Lean Solutions

How Companies and Customers Can Create Value and Wealth Together

Simon and Schuster Womack and Jones deconstruct the broken producer-consumer model and show businesses how to repair it, by providing the full value consumers desire from products without wasting time or effort. Why is it that, when our computers or our cell phones fail to satisfy our needs, virtually every interaction with help lines, support centers, or any organization providing service is marked with wasted time and extra hassle? In their bestselling business classic Lean Thinking, James Womack and Daniel Jones introduced the world to the principles of lean production—principles for eliminating waste during production. Now, in Lean Solutions, the authors establish the groundbreaking principles of lean consumption, showing companies how to eliminate inefficiency during consumption. Lean Solutions is full of surprising success stories: Fujitsu, a leading service company for technology, has transformed the way call centers solve problems—learning how to eliminate the underlying cause of current problems rather than fixing them again and again. An extremely successful car dealership has adopted lean principles to streamline its business, making for dramatically reduced wait time, fewer return trips, and greater satisfaction for customers—and a far more lucrative enterprise. Lean Solutions will inspire managers to take the first steps toward perfecting their company's process of giving consumers what they really want.

Problems and Solutions in Income Tax (including Short Questions)

Sahitya Bhawan Publications The salient features of the present edition are: All the Problems and Solutions have been thoroughly revised in the light of up-to-date amendments in Income tax Law and Rules for Assessment Year 2022-23. Almost all numerical questions given at the end of the chapters of the authors' other publications on Income-tax (viz., Income-tax Law and Accounts, Aaykar Vidhan evam Lekhe, Law and Practice of Income-tax) have been solved in this book and the number printed within brackets at the end of the questions in other publications is the problem number of this book. The selection and sequence of the questions are well planned and systematic so as to cover all ticklish points within a reasonable number of questions. Wherever needed, detailed explanatory notes have been given at the end of solutions. Candidates preparing for C.A., Company Secretaries, Cost and Works Accountants, and Income-tax Departmental Examinations, will, particularly, find the book very useful. It will also be useful for candidates preparing for B.Com. and M.Com. Examinations of various Indian Universities.

Automotive Management

Navigating the next decade of auto industry transformation

Walter de Gruyter The authors point out the entire business orientated automotive value chain. With regard to the finance perspective these elements of the value chain are scrutinized chapter by chapter. Current trends in new mobility concepts, cross-industry strategic alliances as well as requirements for product launch, especially in the BRIC countries, are highlighted. The book provides the link between science and business practice in the automotive industry. It can be used as a textbook. Many practitioners might also use it as a guideline in the field of automotive management.

book teaches how to make six figures in a year. There is two free resources inside. A Percentage of the profits will go to helping kids pay back their student loans.

Introductory Algebra: An Applied Approach

Cengage Learning As in previous editions, the focus in INTRODUCTORY ALGEBRA remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Ninth Edition also features a new design, enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Lee Jenkins on Money

Real Solutions to Financial Challenges

Moody Publishers An unstable economy. A shaky stock market. Businesses facing huge financial losses. People losing their homes, jobs, savings, and...hope? Is the sky falling in? Some feel that way. Is God still in control? Others wonders as they see and experience fallout from the greed and corruption that is seemingly pushing our nation to the brink of bankruptcy. In Lee Jenkins on Money, financial analyst Lee Jenkins answers questions about the nation's changing economy and other financial matters readers may be facing in the midst of this difficult financial climate. He helps them take a sober and responsible look at their finances and challenges them to be faithful stewards over what God has entrusted to them. Lee shows that by looking at life from God's perspective and applying biblical principles to their finances, readers bear witness to the fact that God is still in control and there is still hope.

Structured Finance

Leveraged Buyouts, Project Finance, Asset Finance and Securitization

John Wiley & Sons Comprehensive coverage of all major structured finance transactions Structured Finance is a comprehensive introduction to non-recourse financing techniques and asset-based lending. It provides a detailed overview of leveraged buyouts, project finance, asset finance and securitisation. Through thirteen case studies and more than 500 examples of companies, the book offers an in-depth analysis of the topic. It also provides a historical perspective of these structures, revealing how and why they were initially created. Instruments within each type of transaction are examined in detail, including Credit Default Swaps and Credit Linked Notes. A presentation of the Basel Accords offers the necessary background to understand the regulatory context in which these financings operate. With this book, readers will be able to: Delve into the main structured finance techniques to understand their components, mechanisms and how they compare Understand how structured finance came to be, and why it continues to be successful in the modern markets Learn the characteristics of financial instruments found in various structured transactions Explore the global context of structured finance, including the regulatory framework under which it operates Structured Finance provides foundational knowledge and global perspective to facilitate a comprehensive understanding of this critical aspect of modern finance. It is a must-read for undergraduate and MBA students and finance professionals alike.
