to tax policies and practices; highlight the responsibility of private sector actors for the consequences of tax laws; and critically evaluate certain domestic tax rules through the lens of equality and non-discrimination. The contributing scholars and practitioners explore how an international human rights framework can anchor debates around international tax reform and domestic fiscal consolidation in existing state obligations. They address what human rights law requires of state tax policies, and what a state's tax laws and loopholes mean for the enjoyment of human rights within and outside its borders. Ultimately, tax and human rights both turn on the relationship between the individual and the state, and thus both fields face crises as the social contract frays and populist, illiberal regimes are on the rise. Chronicling our steps along the path that bridges this world and the next, Smith undergoes past-life regressions and sessions with mediums and psychics and immerses herself in the ceremonies of organized religion and the rigor of scientific experiments to try and find the answers. Drawing on both her personal losses, recounted in her memoir *The Rules of Inheritance*, as well as her background working in hospice as a bereavement counselor, Smith attempts to show how exploring the afterlife can have a positive impact on the grief process. With their long necks and matching buns and pink tights, Dara and Marie Durant have been dancers since they can remember. Growing up, they were homeschooled and trained by their glamorous mother, founder of the Durant School of Dance. After their parents' death in a tragic accident nearly a dozen years ago, the sisters began running the school

together, along with Charlie, Dara's husband and once their mother's prized student. Marie, warm and soft, teaches the younger students; Dara, with her precision, trains the older ones; and Charlie, sidelined from dancing after years of injuries, rules over the back office. Circling around one another, the three have perfected a dance, six days a week, that keeps the studio thriving. But when a suspicious accident occurs, just at the onset of the school's annual performance of *The Nutcracker*—a season of competition, anxiety, and exhilaration—an interloper arrives and threatens the sisters' delicate balance. Taut and unnerving, *The Turnout* is Megan Abbott at the height of her game.
